WOLFGANG LUH

KASSEL – 2019

In den Archiven des MUSEUM LUH wieder entdeckt, ist dieses einzigartige Buch in einer Sprache geschrieben, die so noch nie gesehen wurde und eigentlich völlig unbekannt ist. Einfacher wird die Übersetzung mit der Zuhilfenahme des 2019 in Kassel novellierten LUH'SCHEN ALPHABETS:

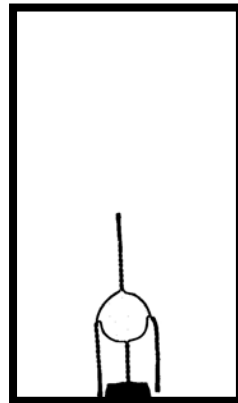

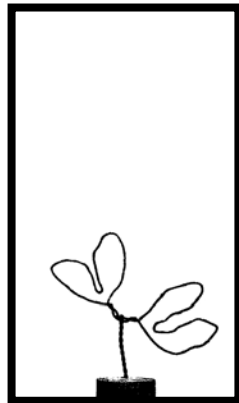

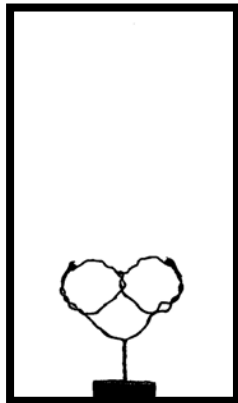

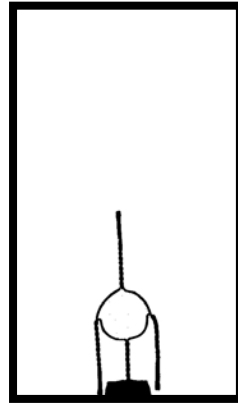

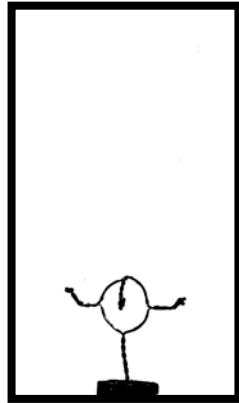

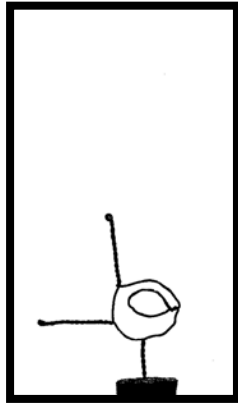

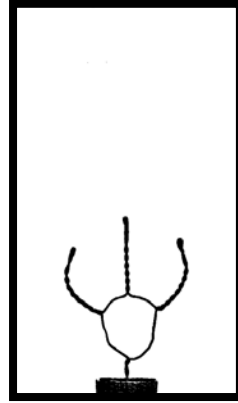

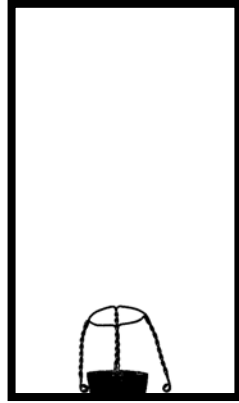

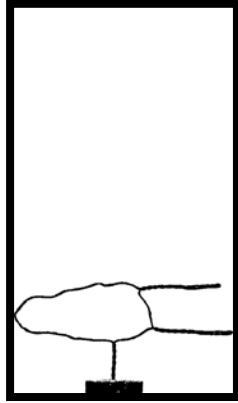

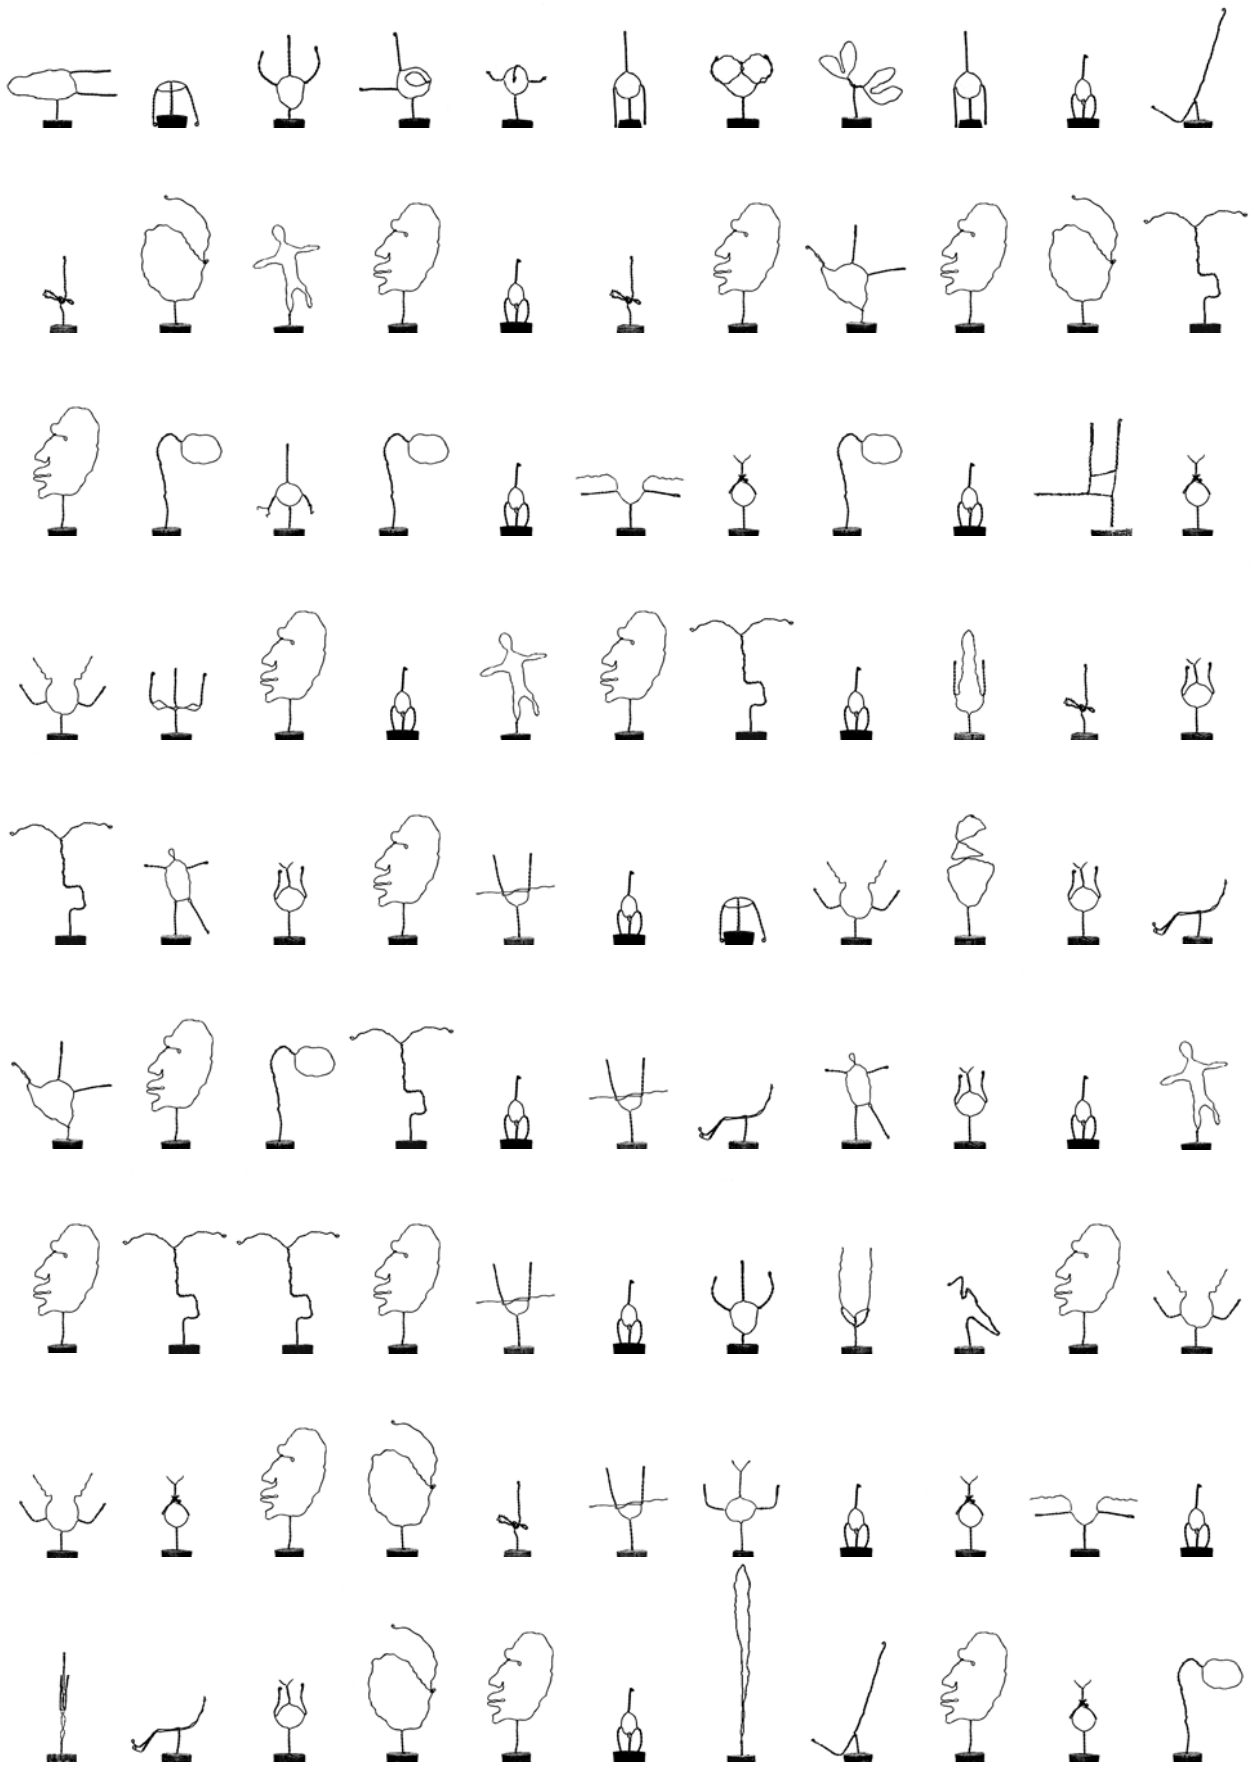

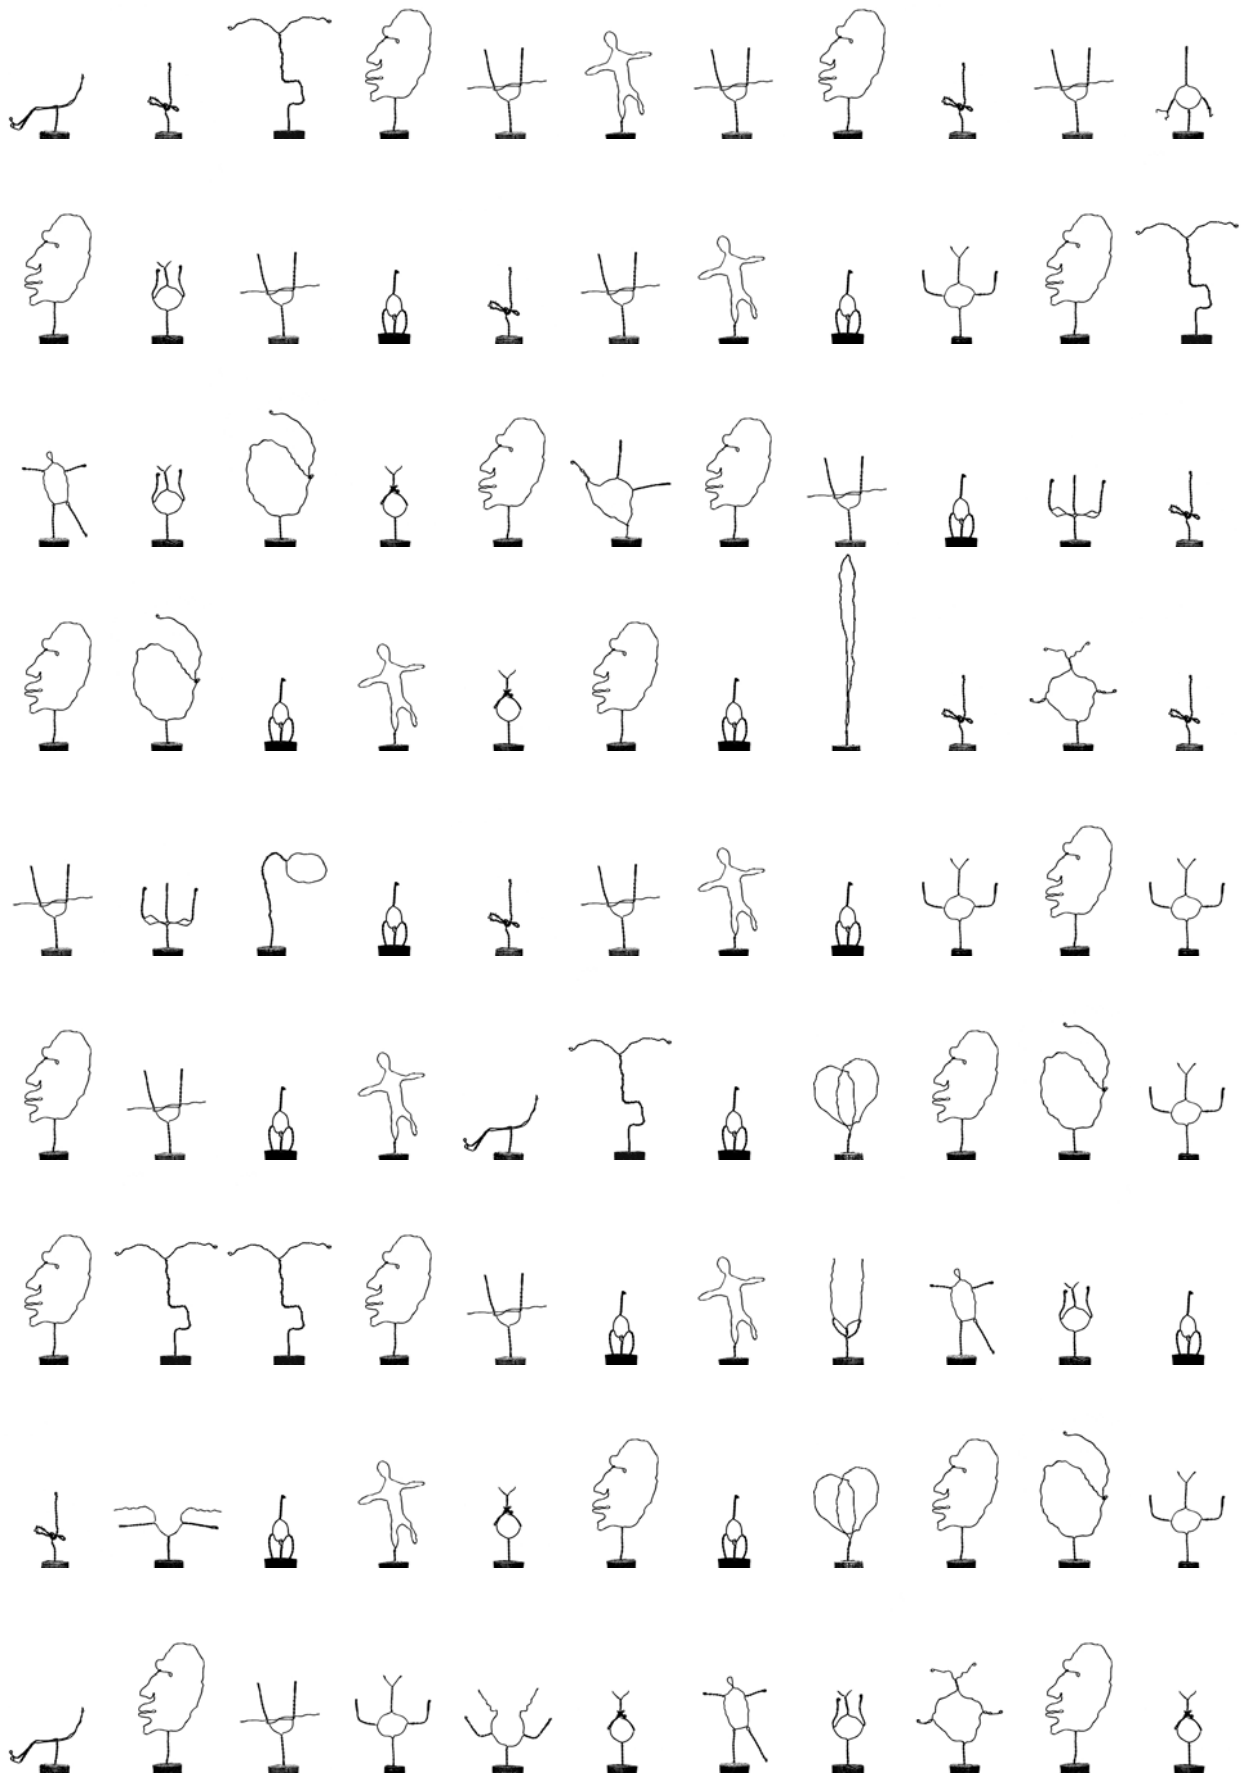

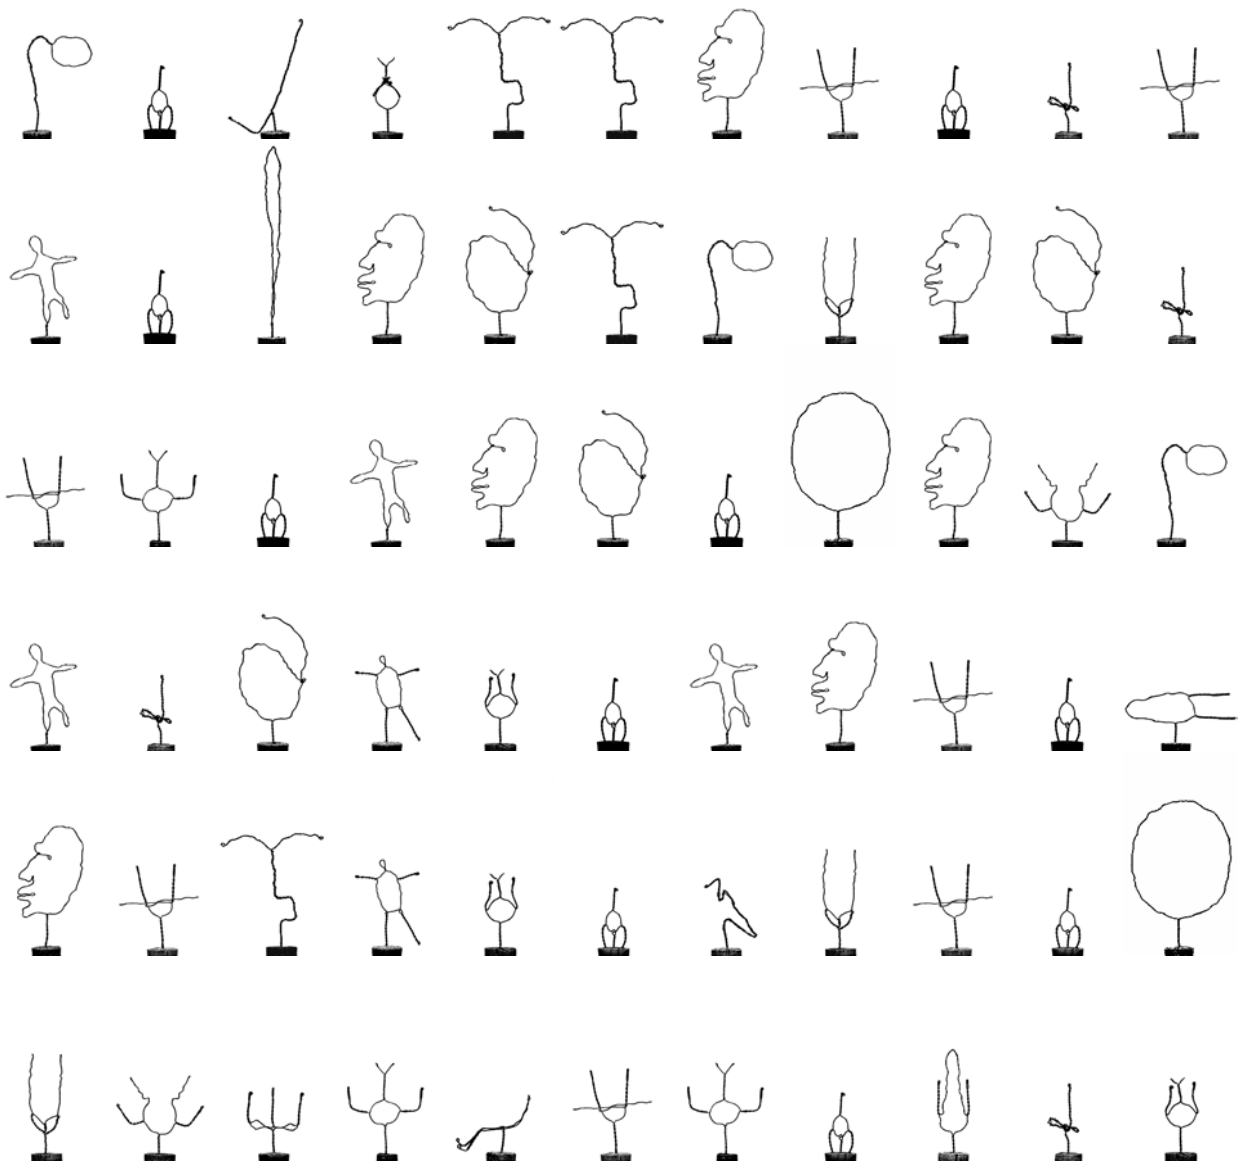

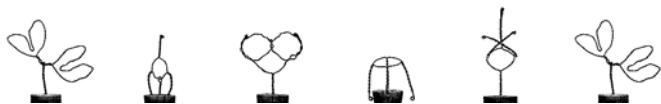

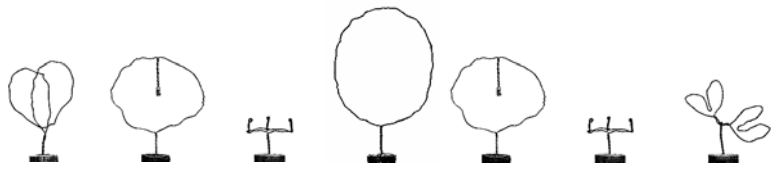

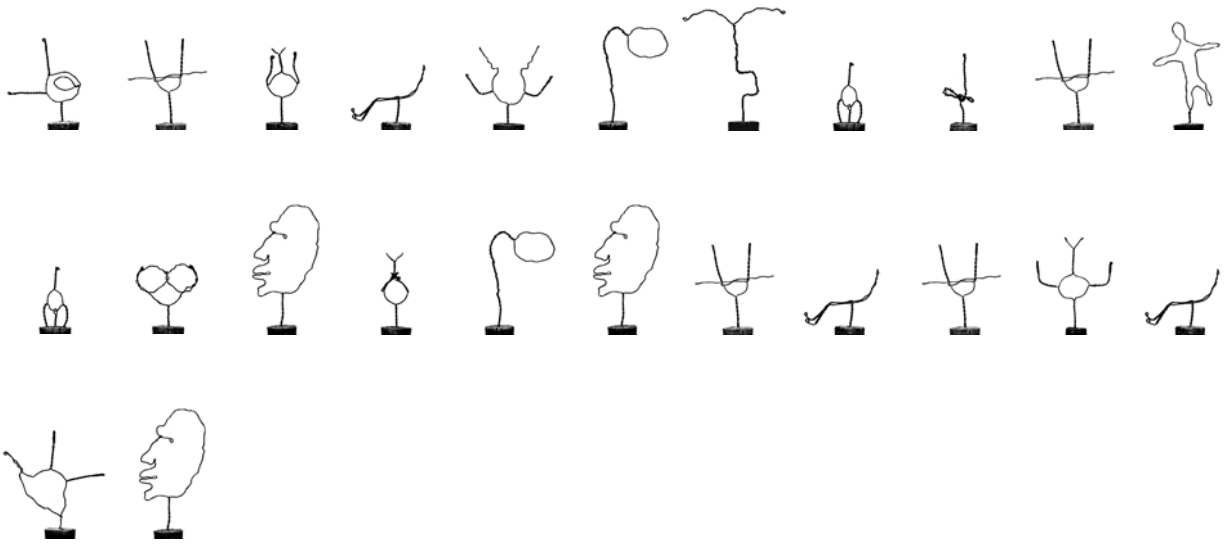

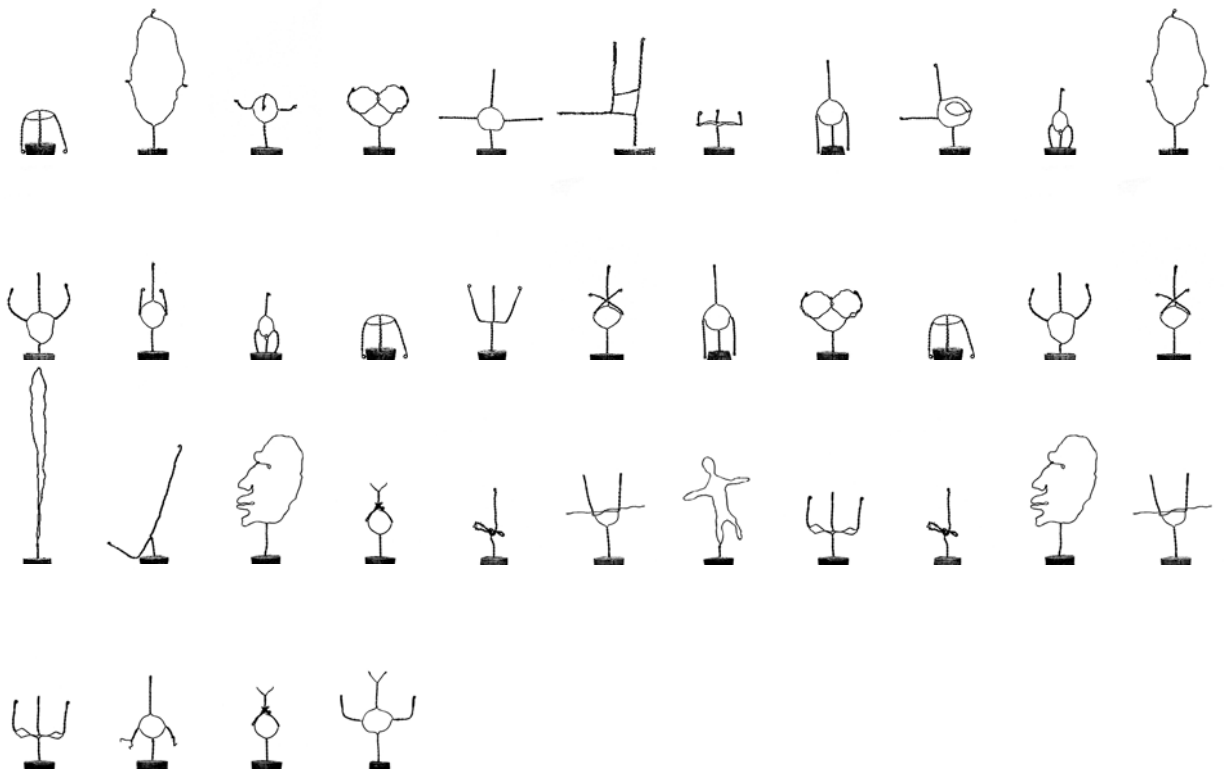

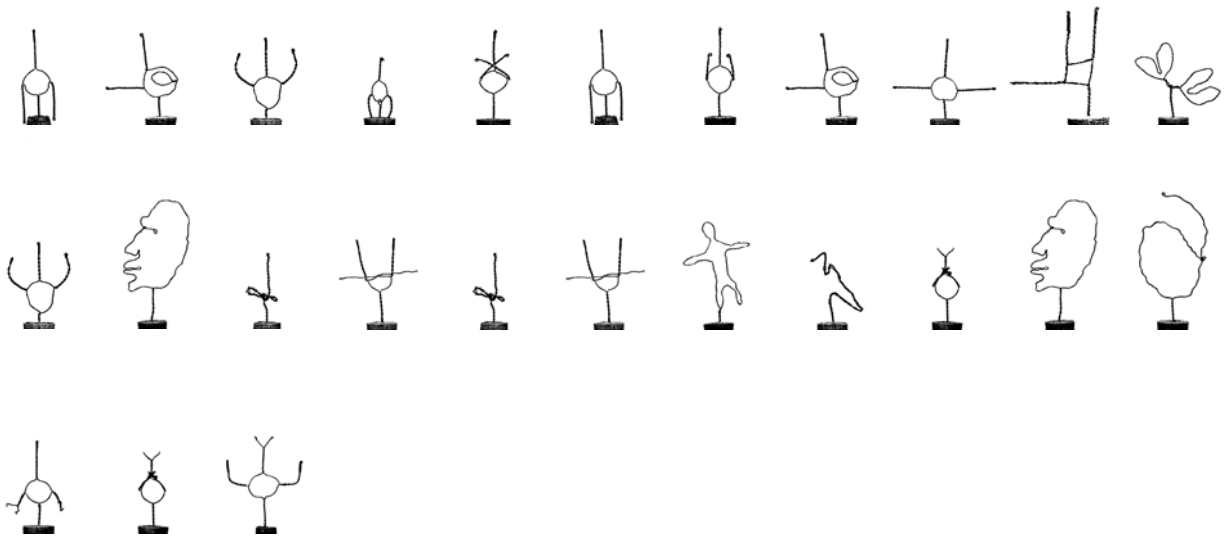

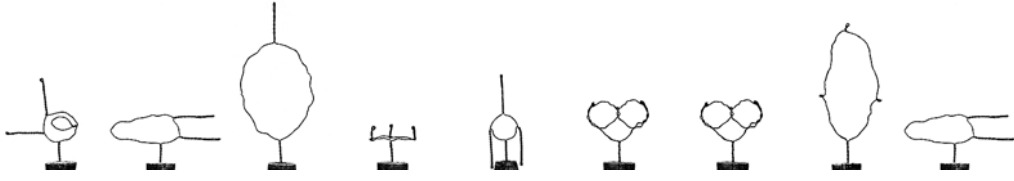

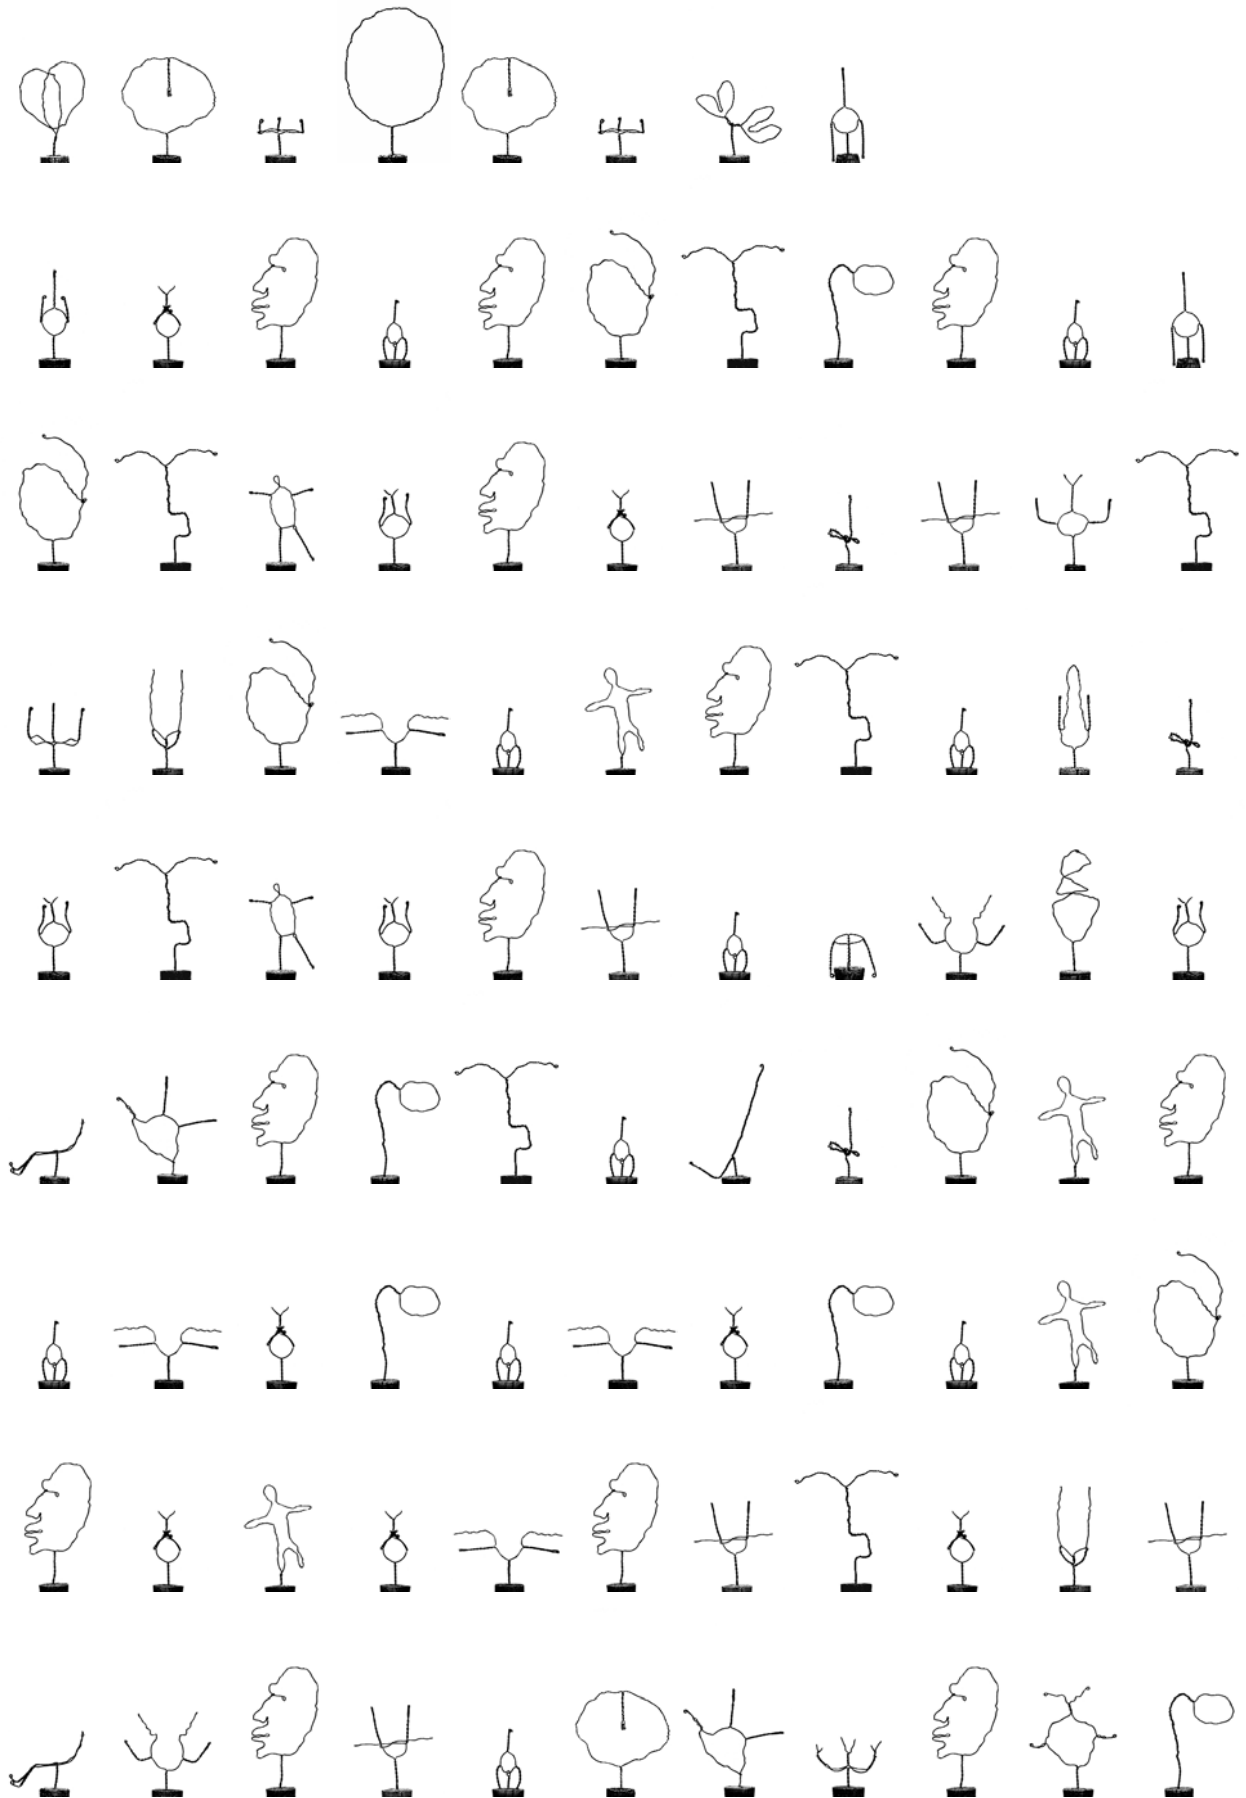

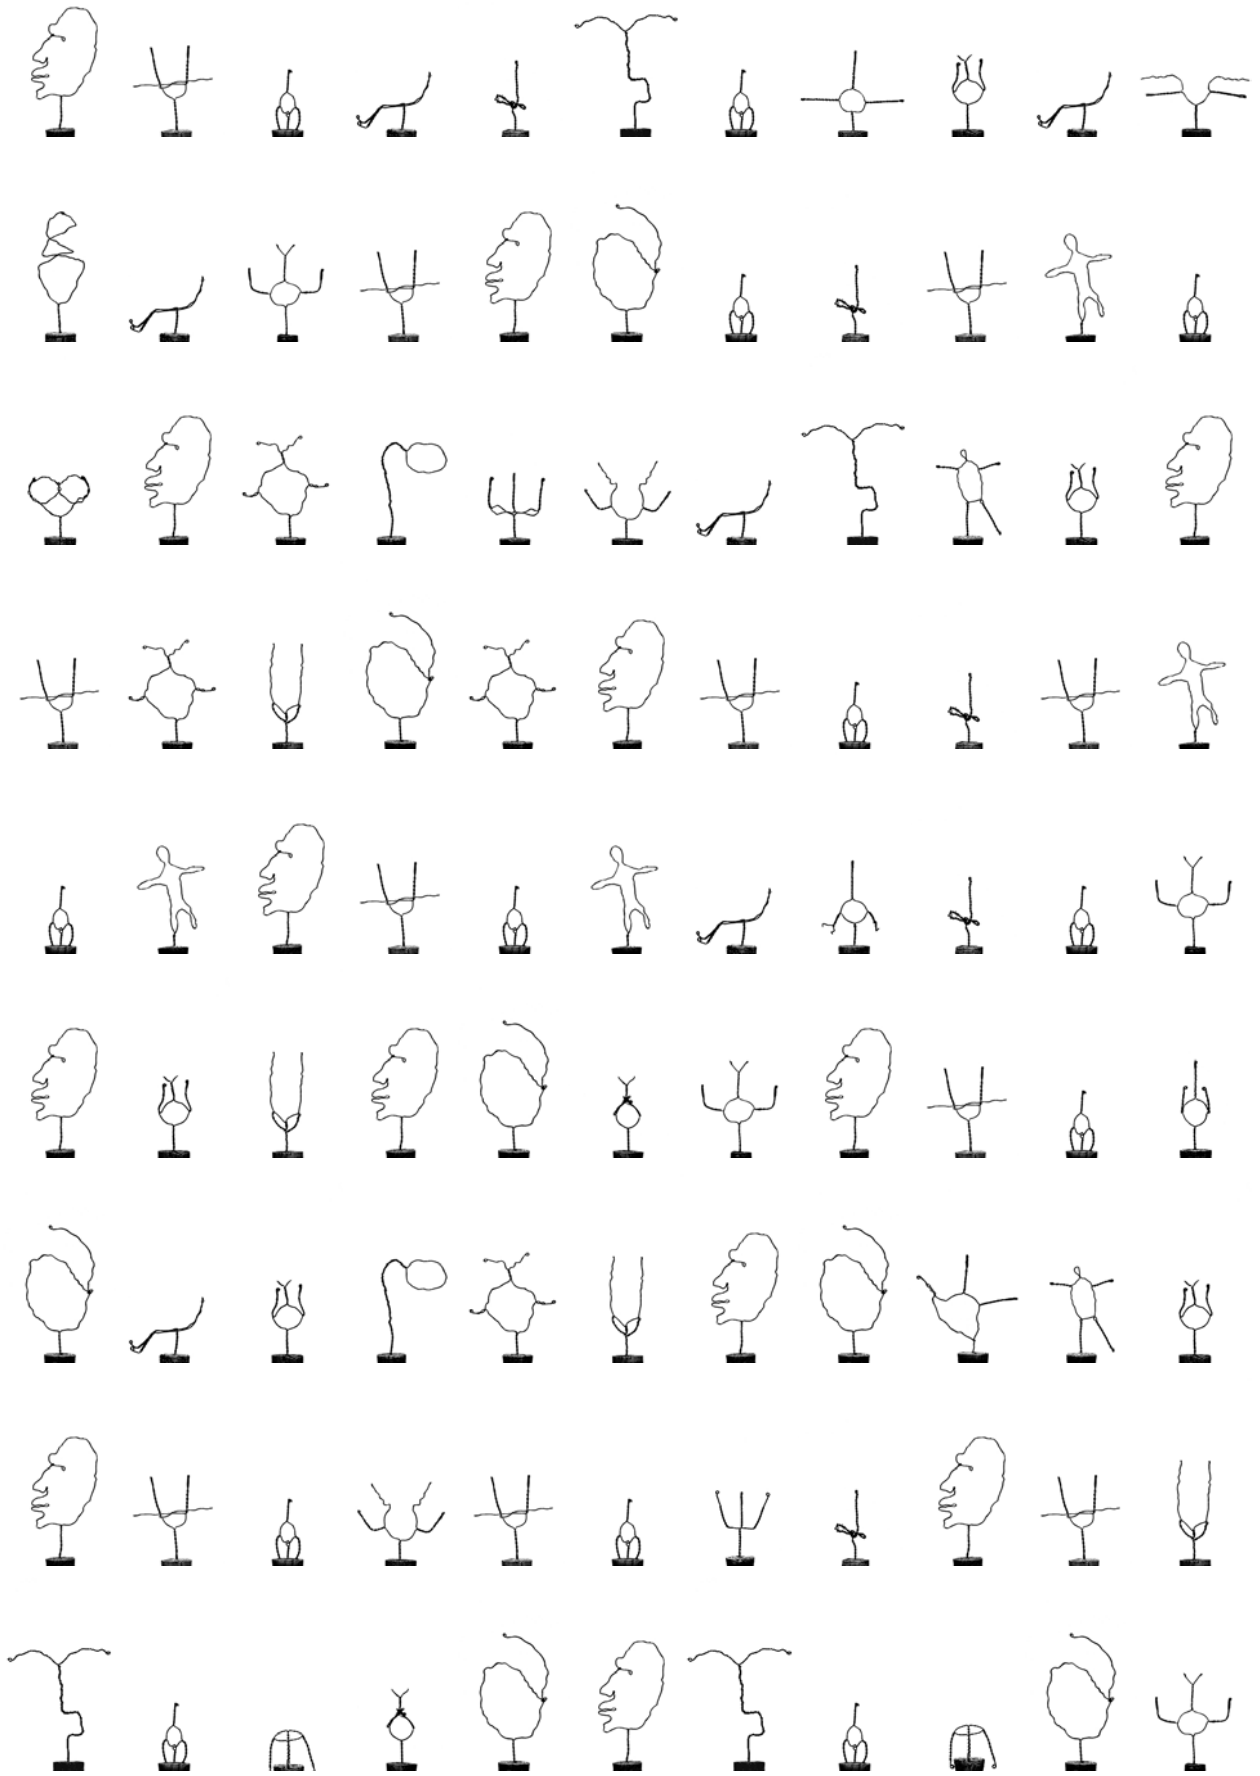

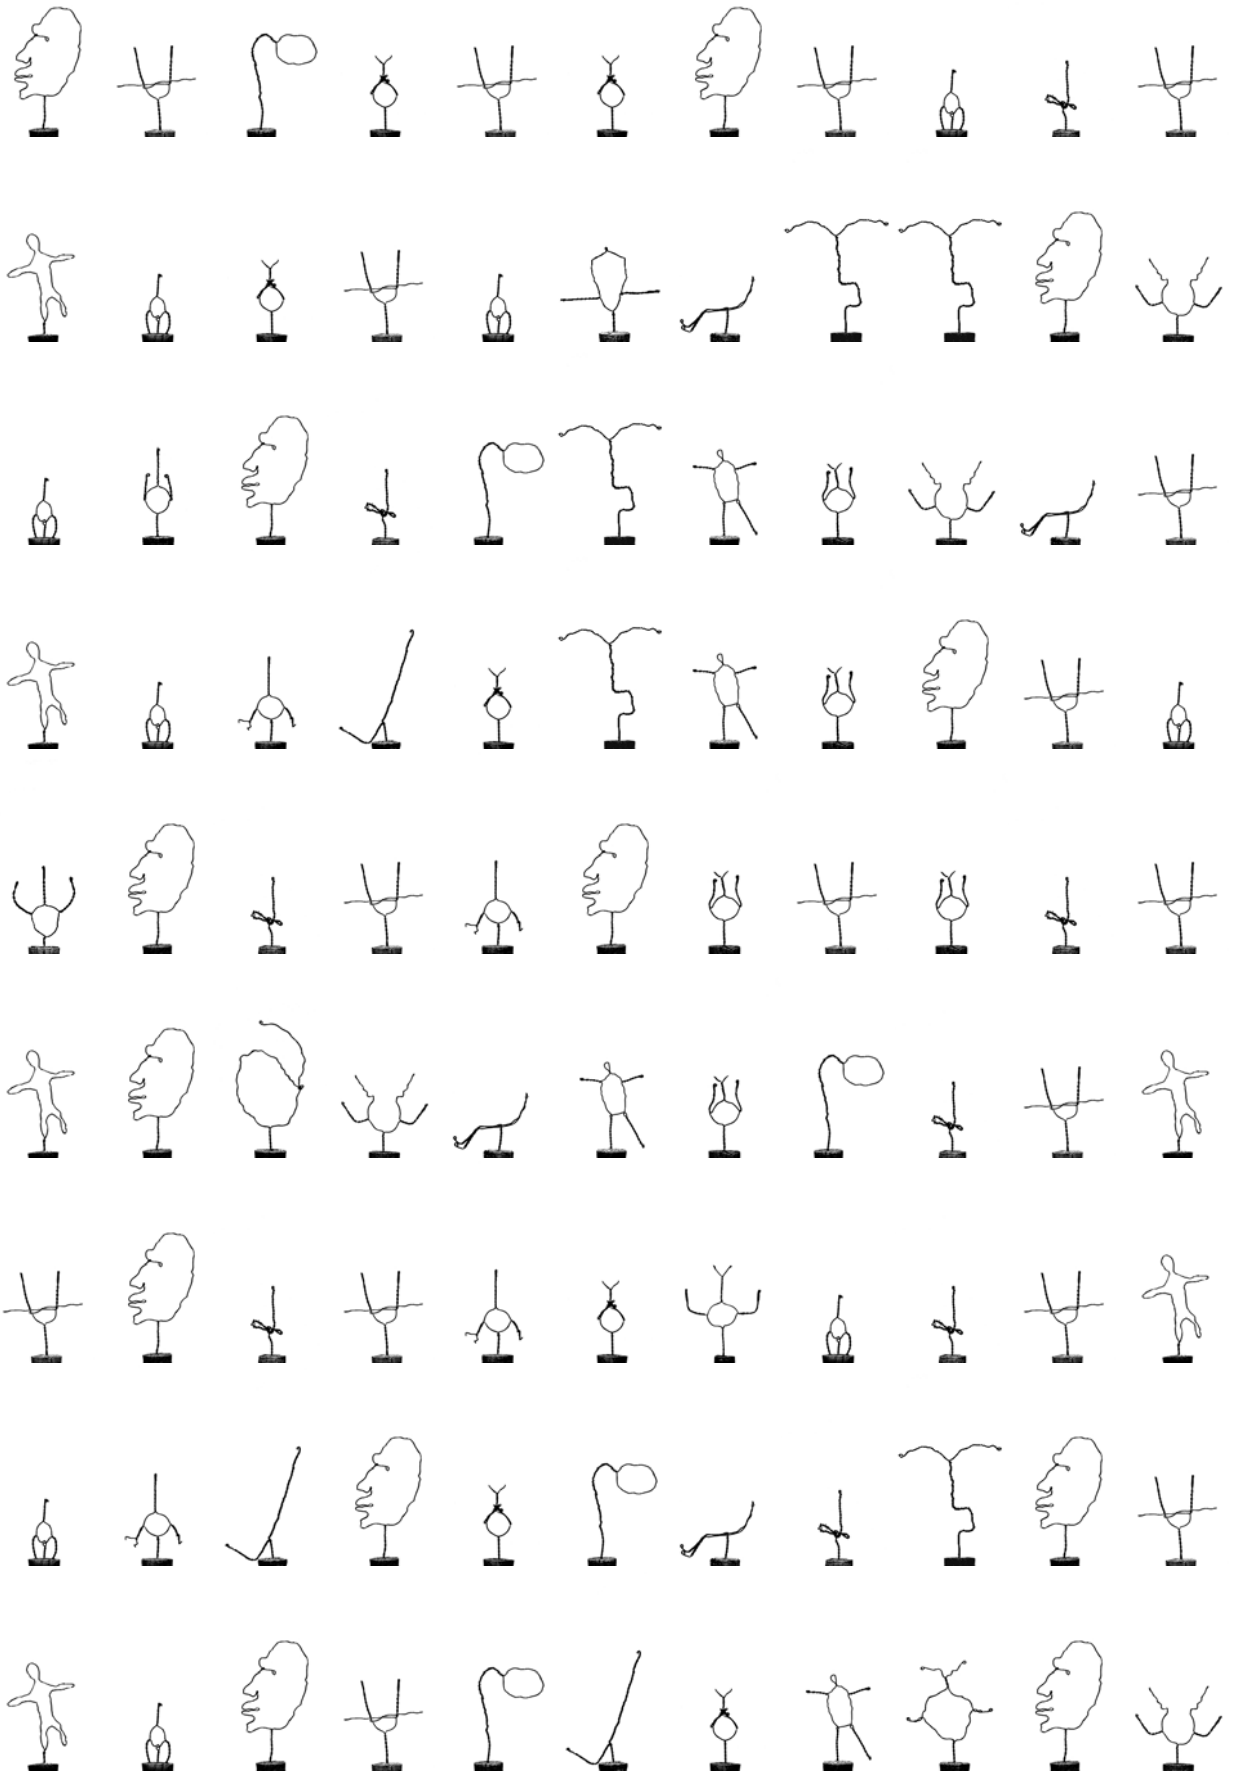

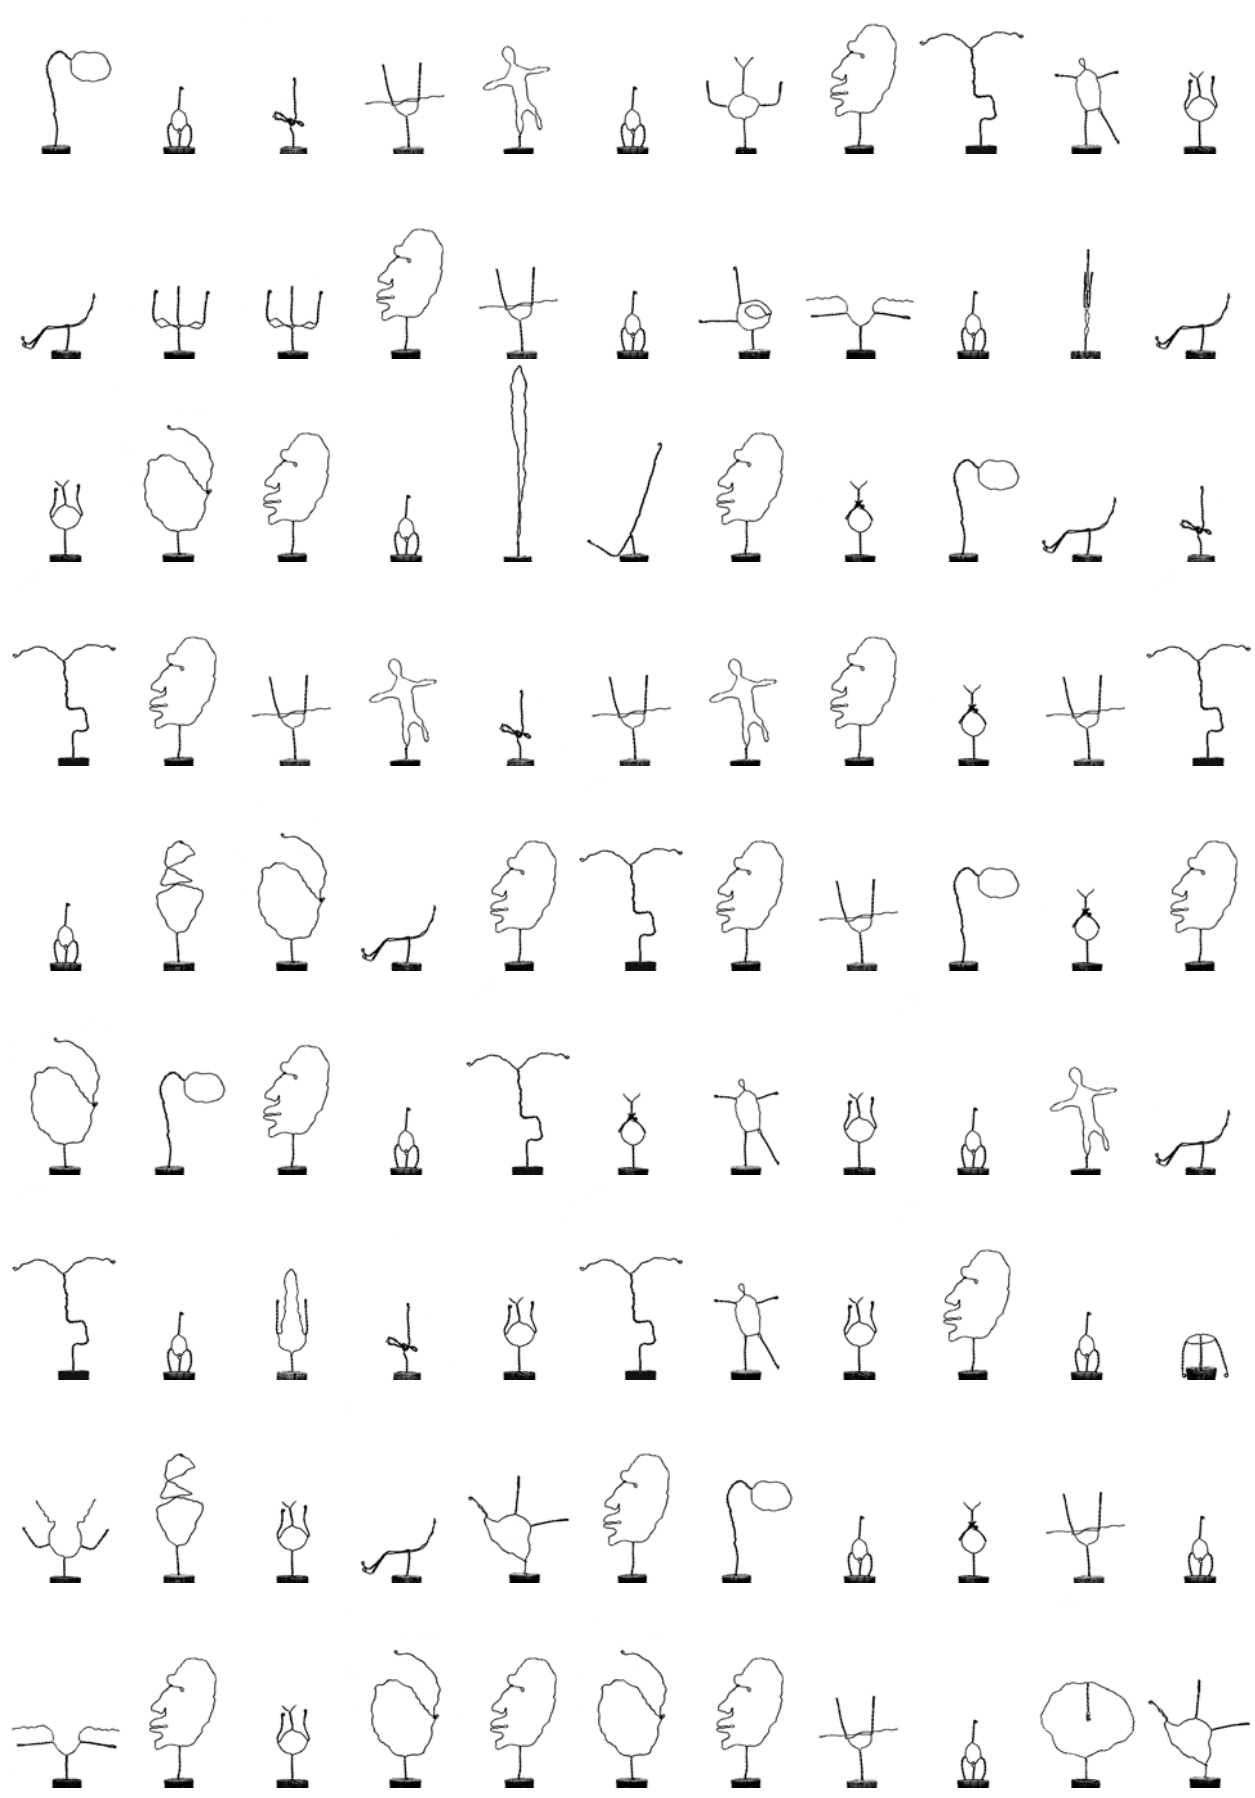

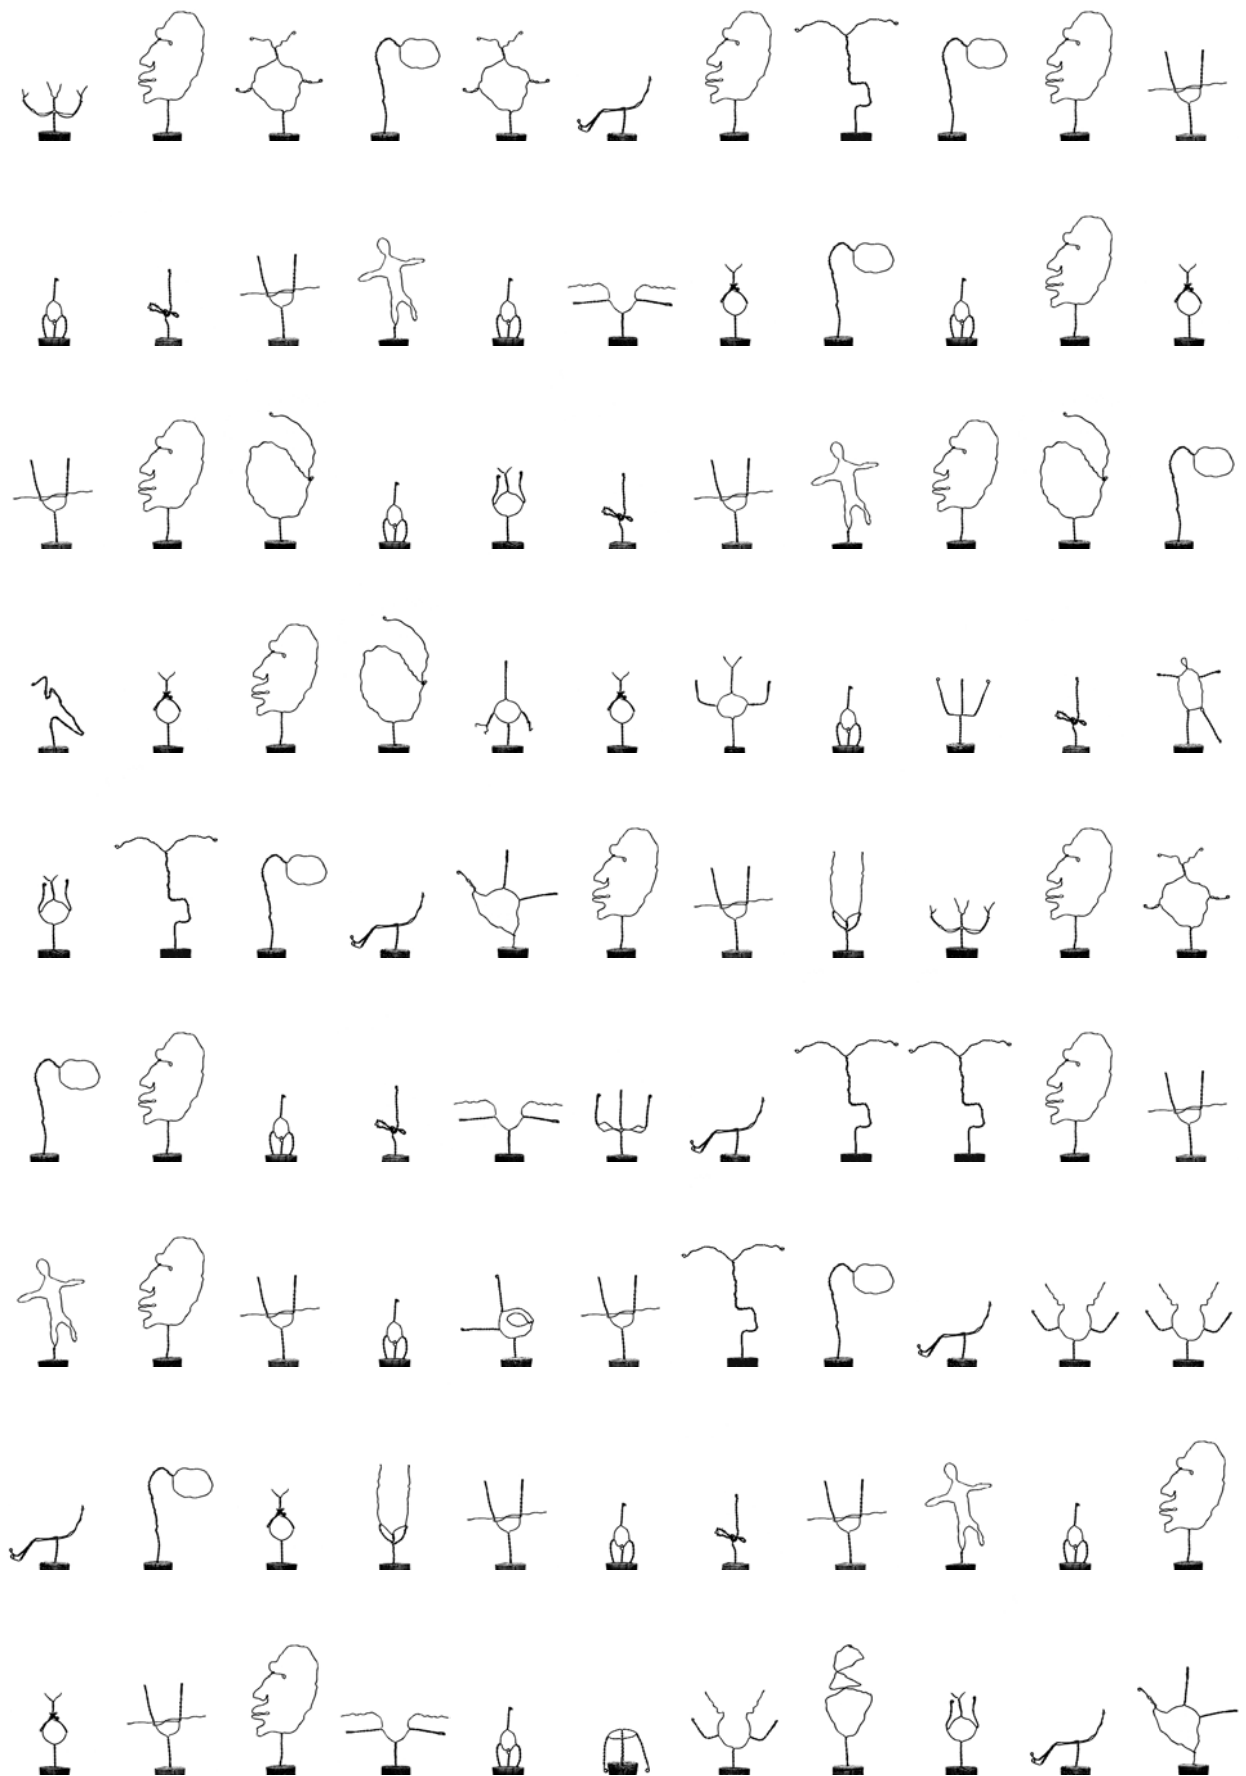

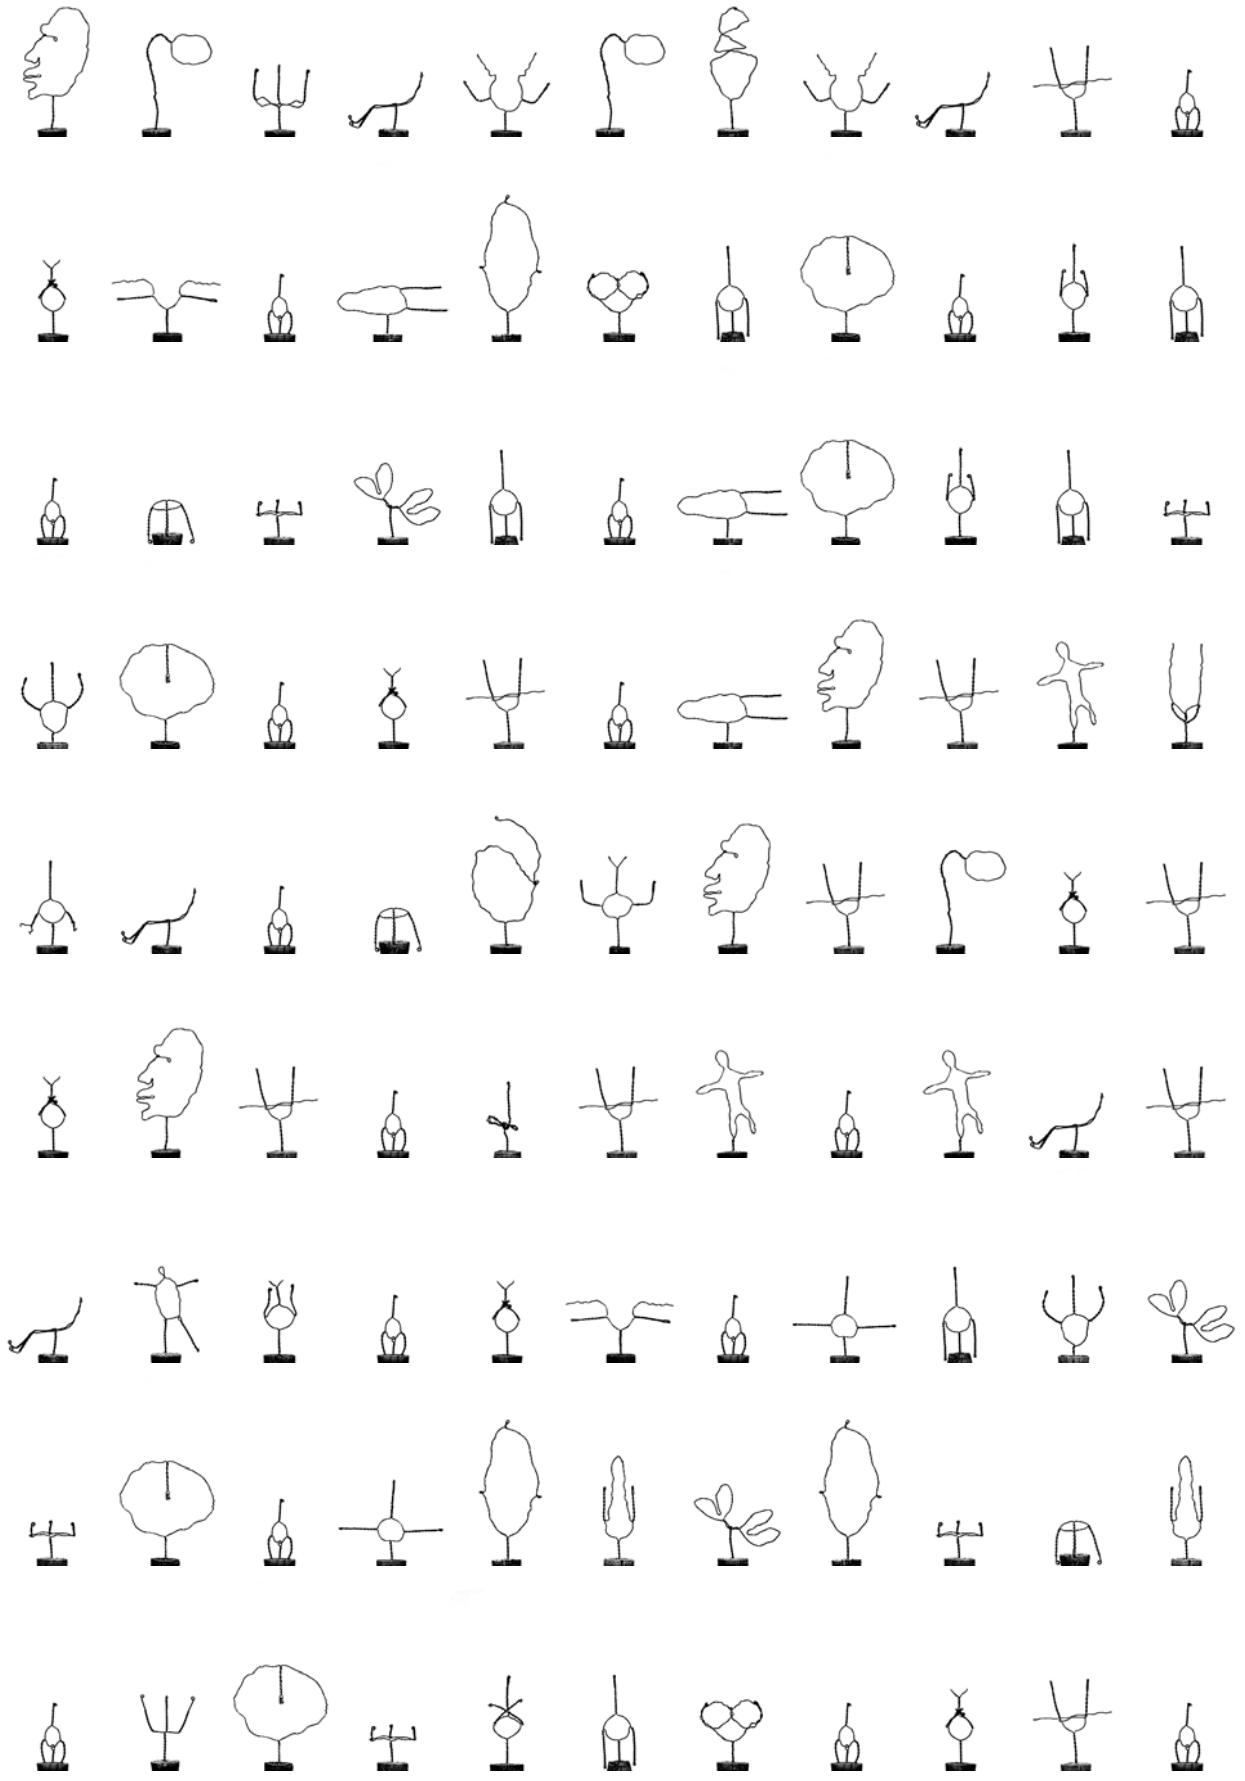

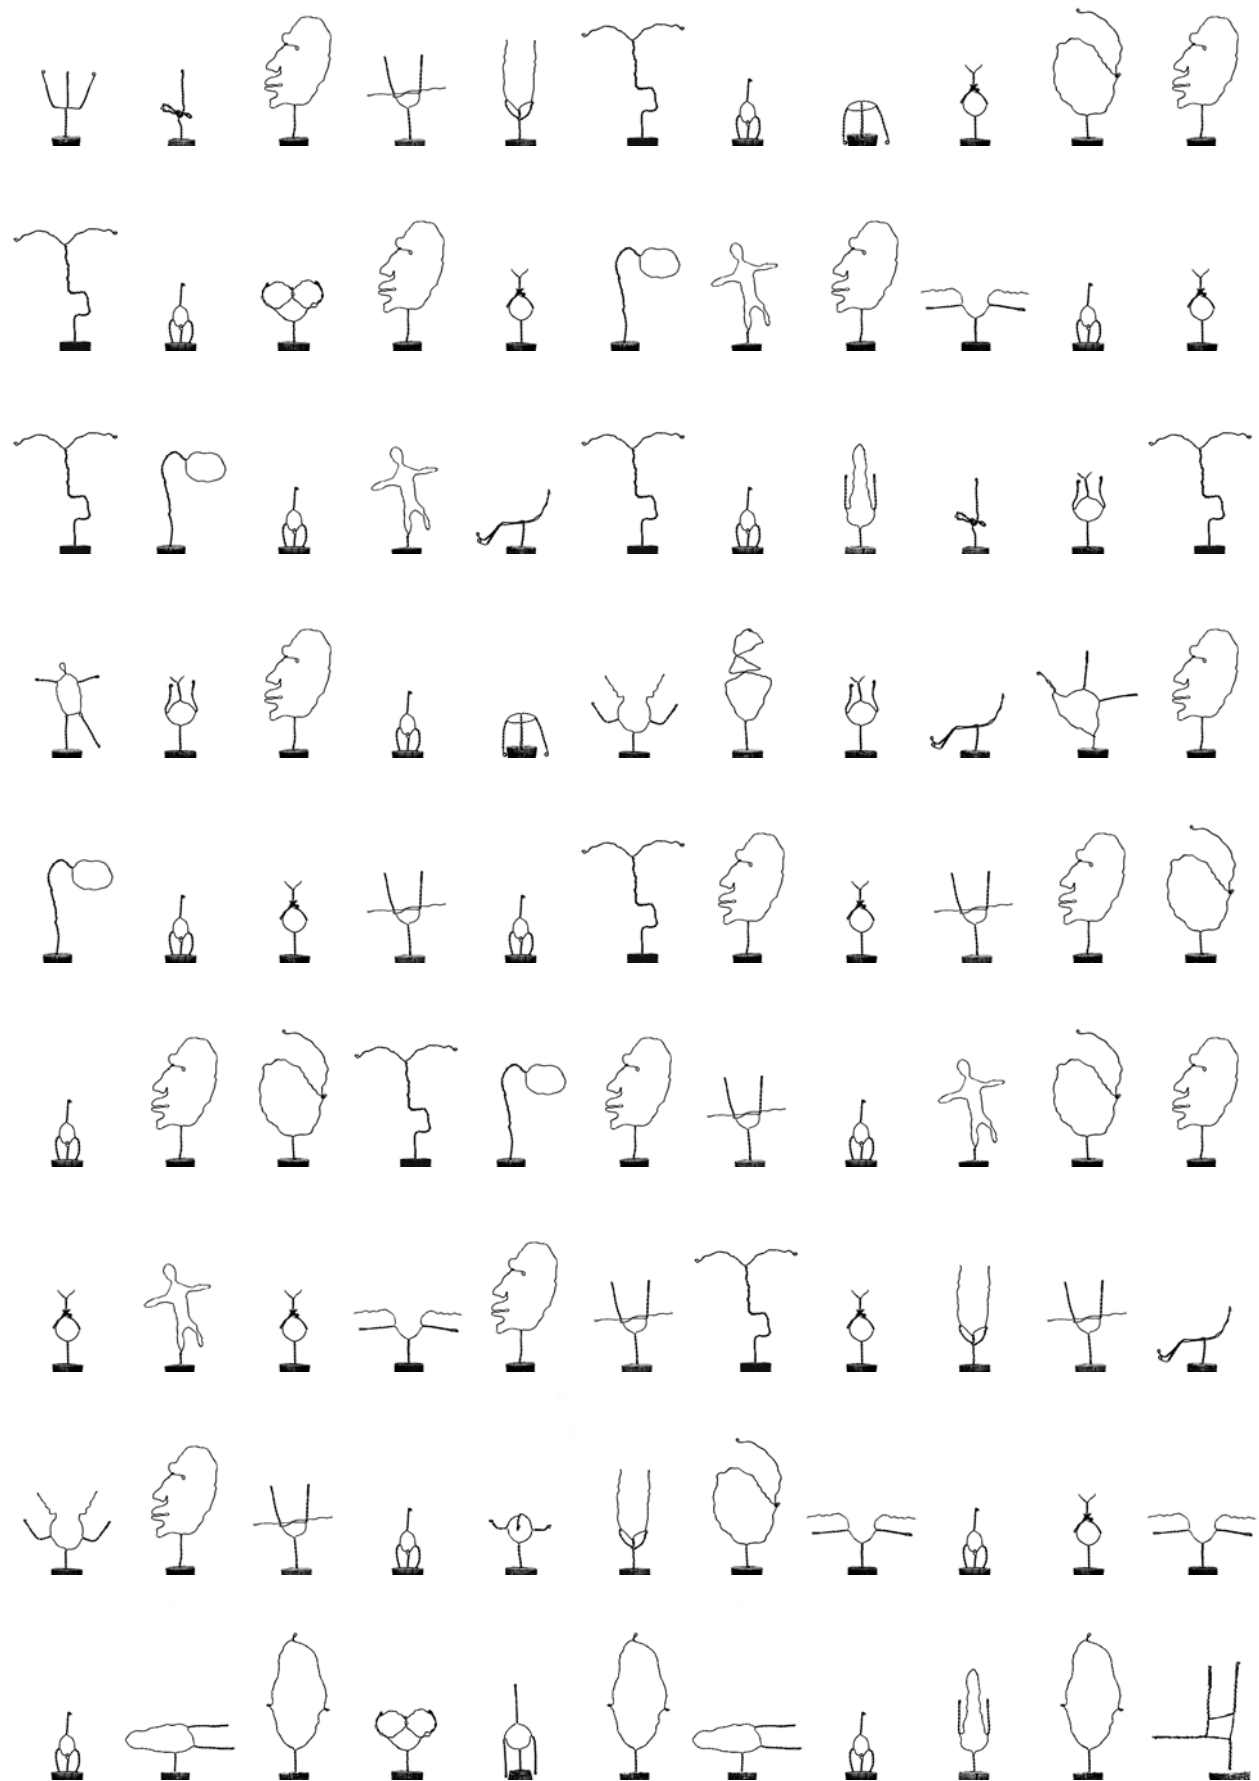

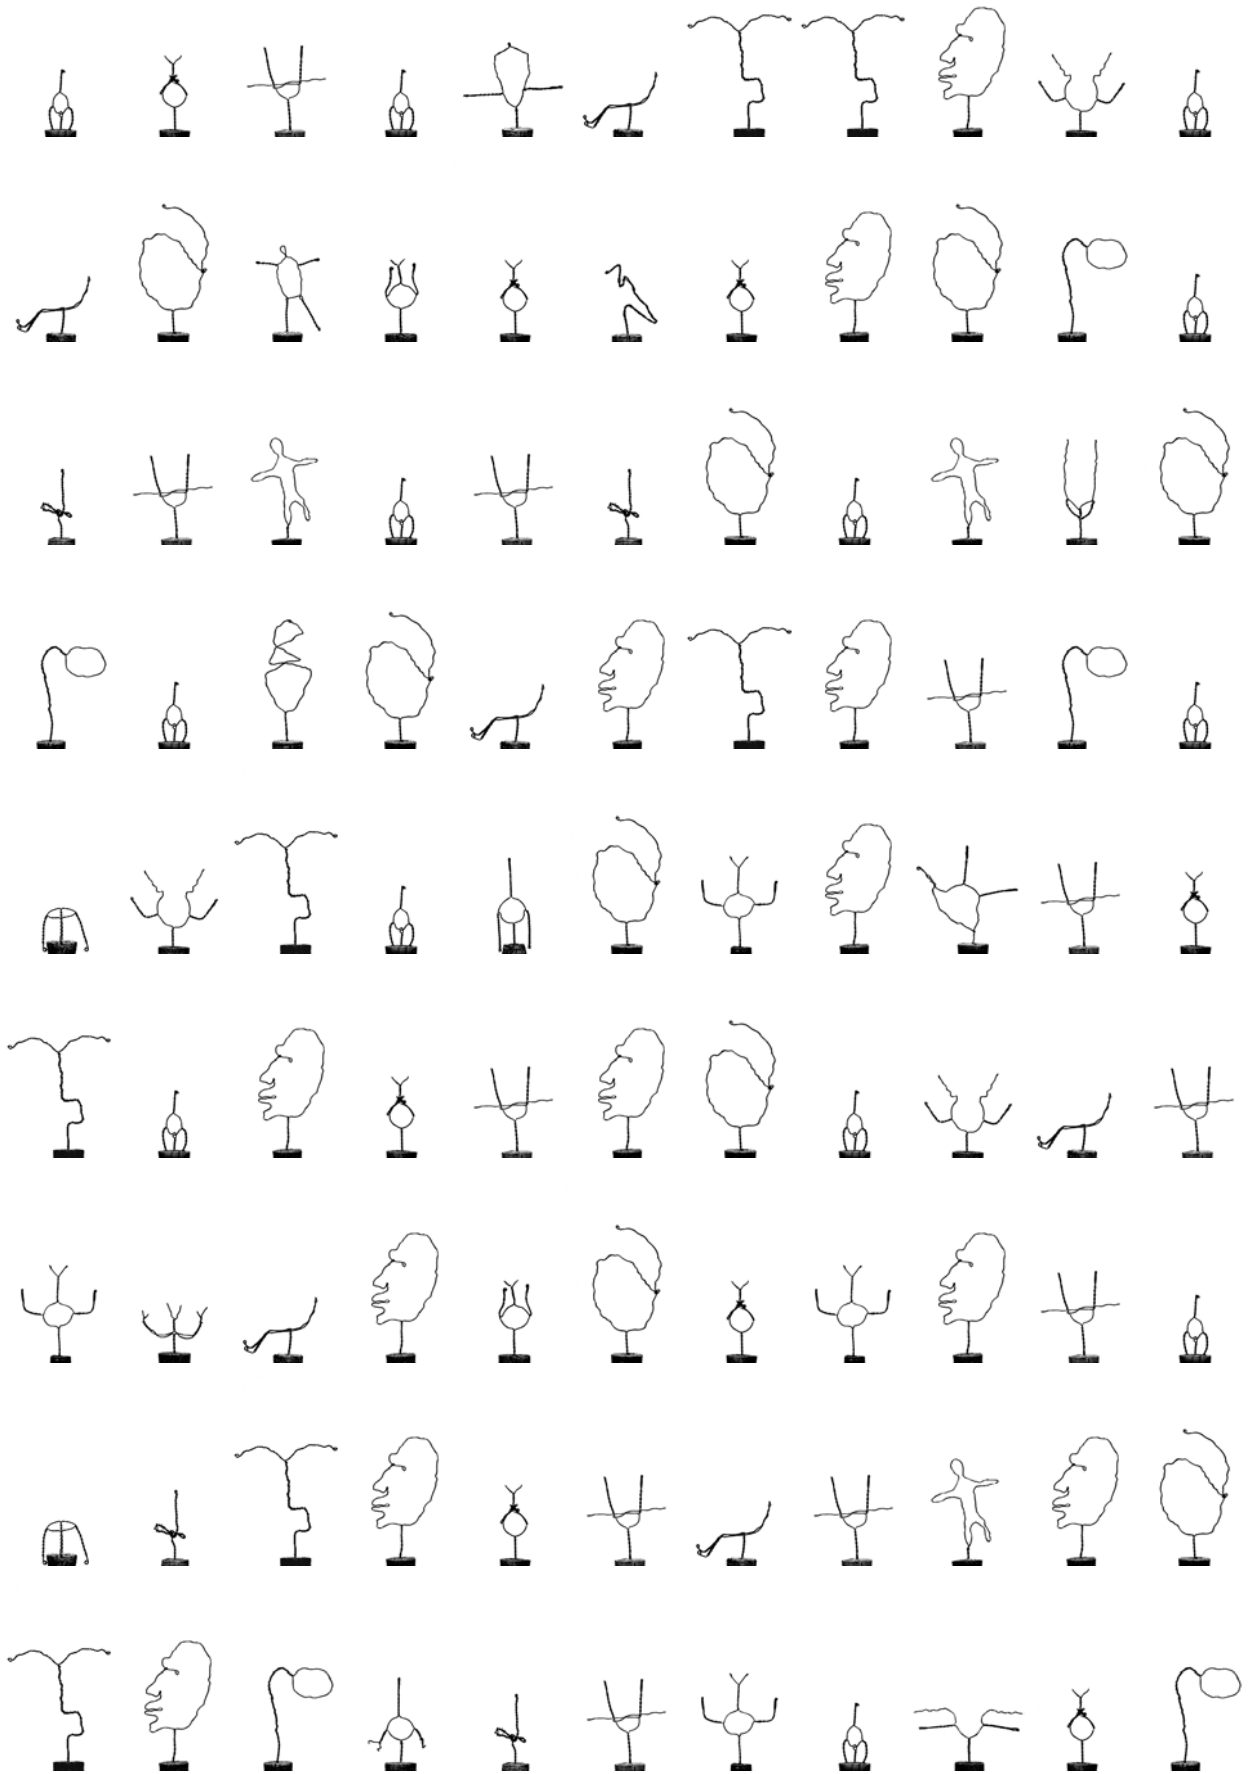

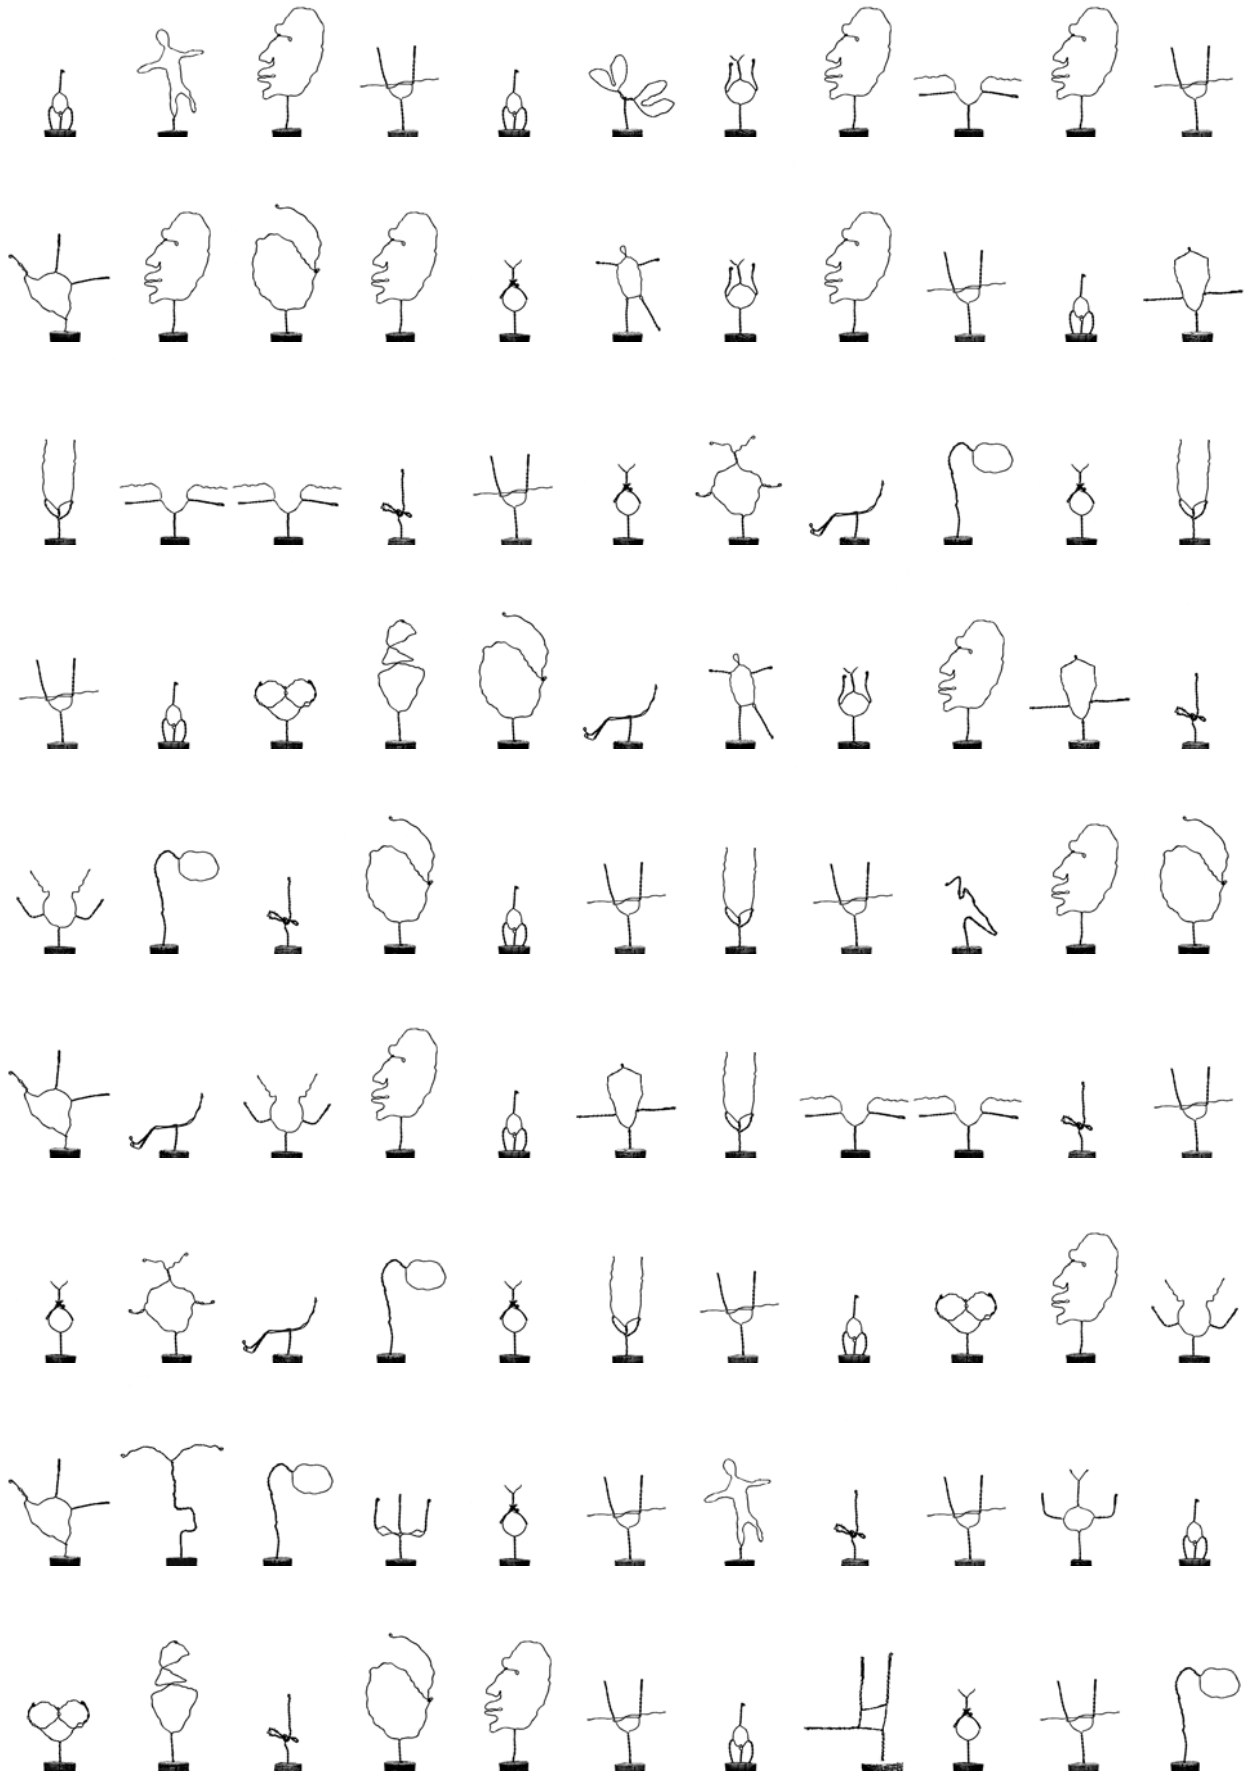

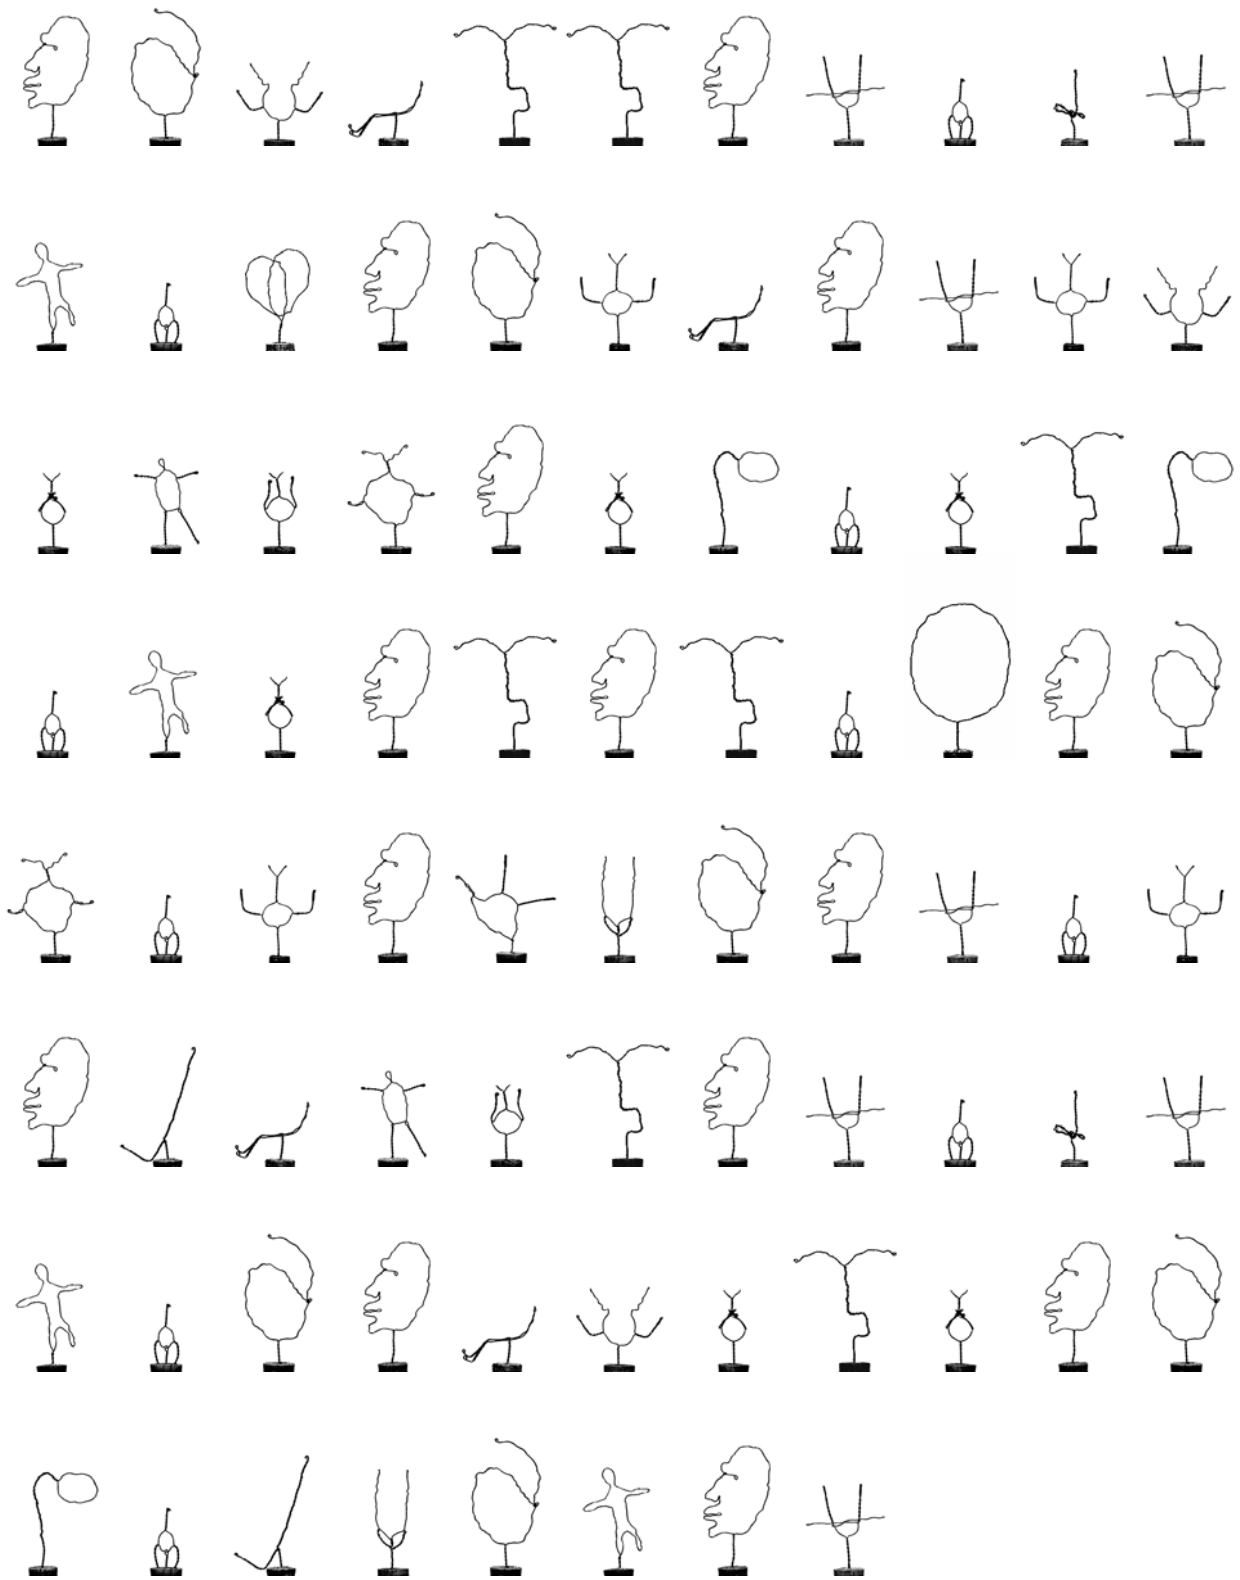

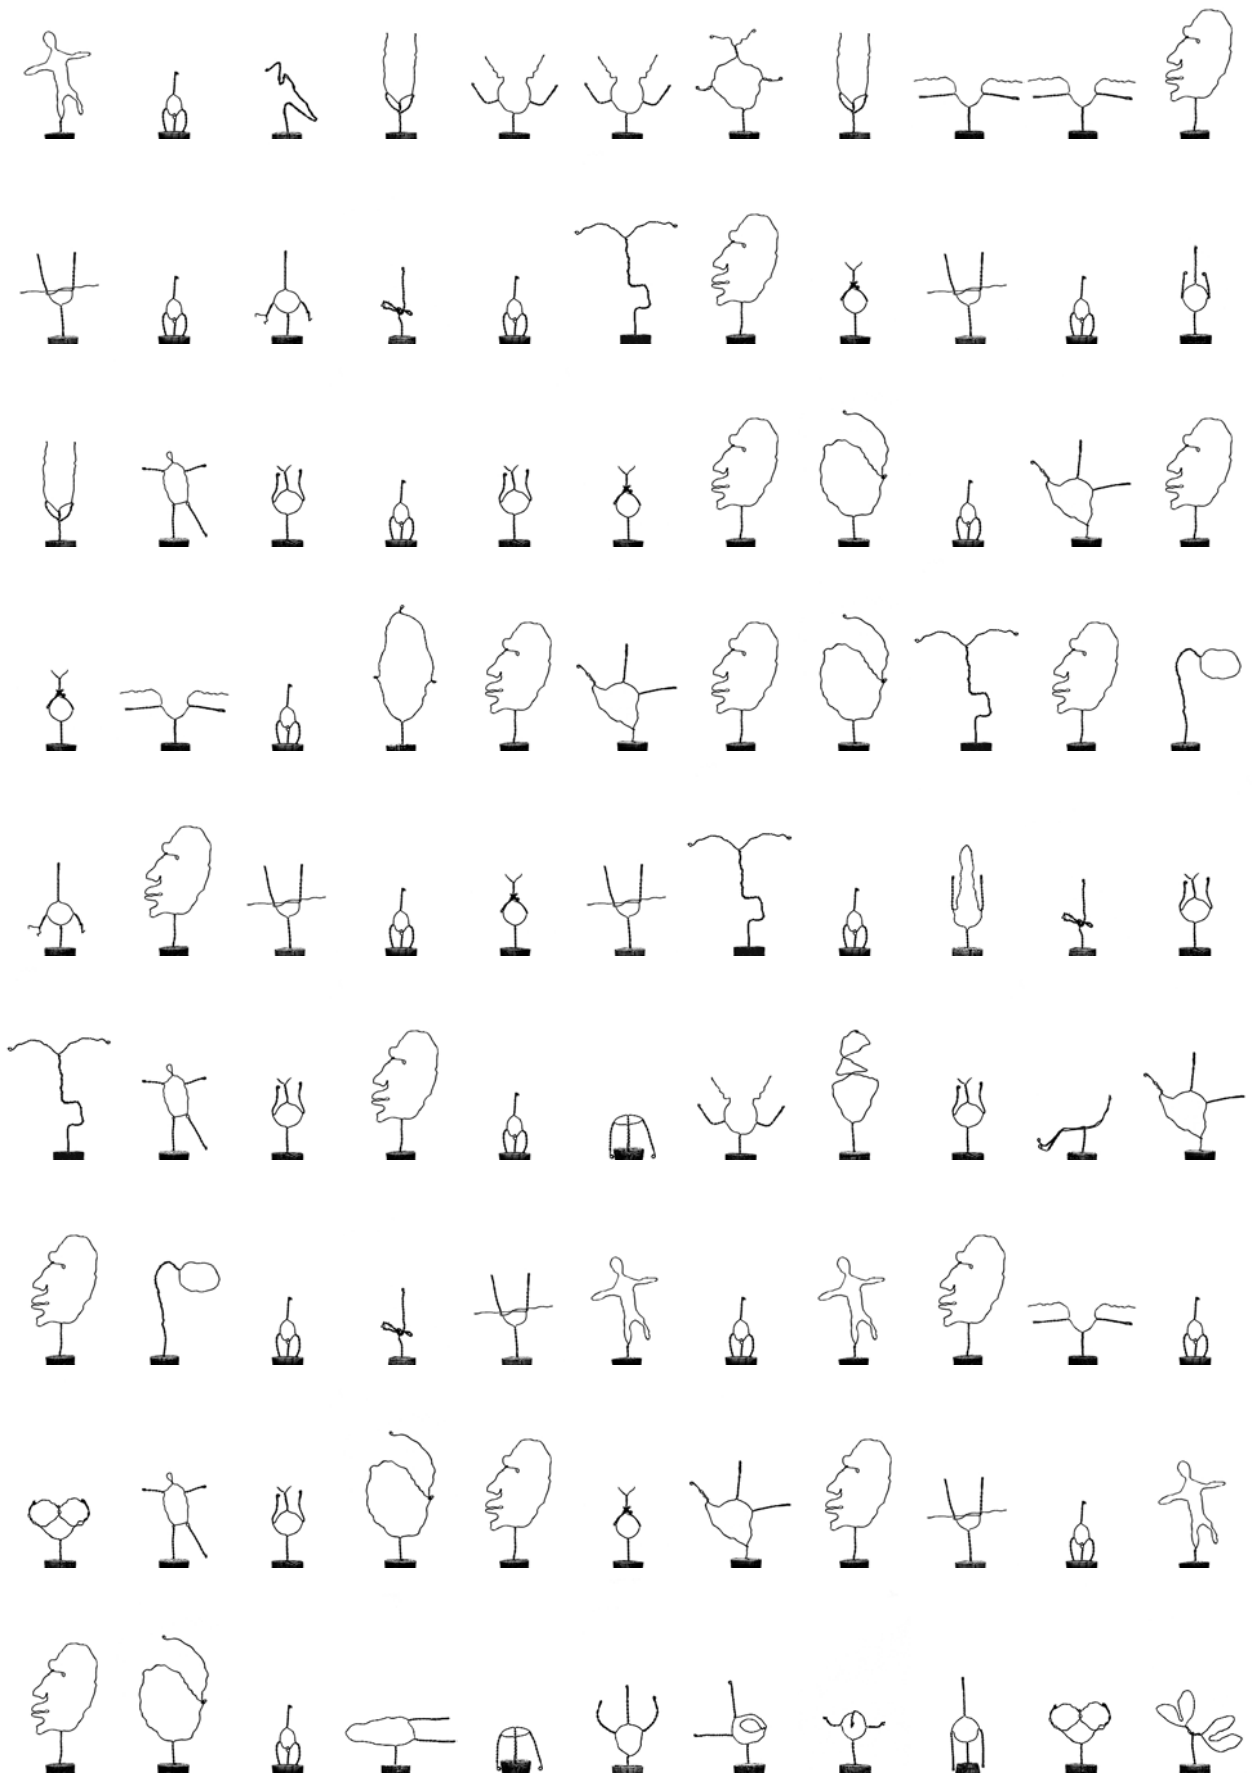

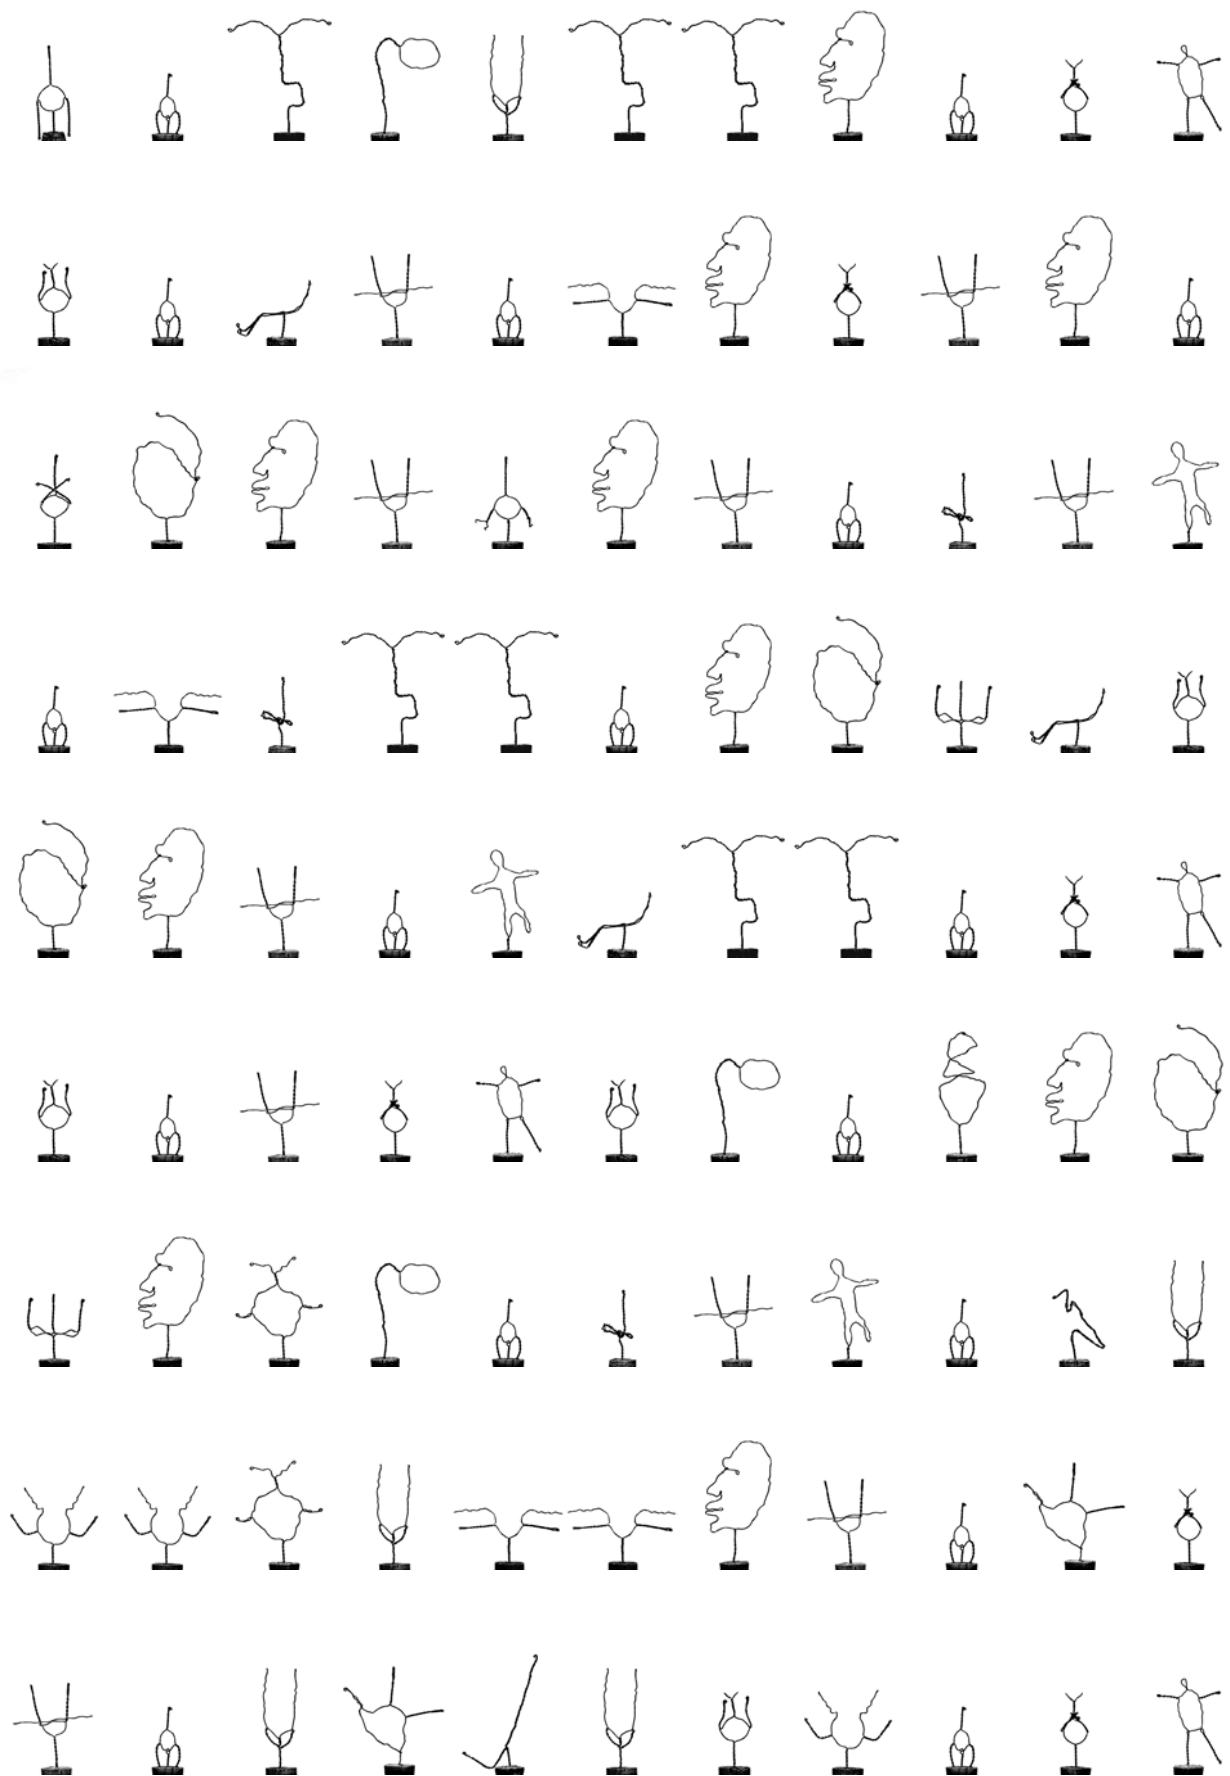

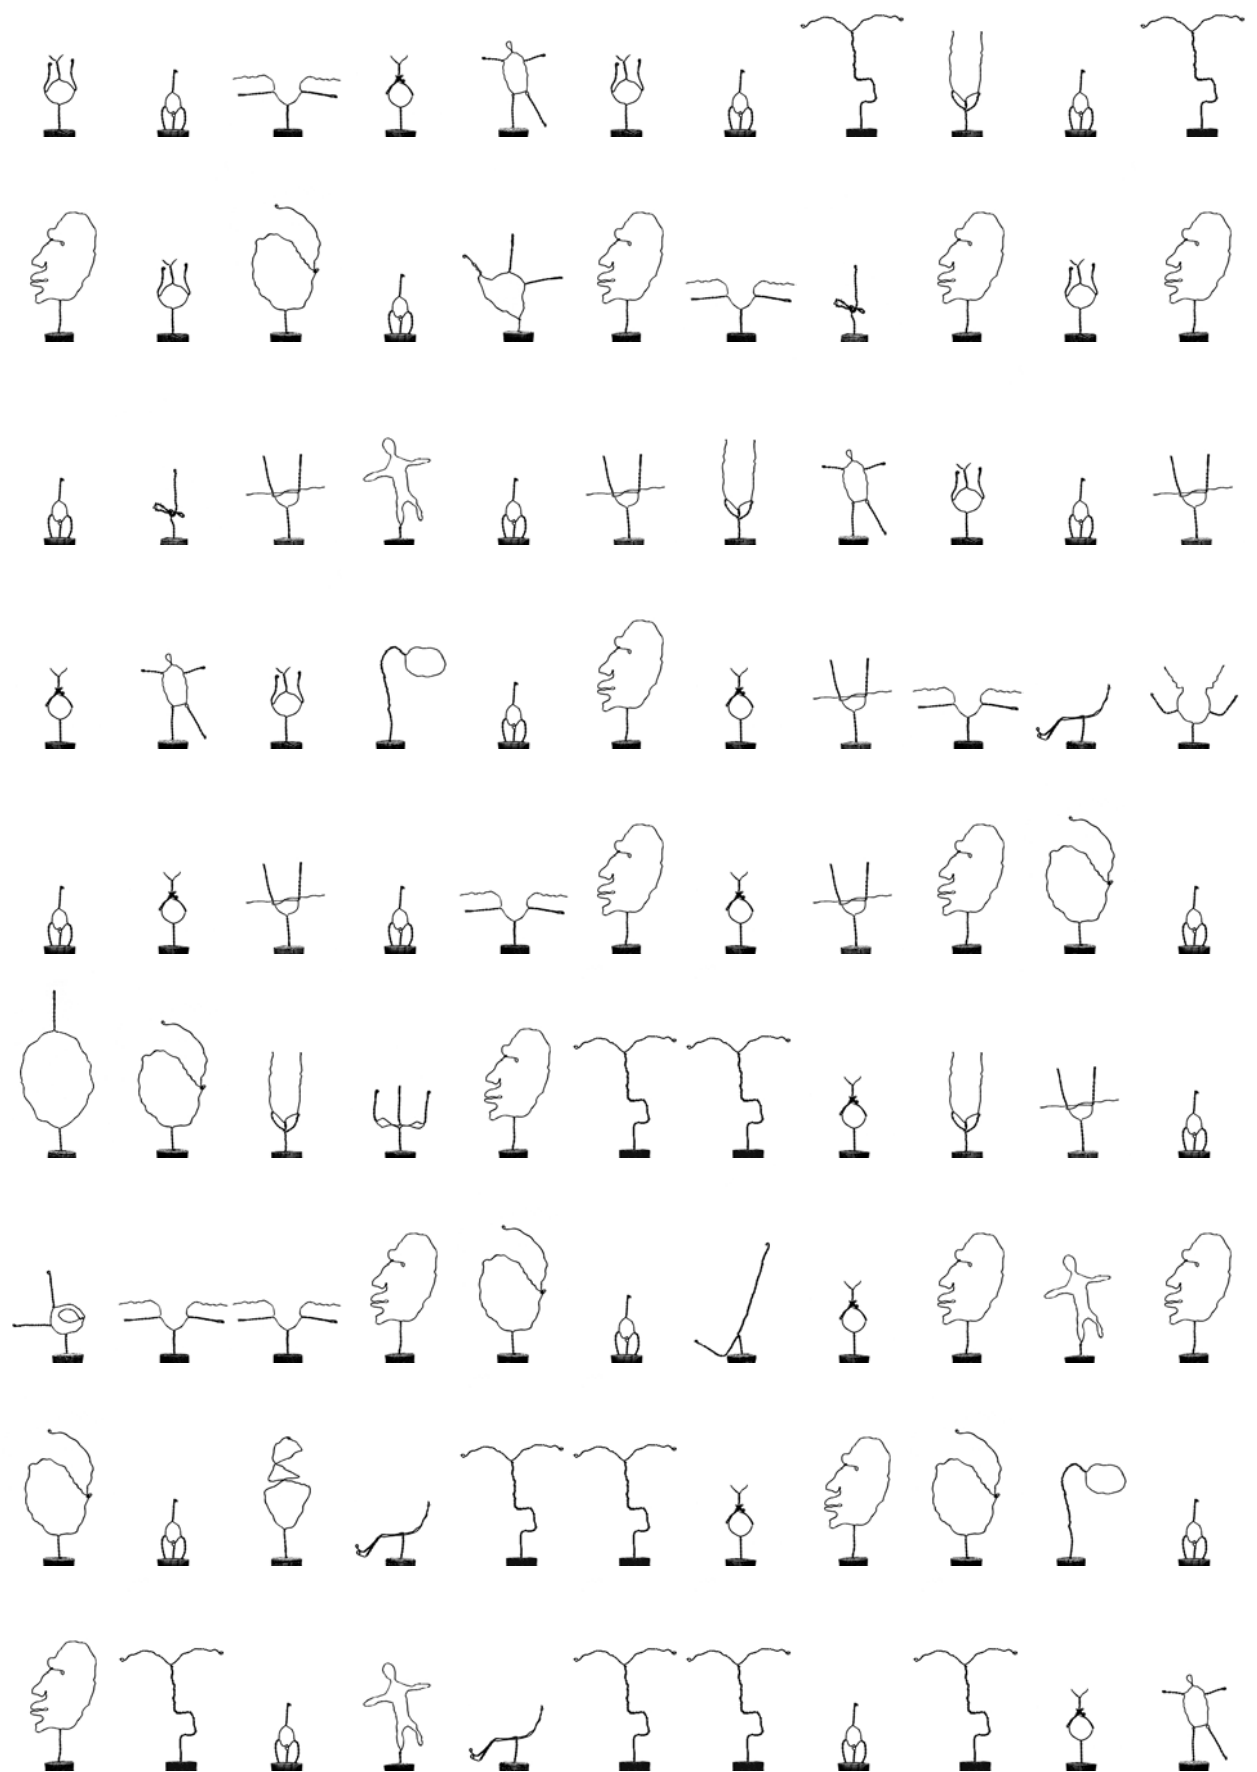

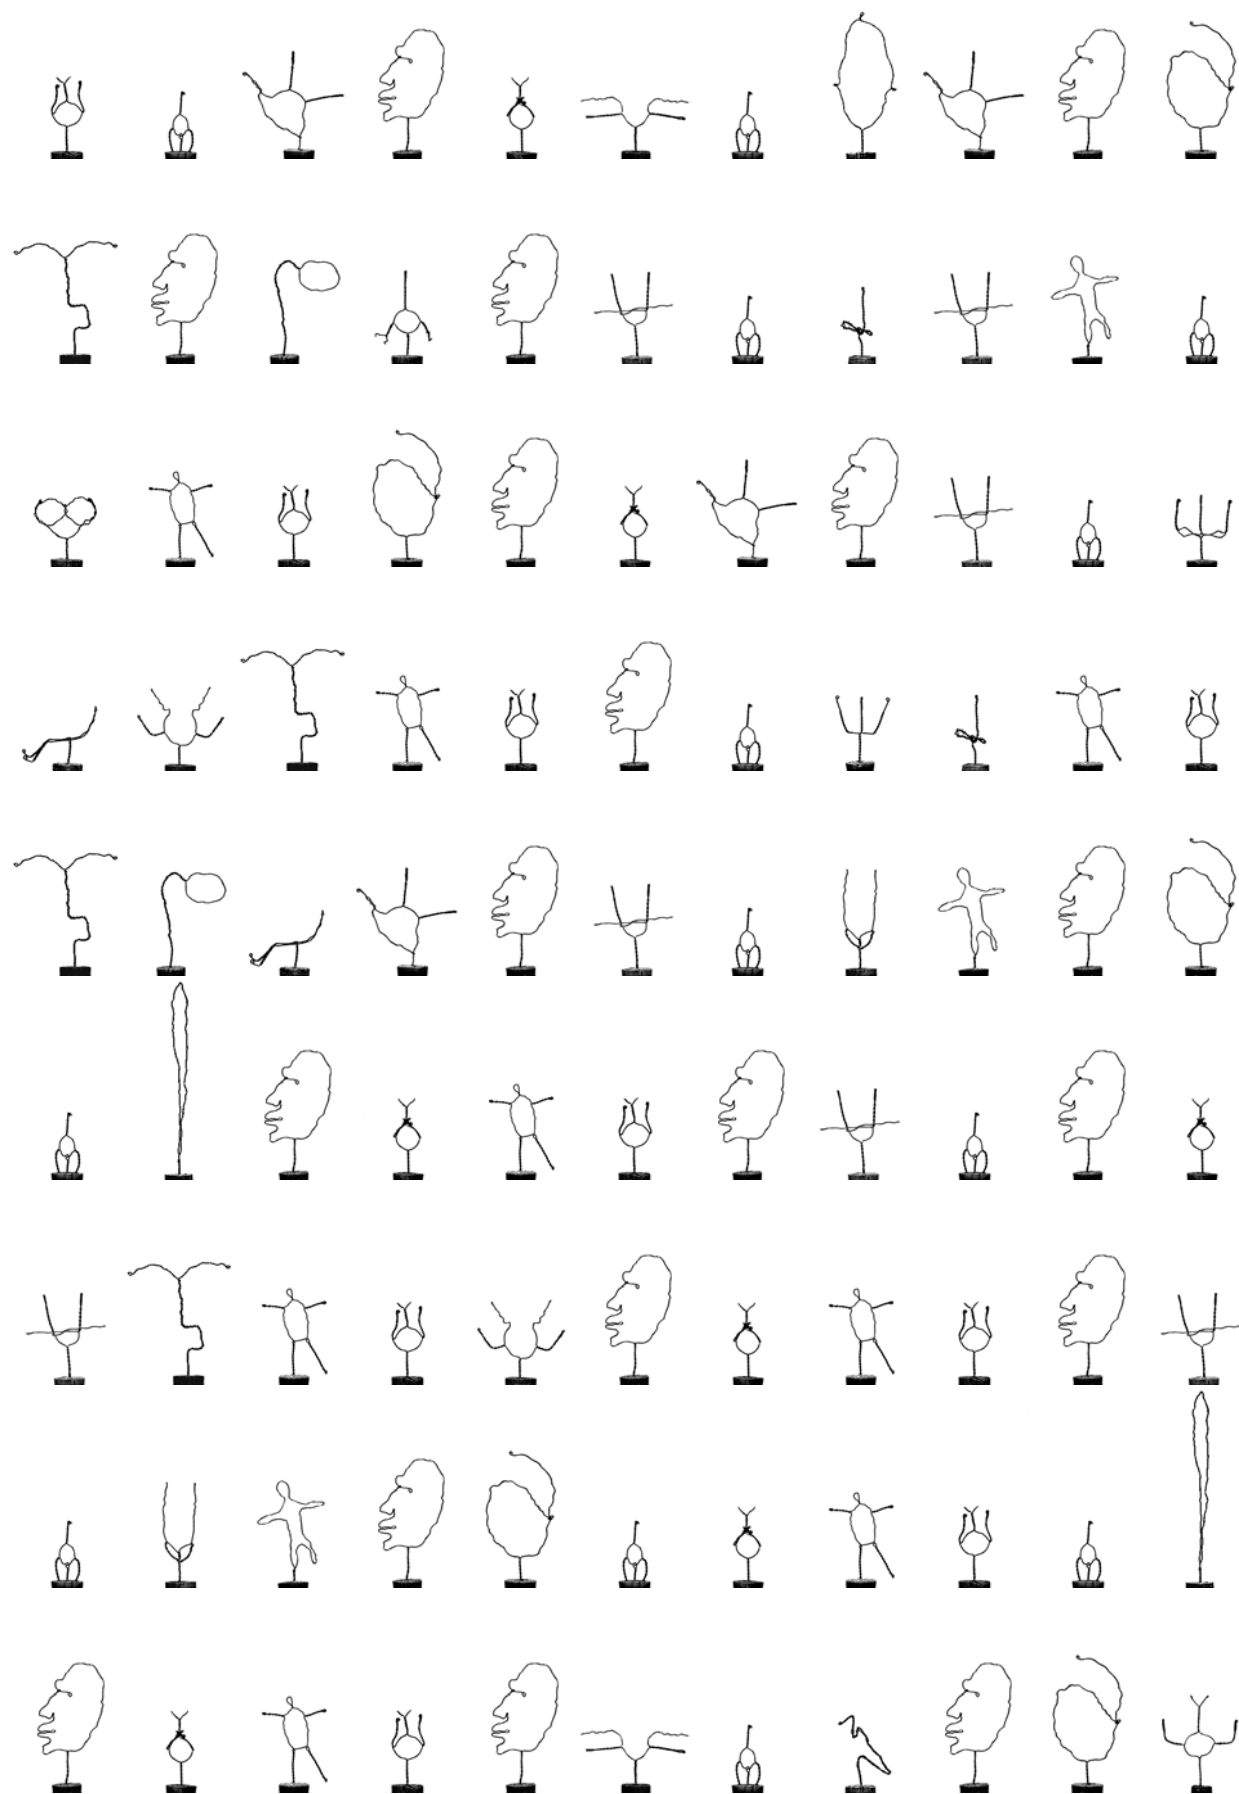

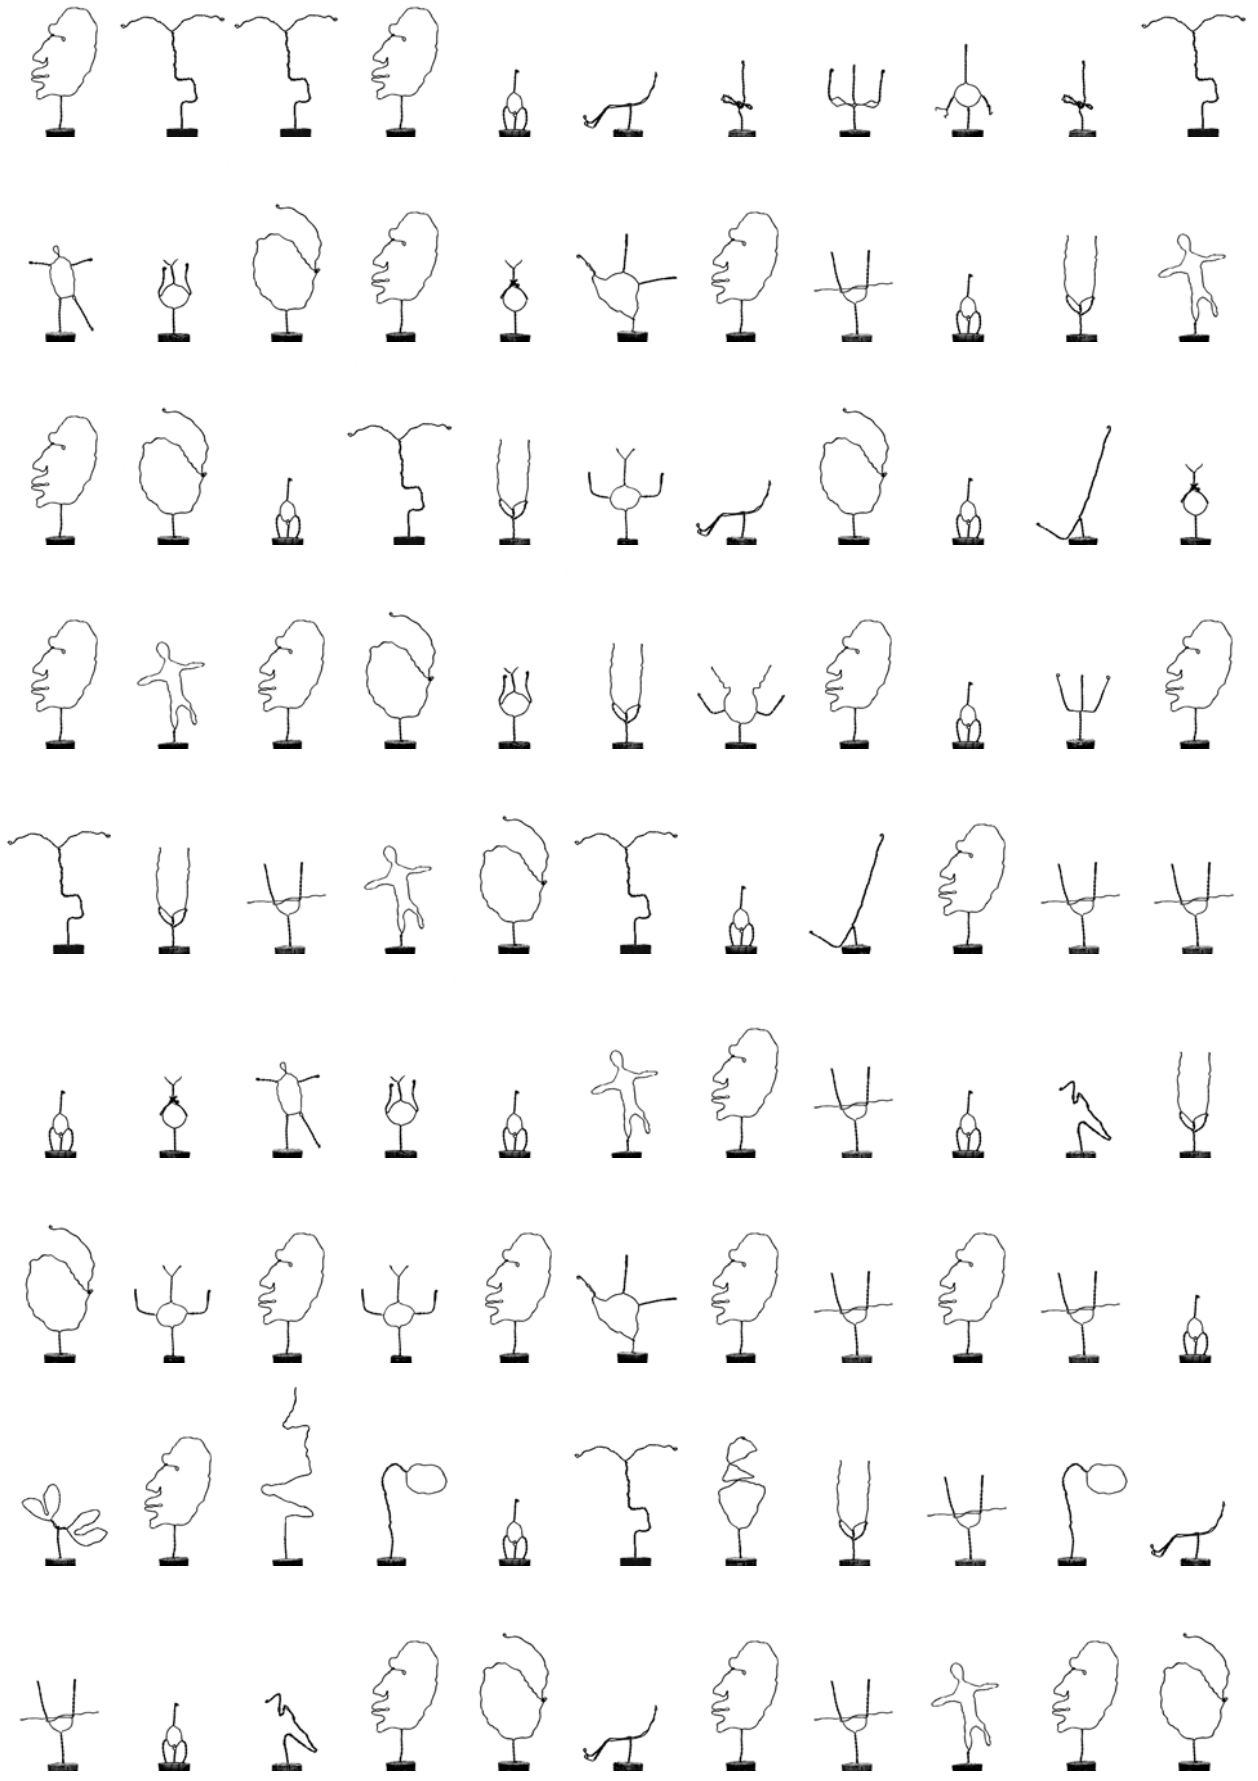

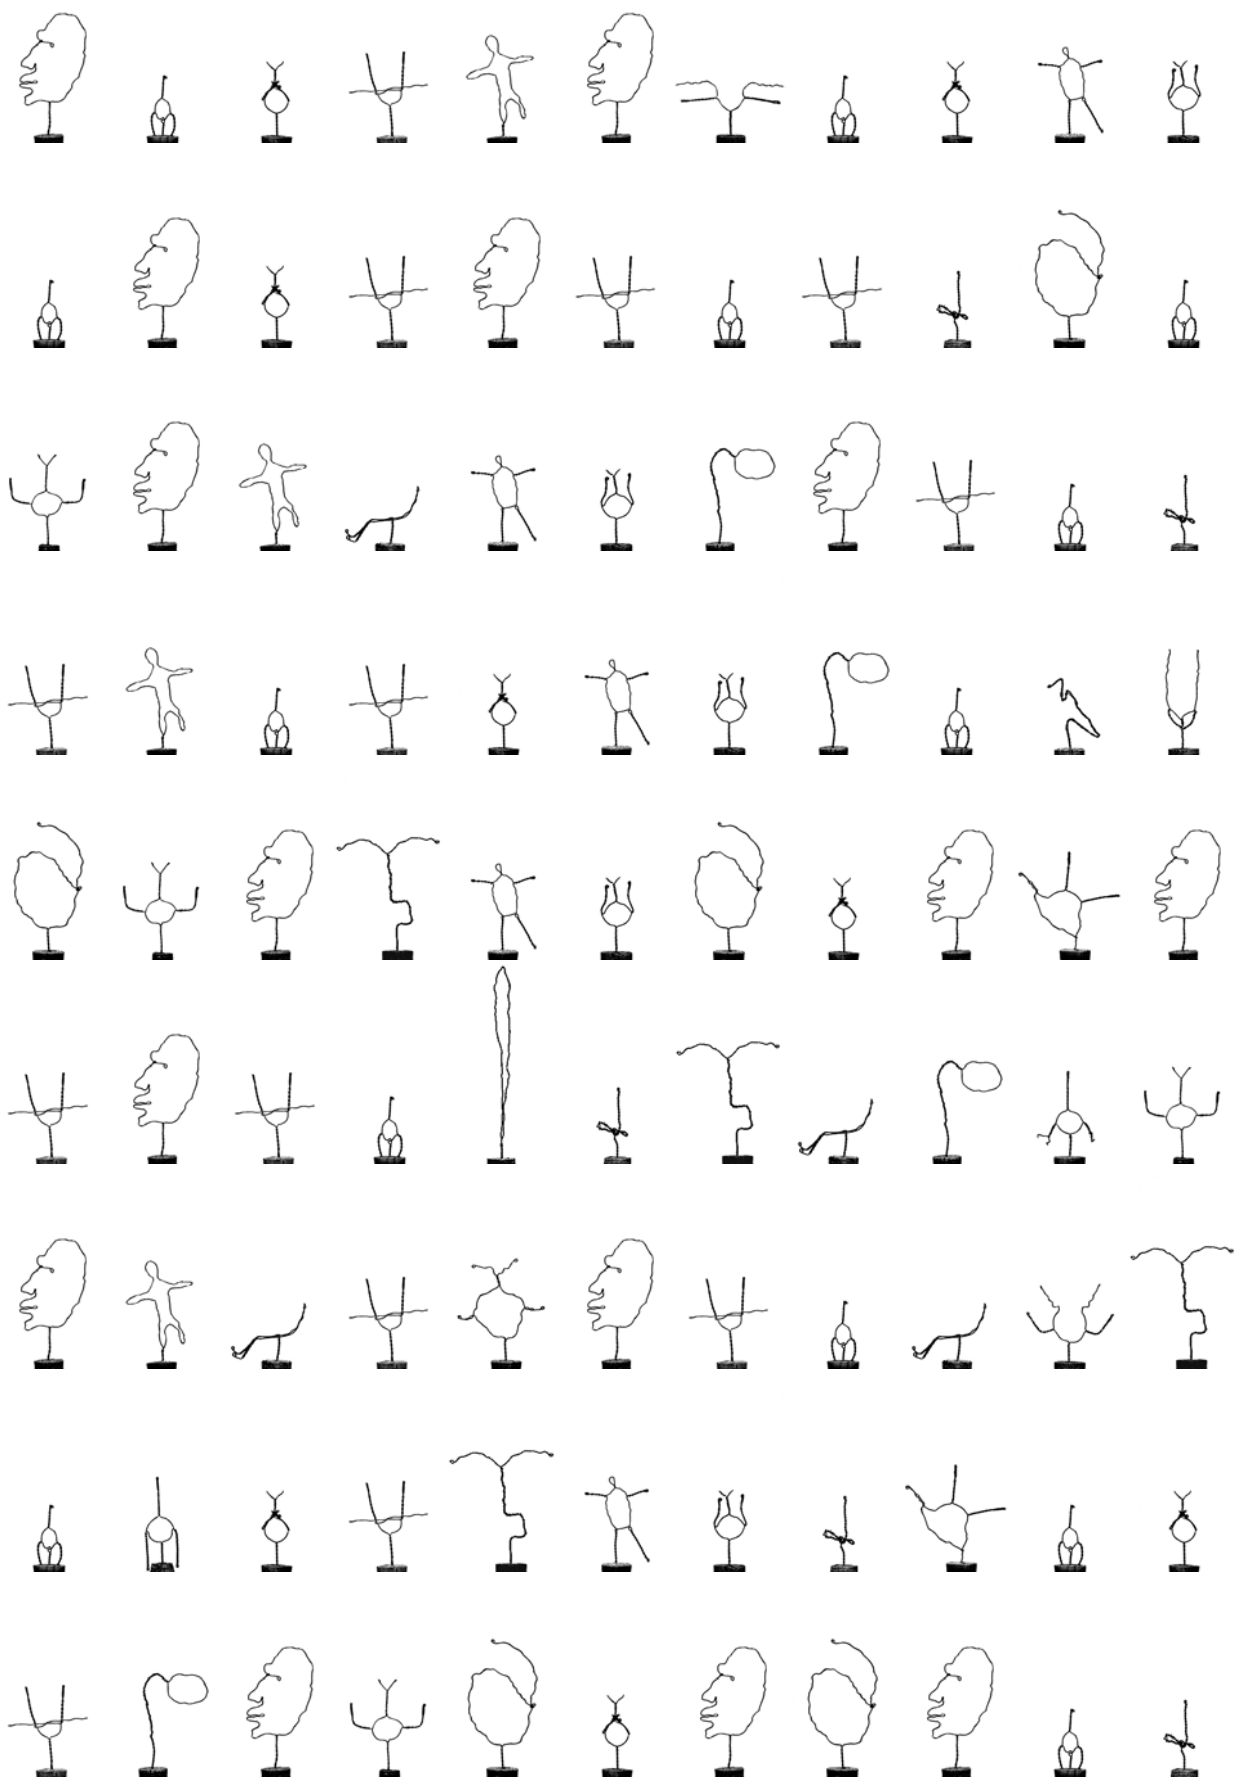

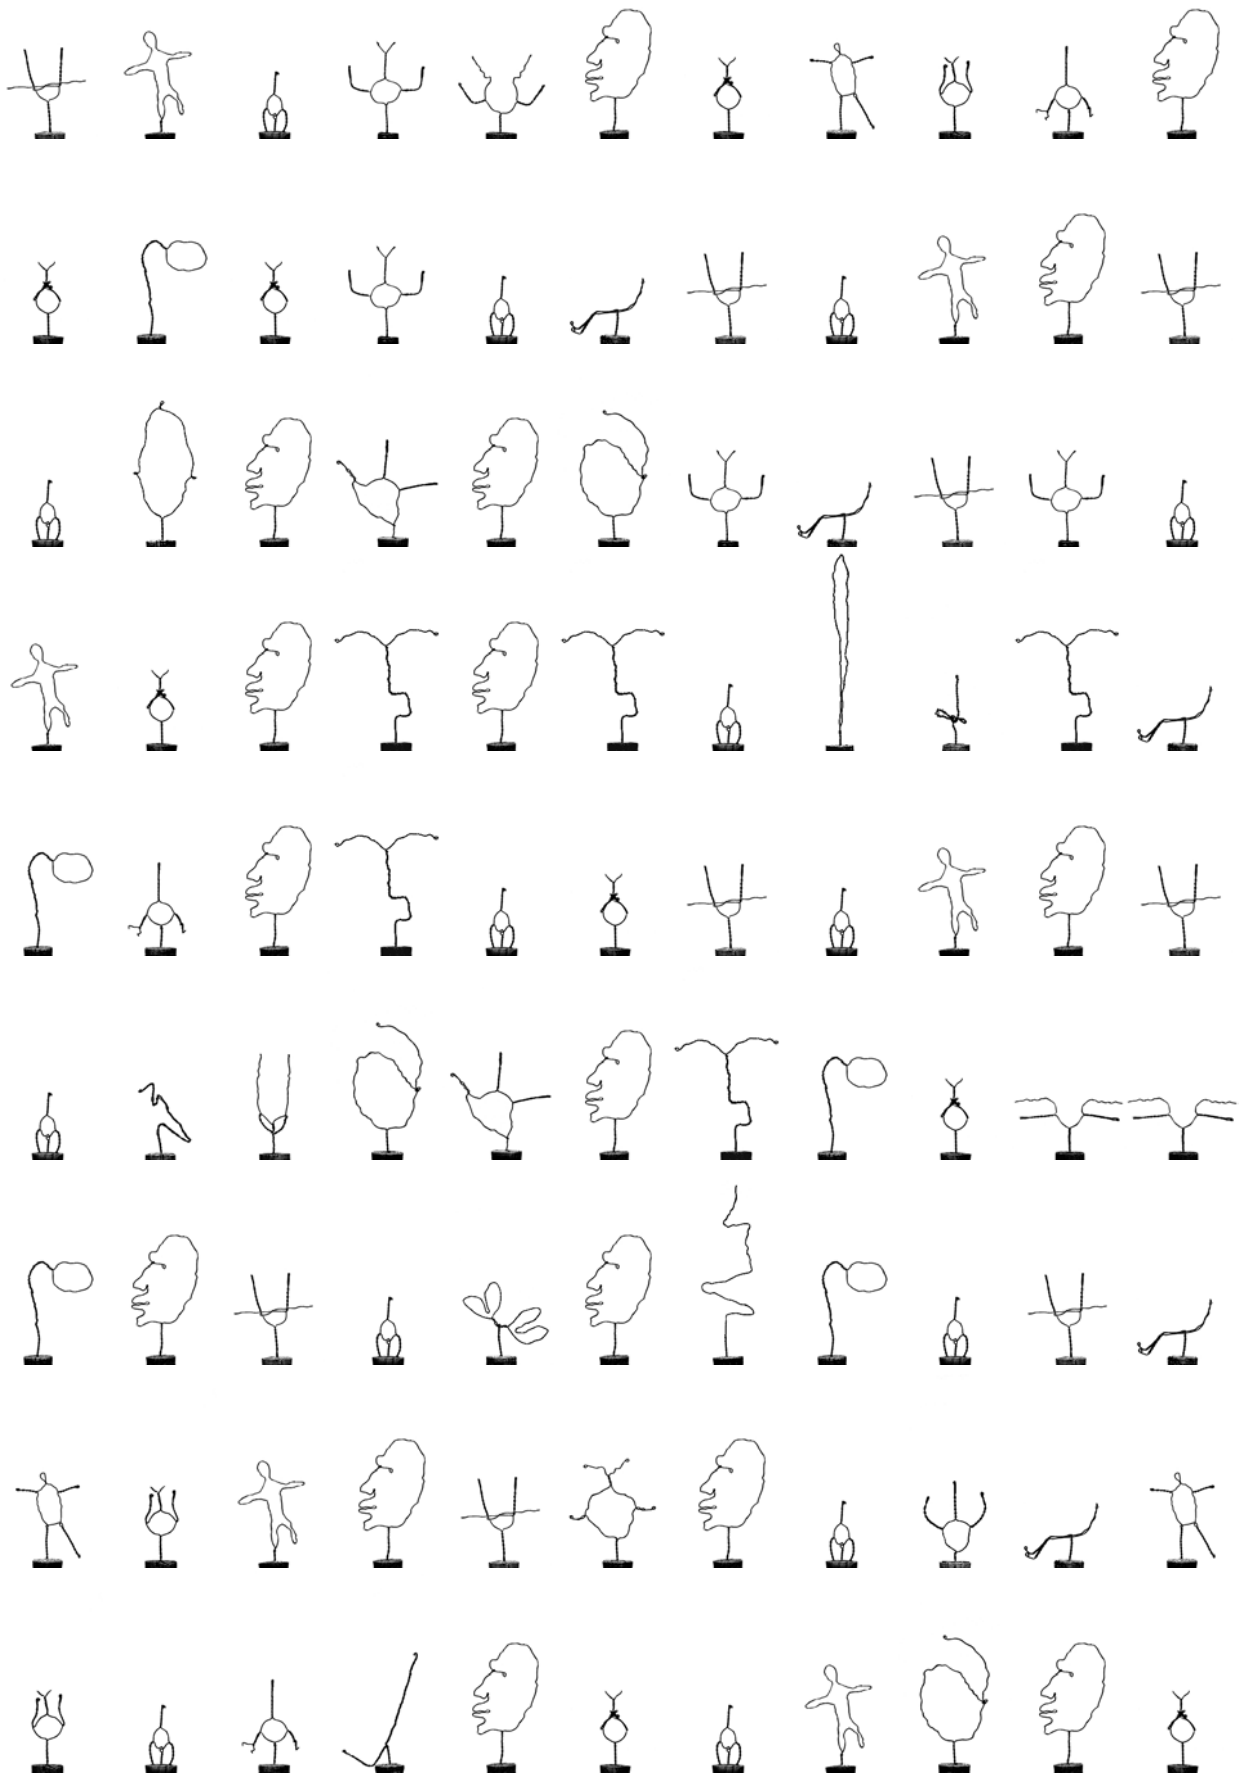

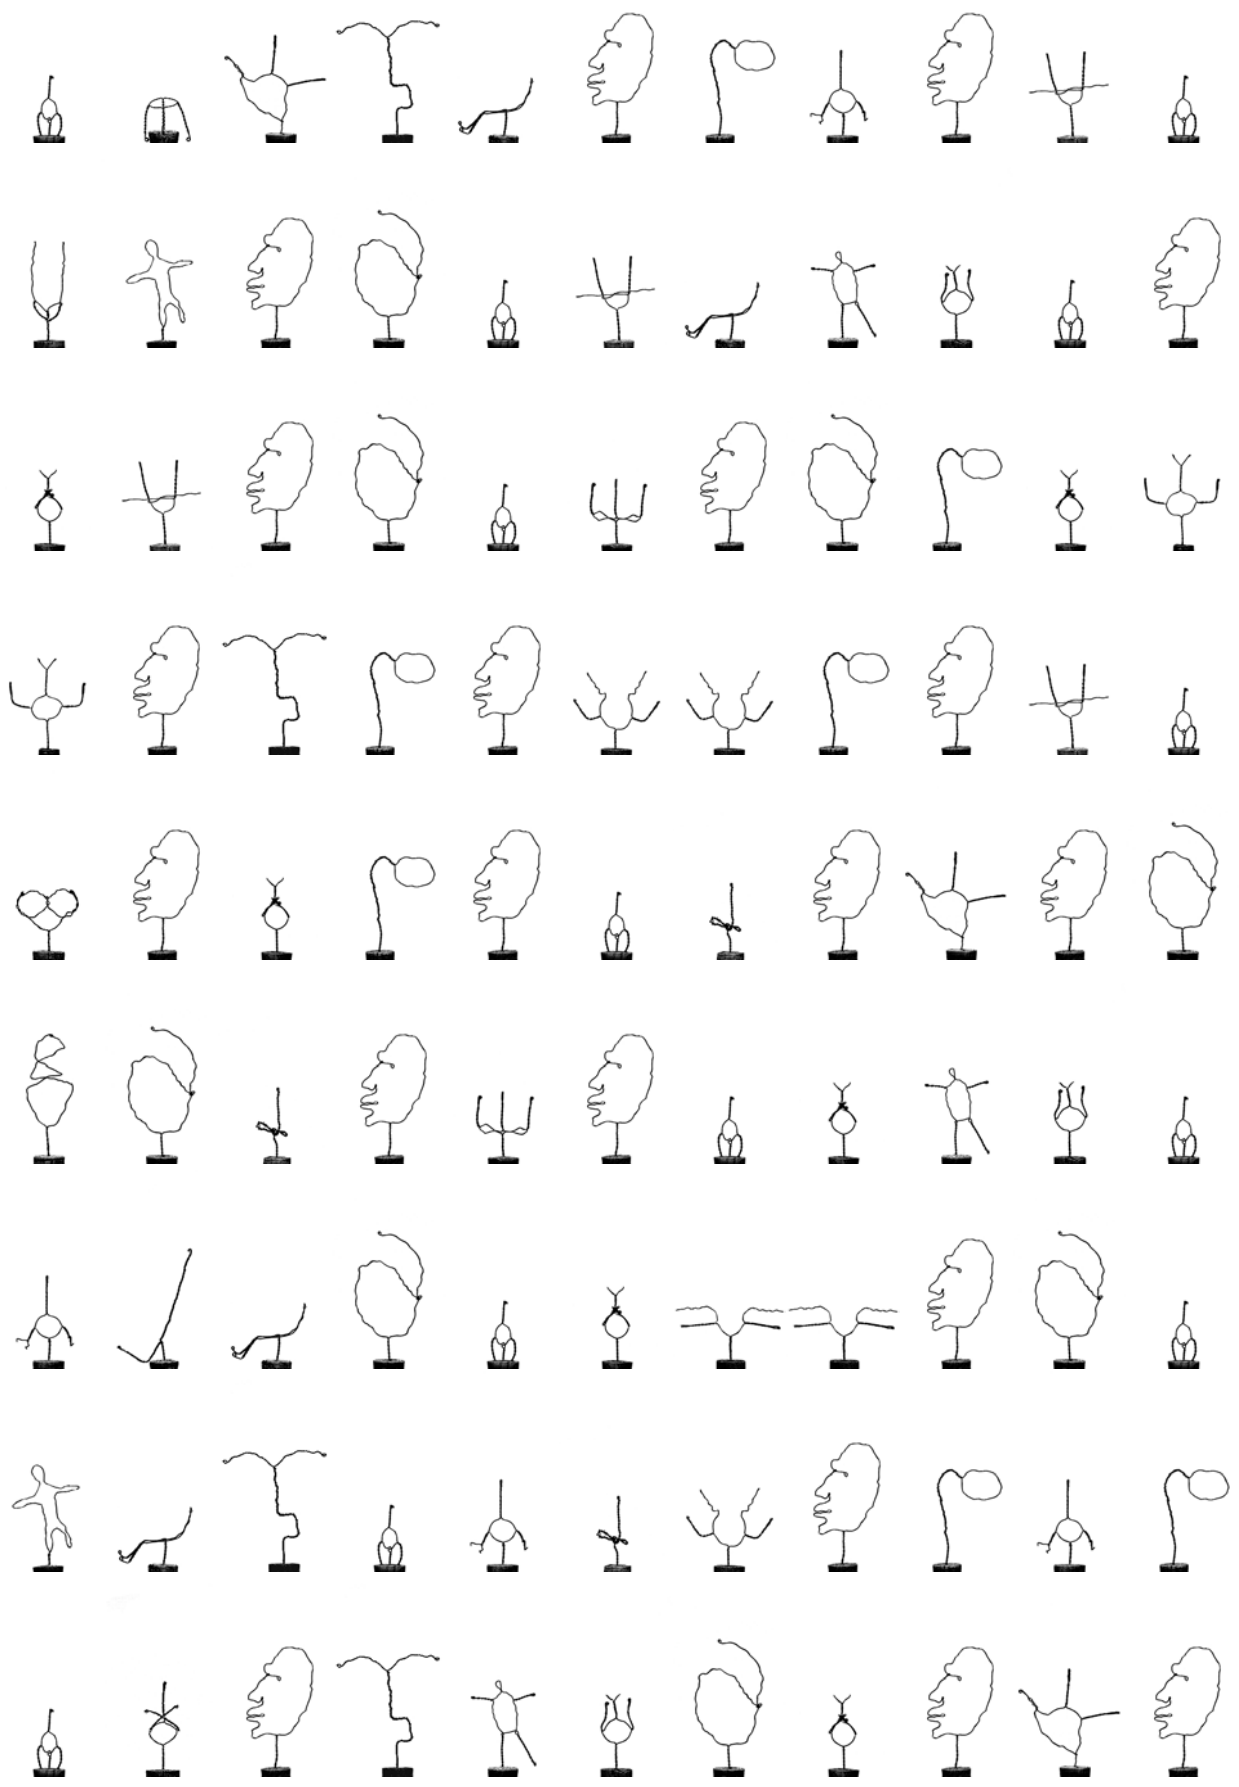

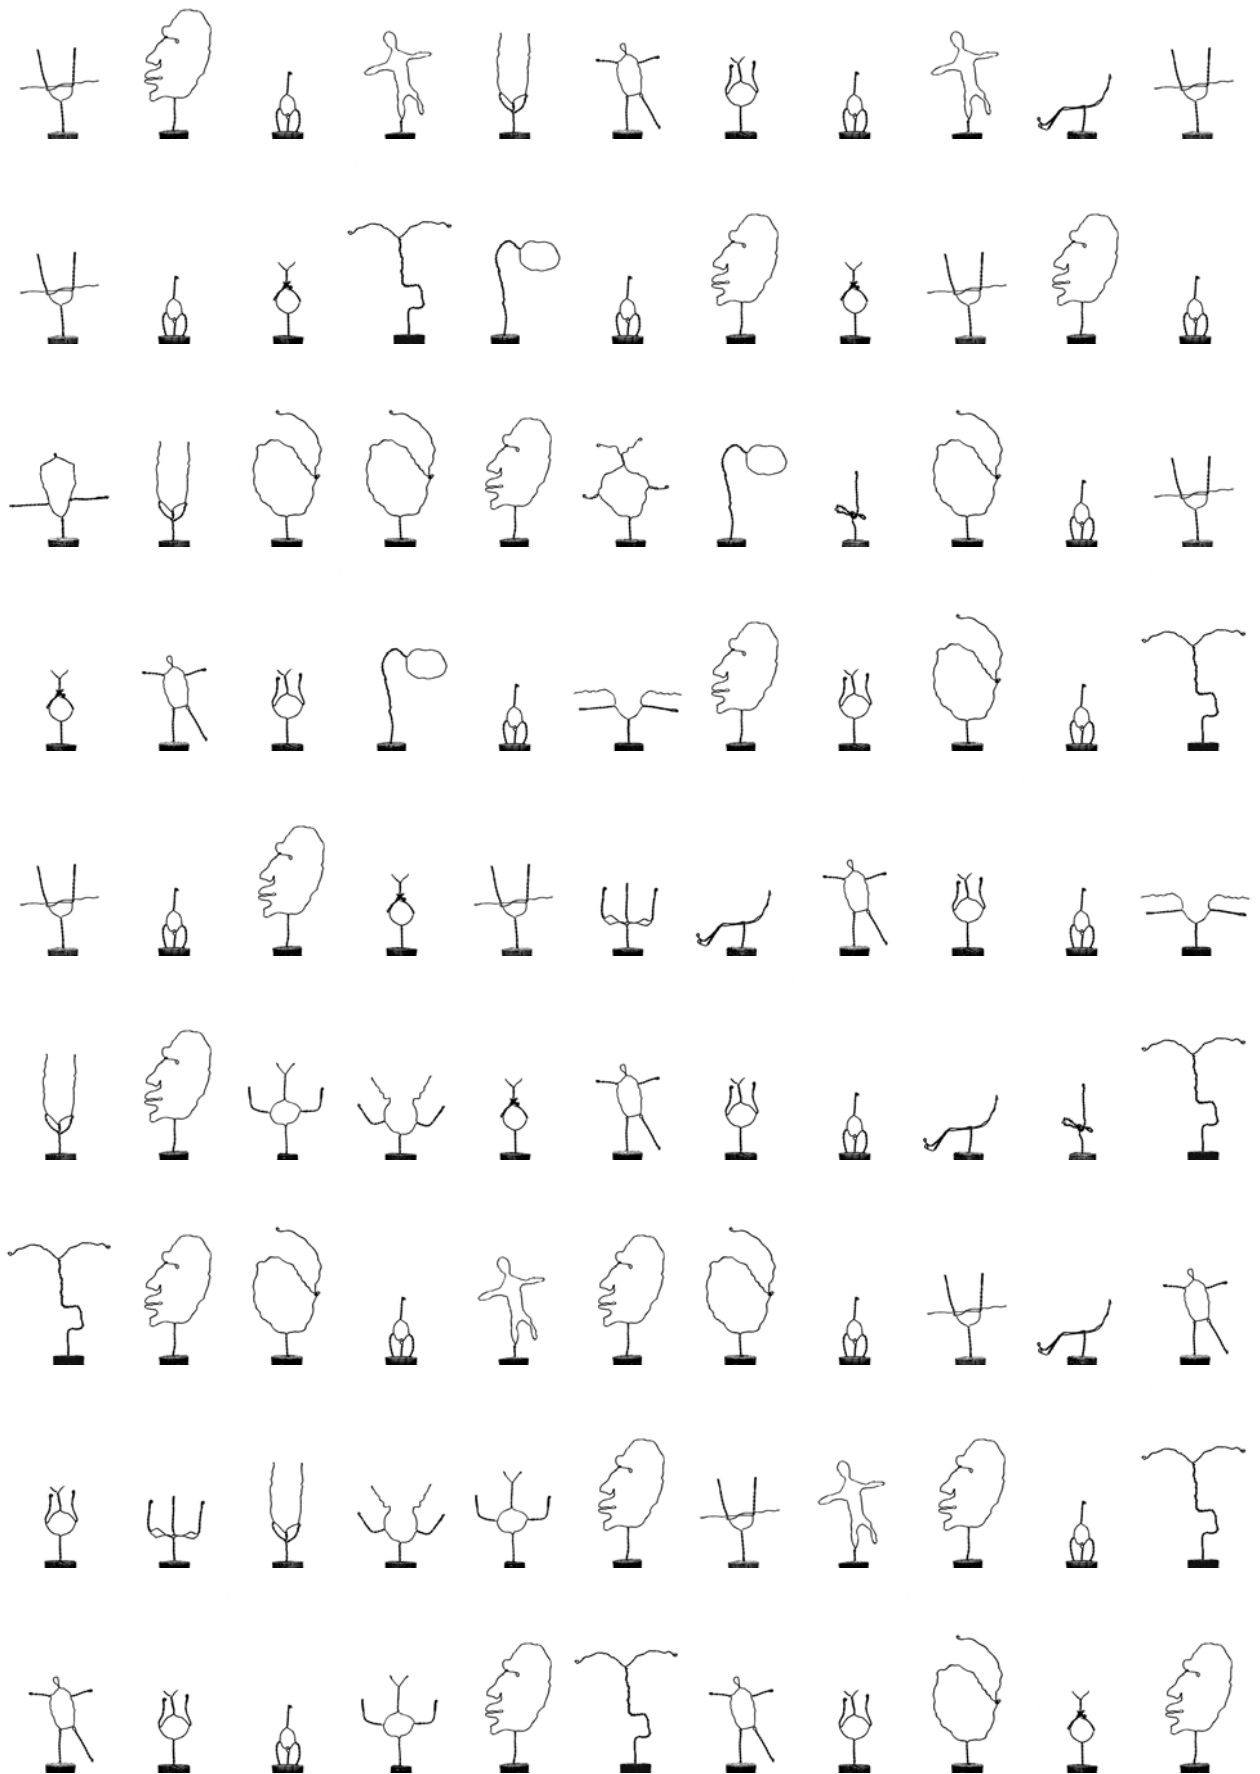

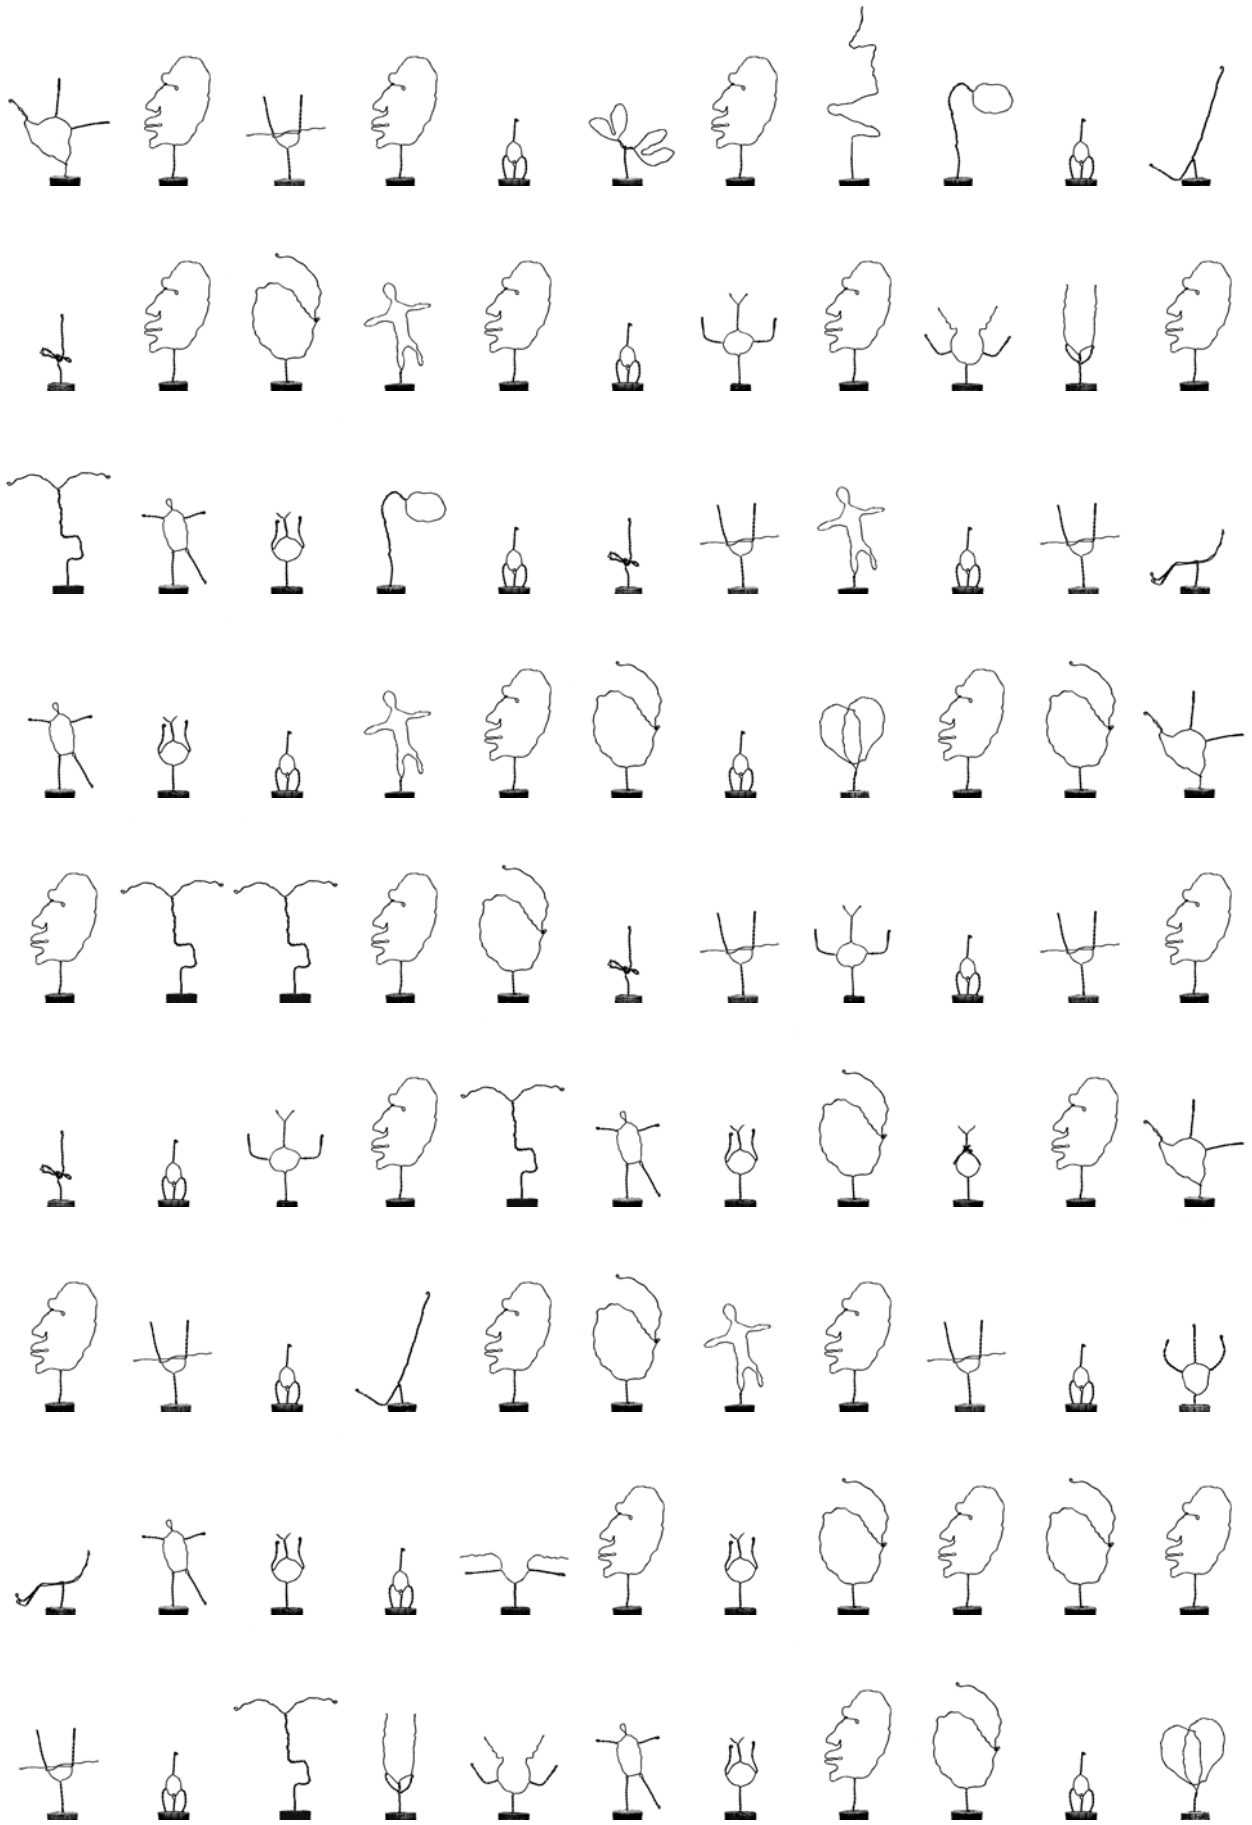

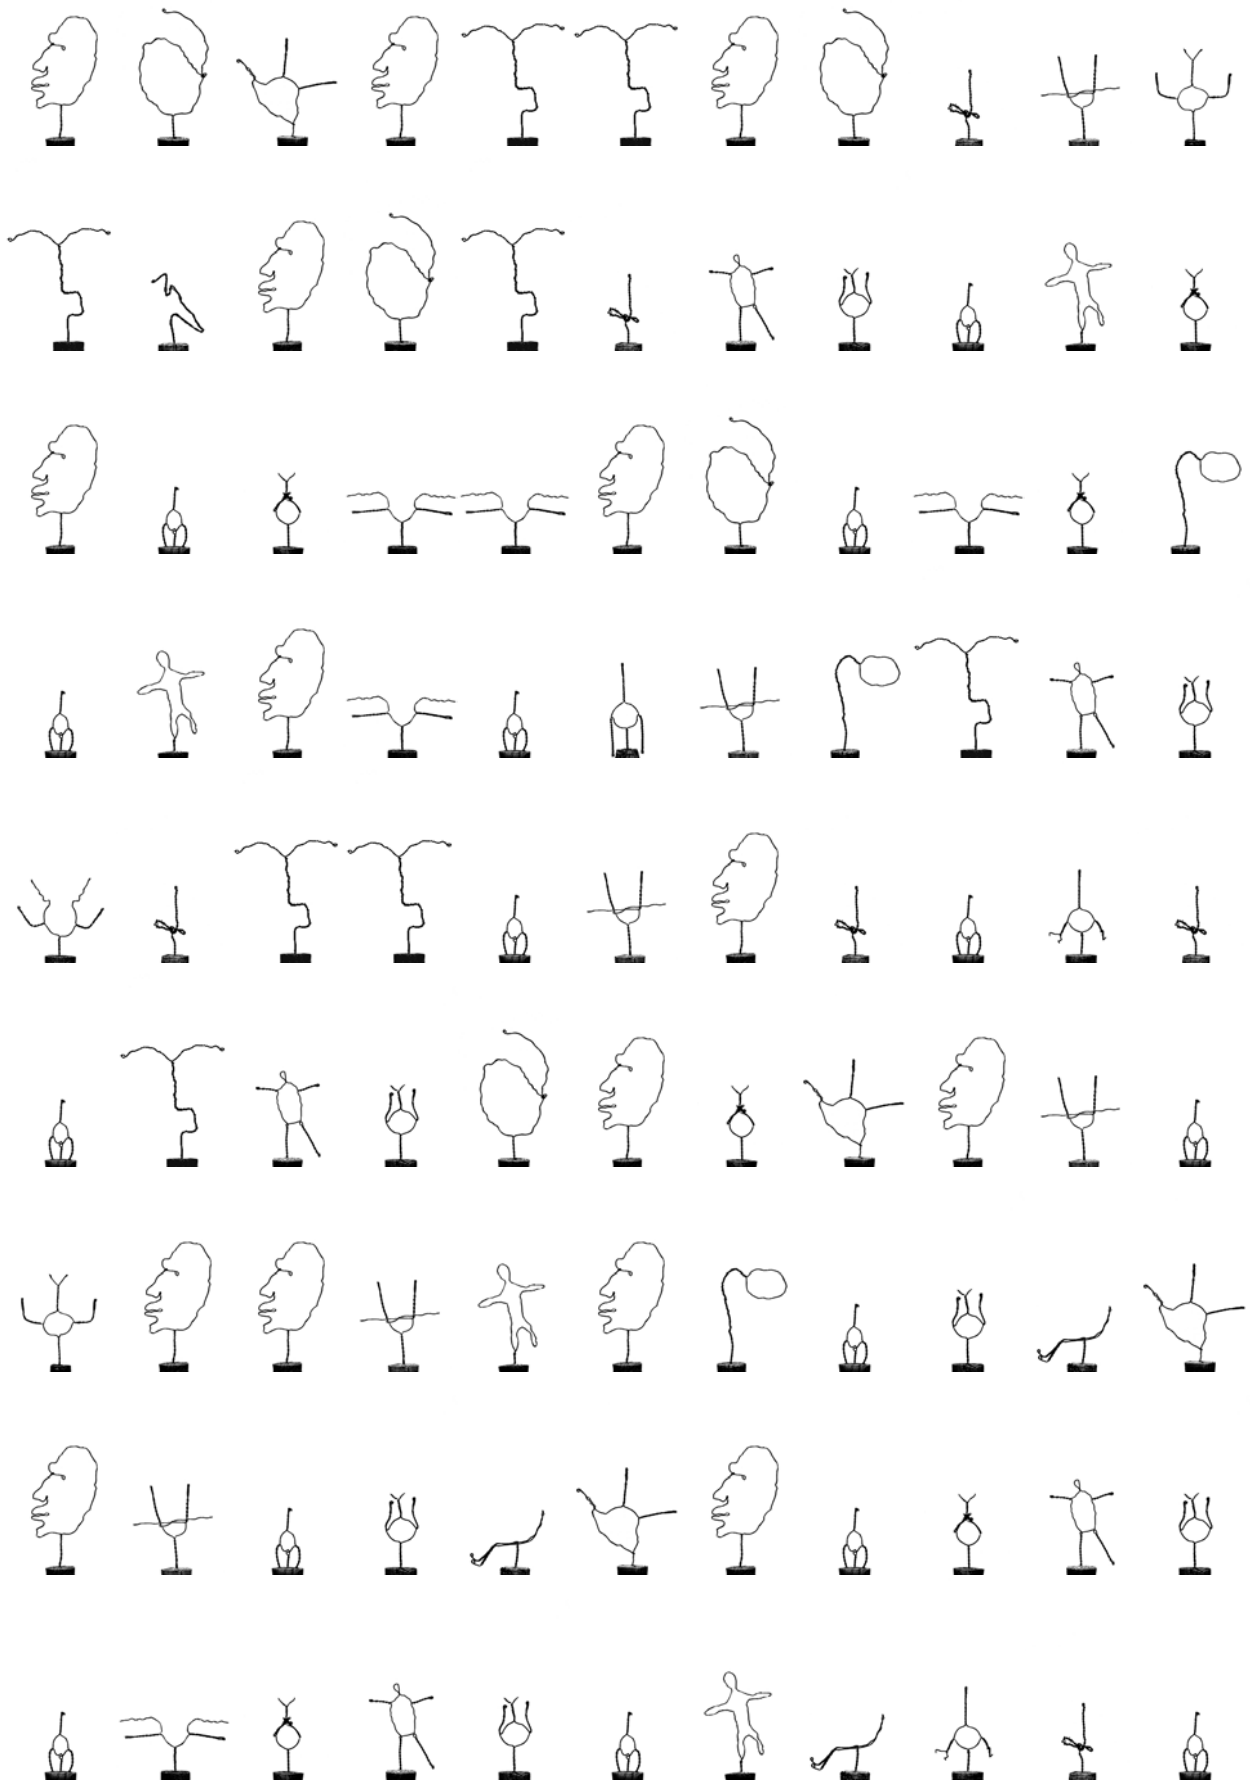

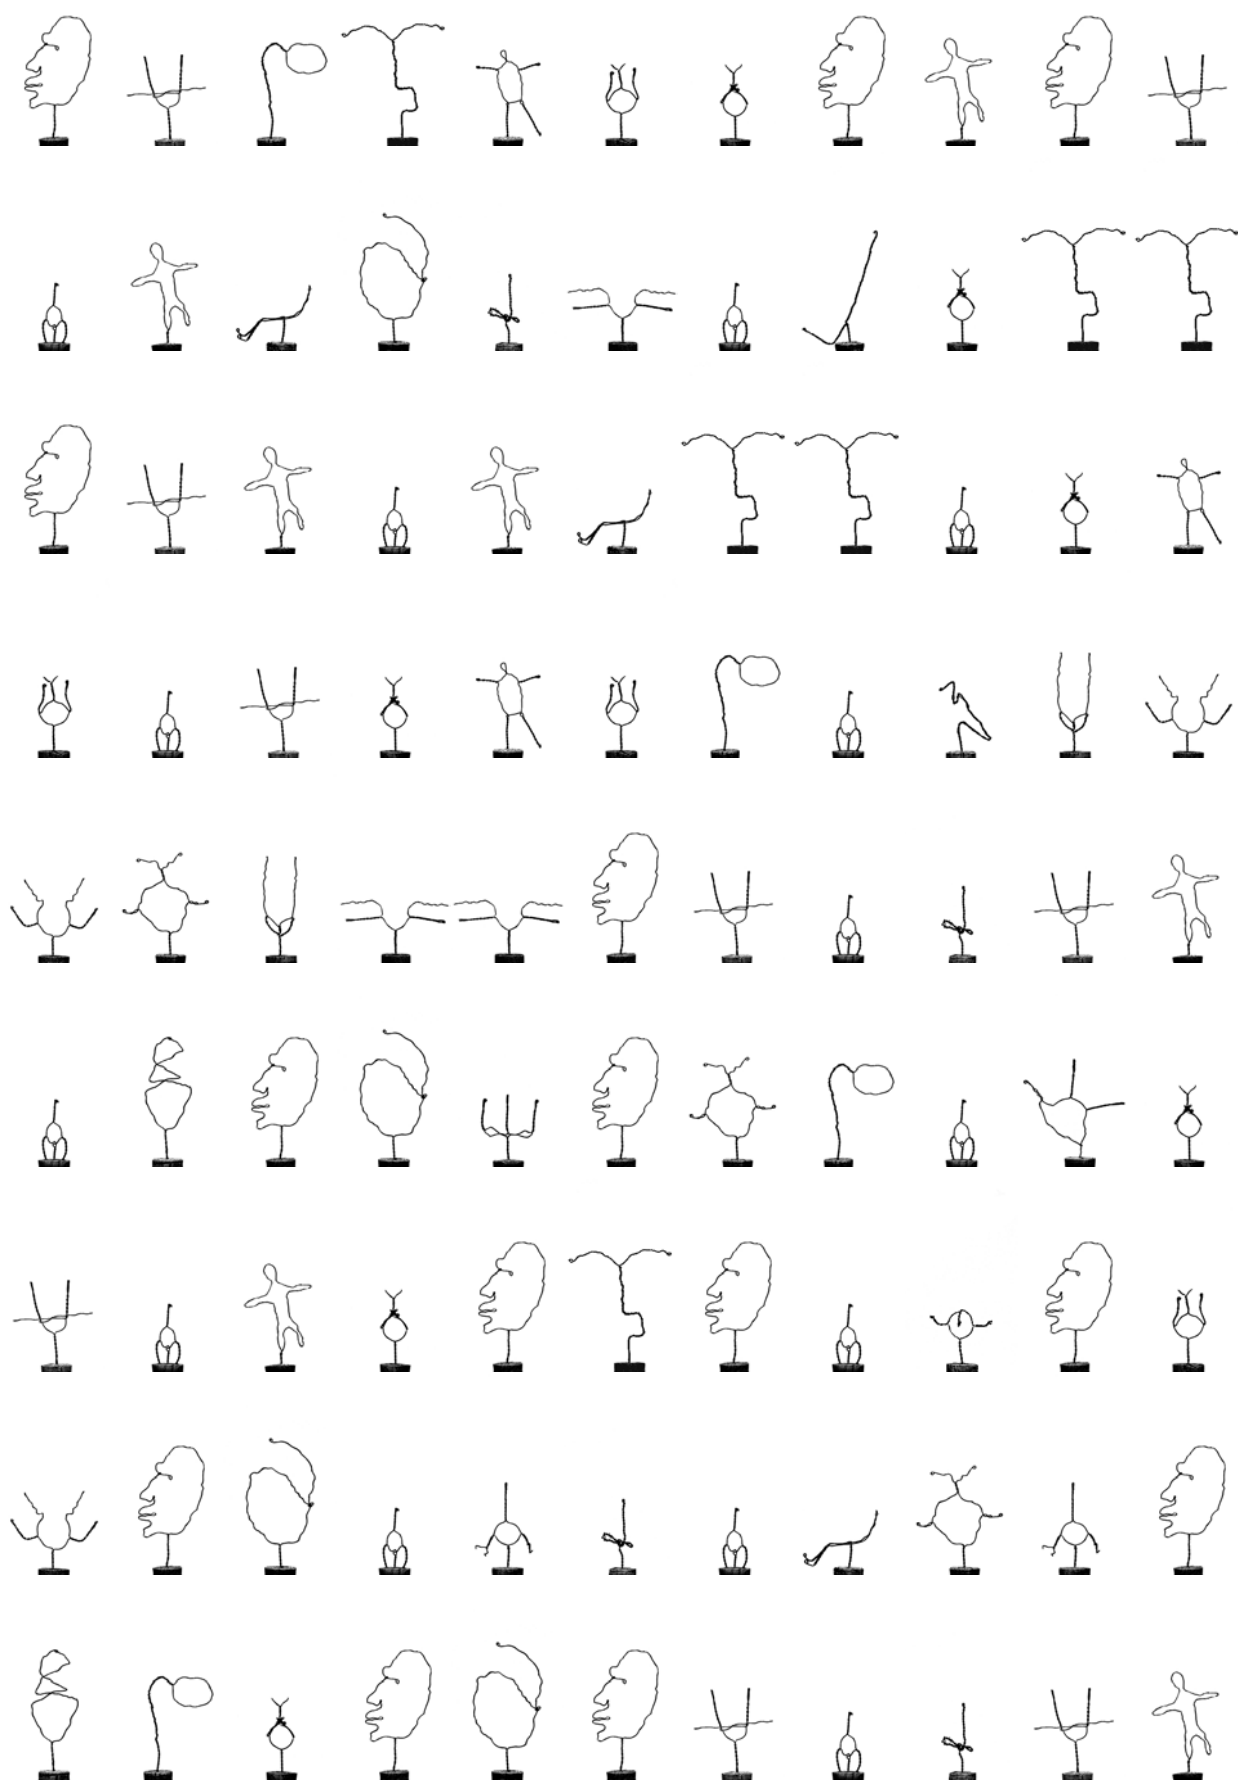

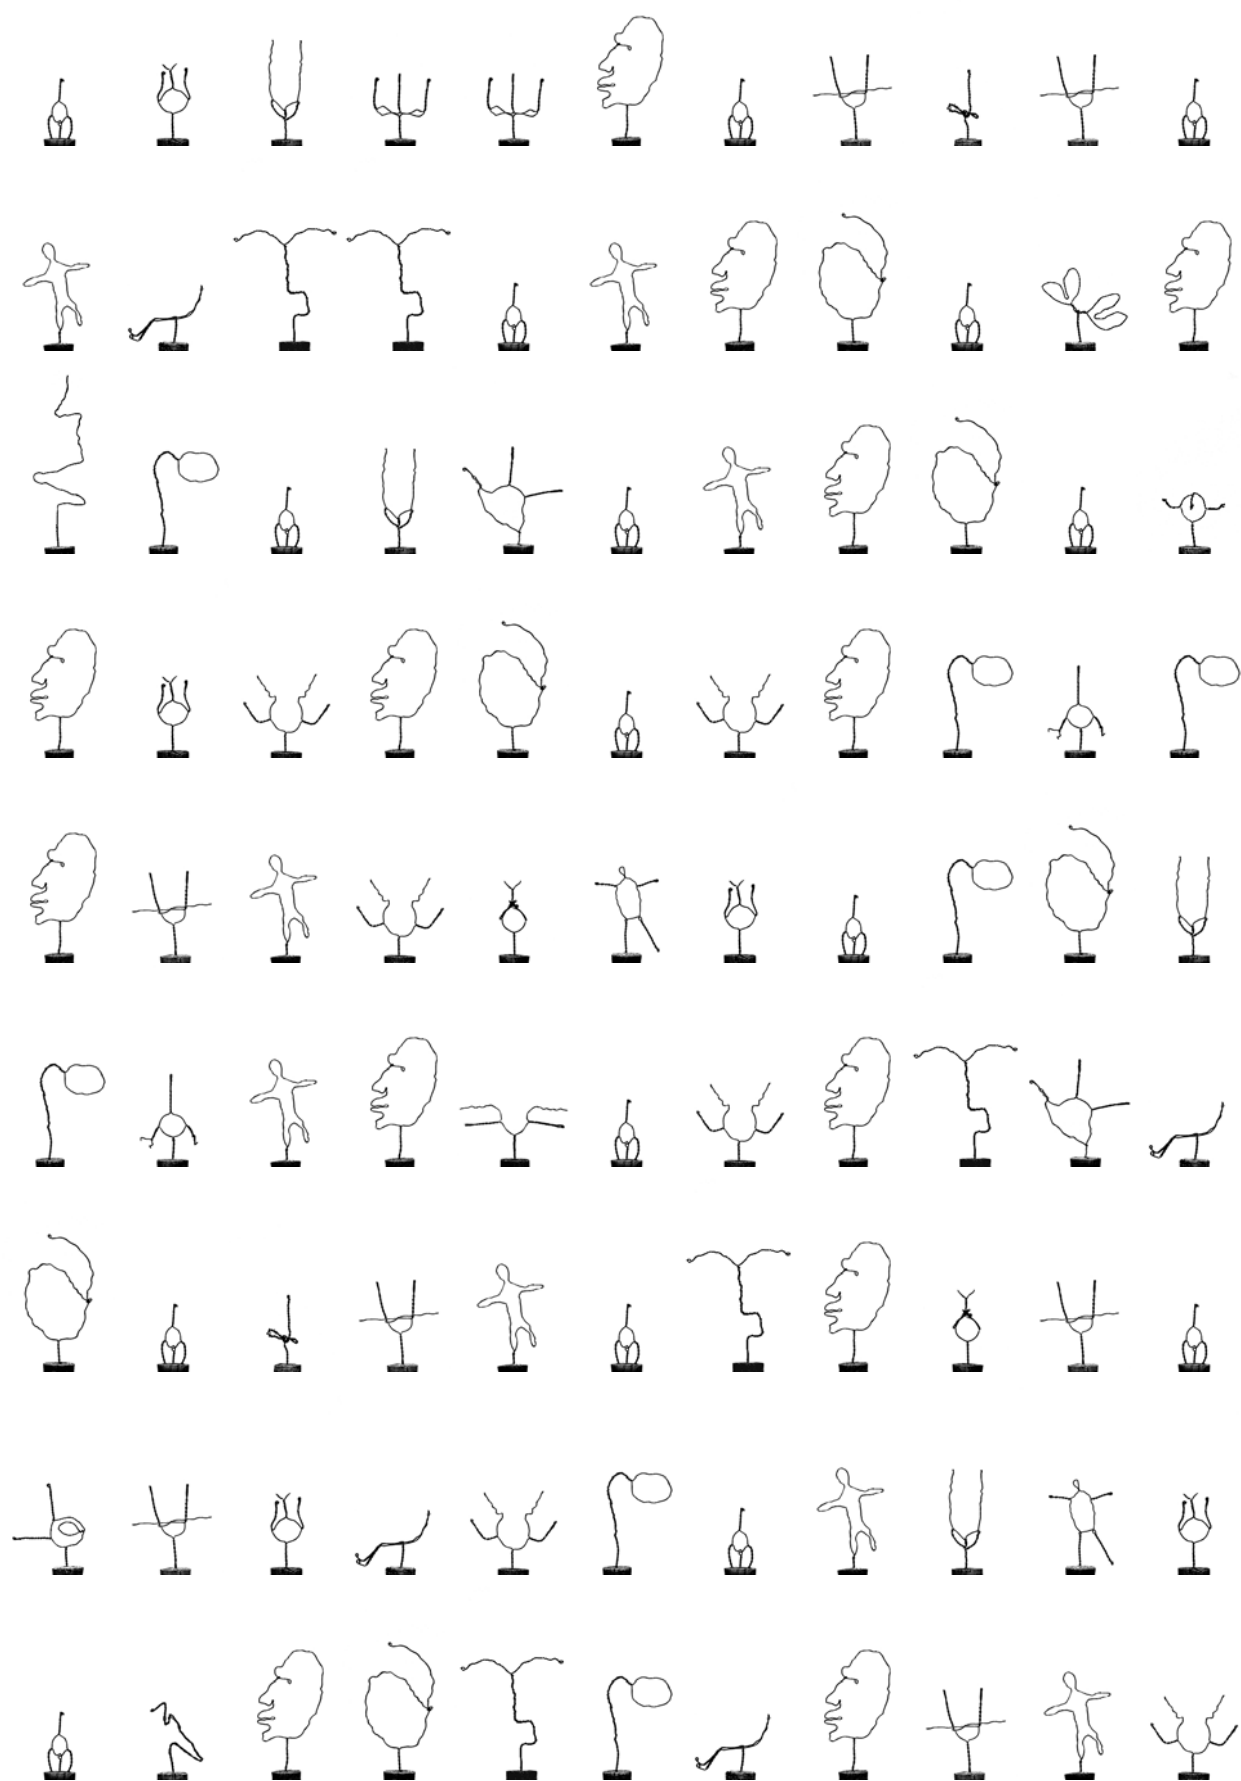

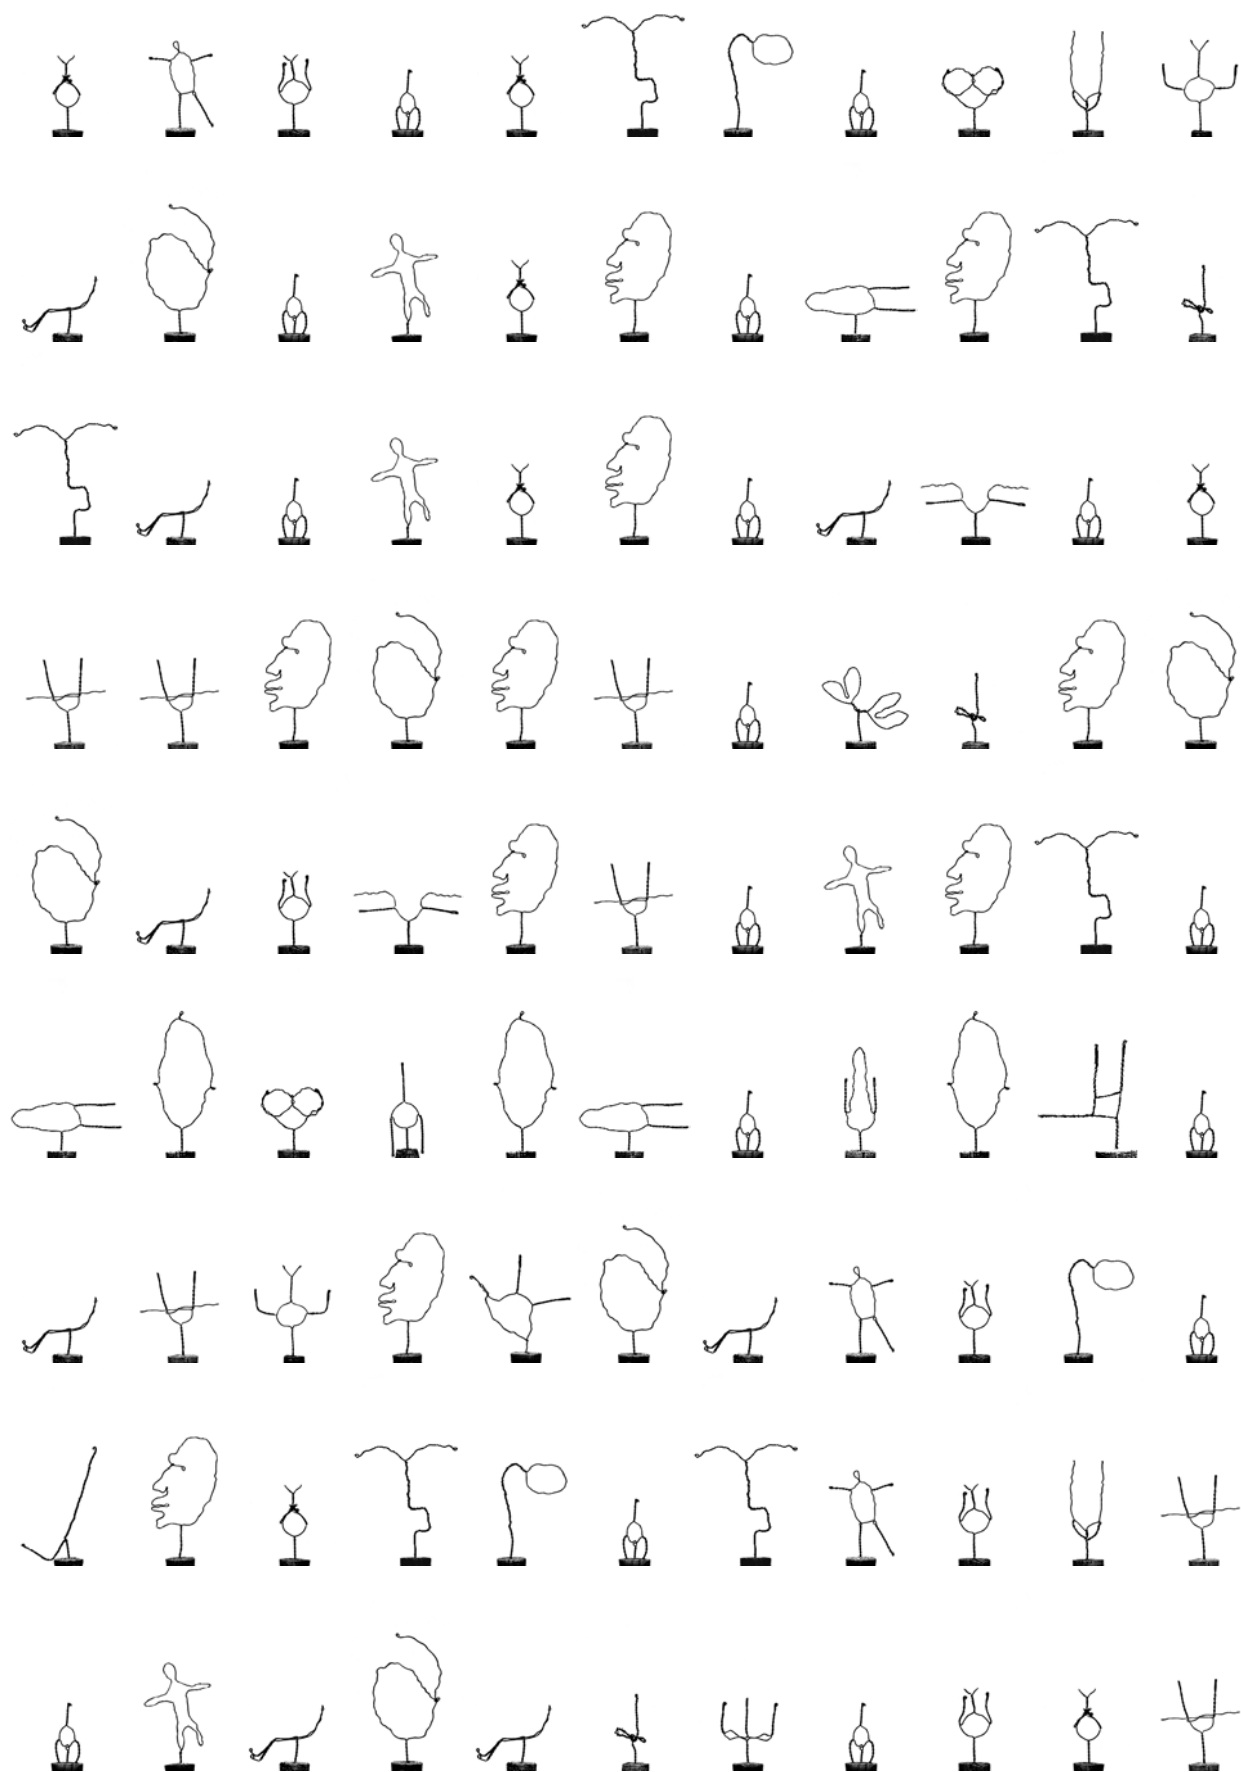

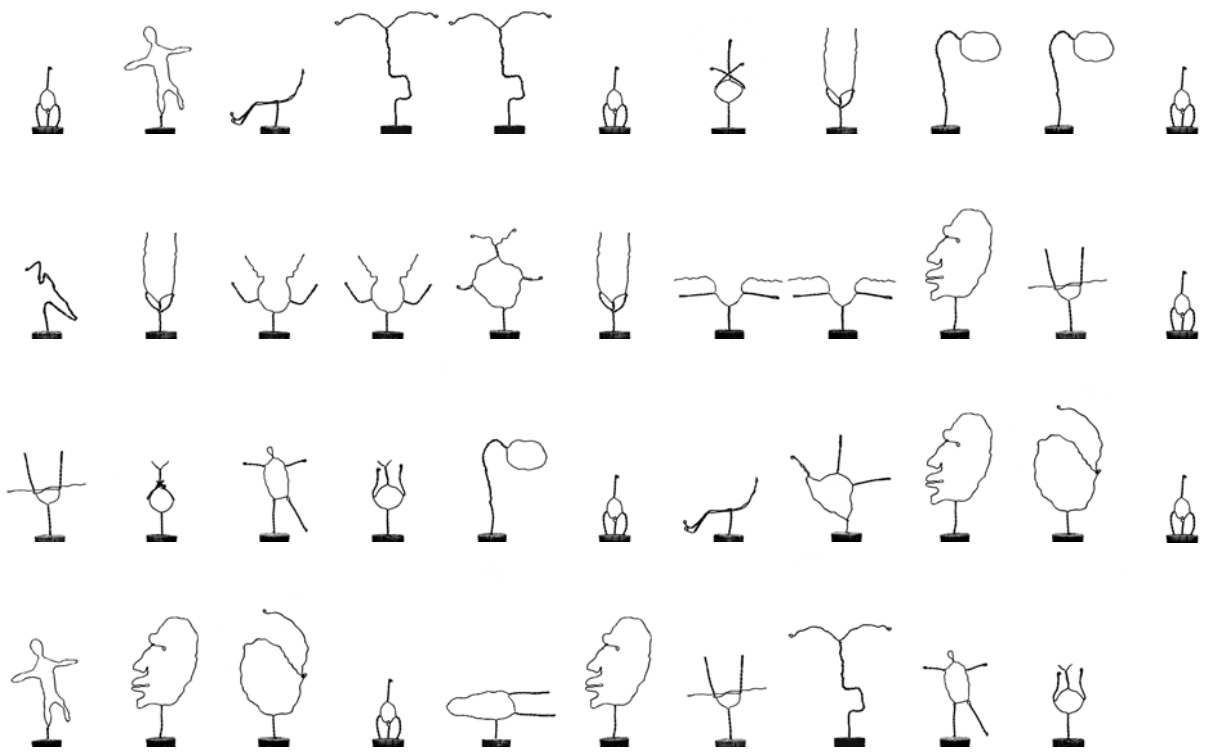

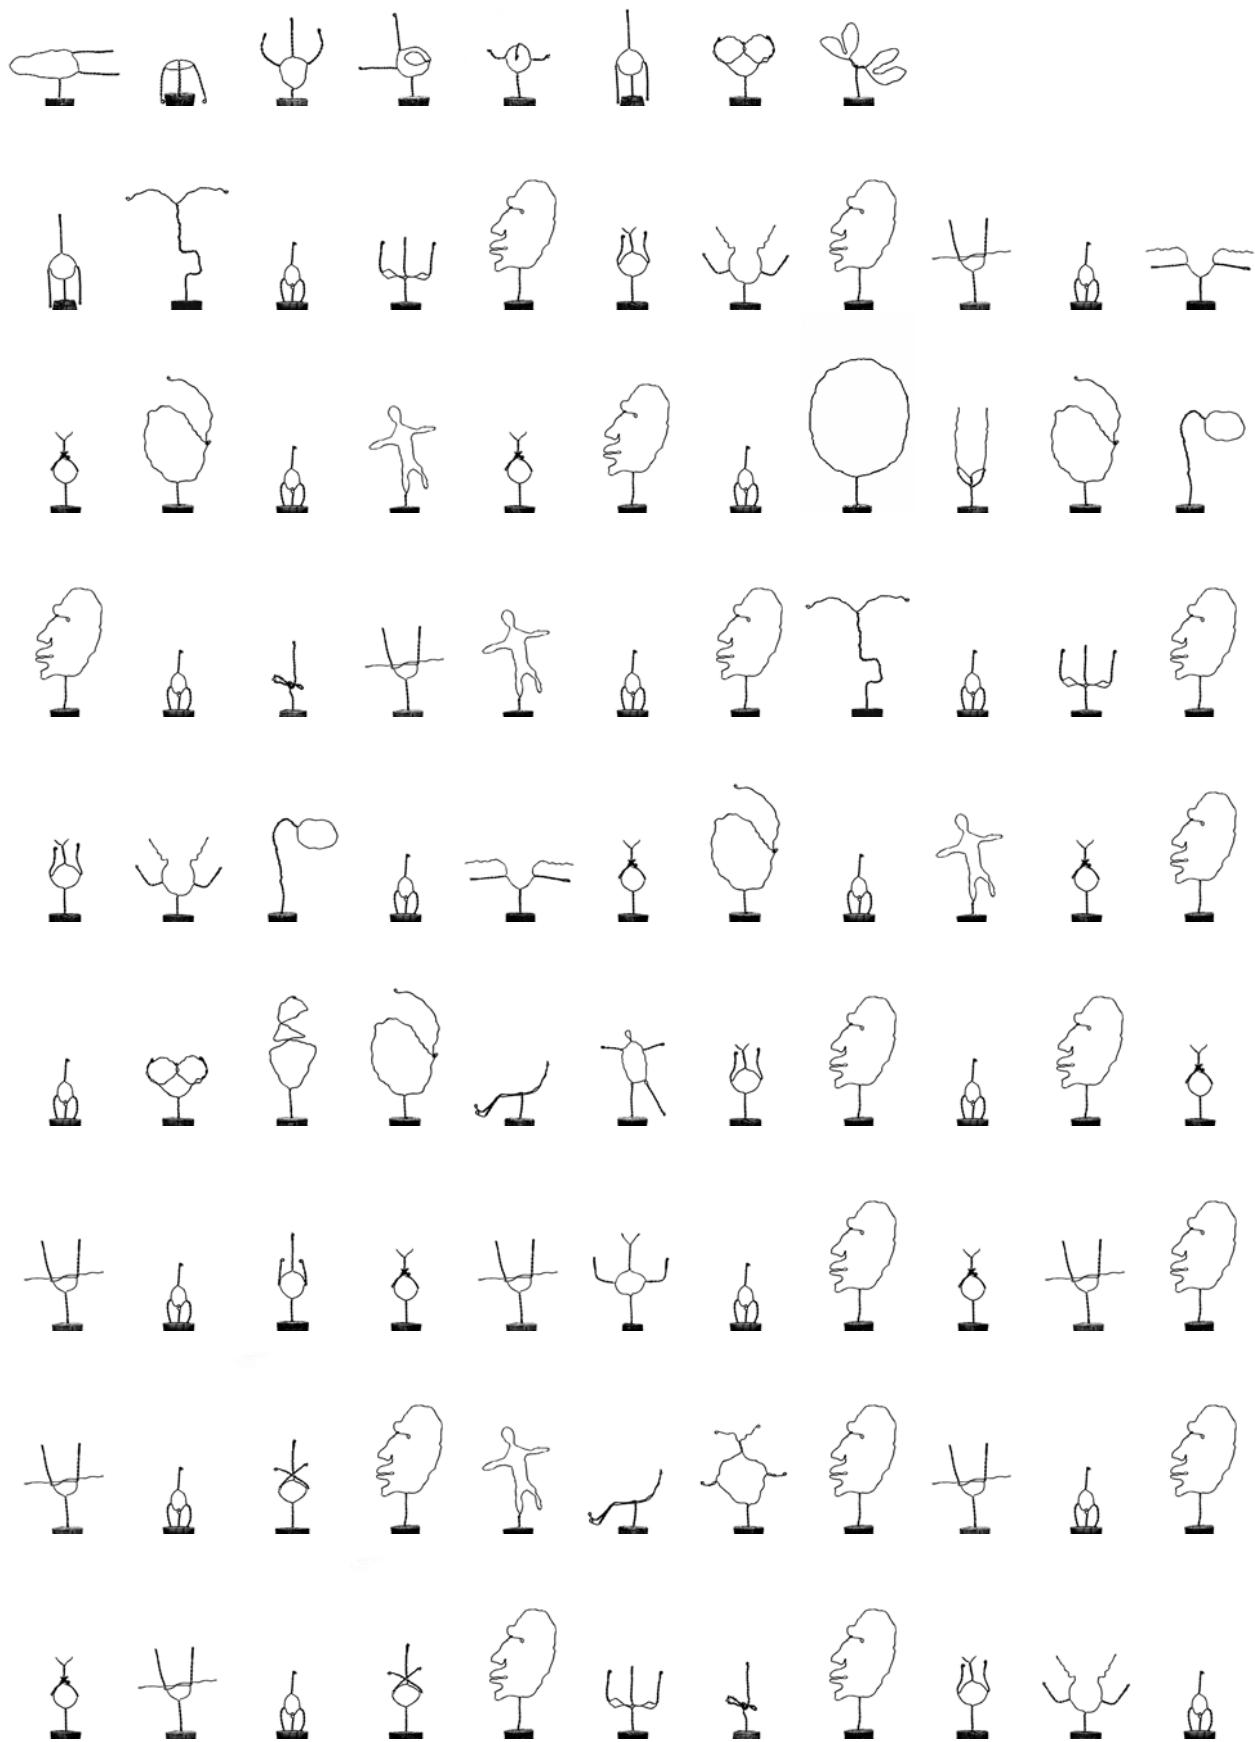

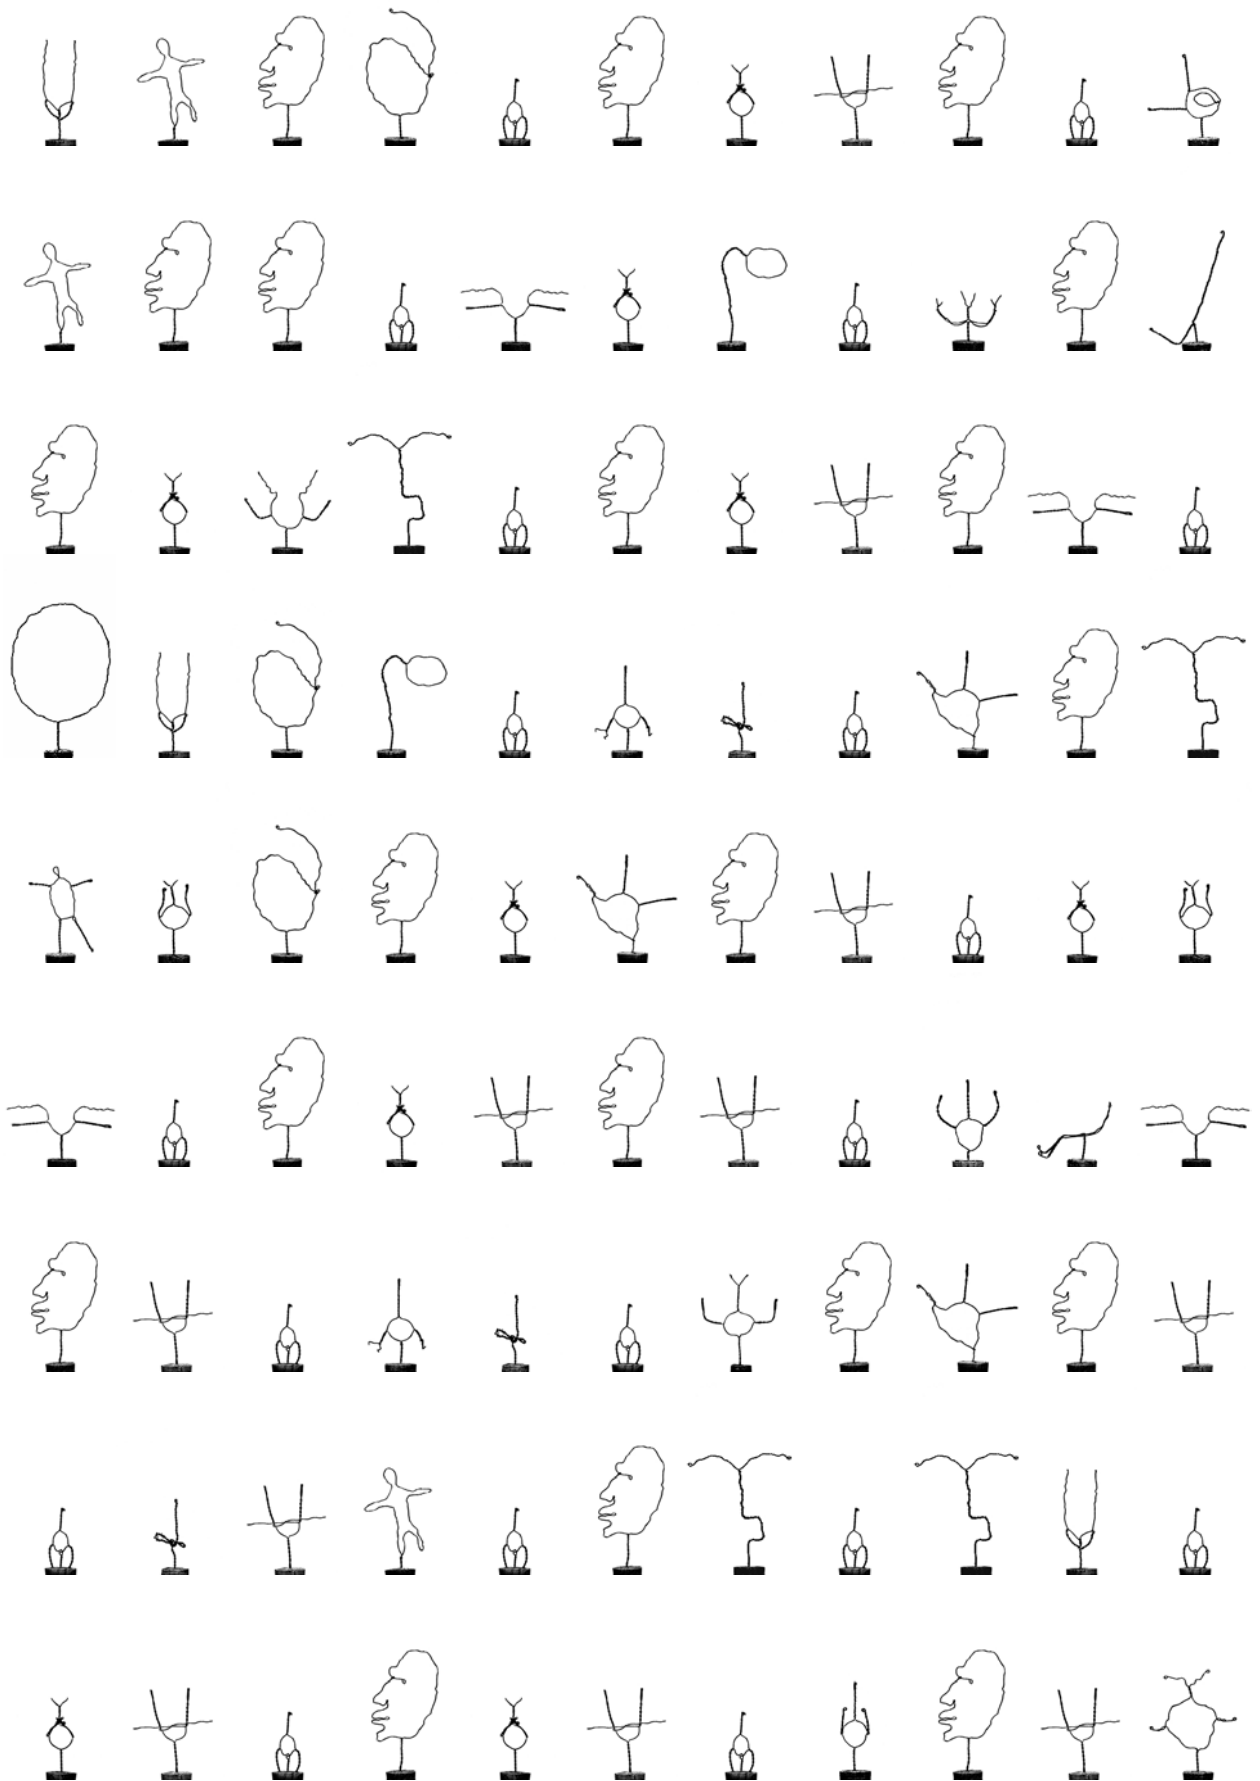

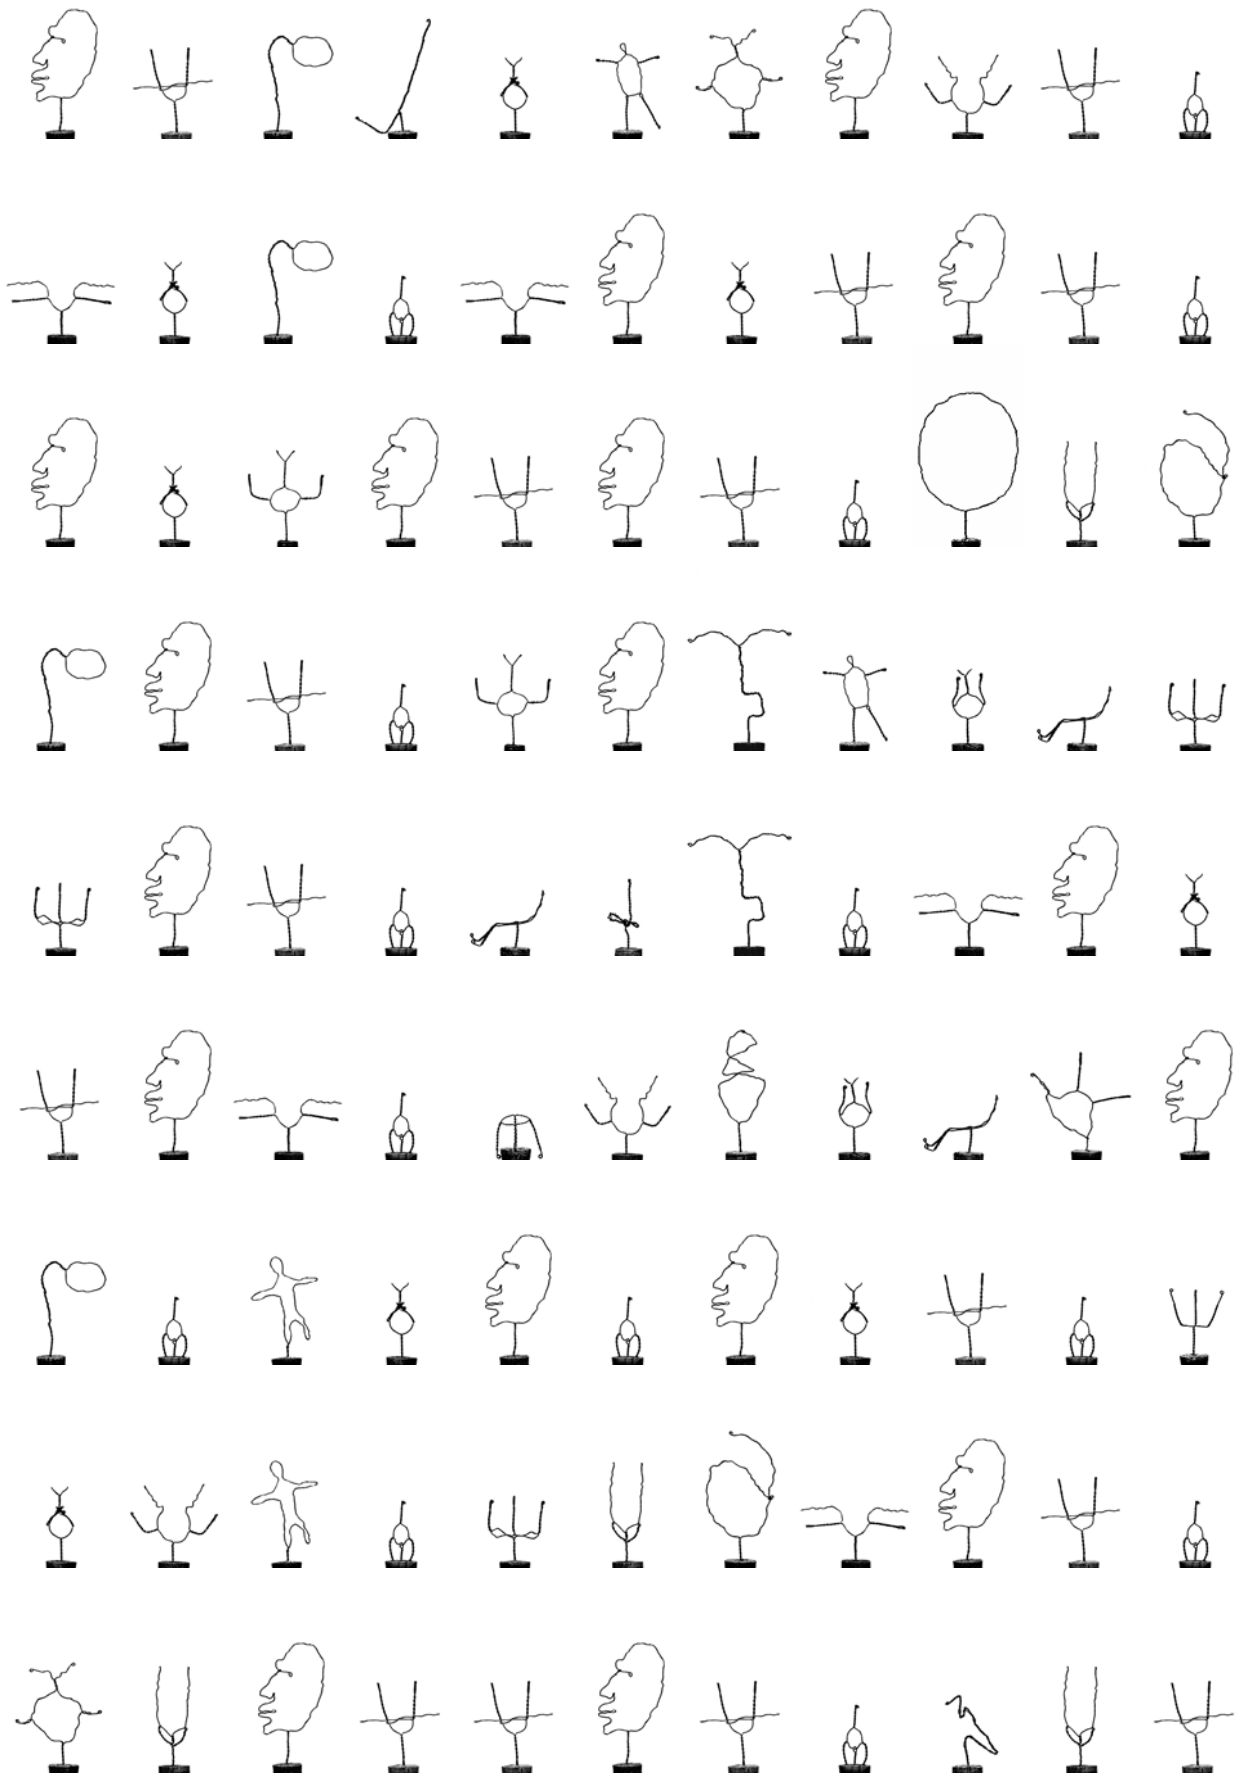

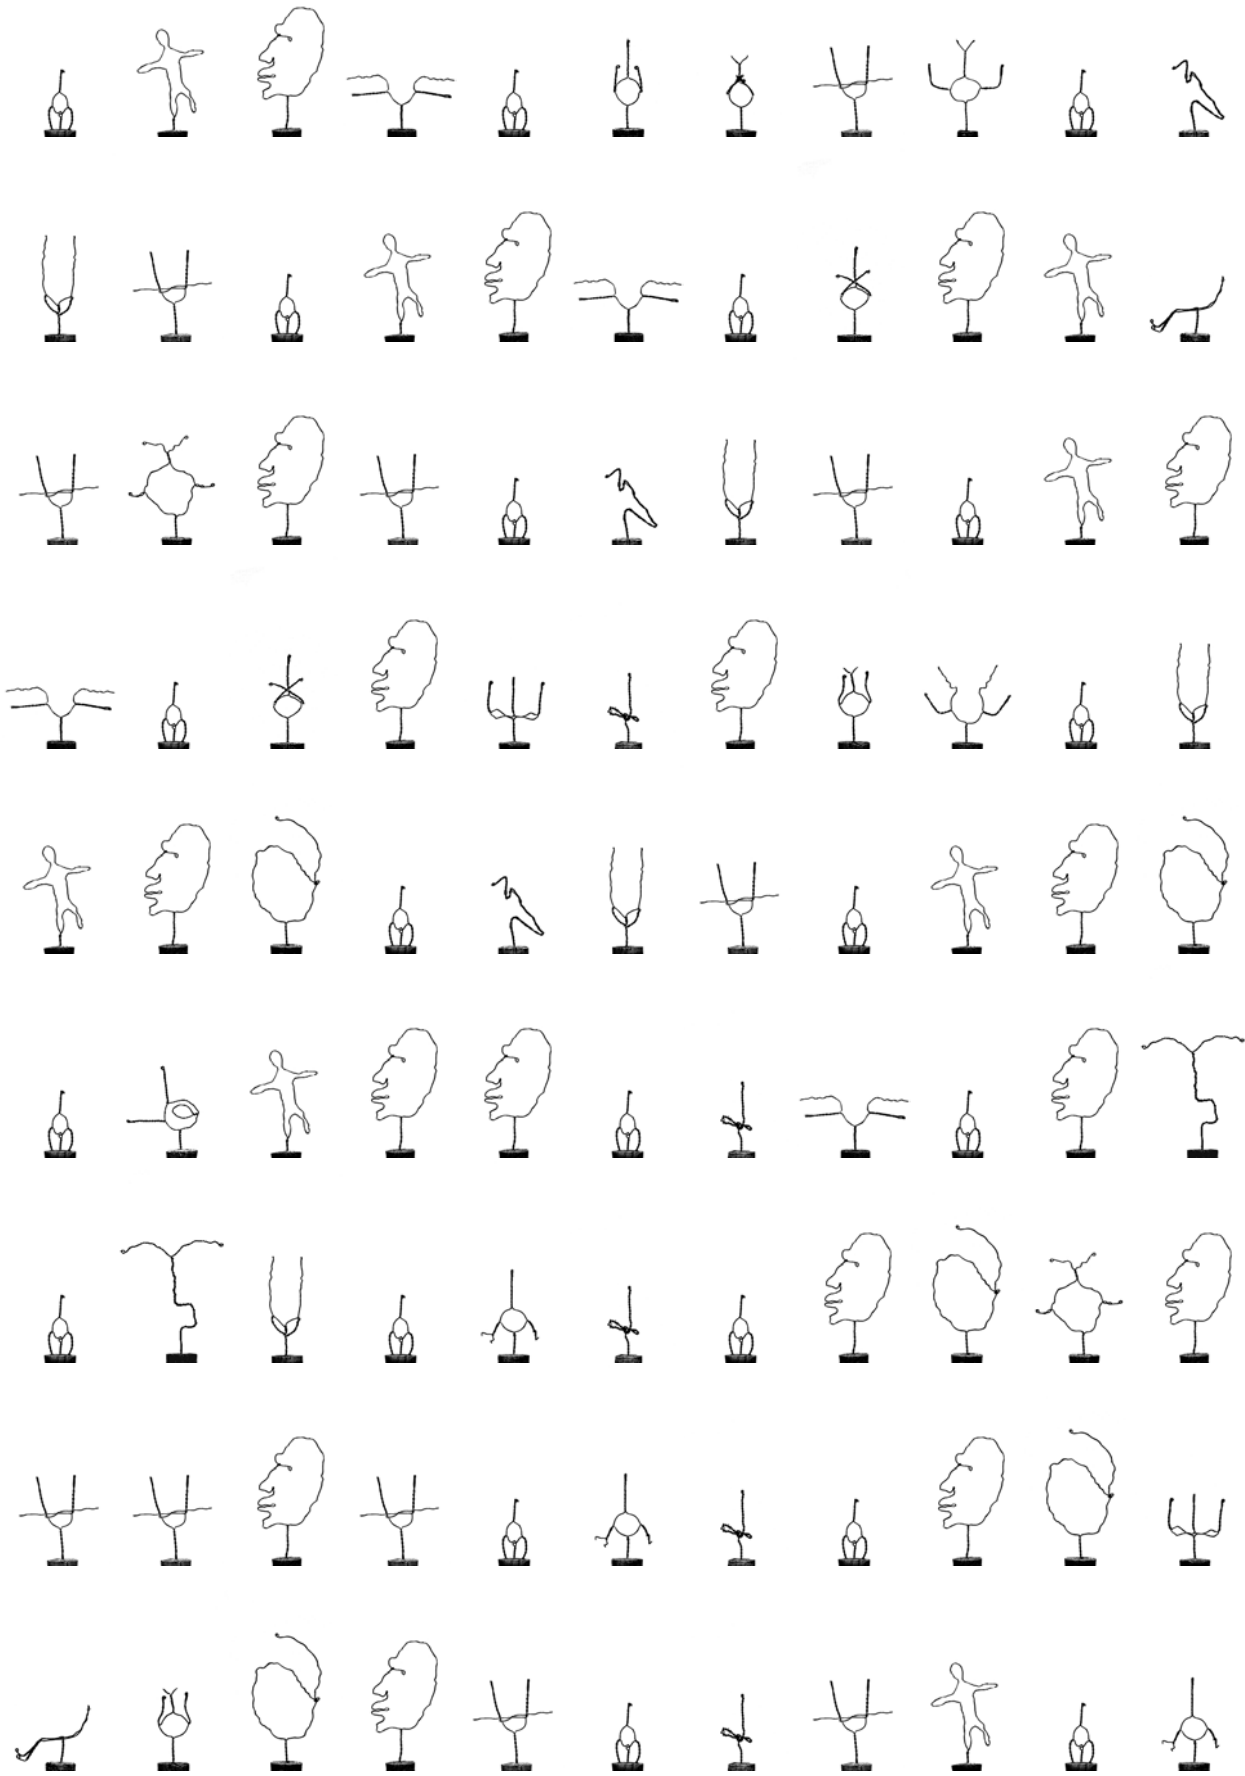

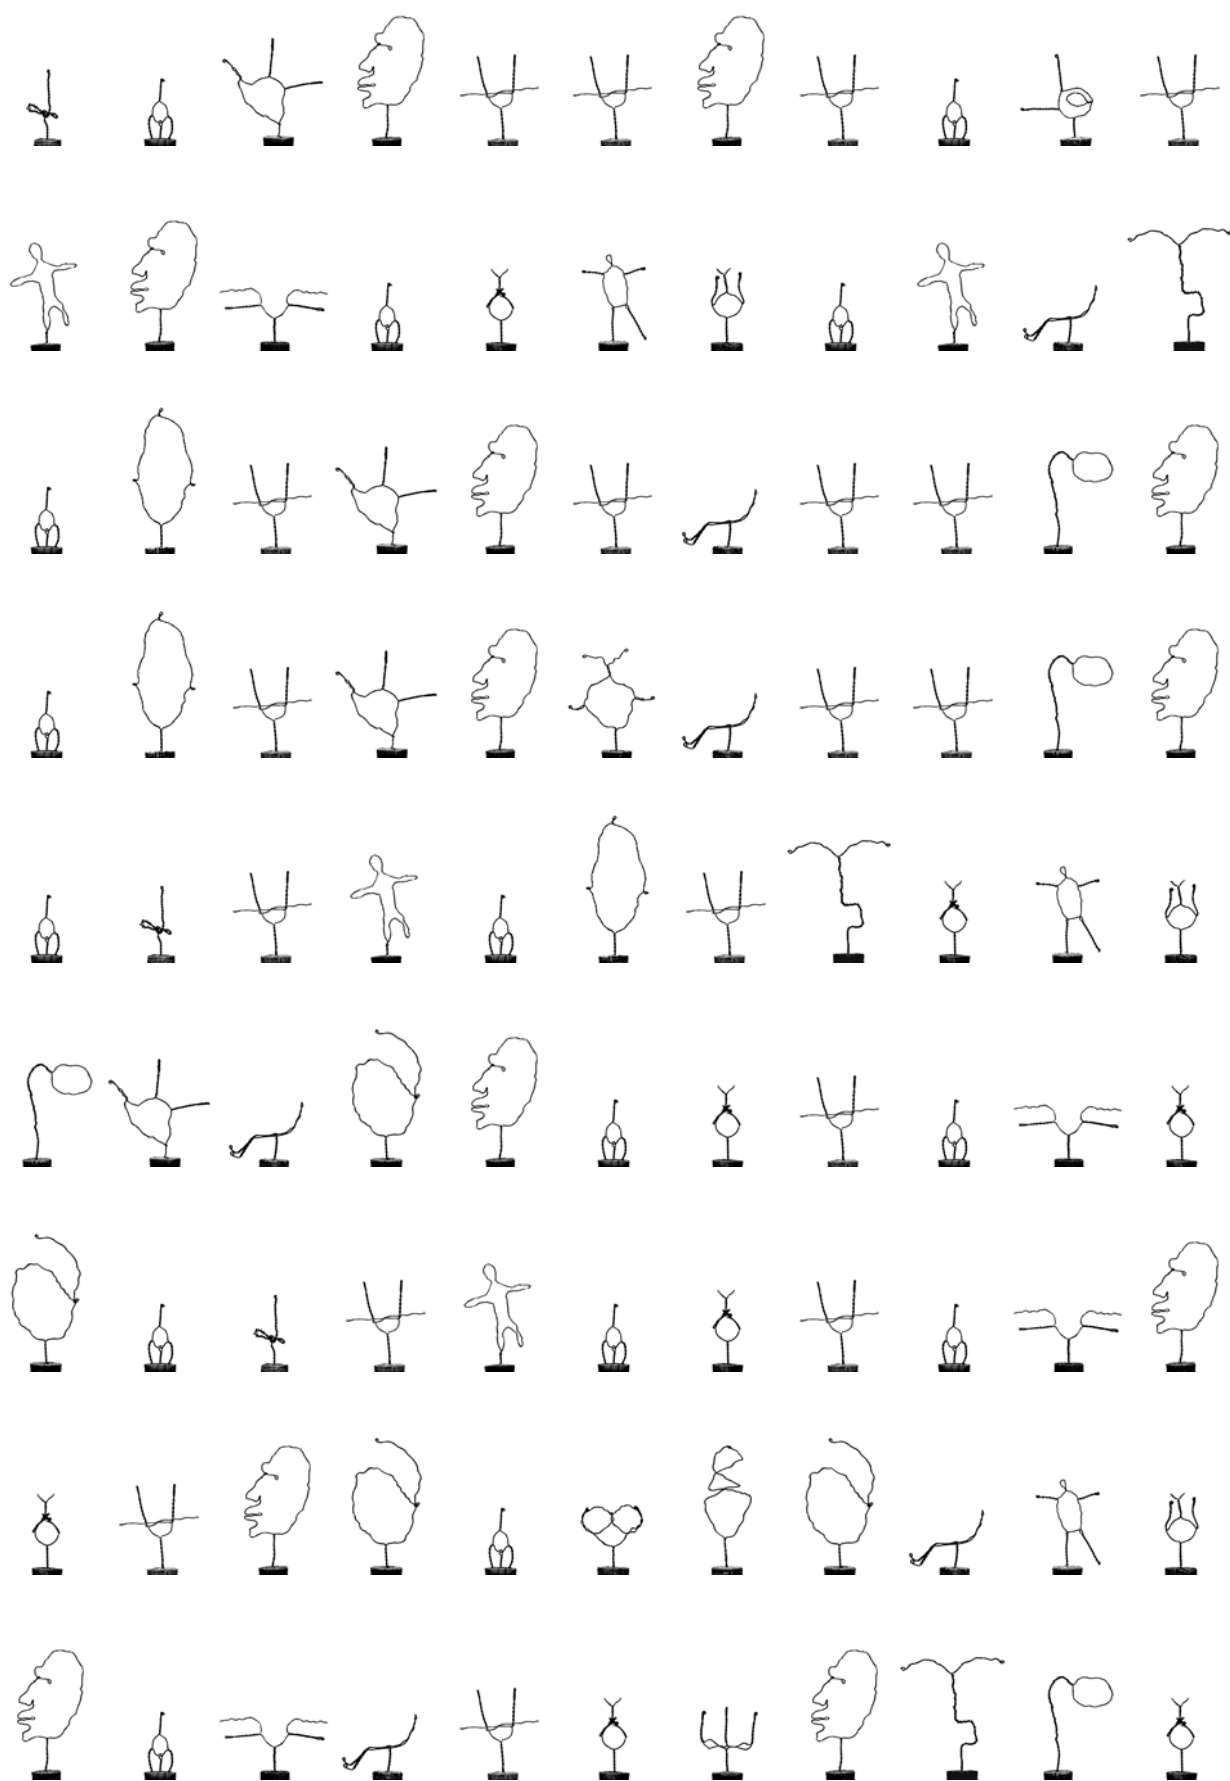

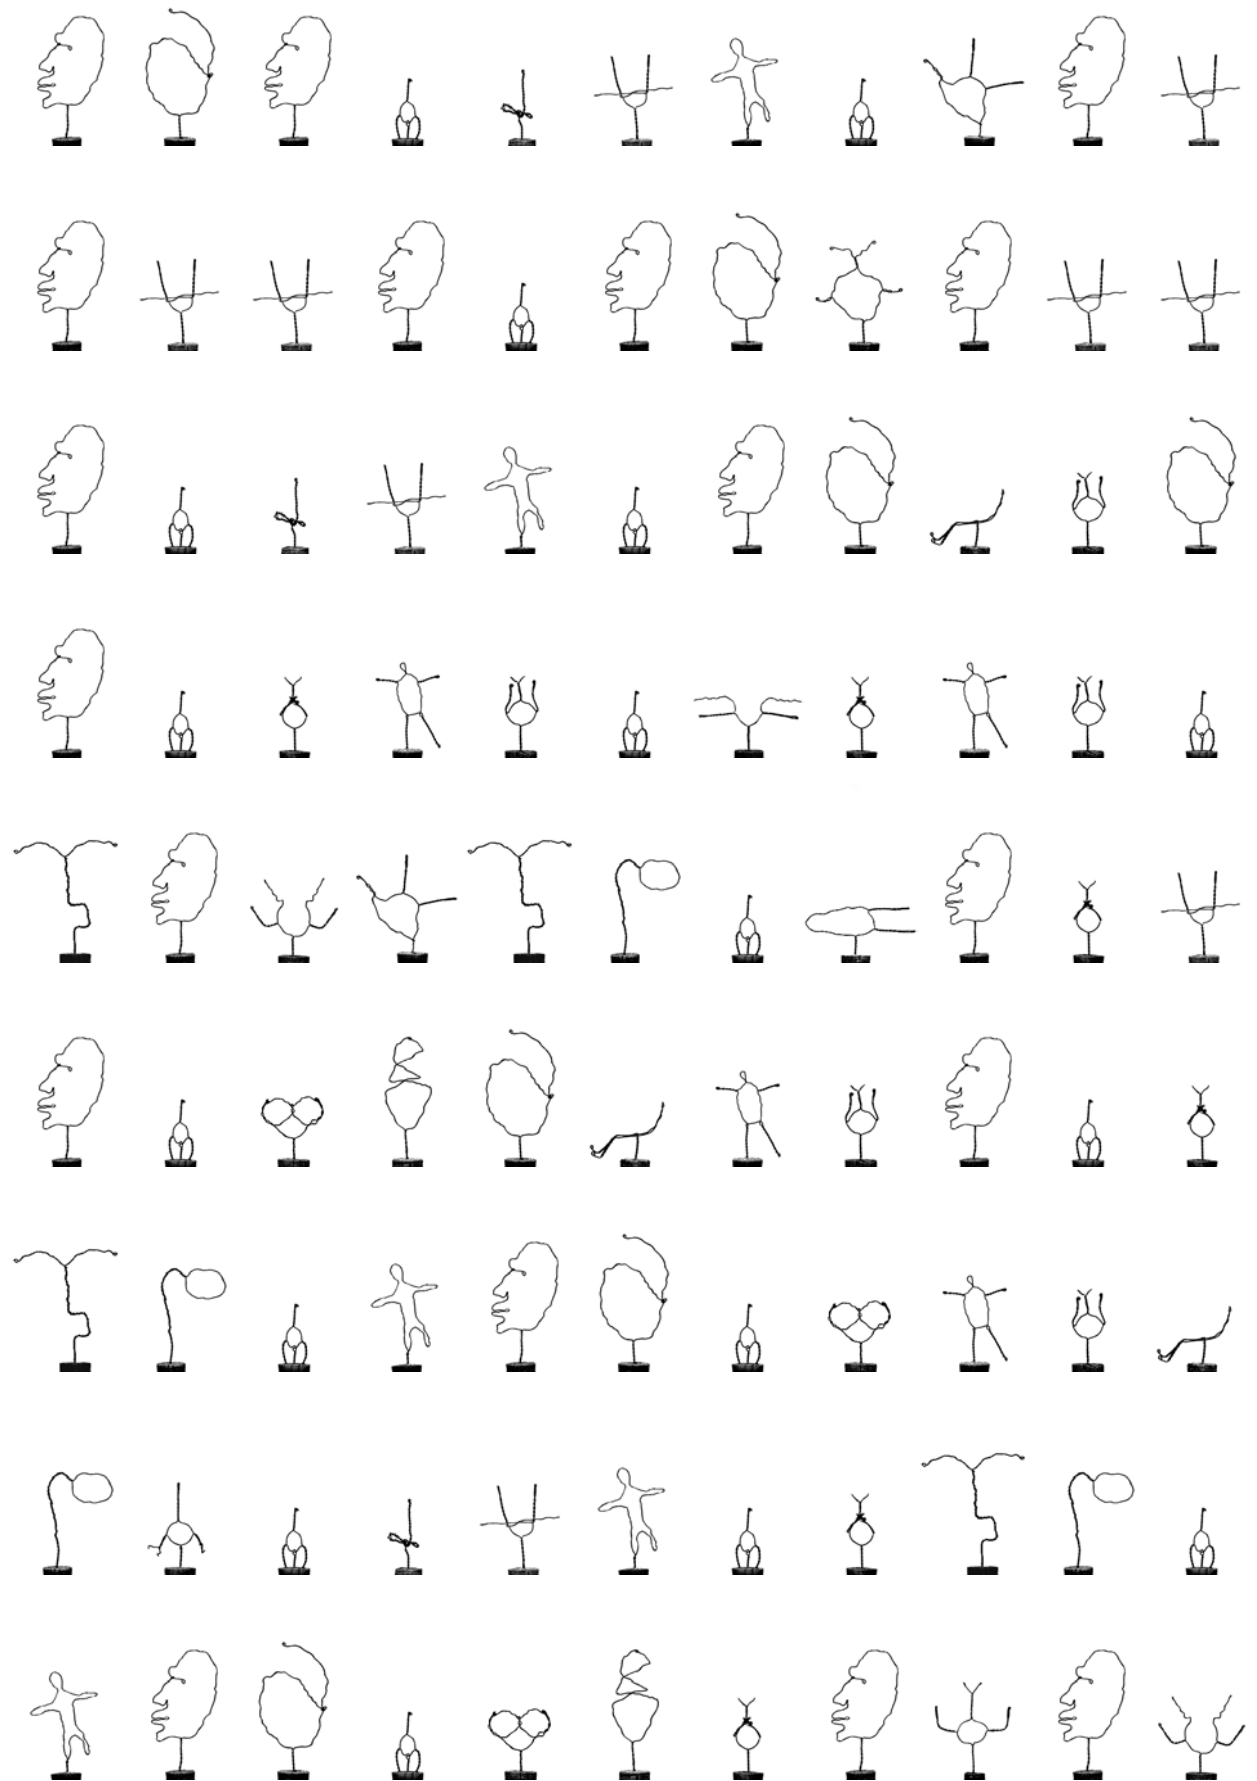

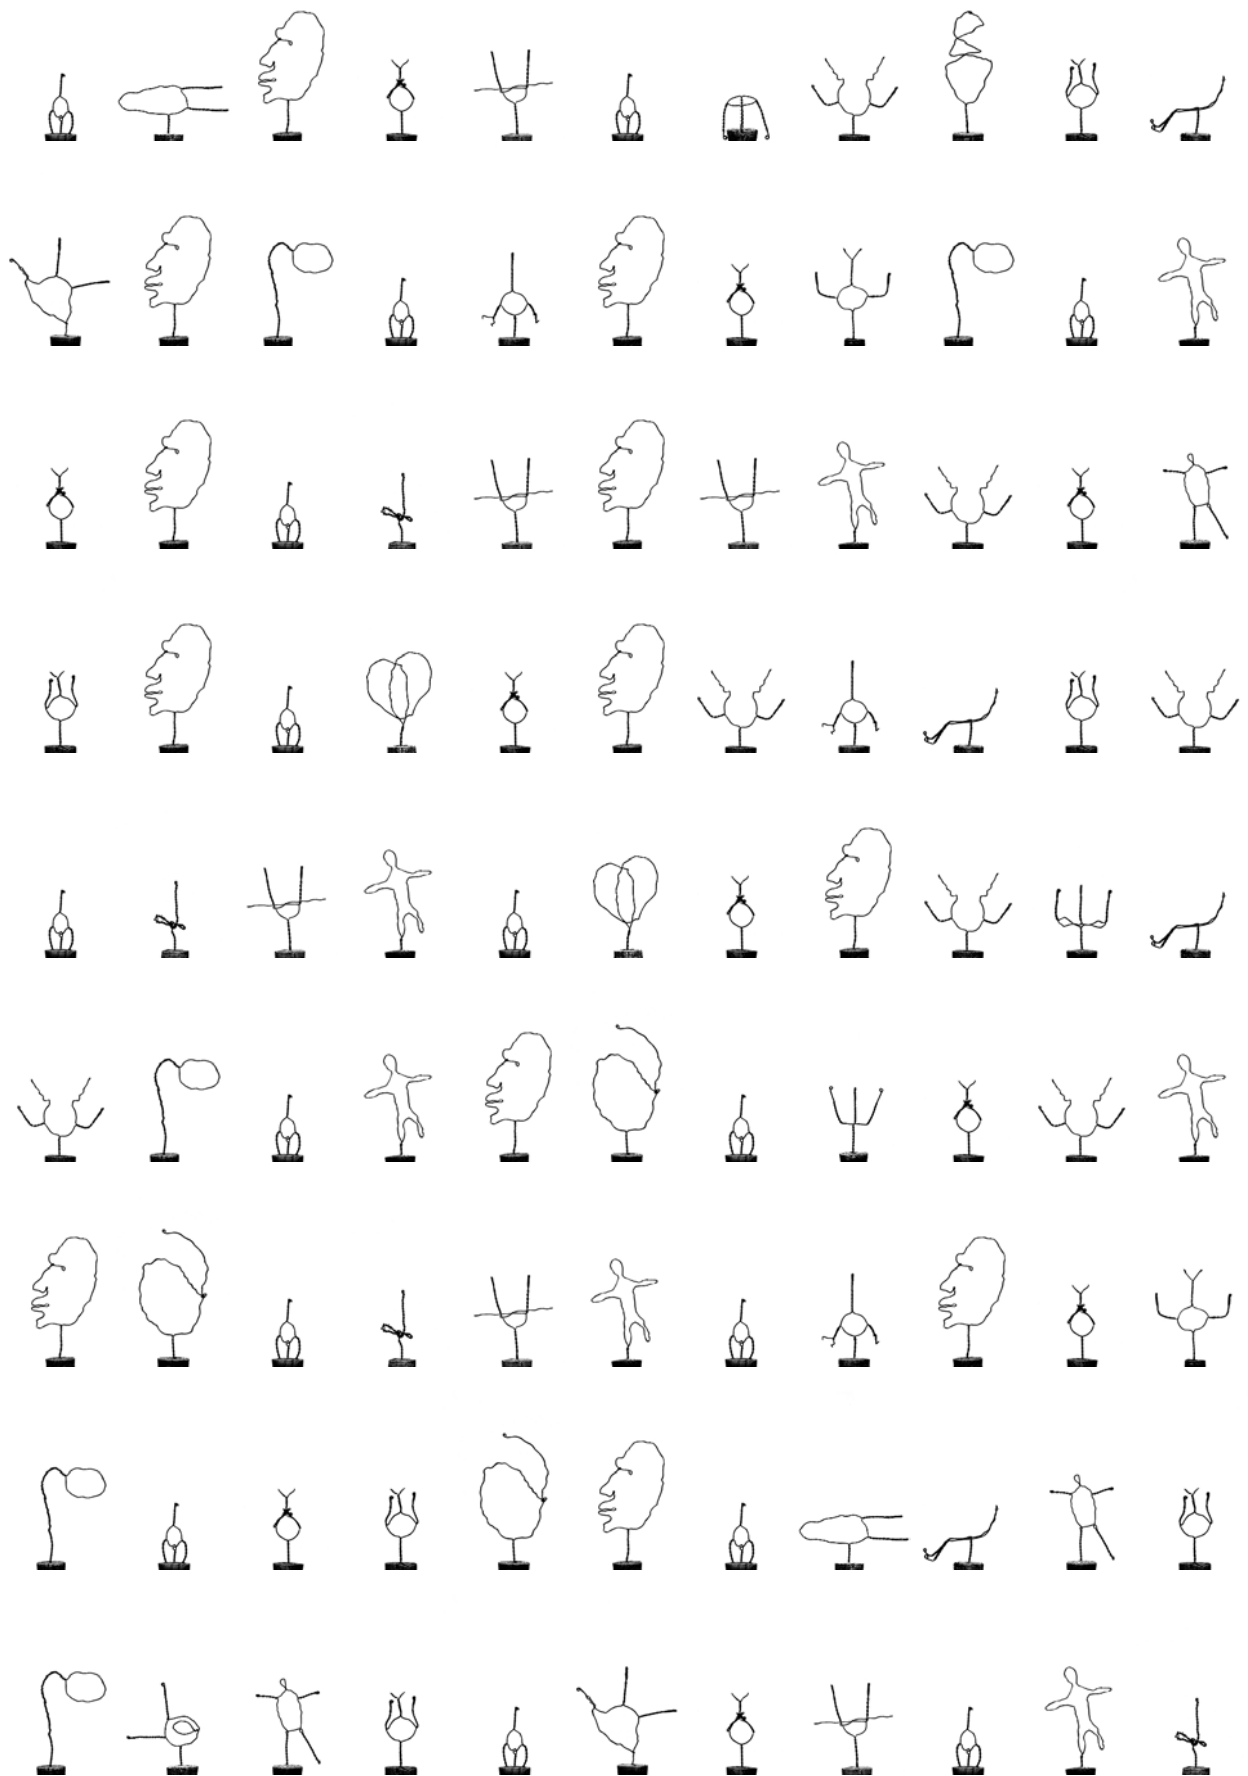

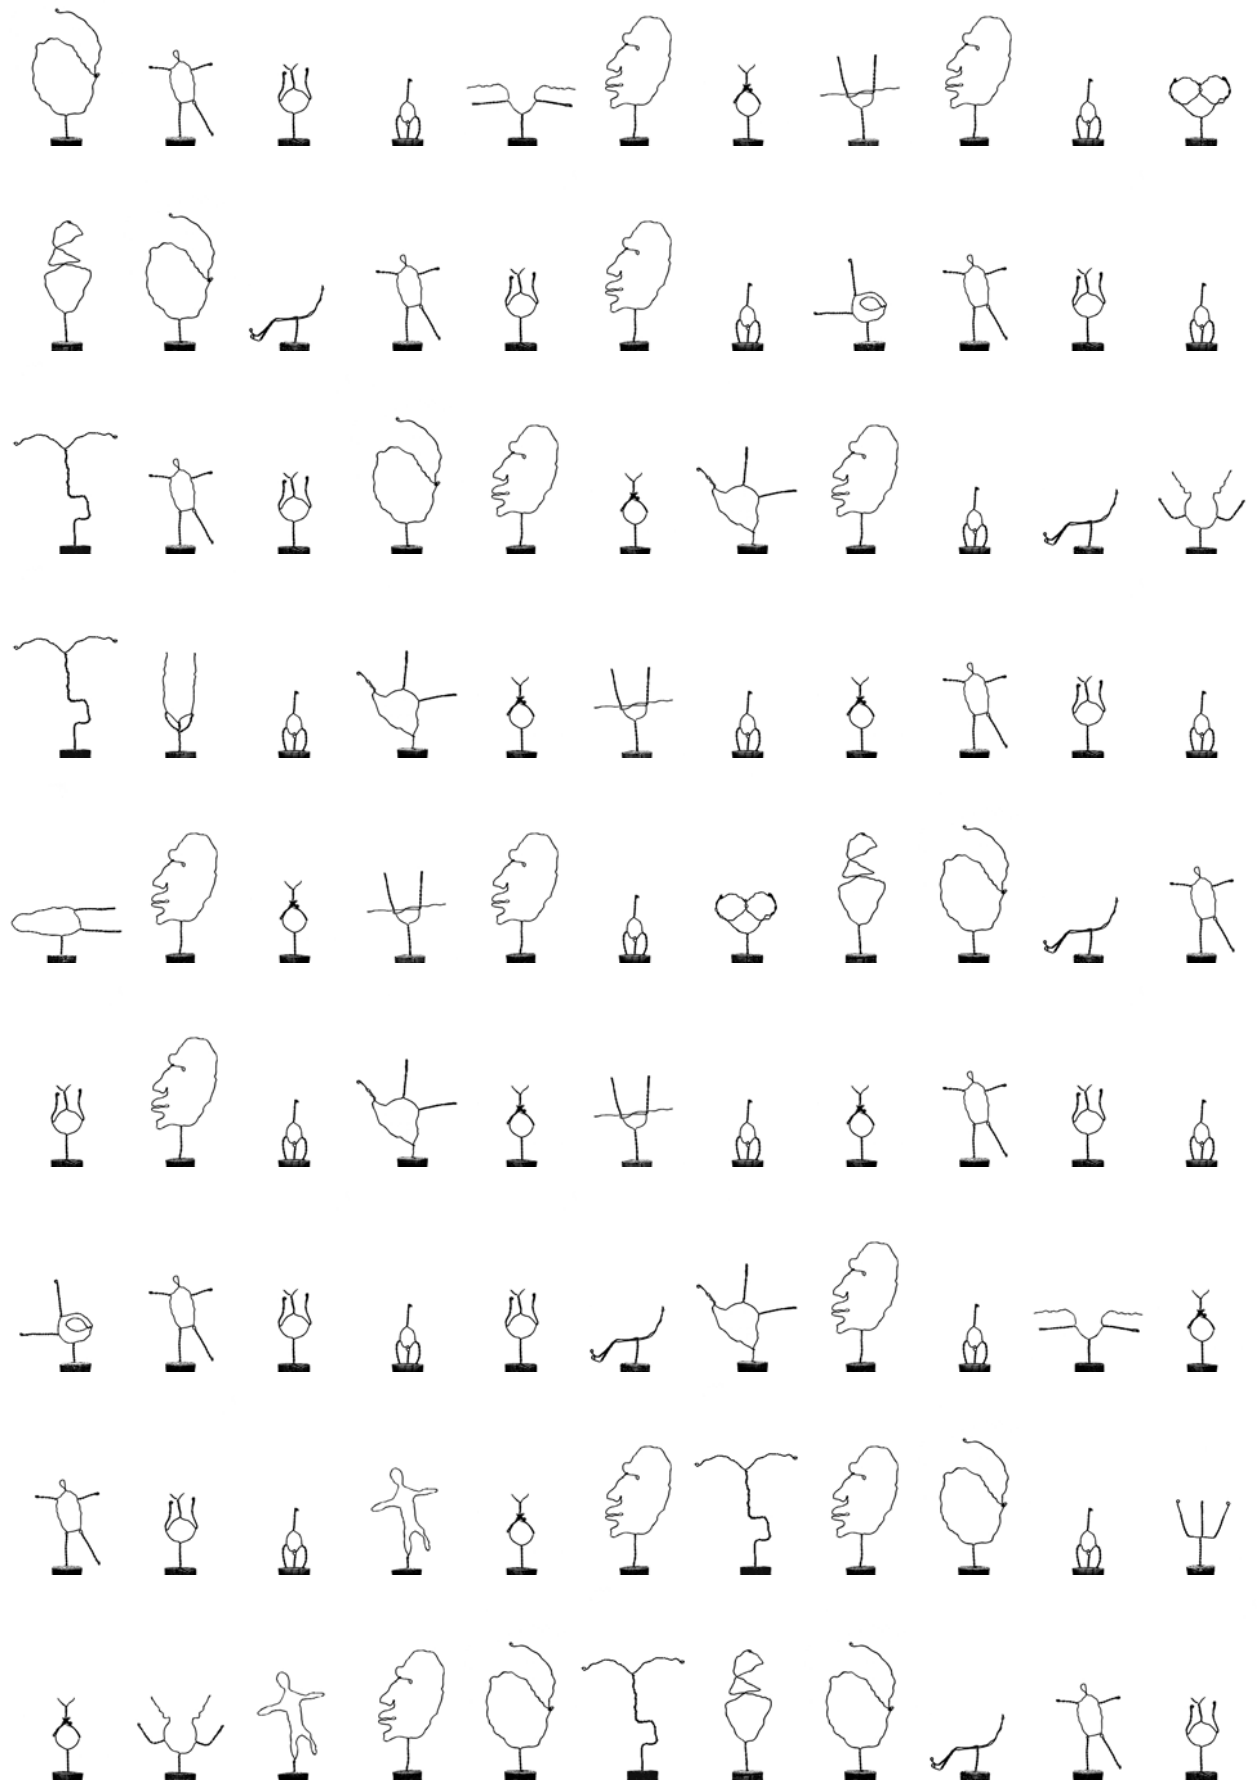

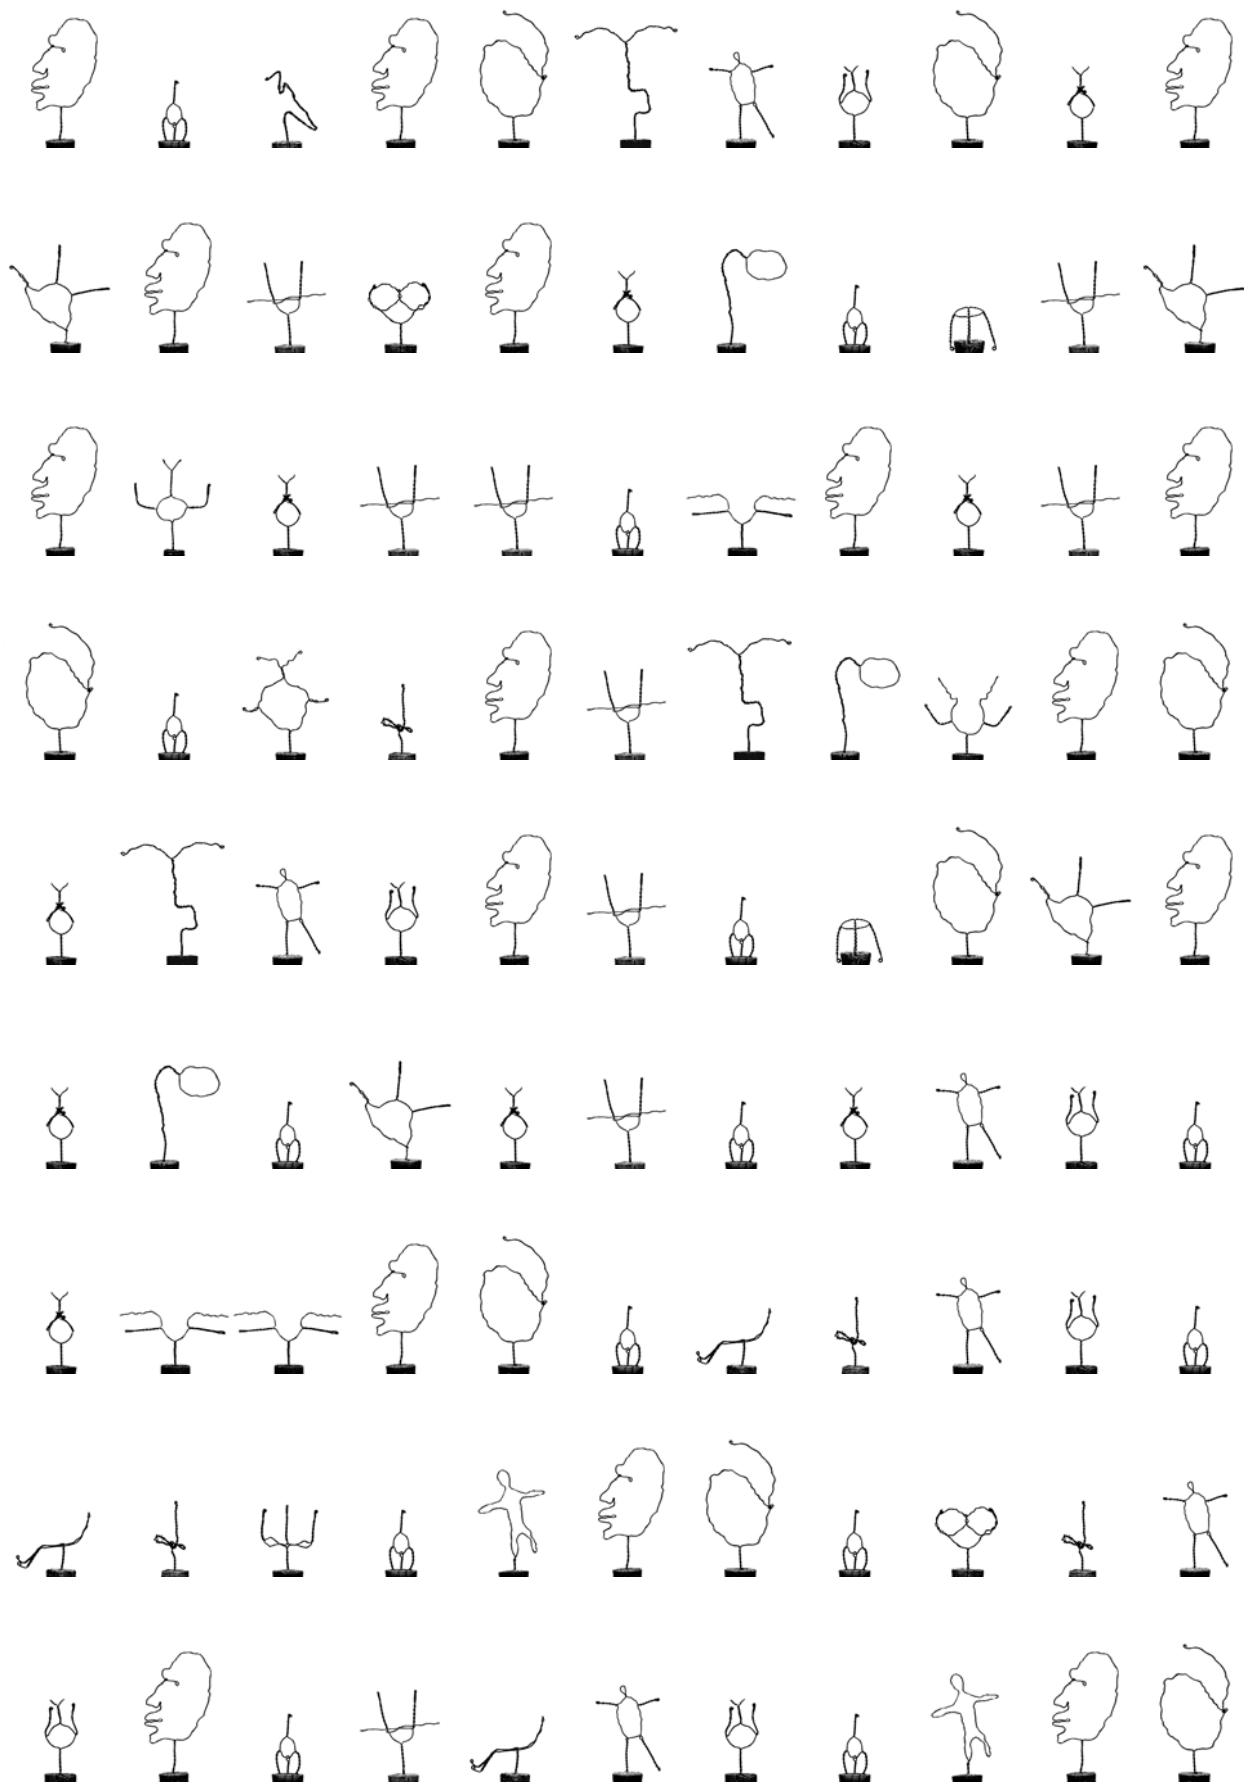

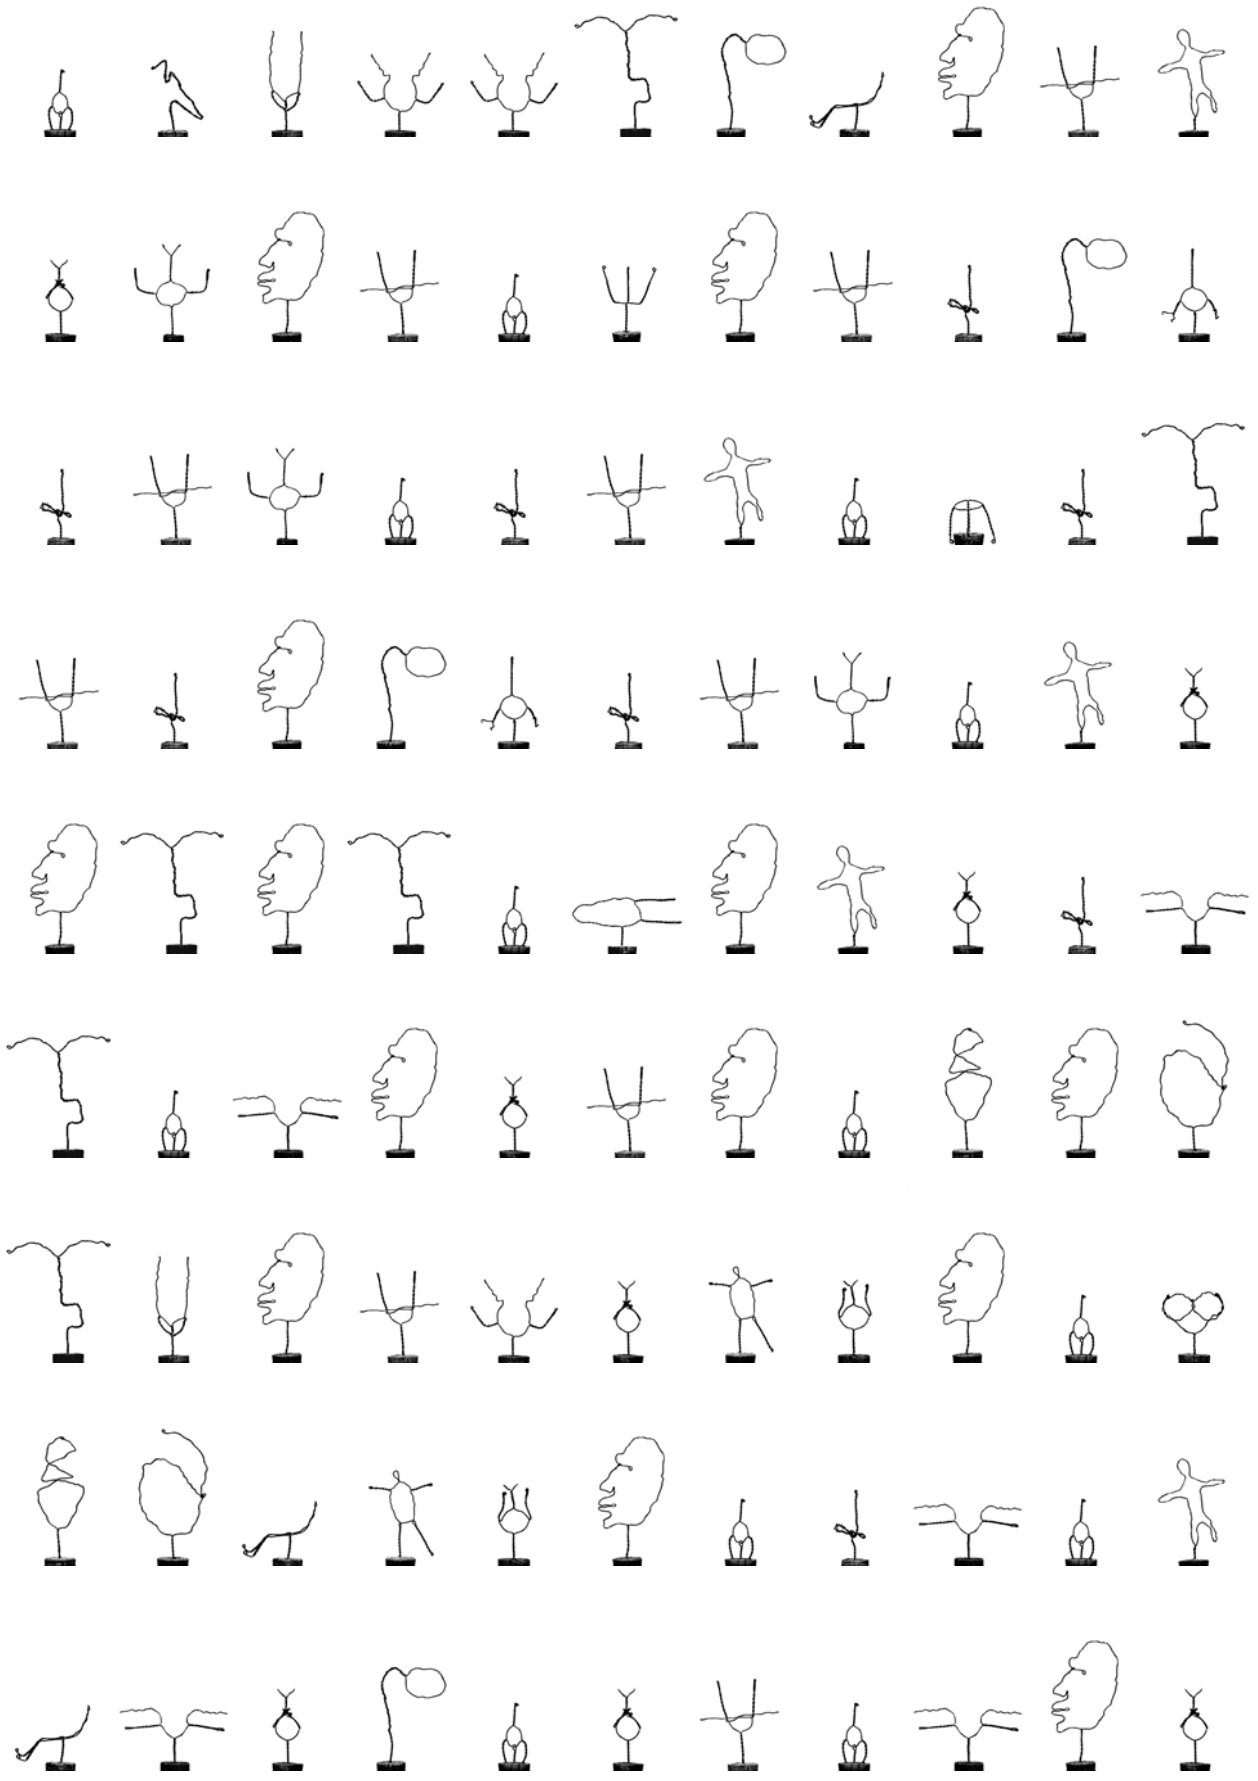

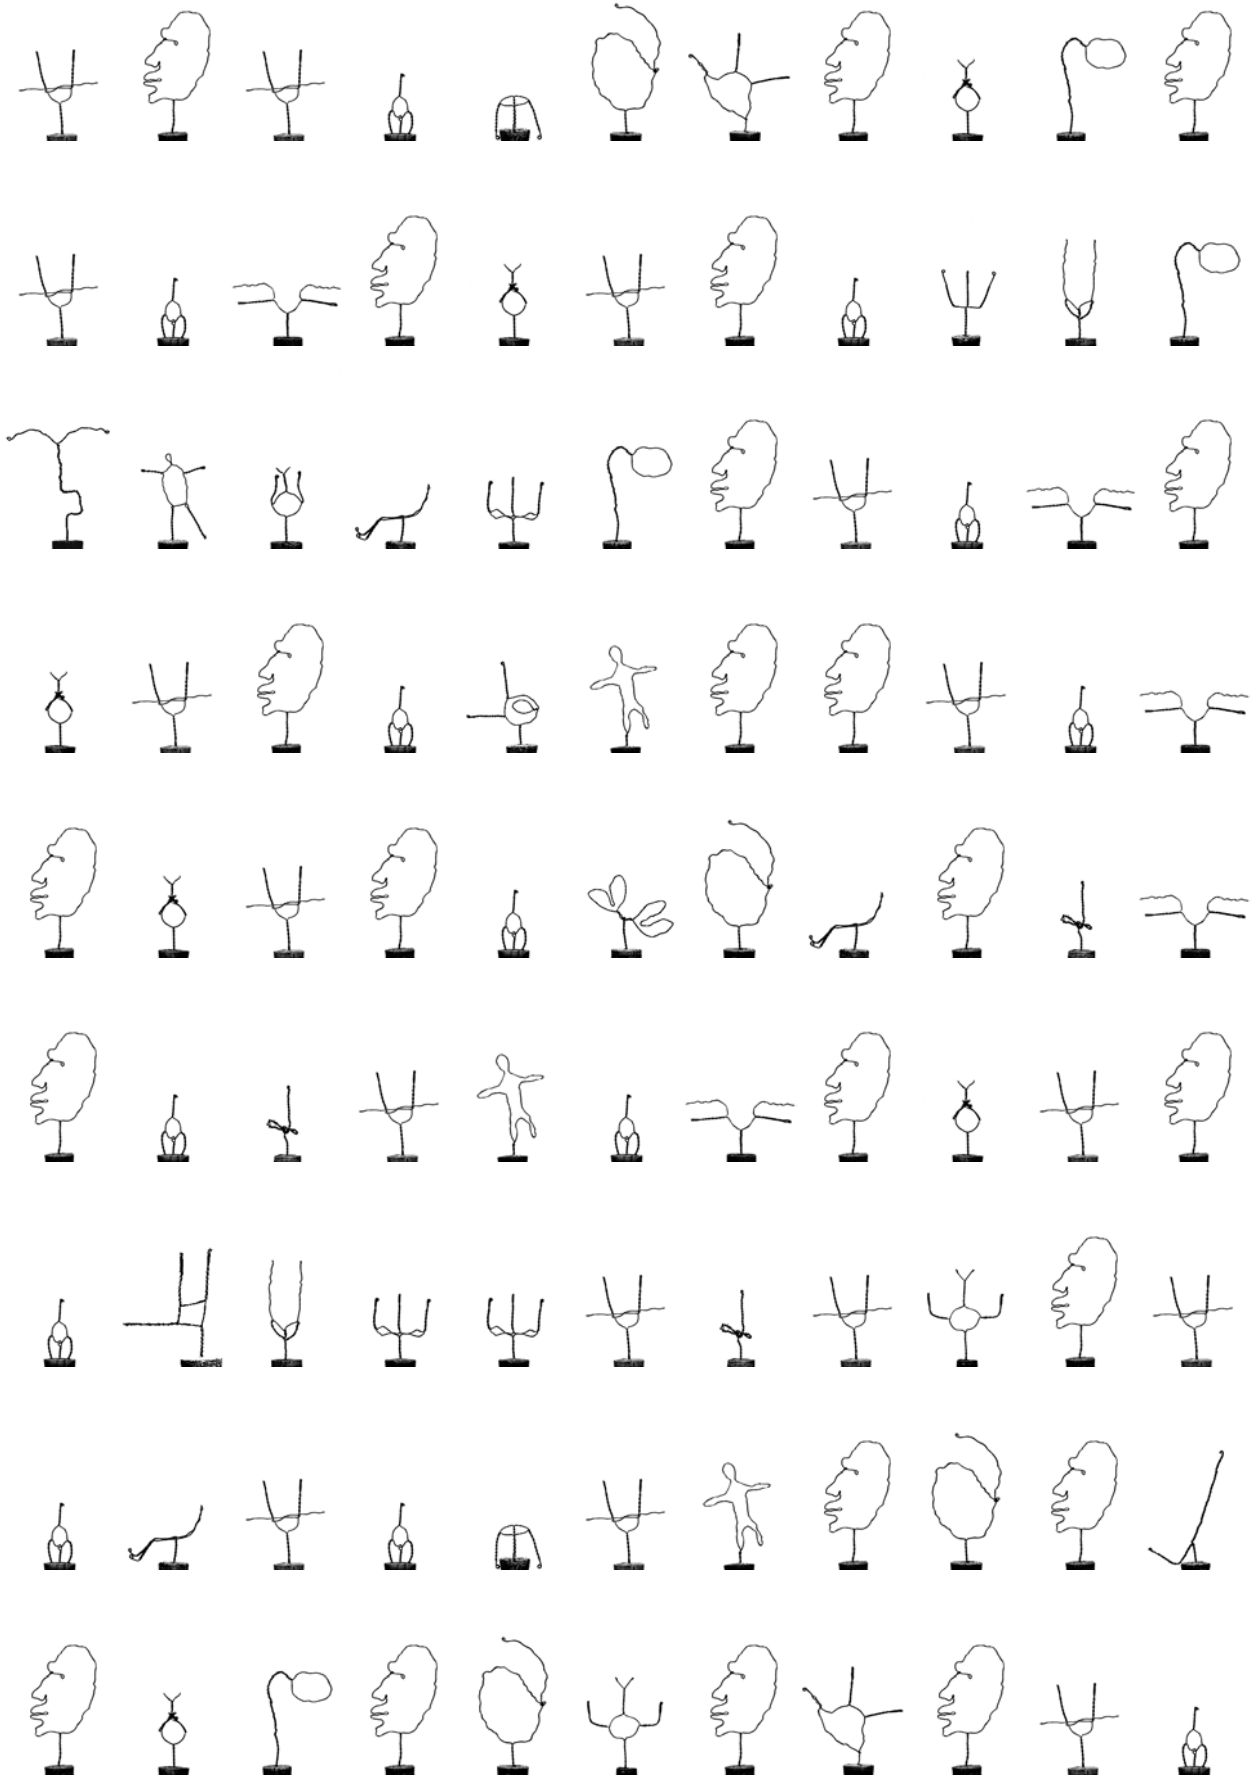

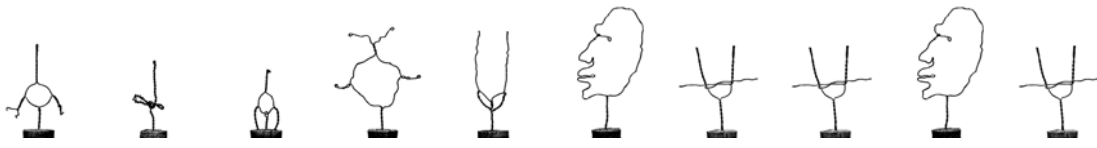

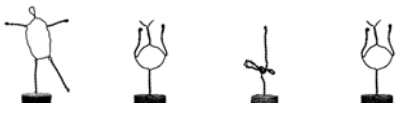

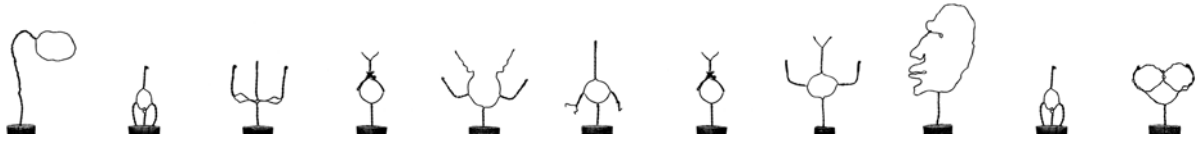

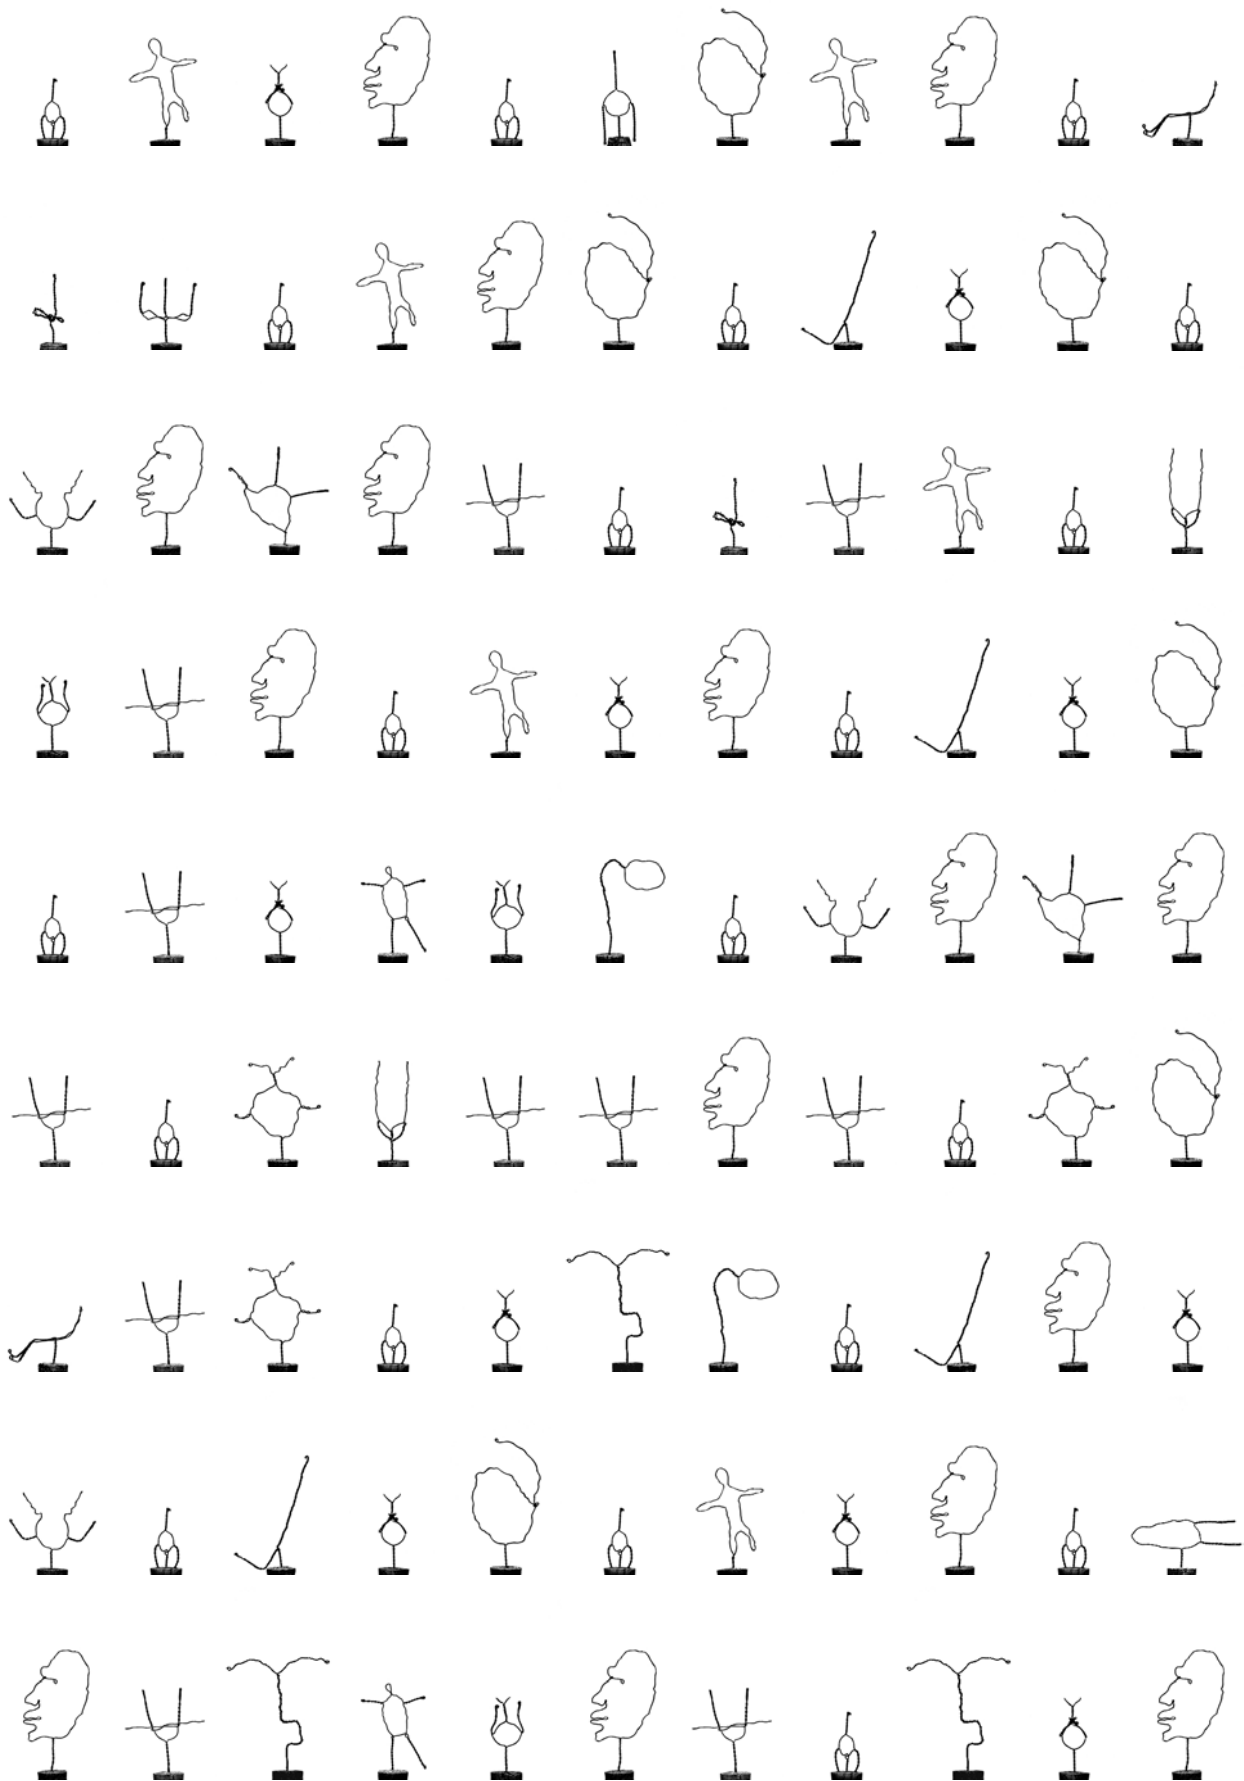

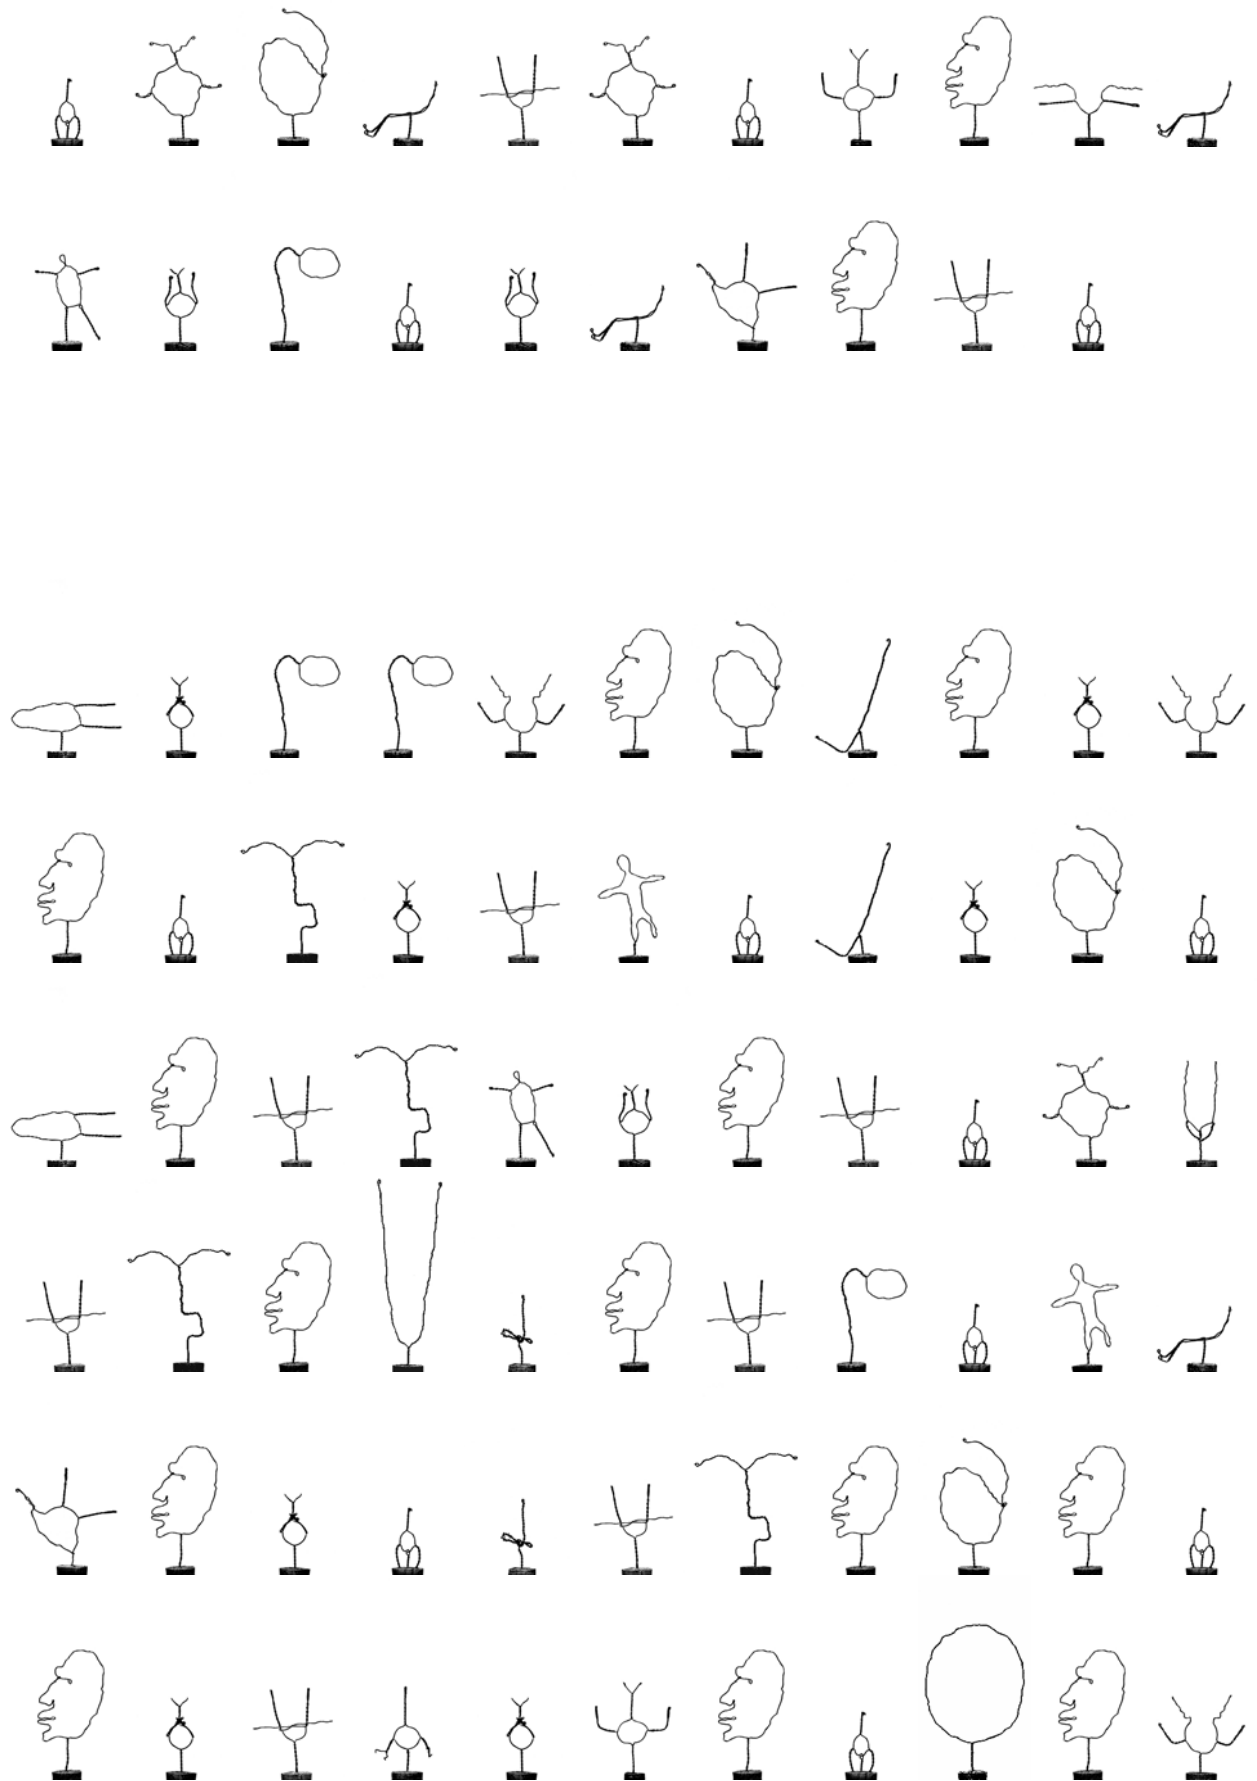

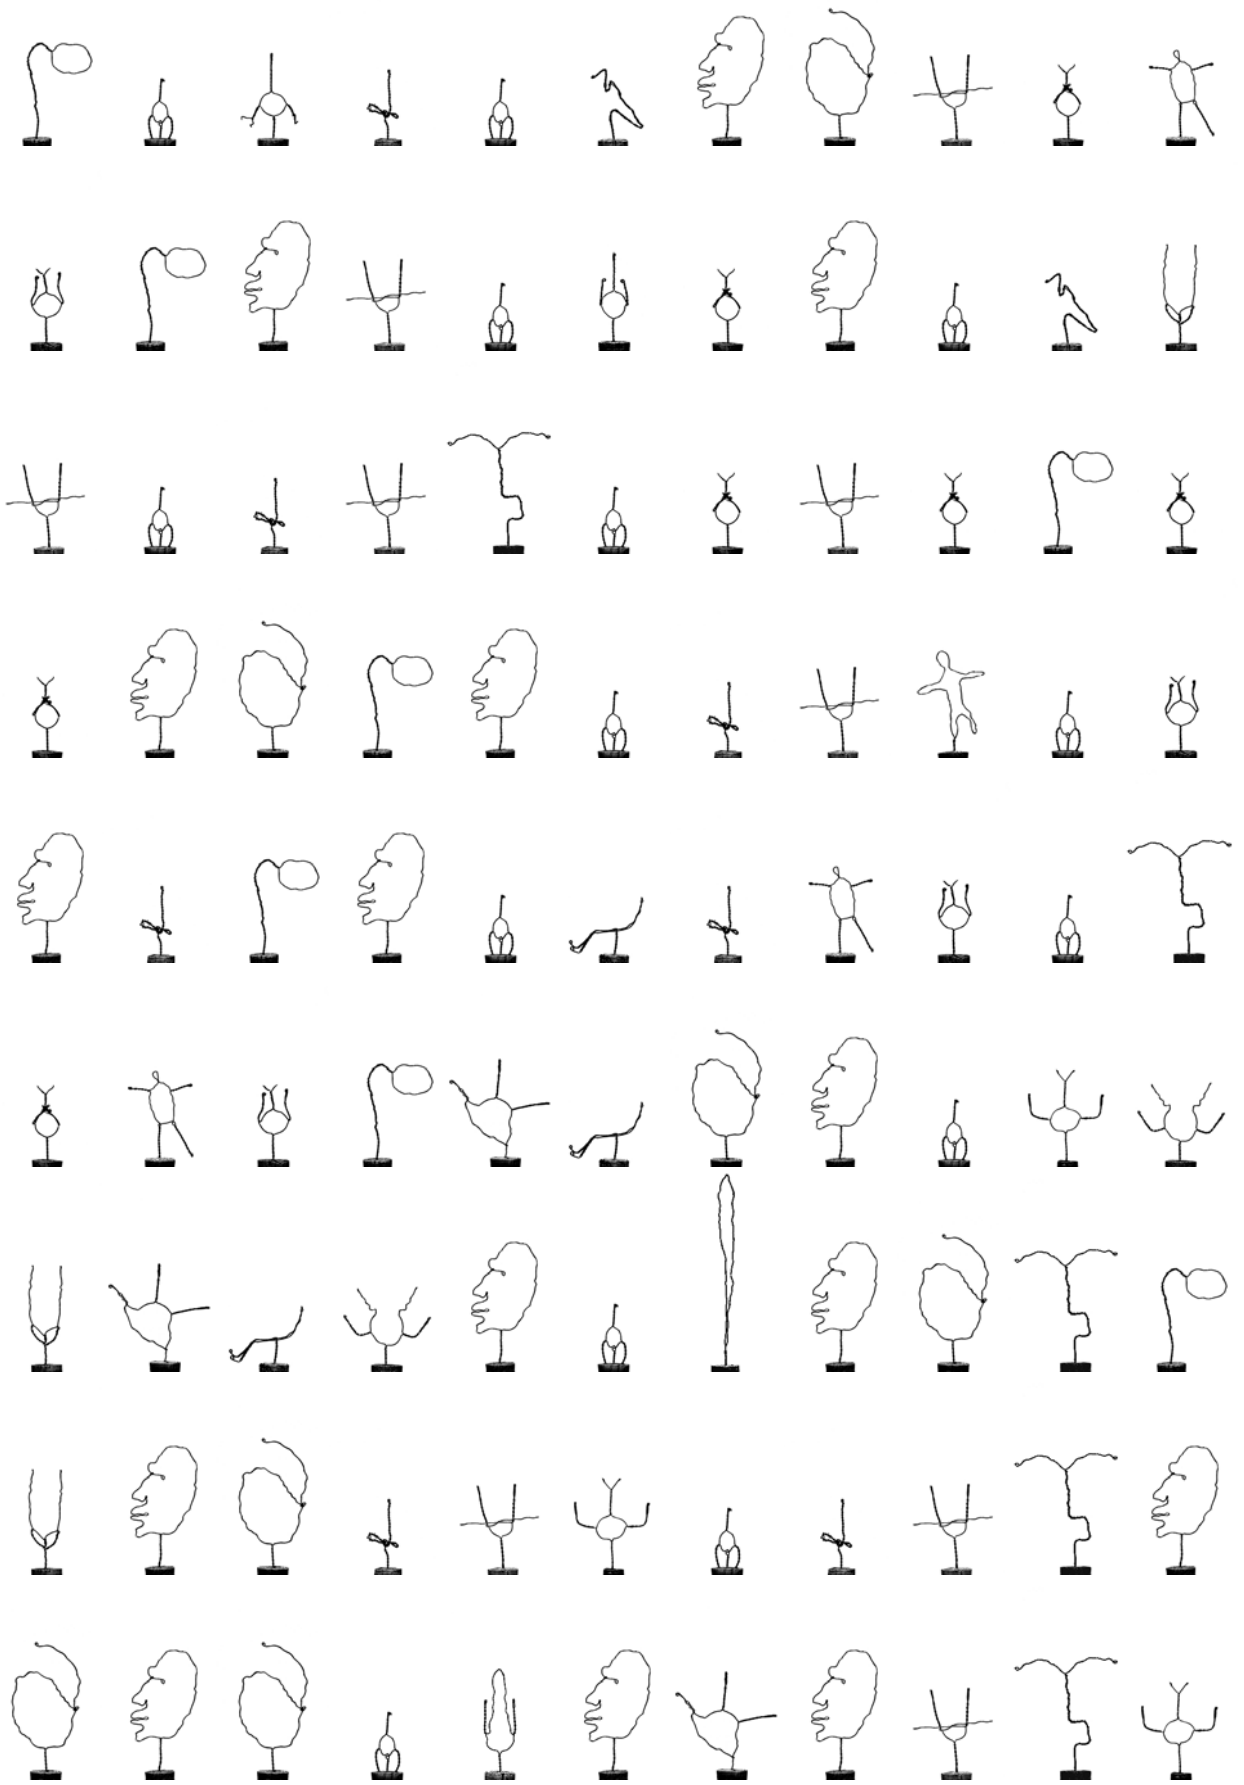

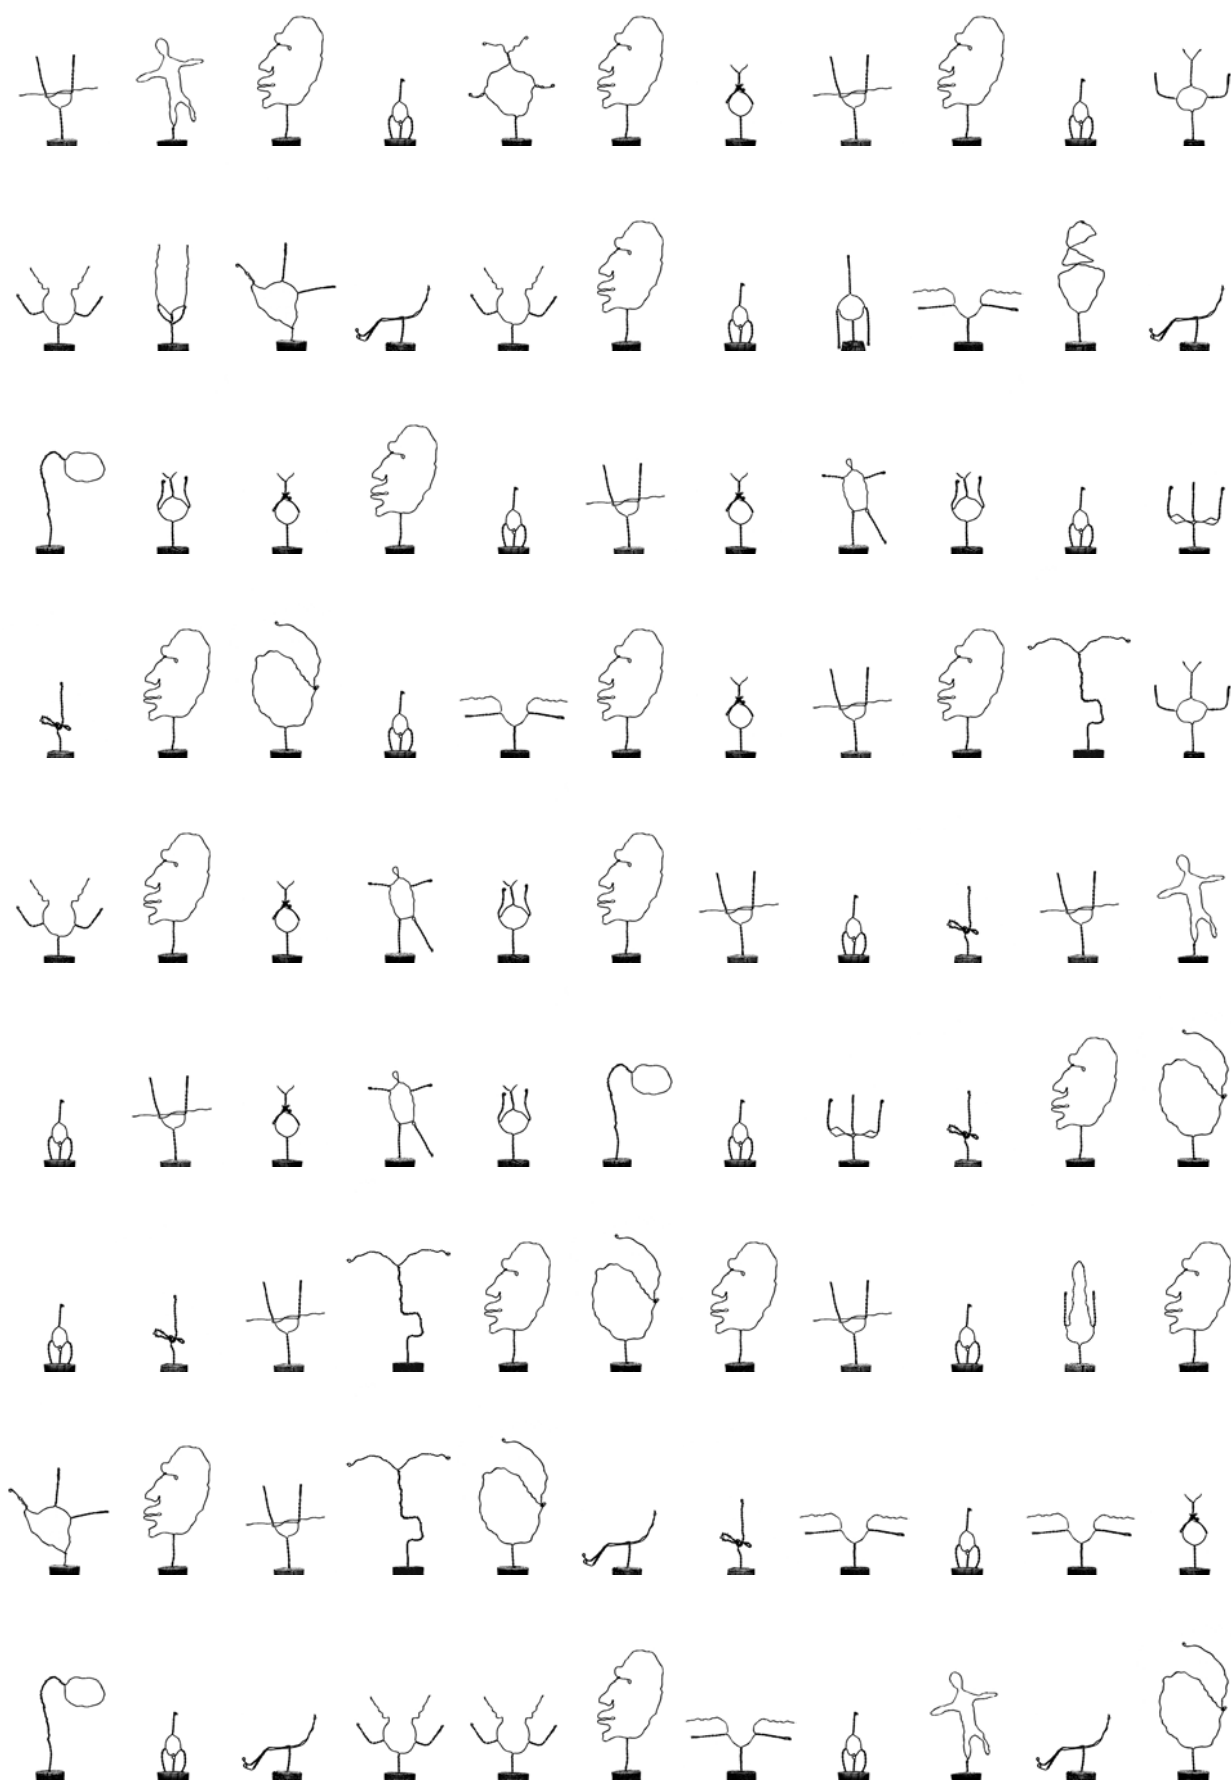

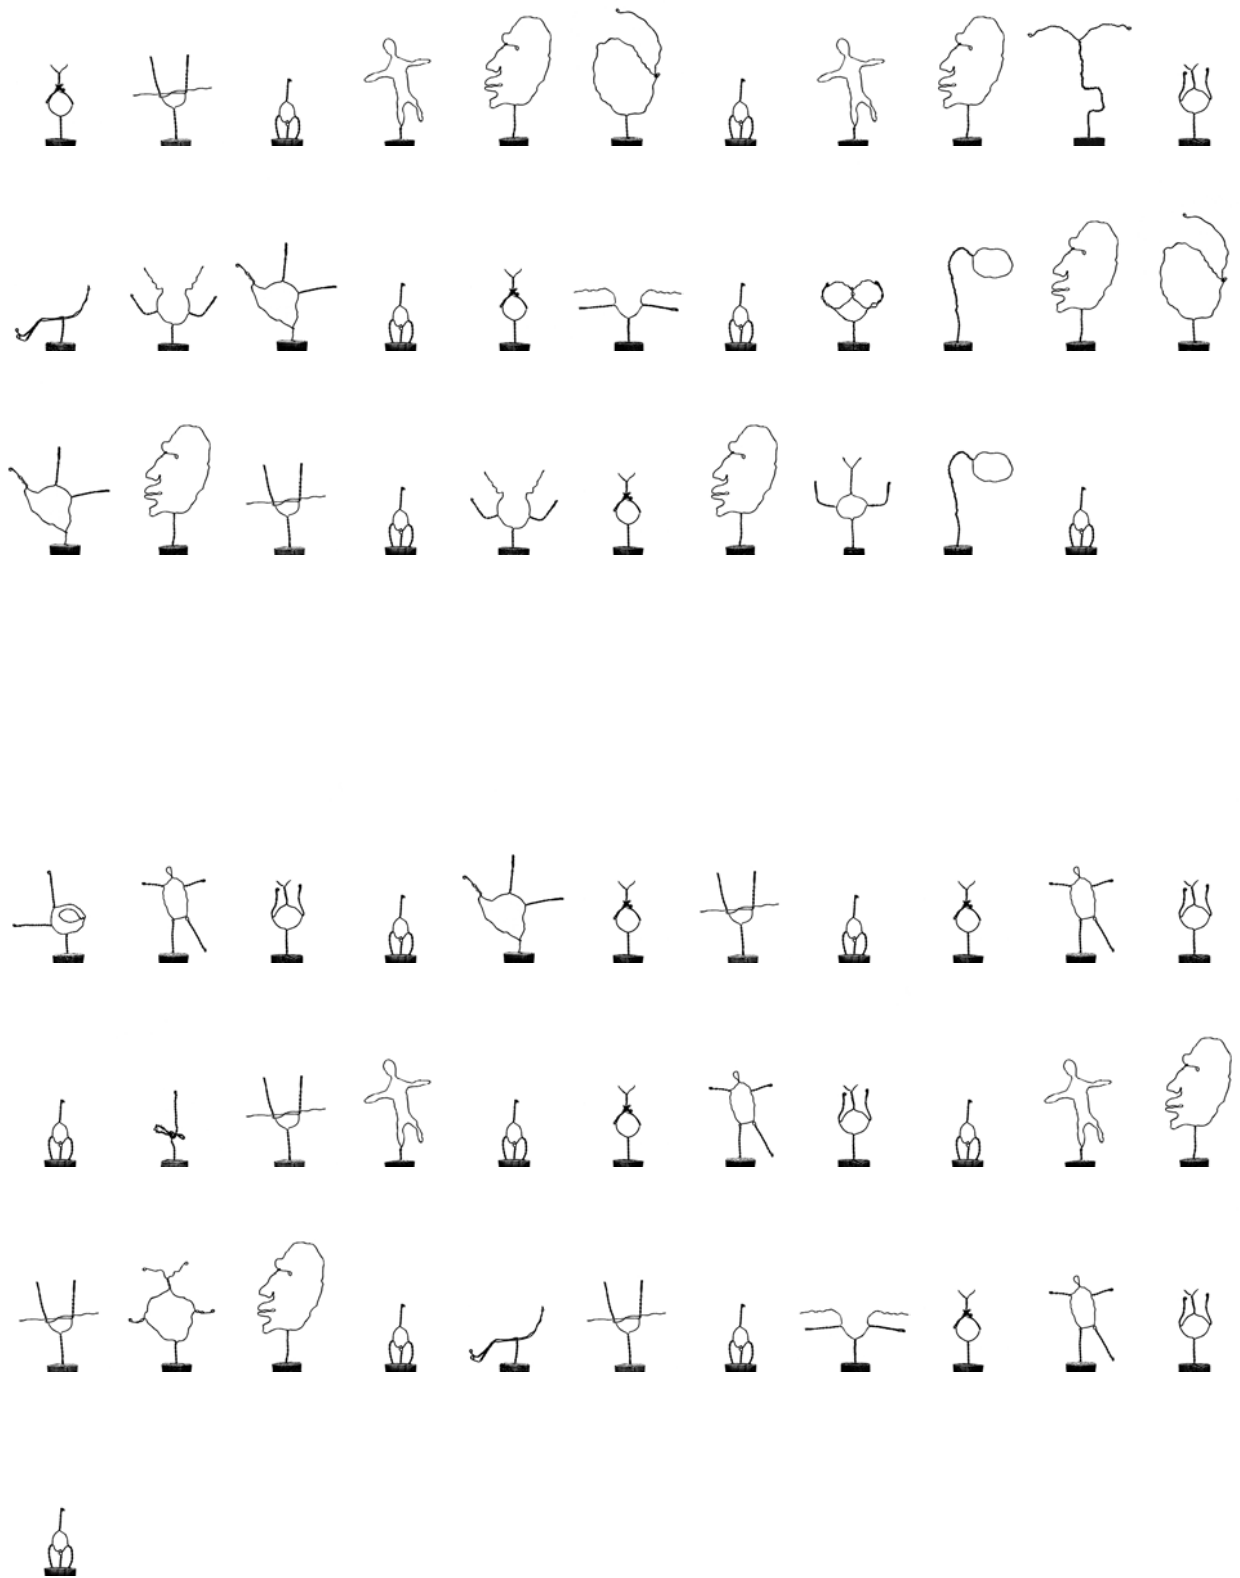

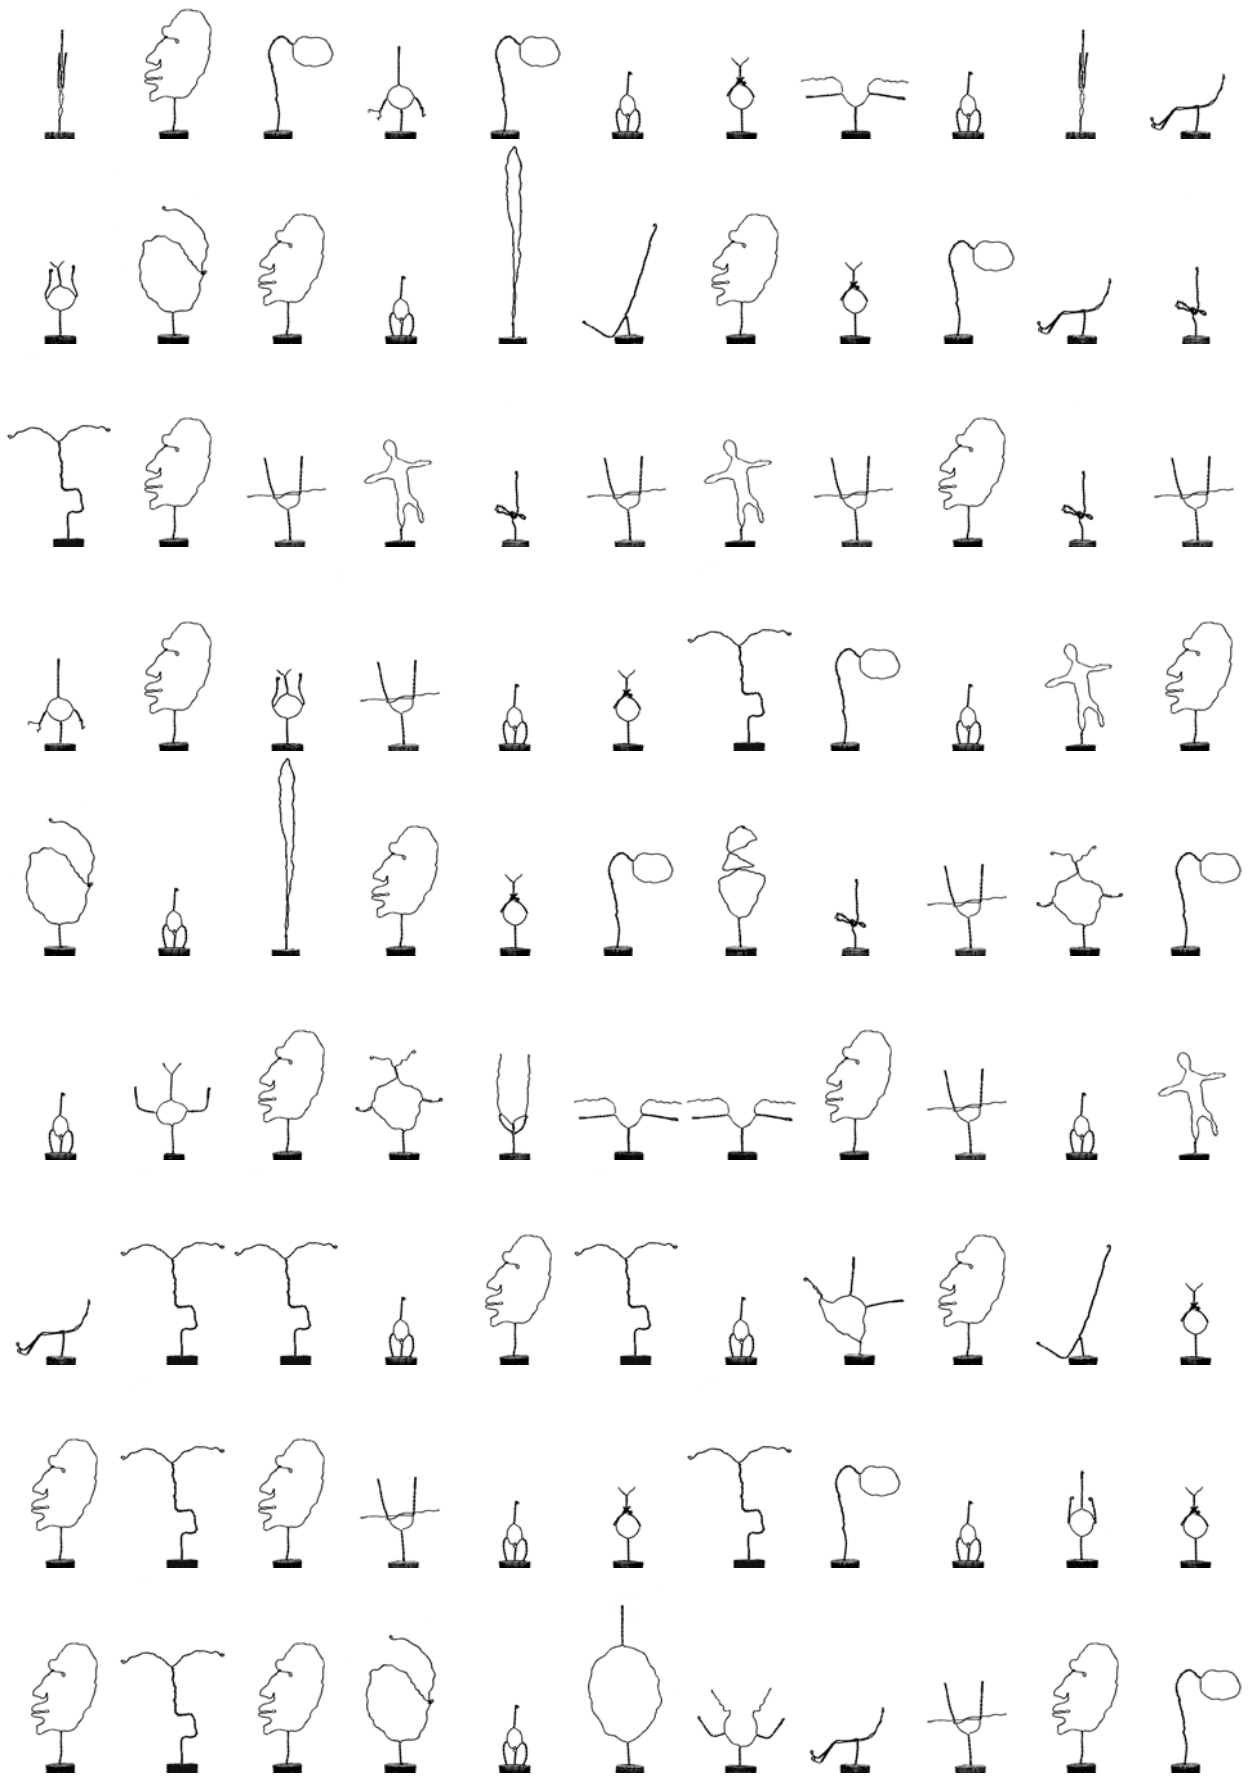

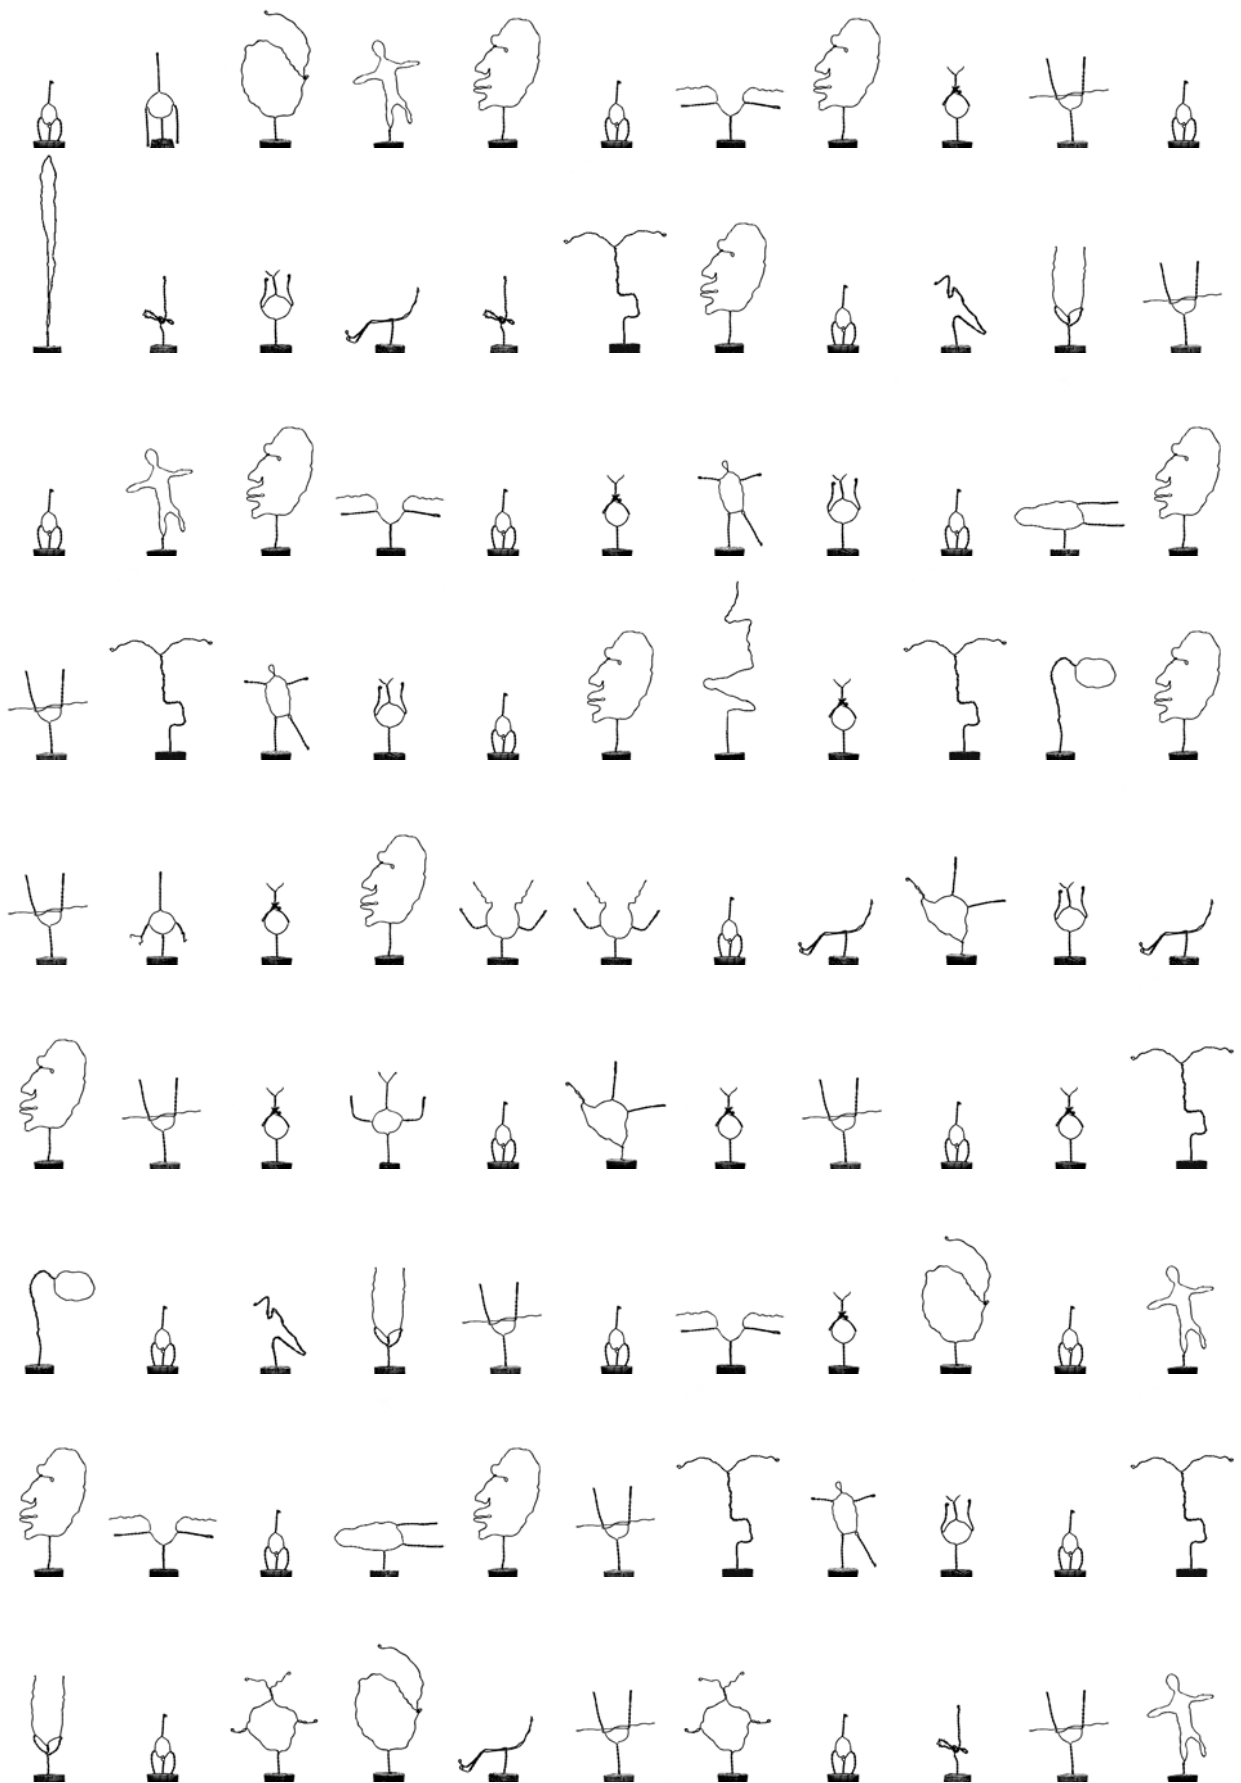

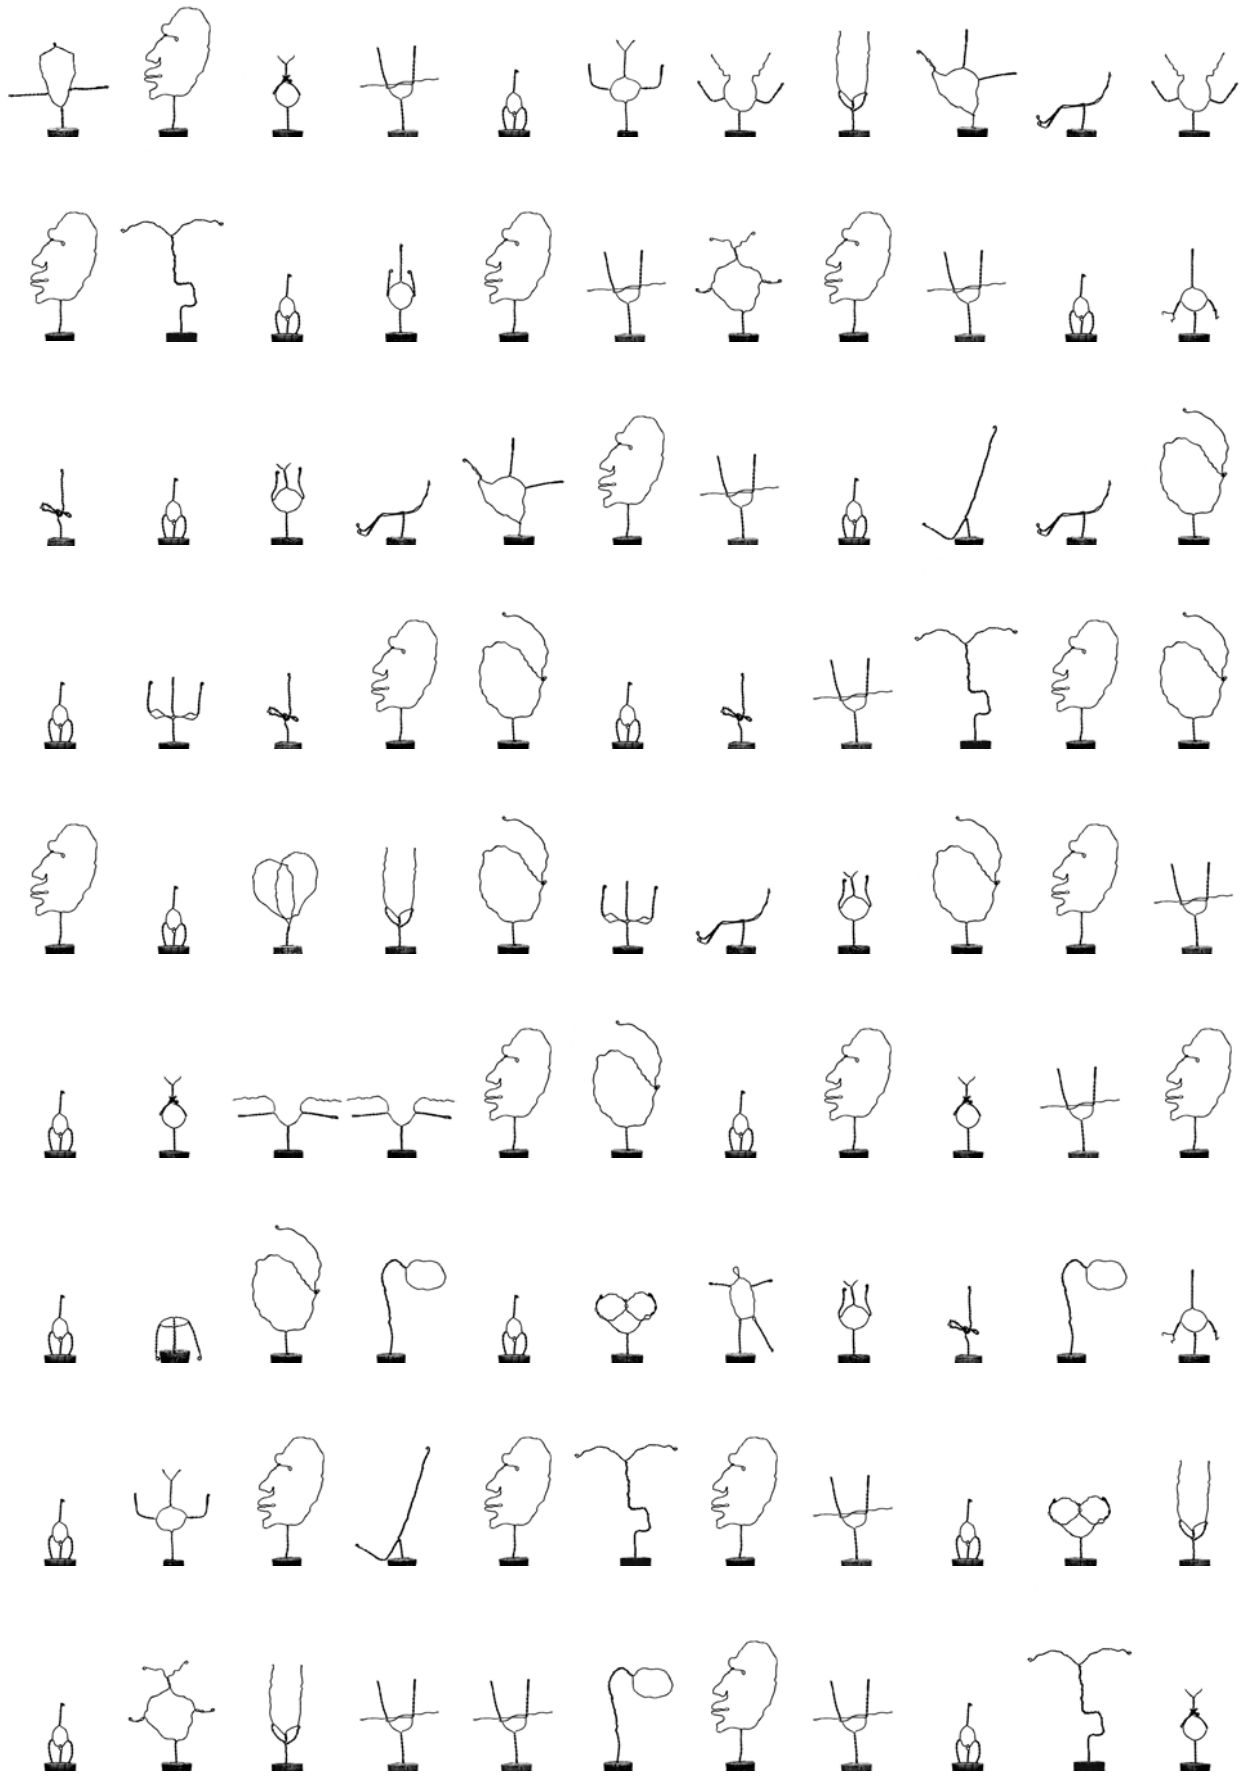

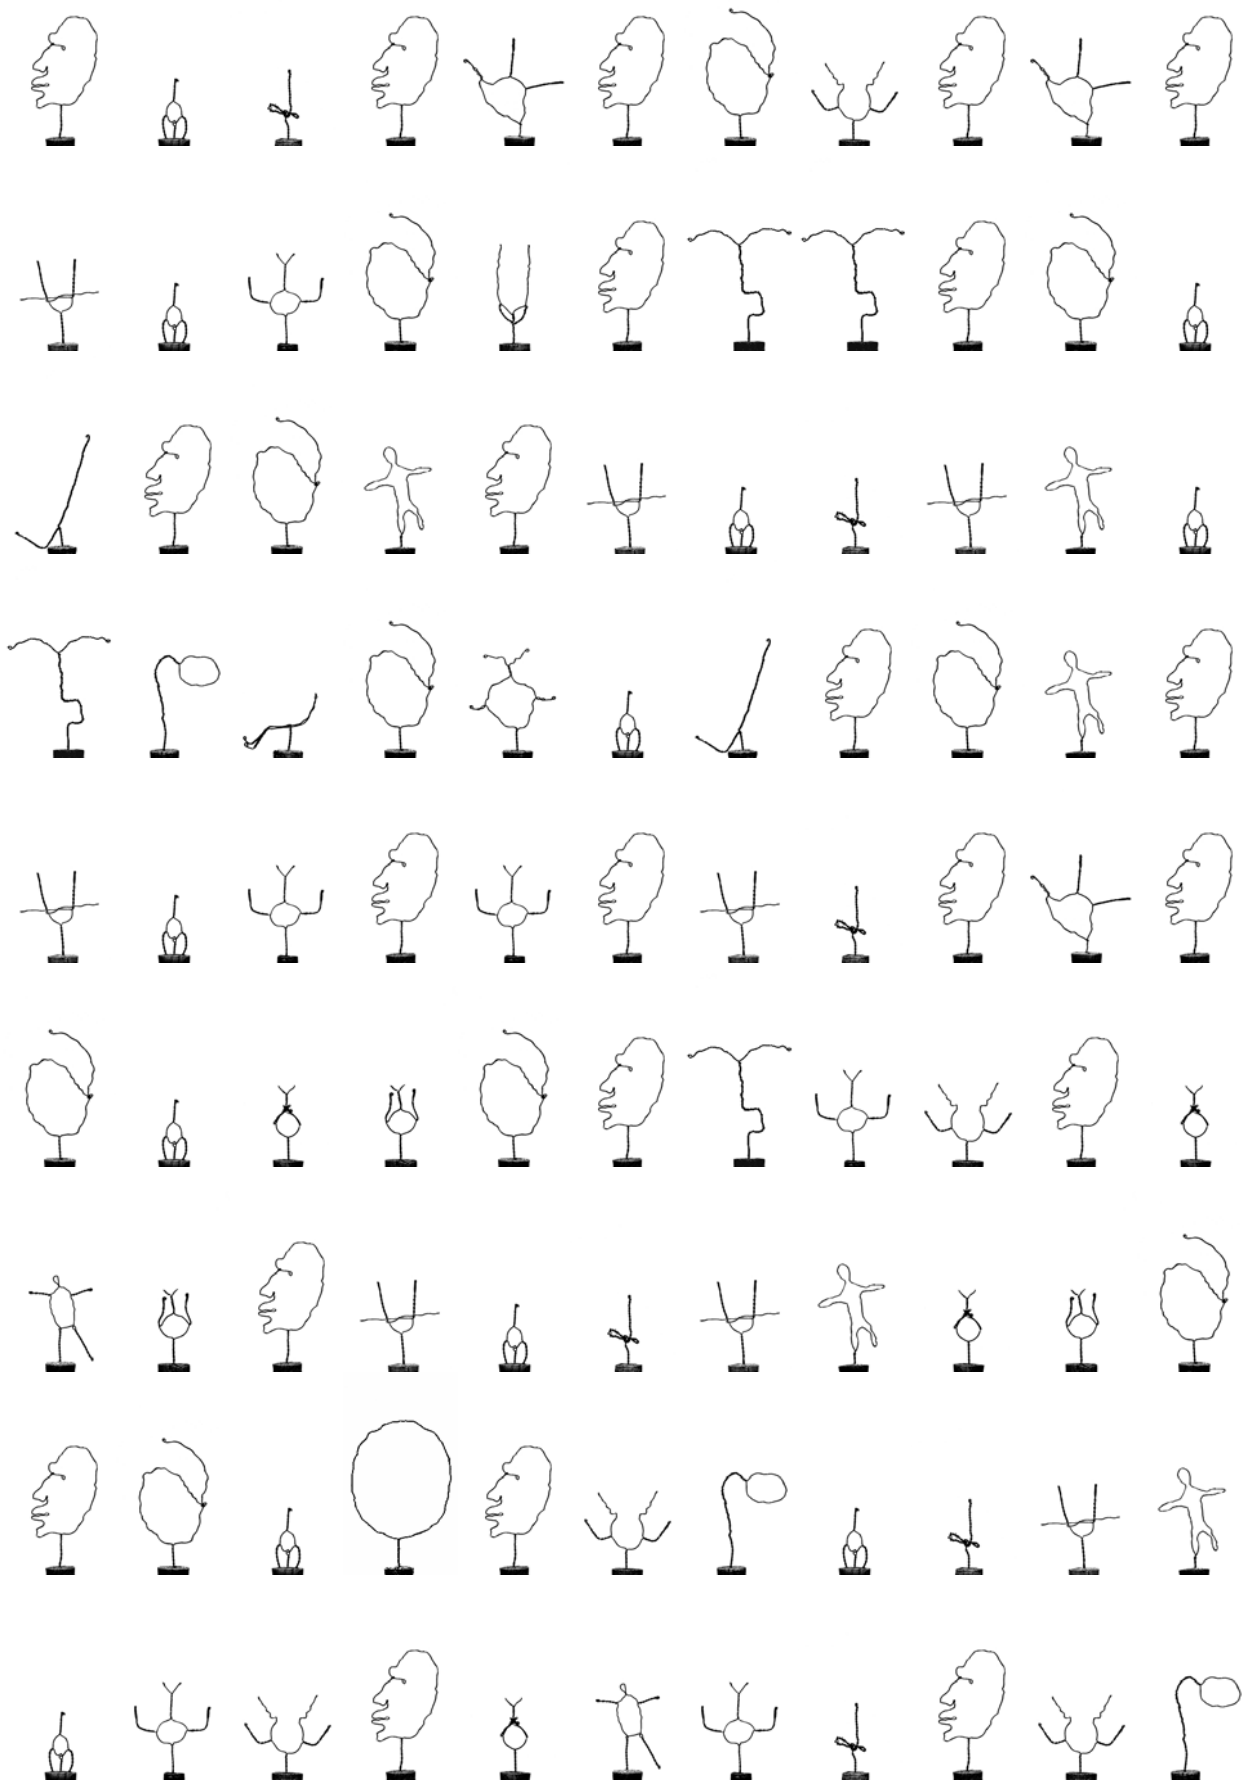

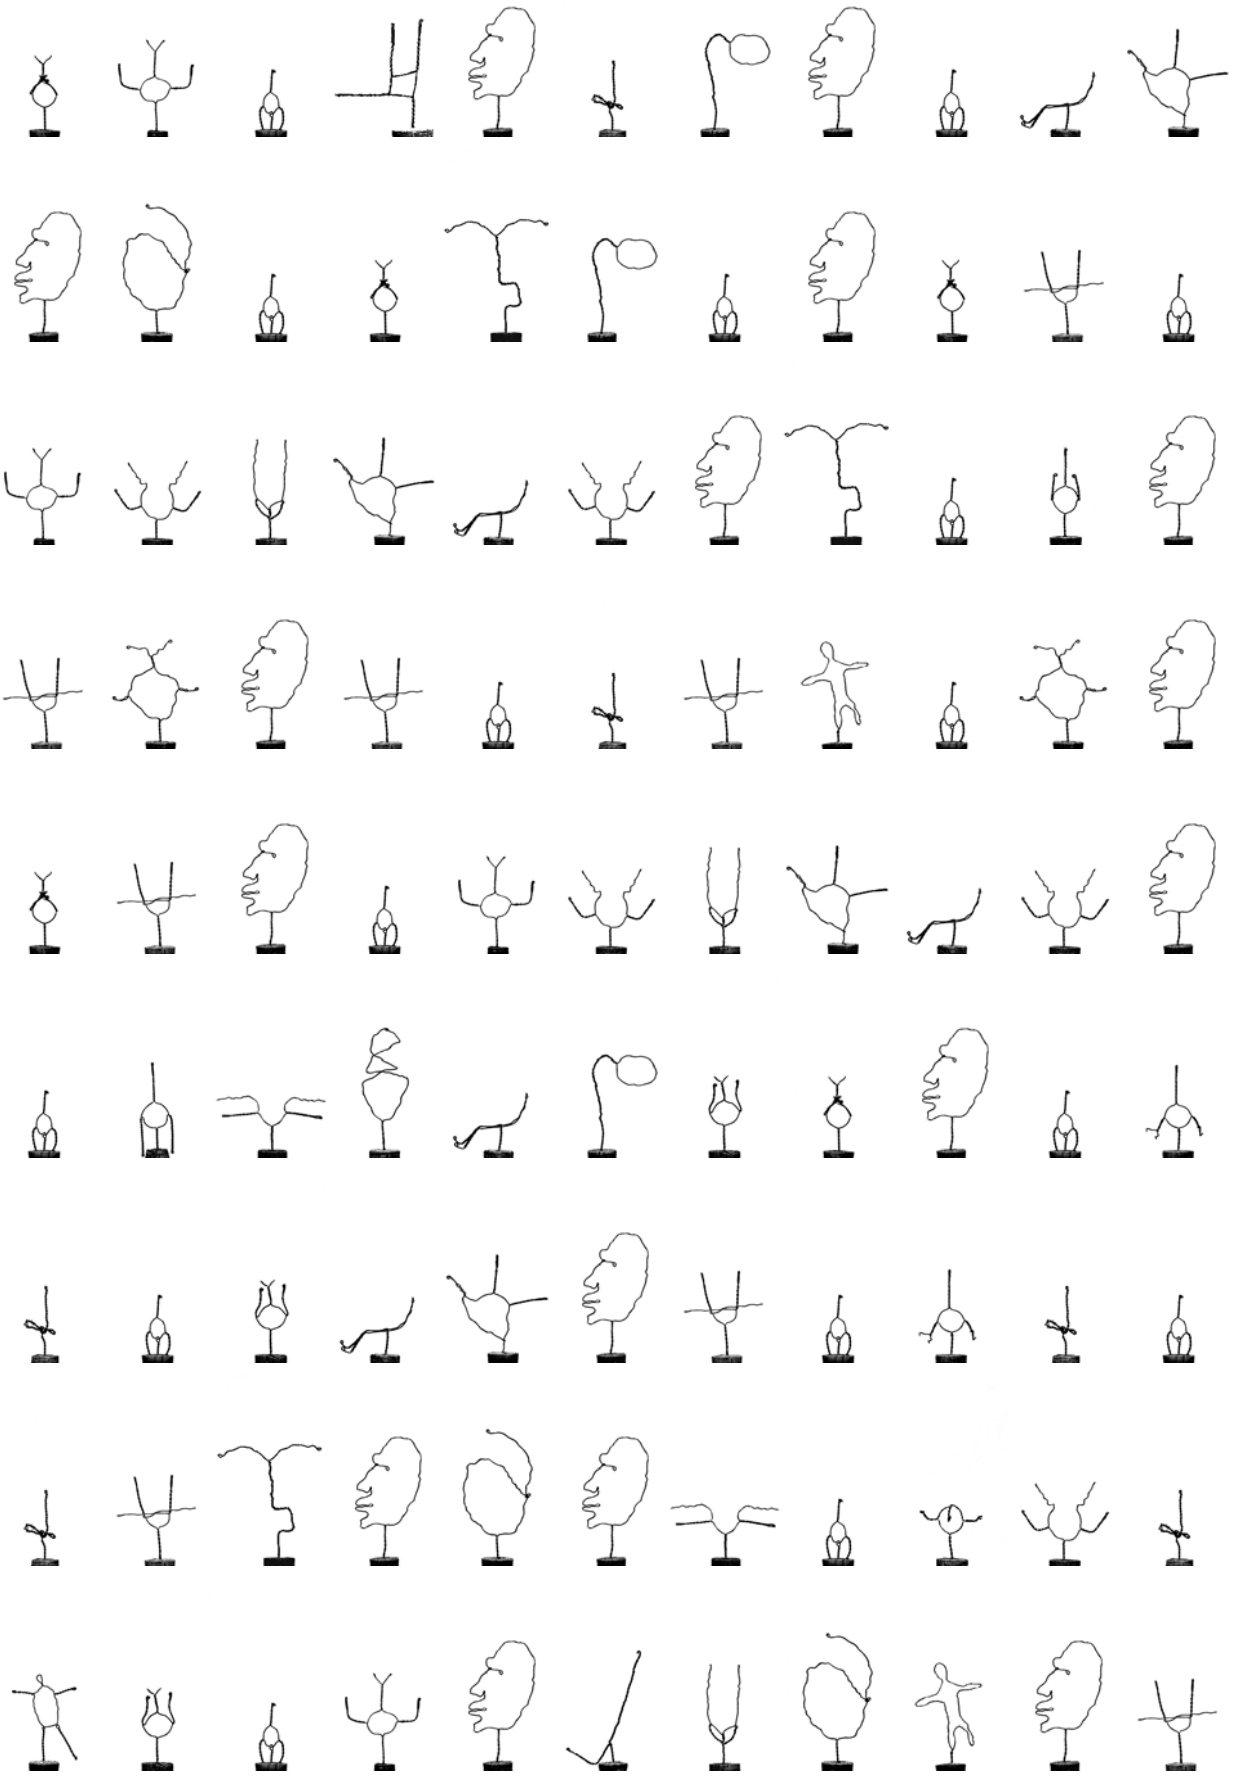

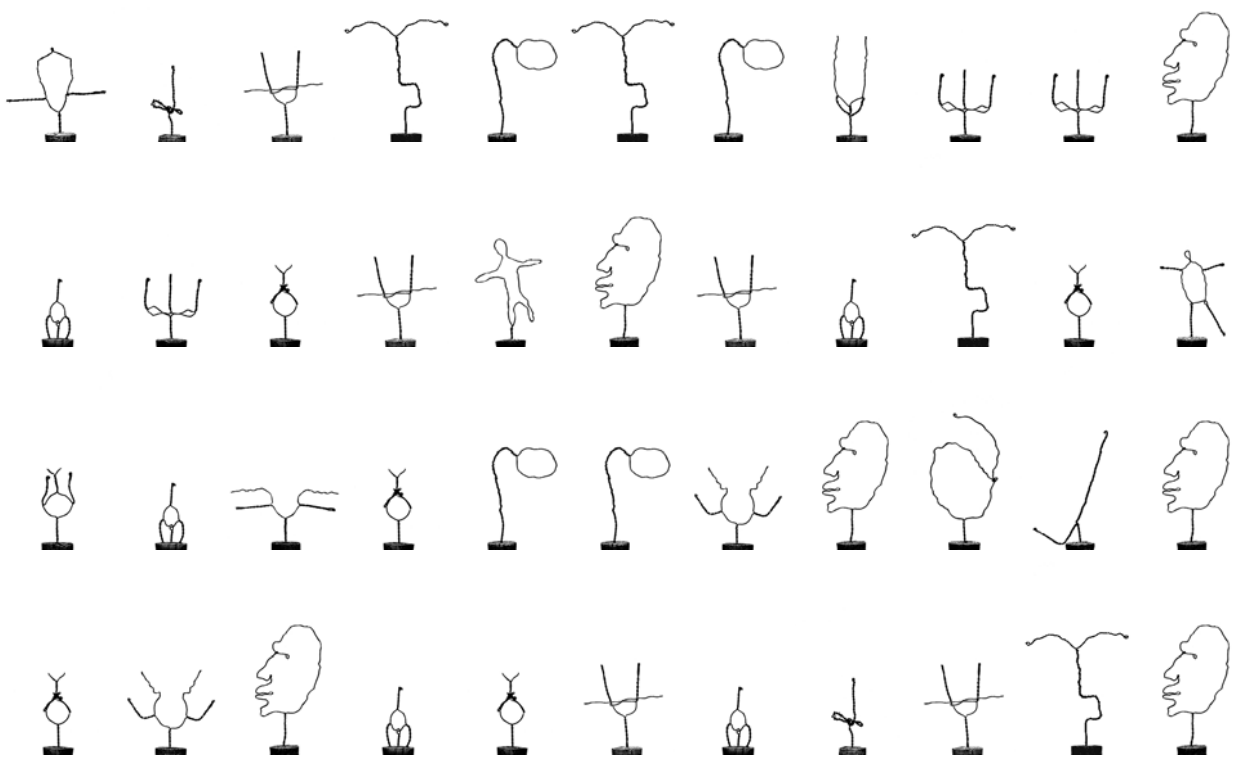

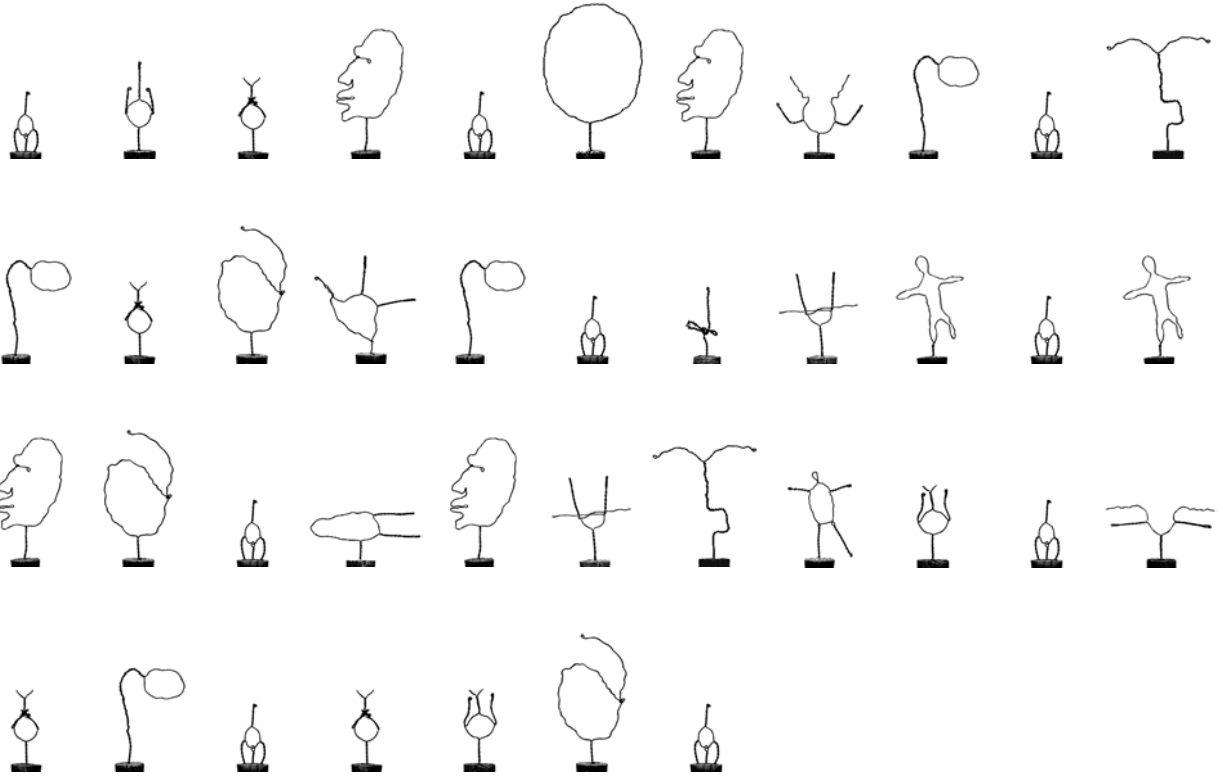

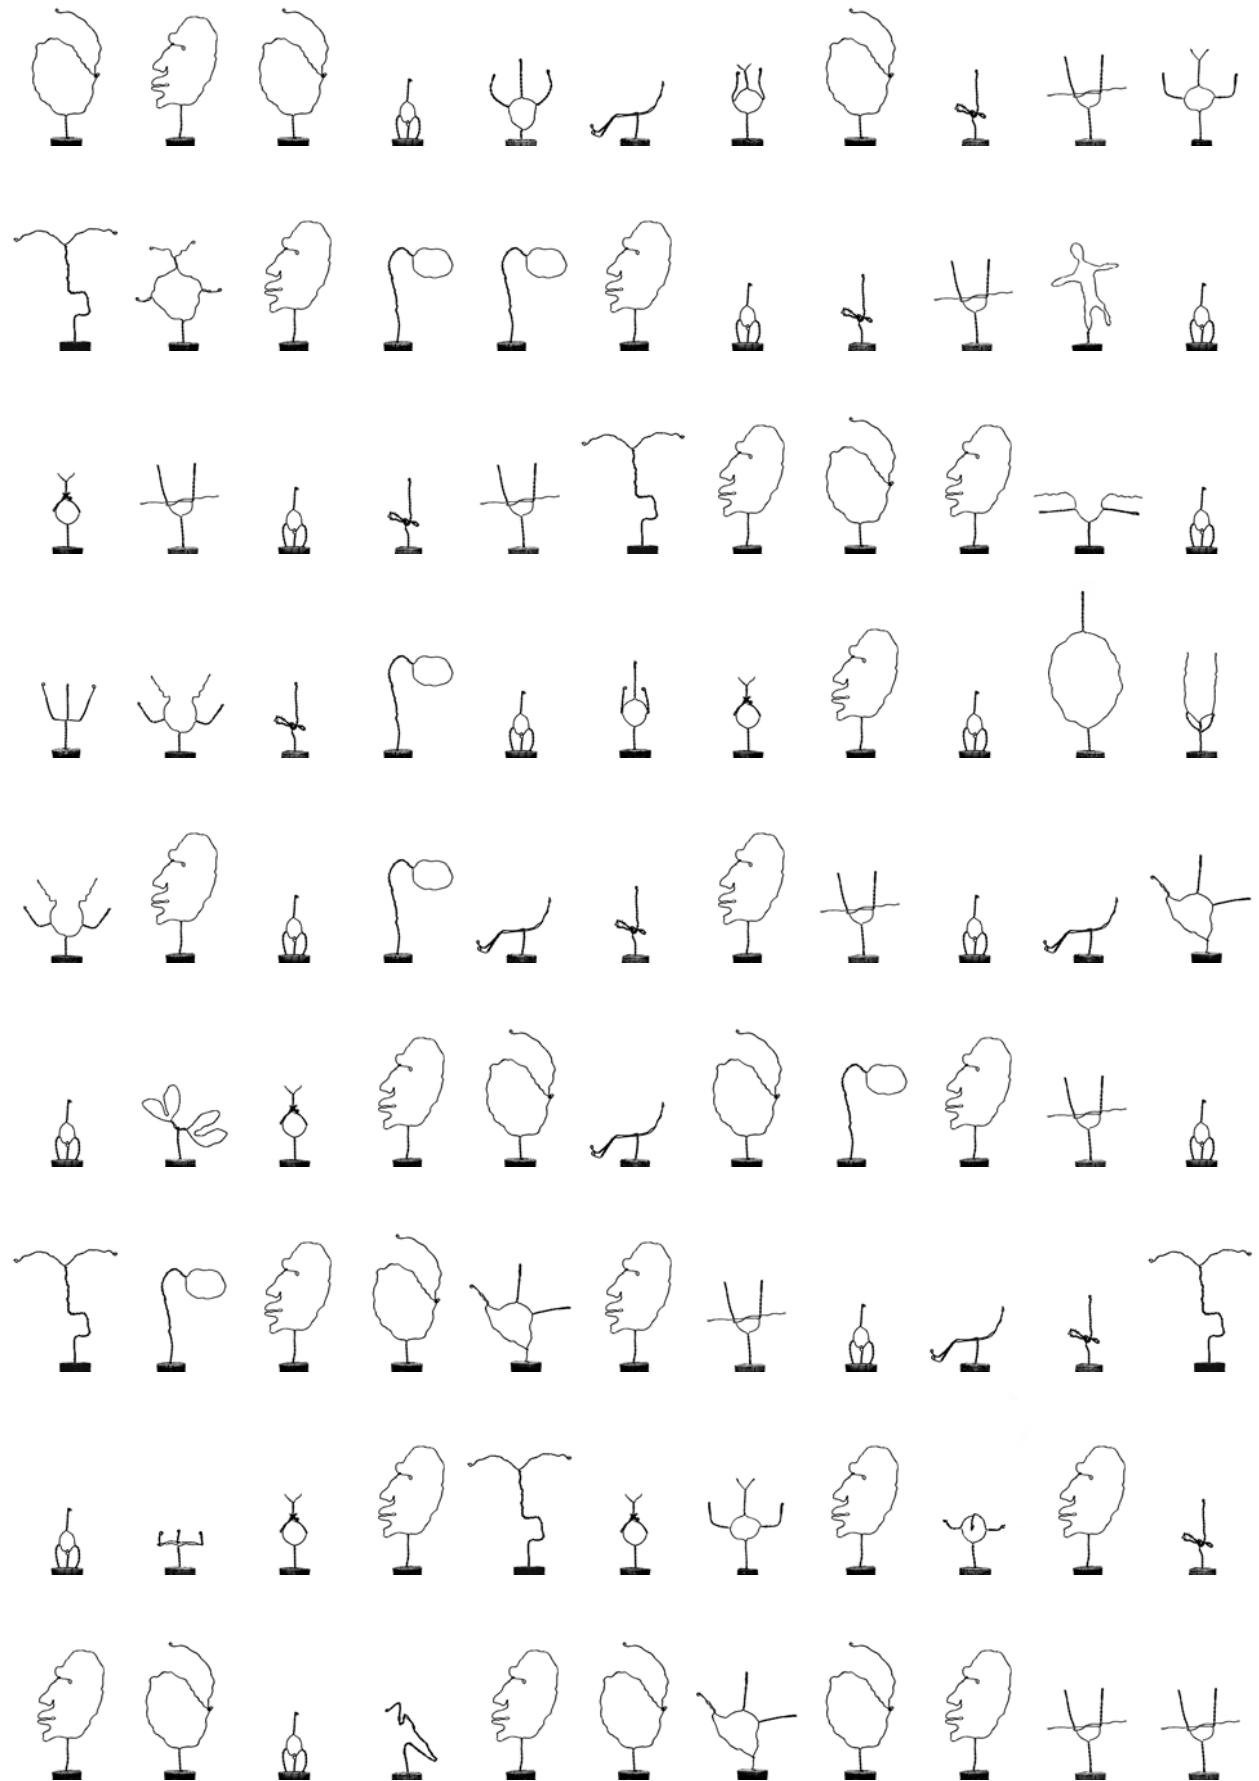

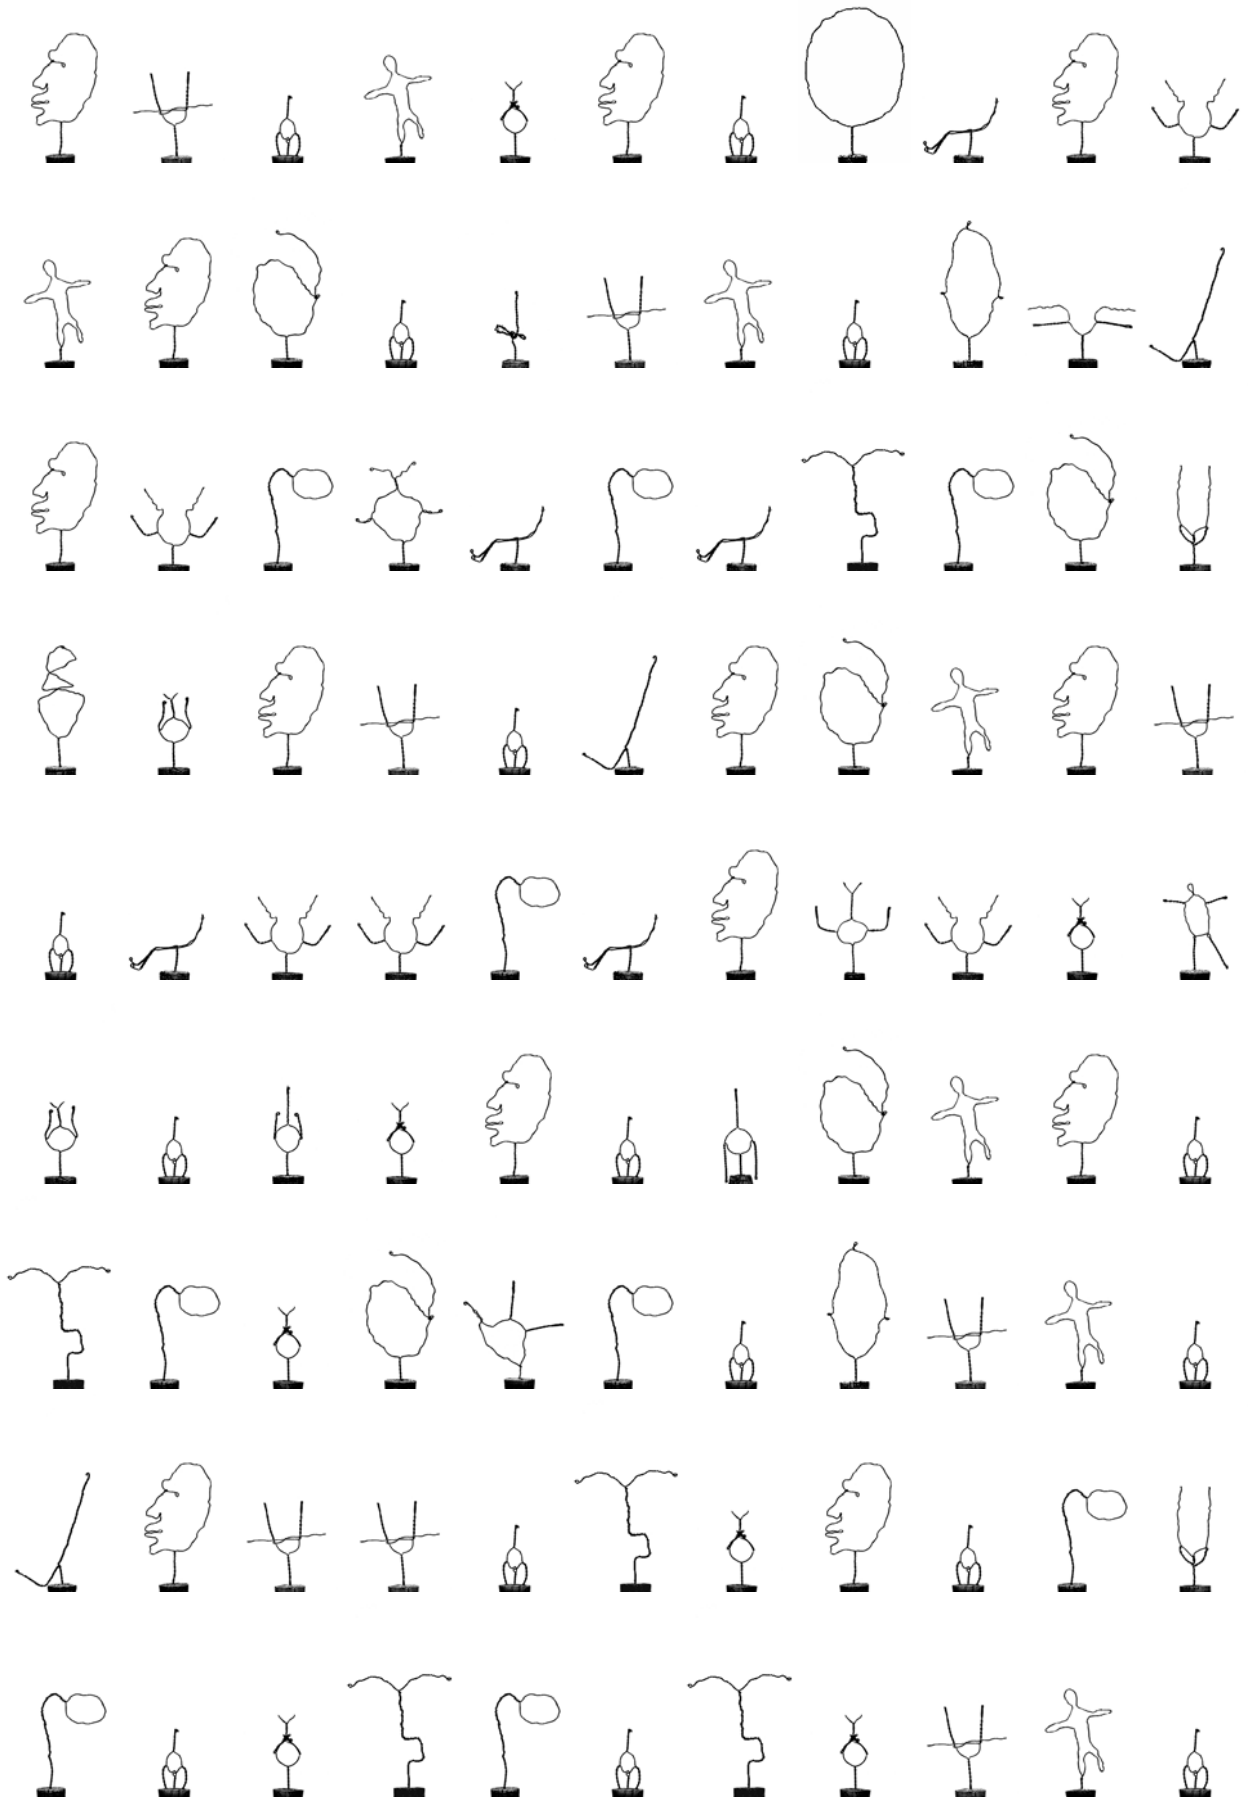

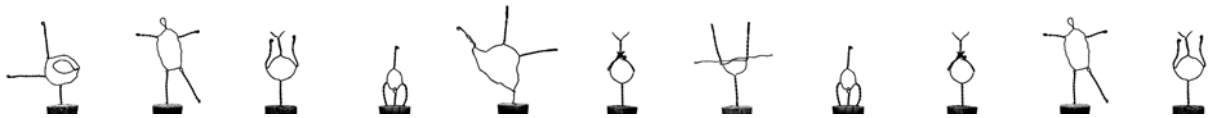

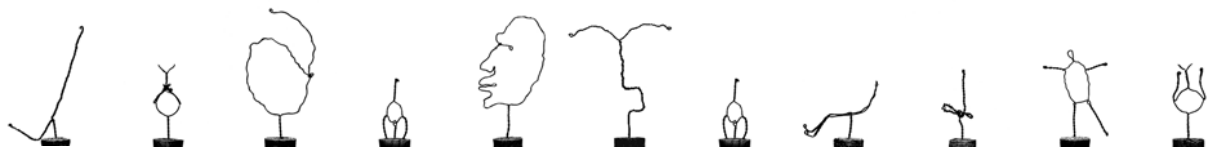

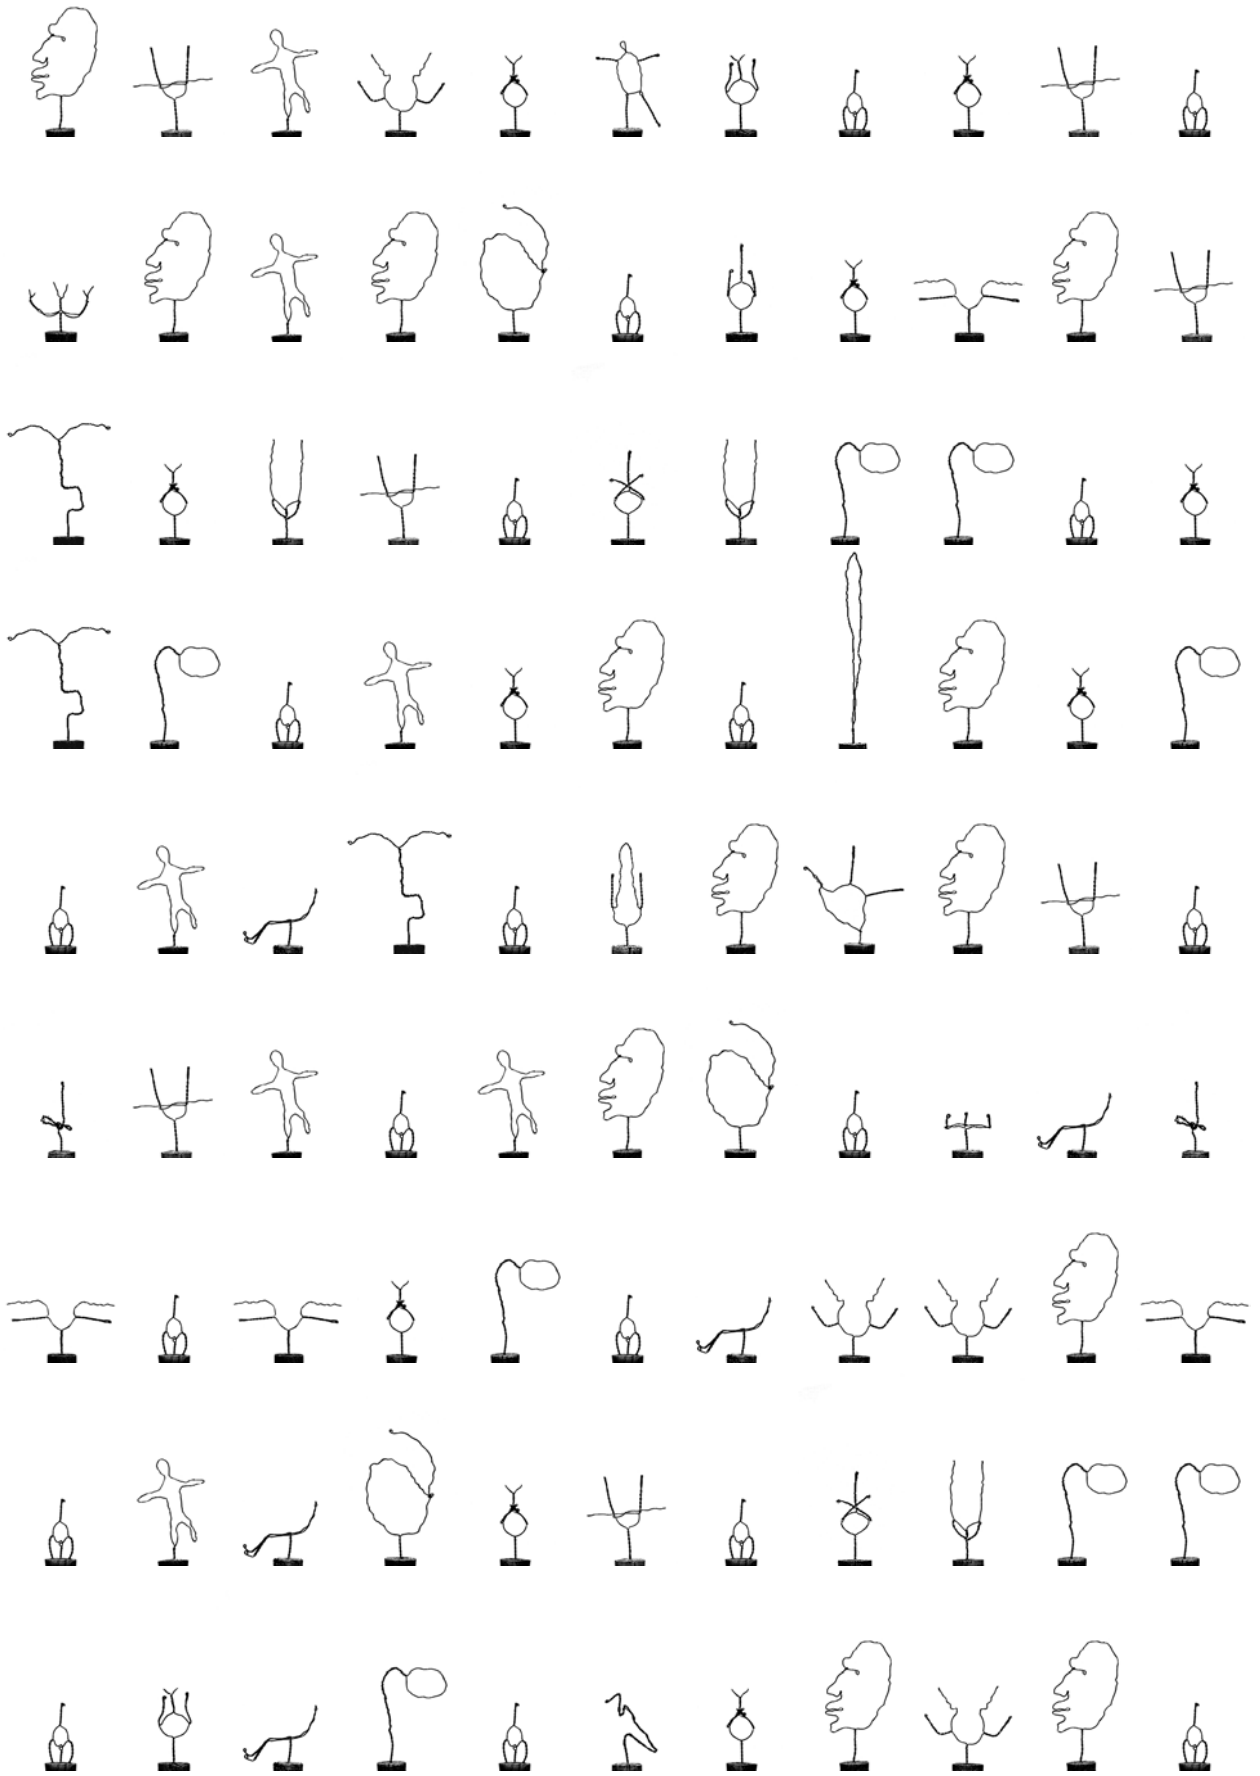

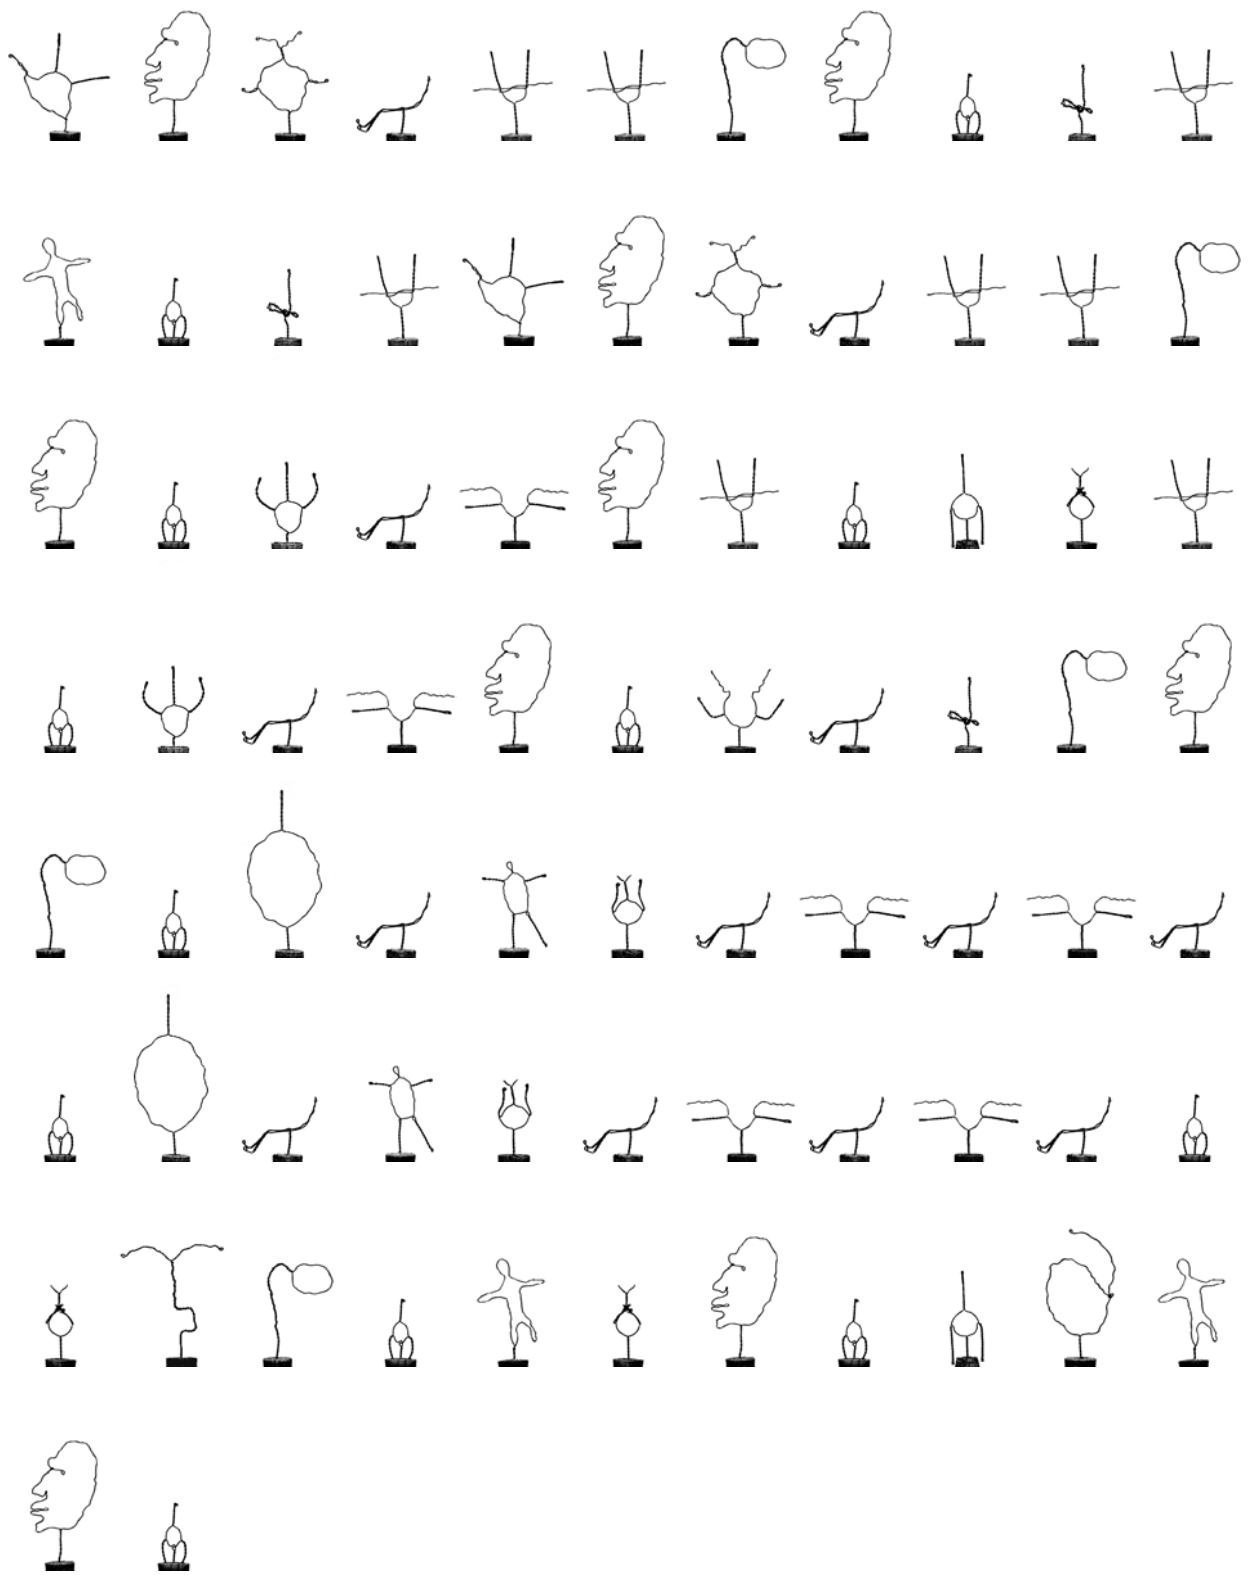

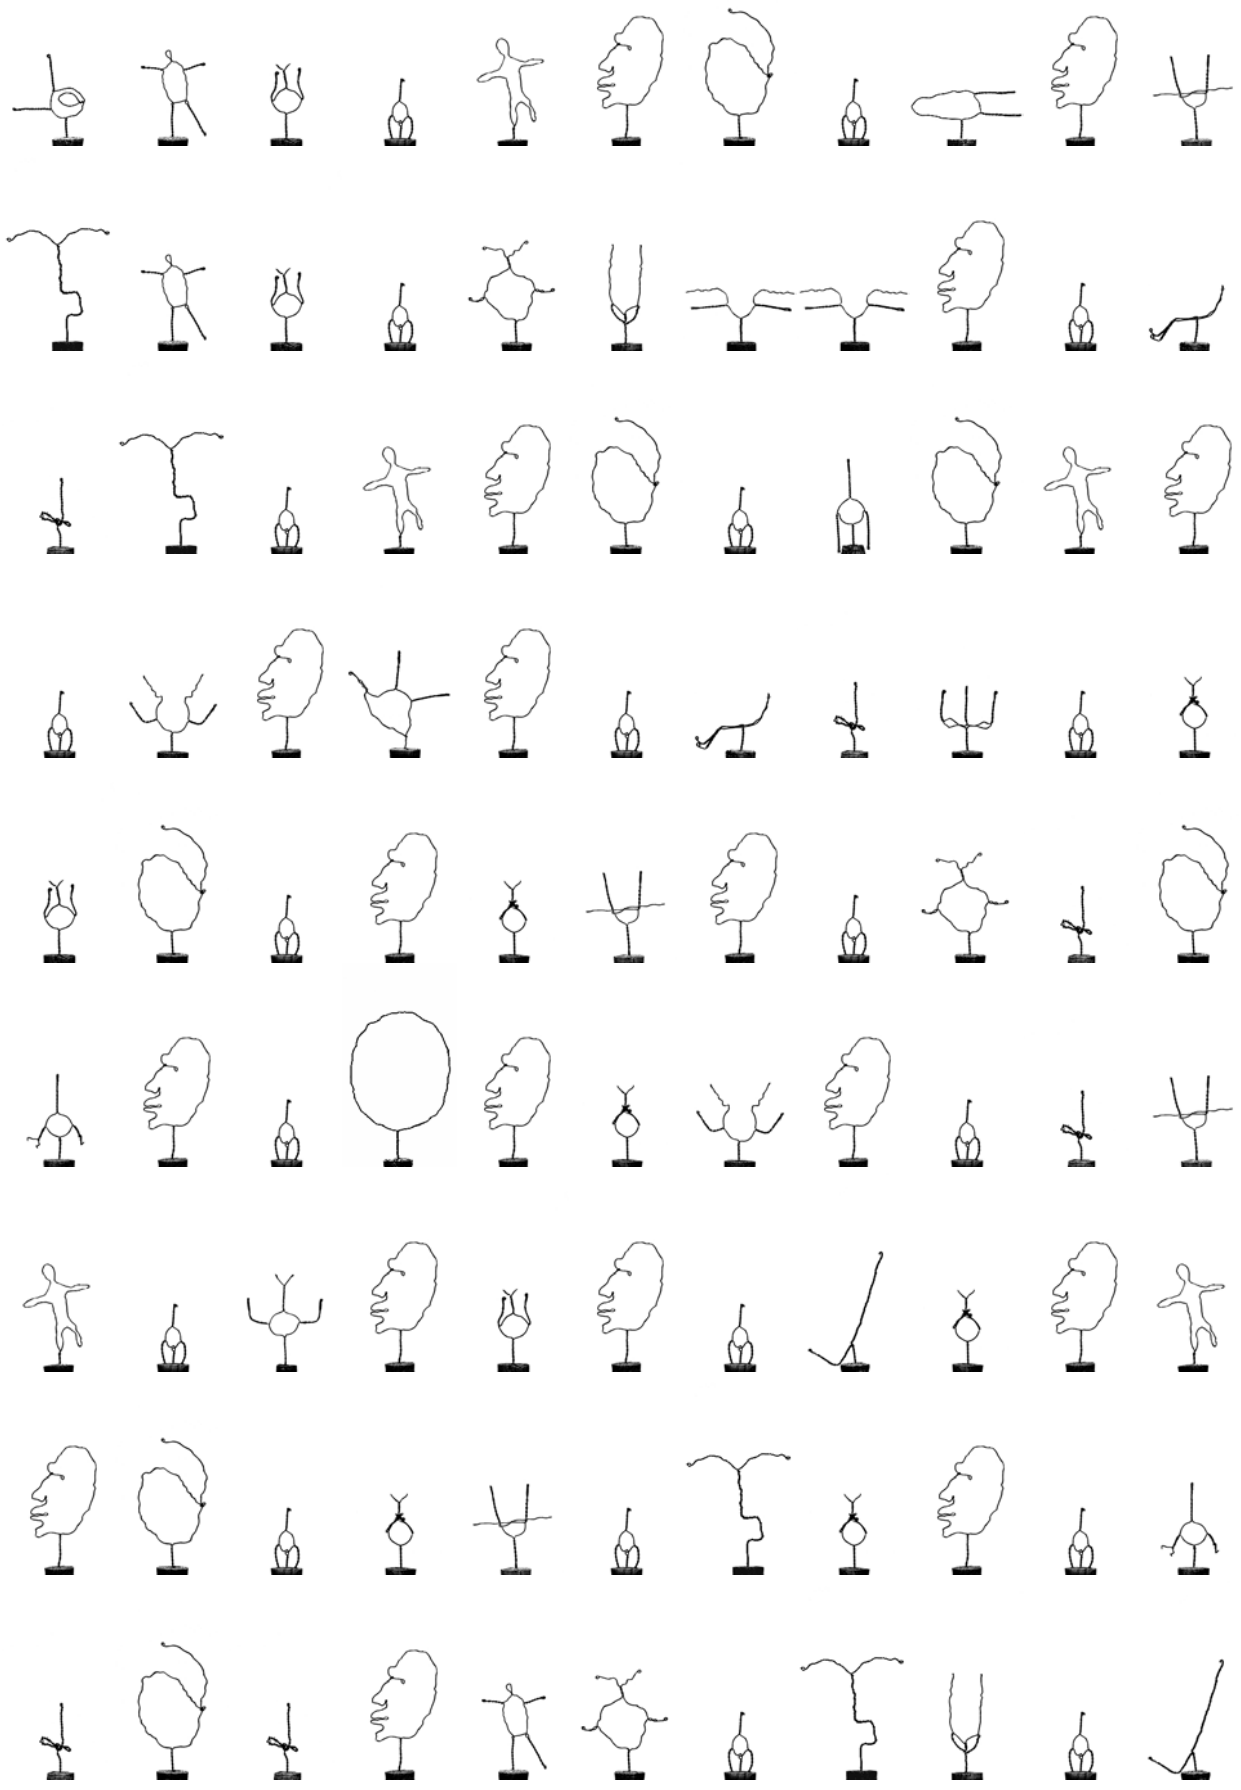

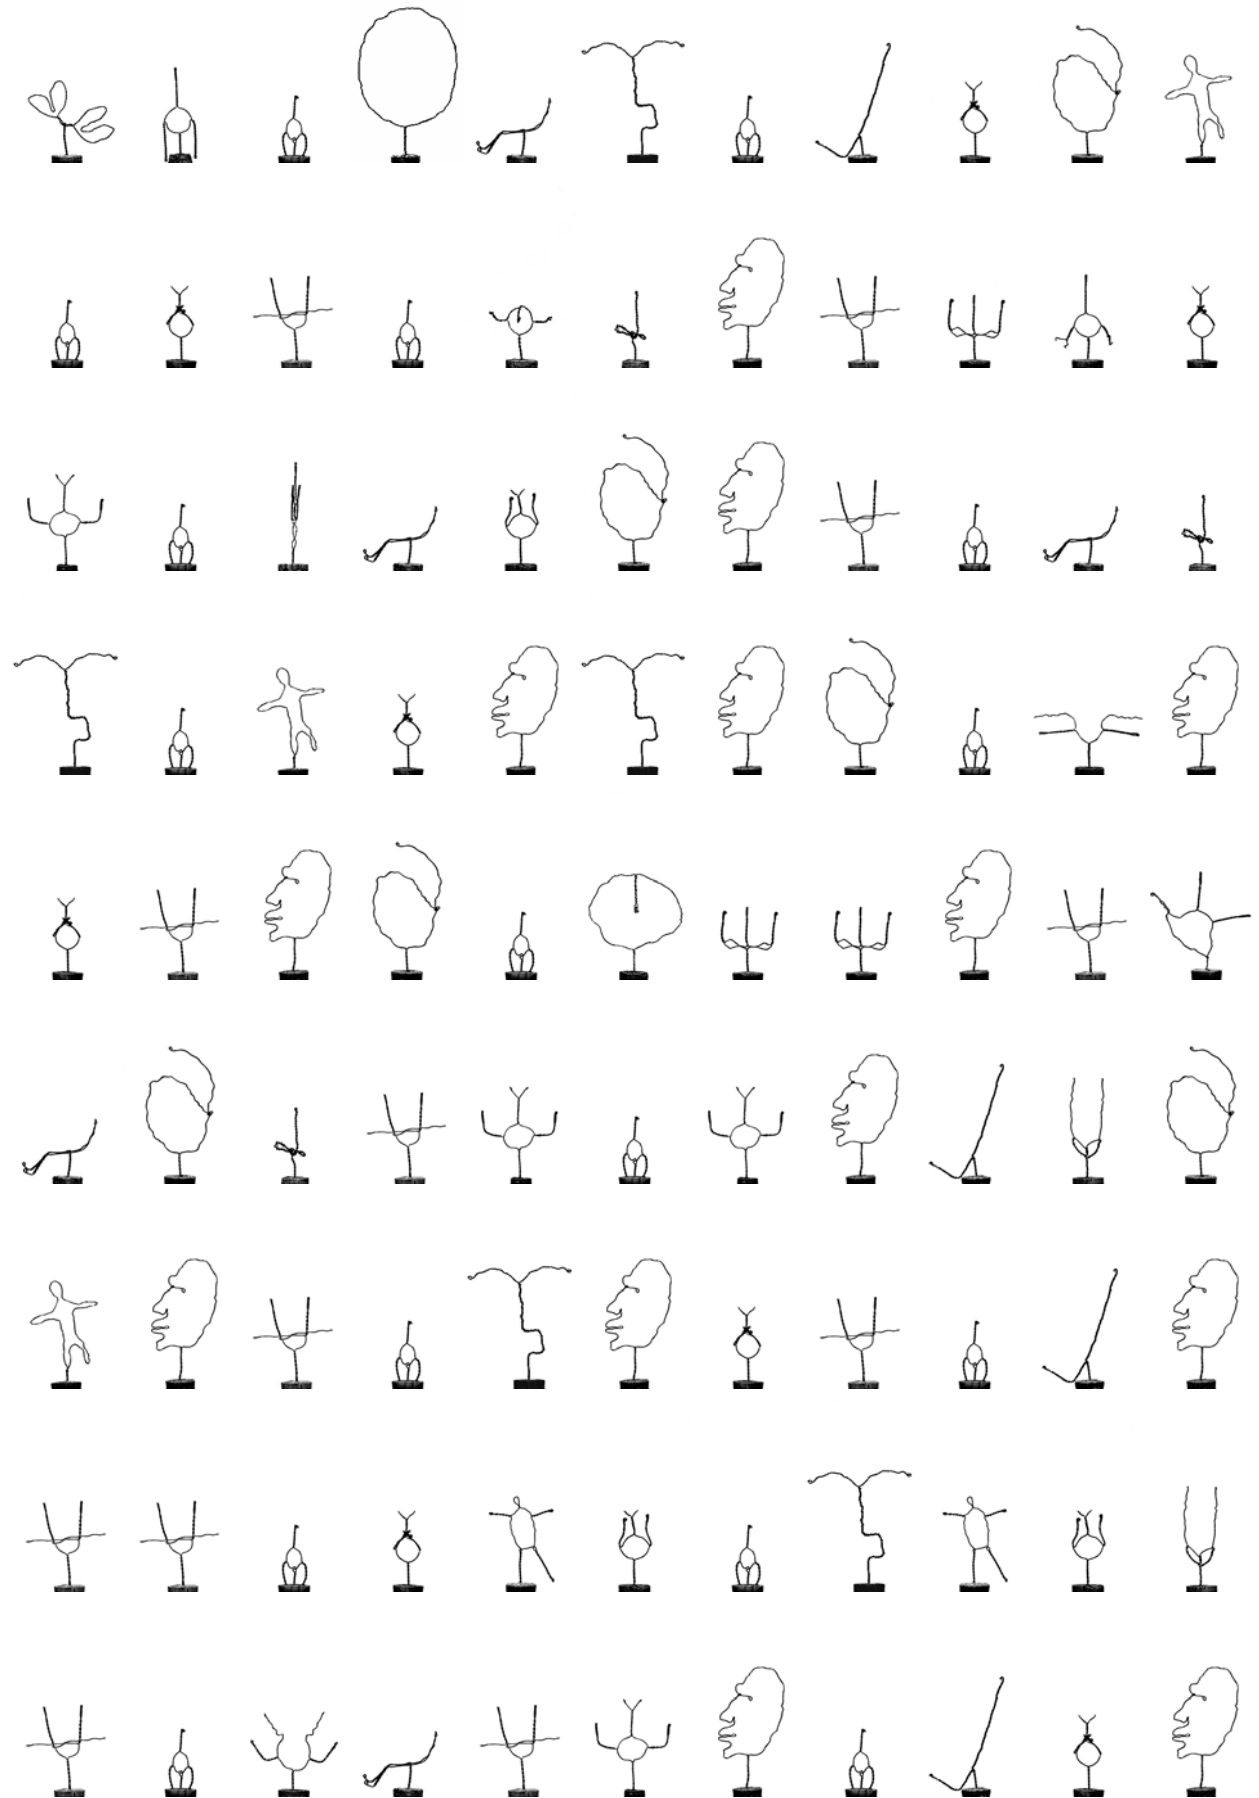

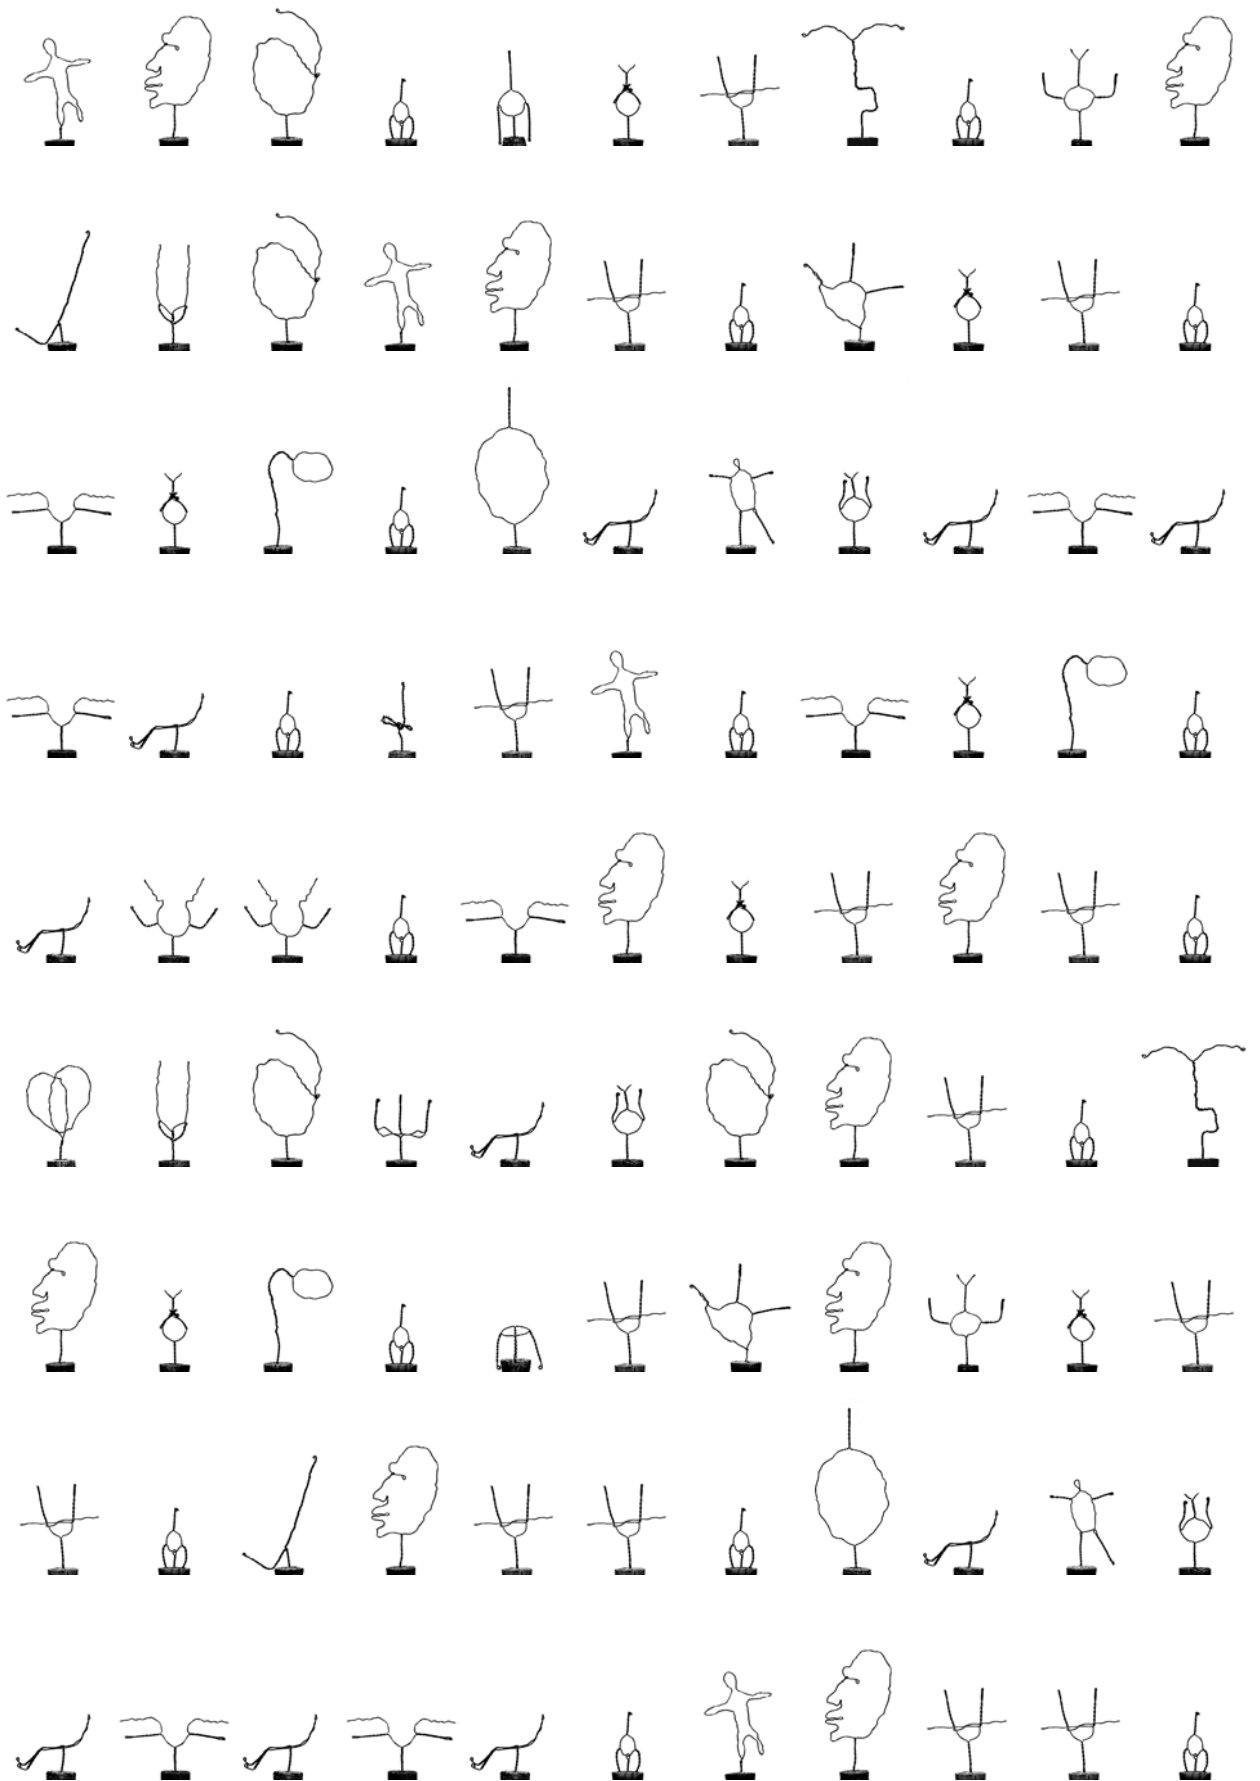

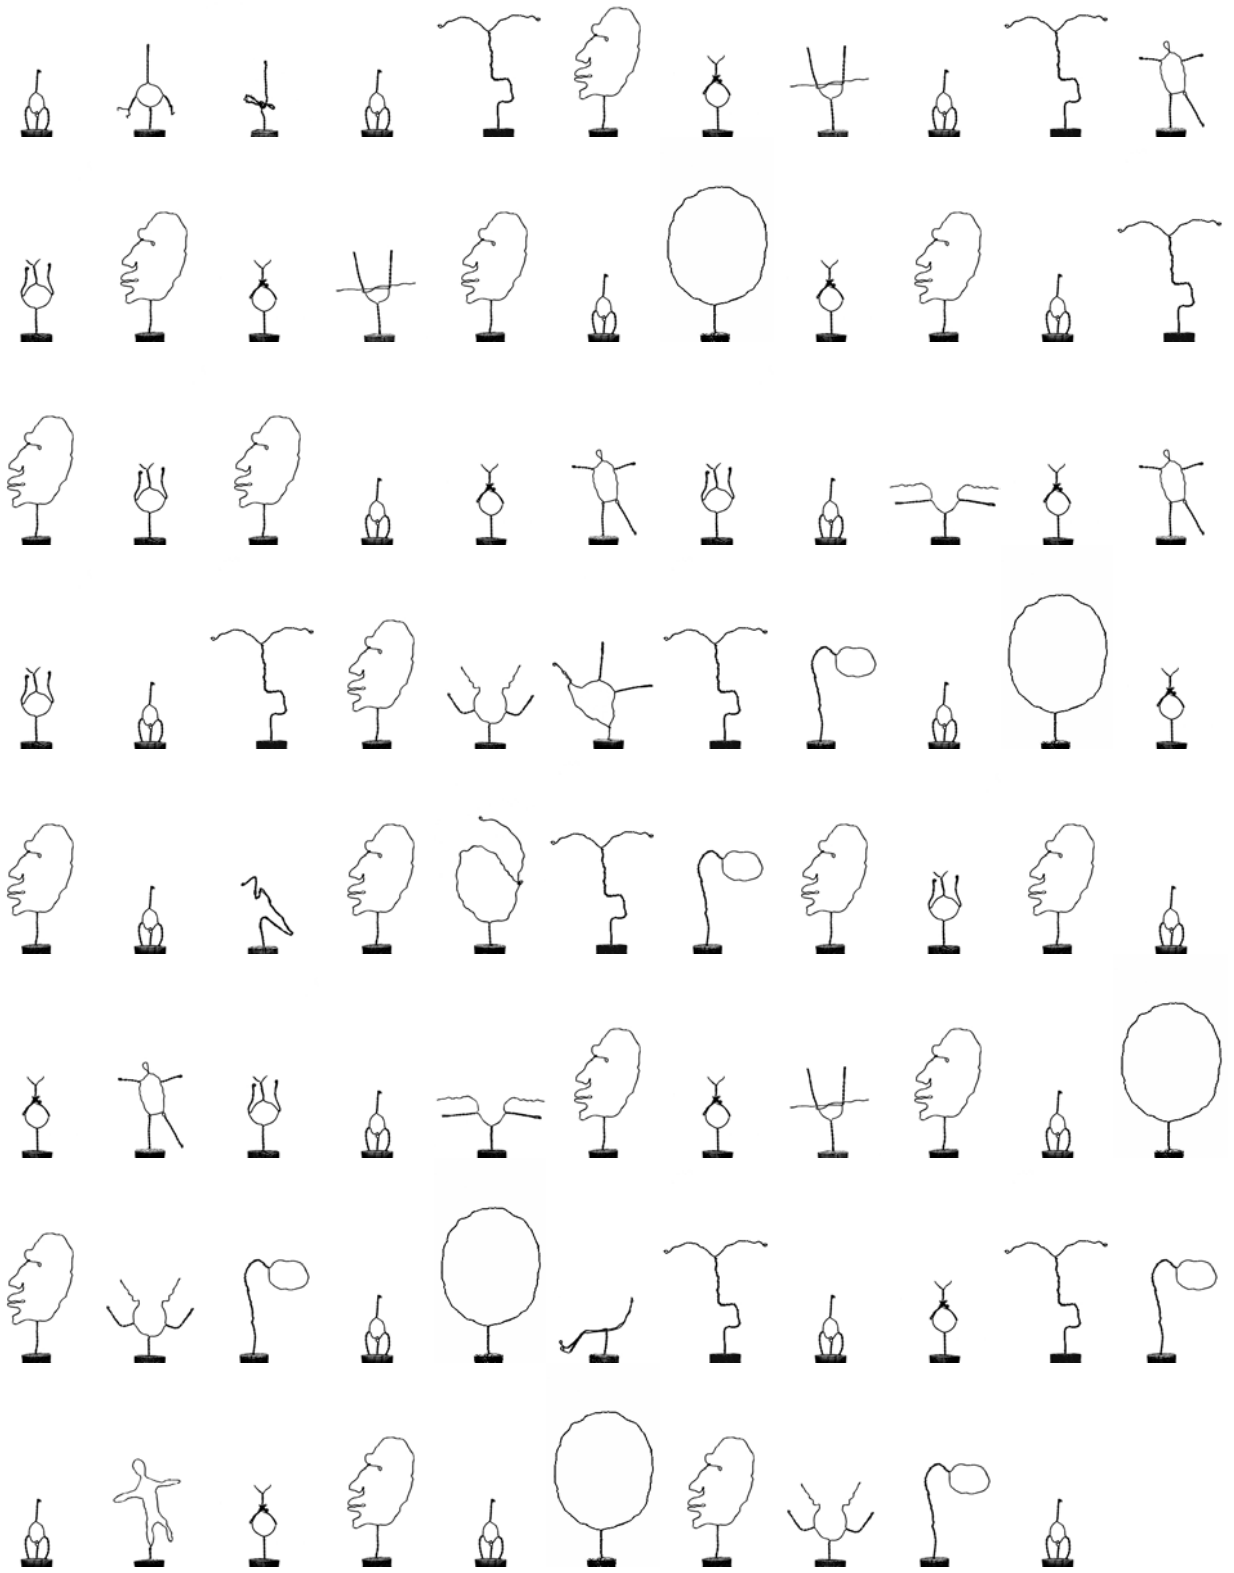

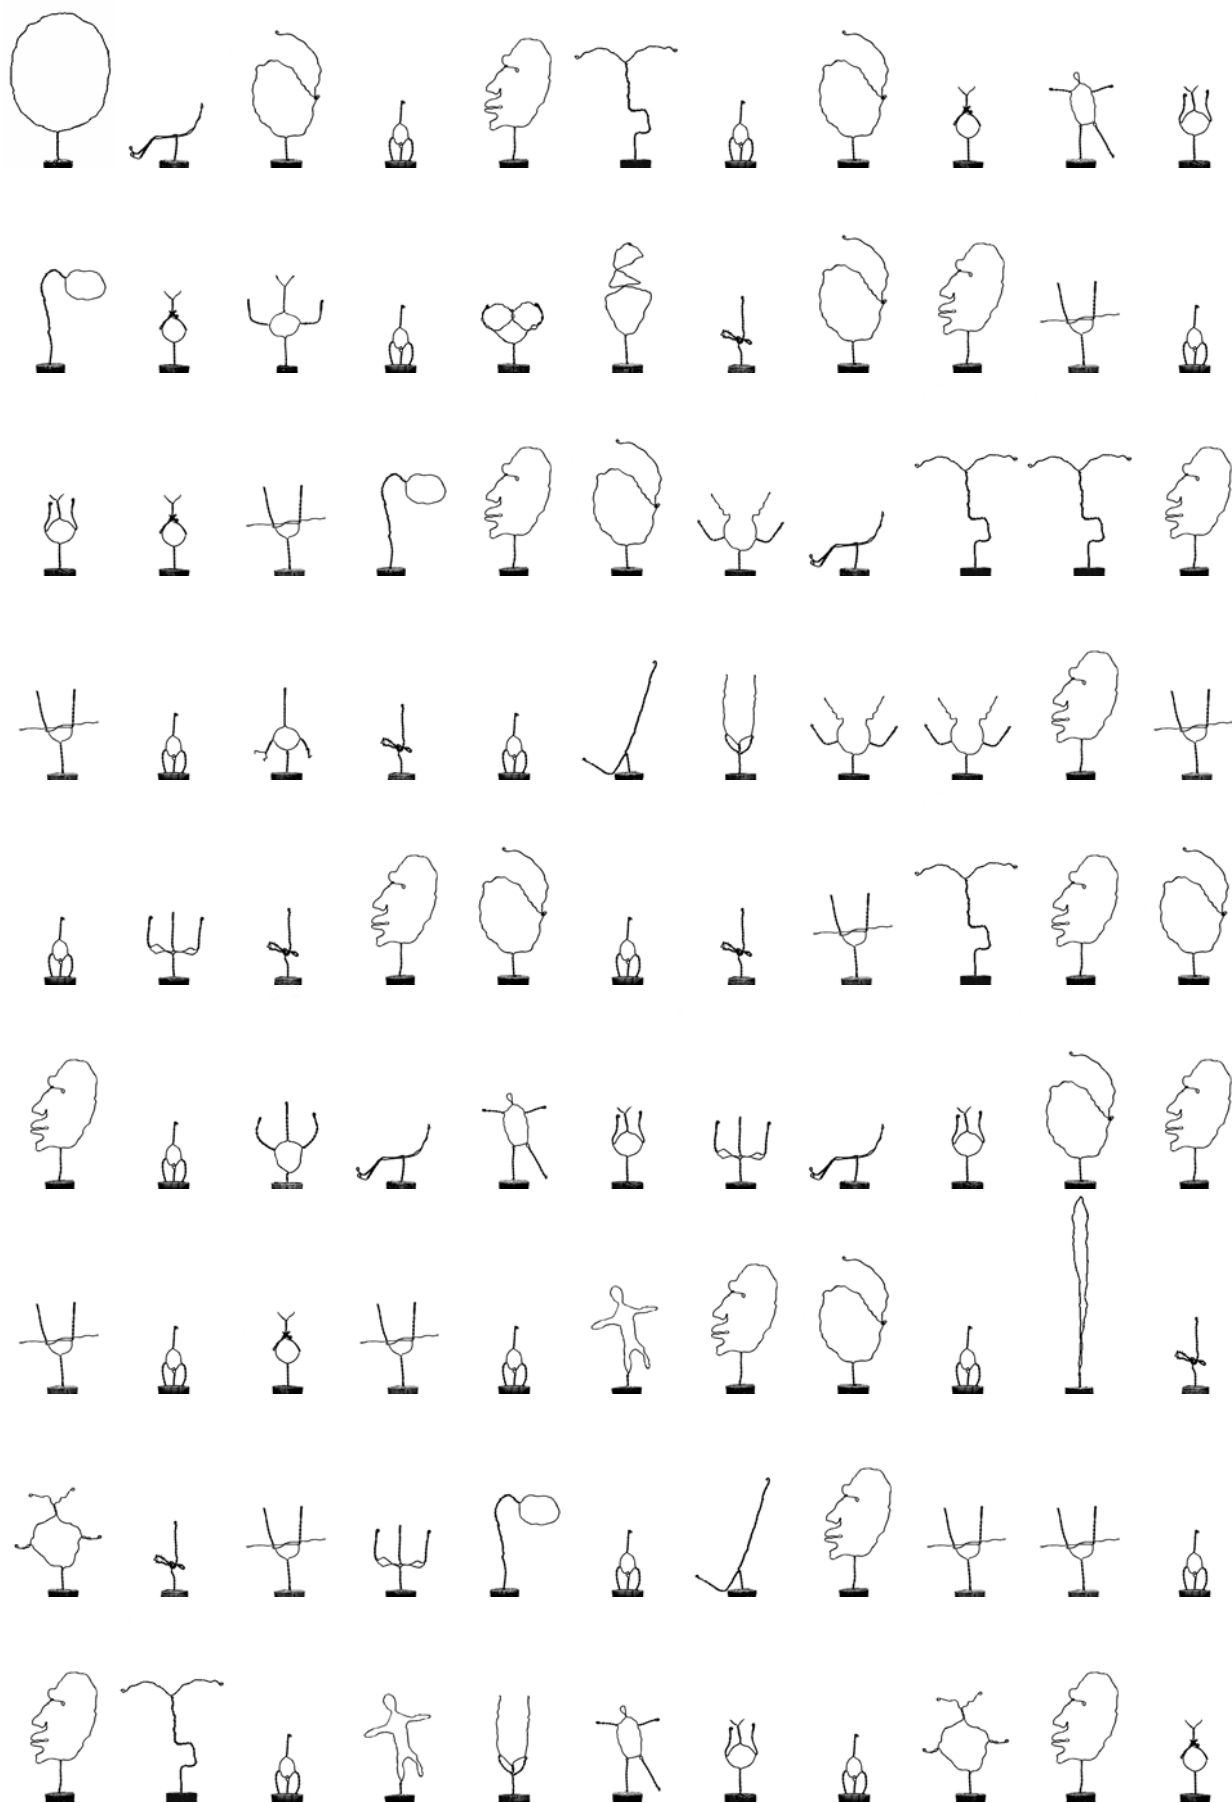

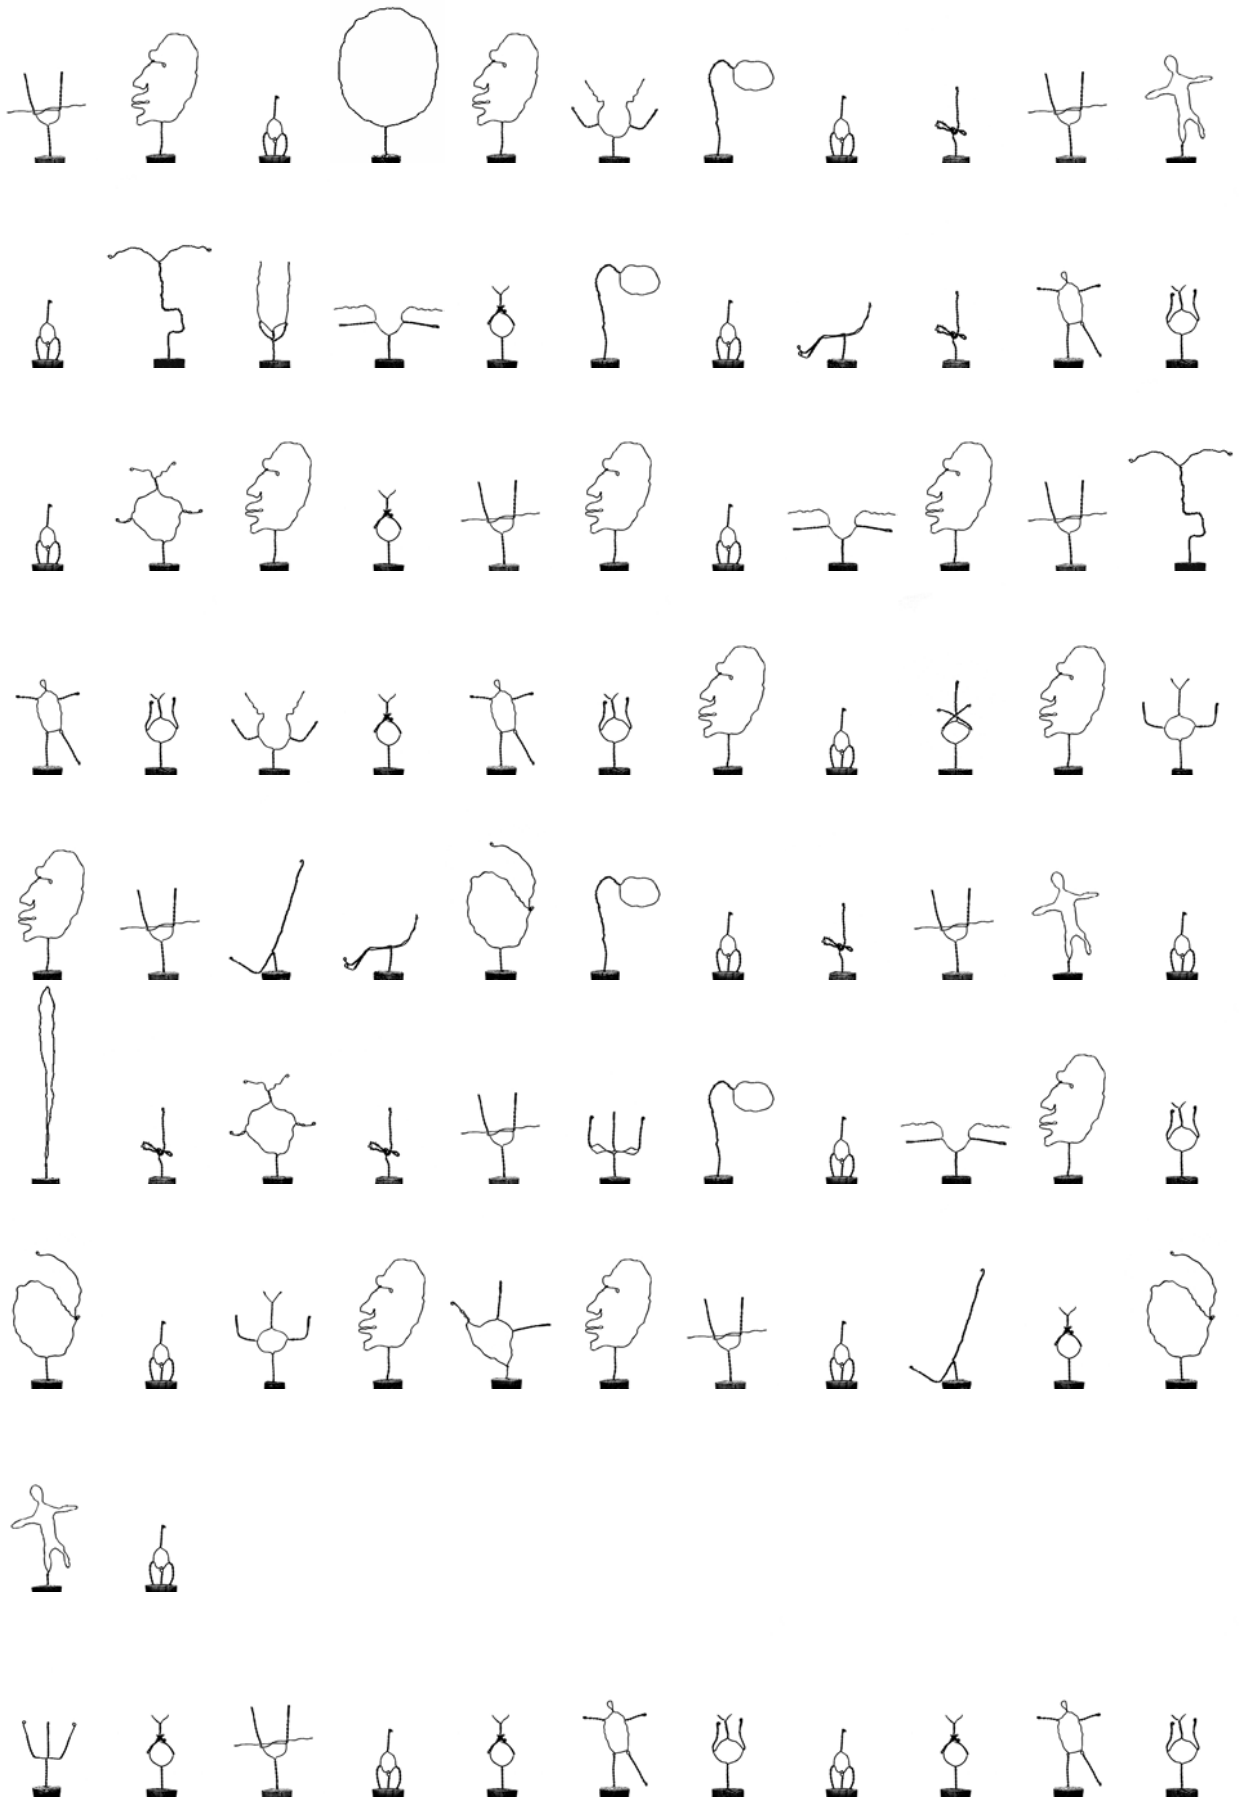

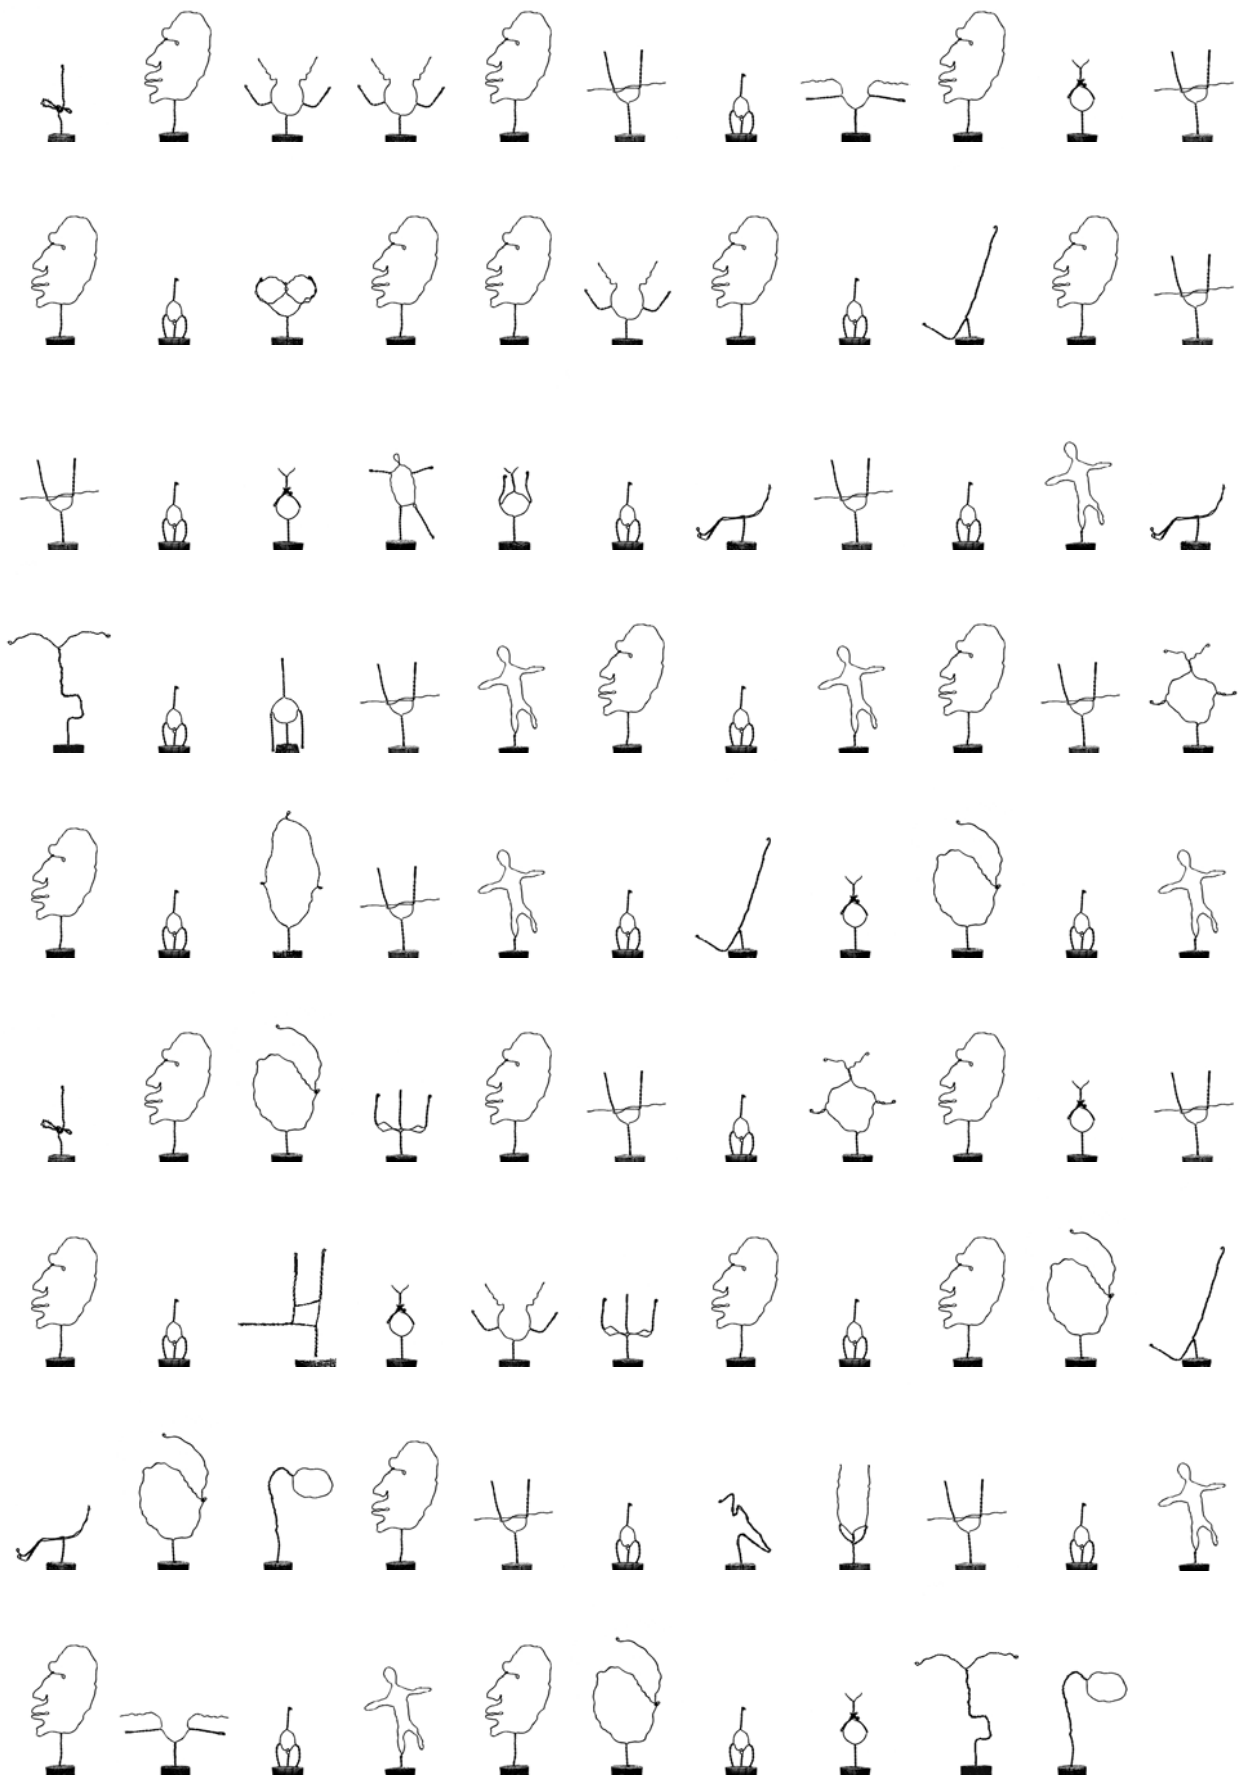

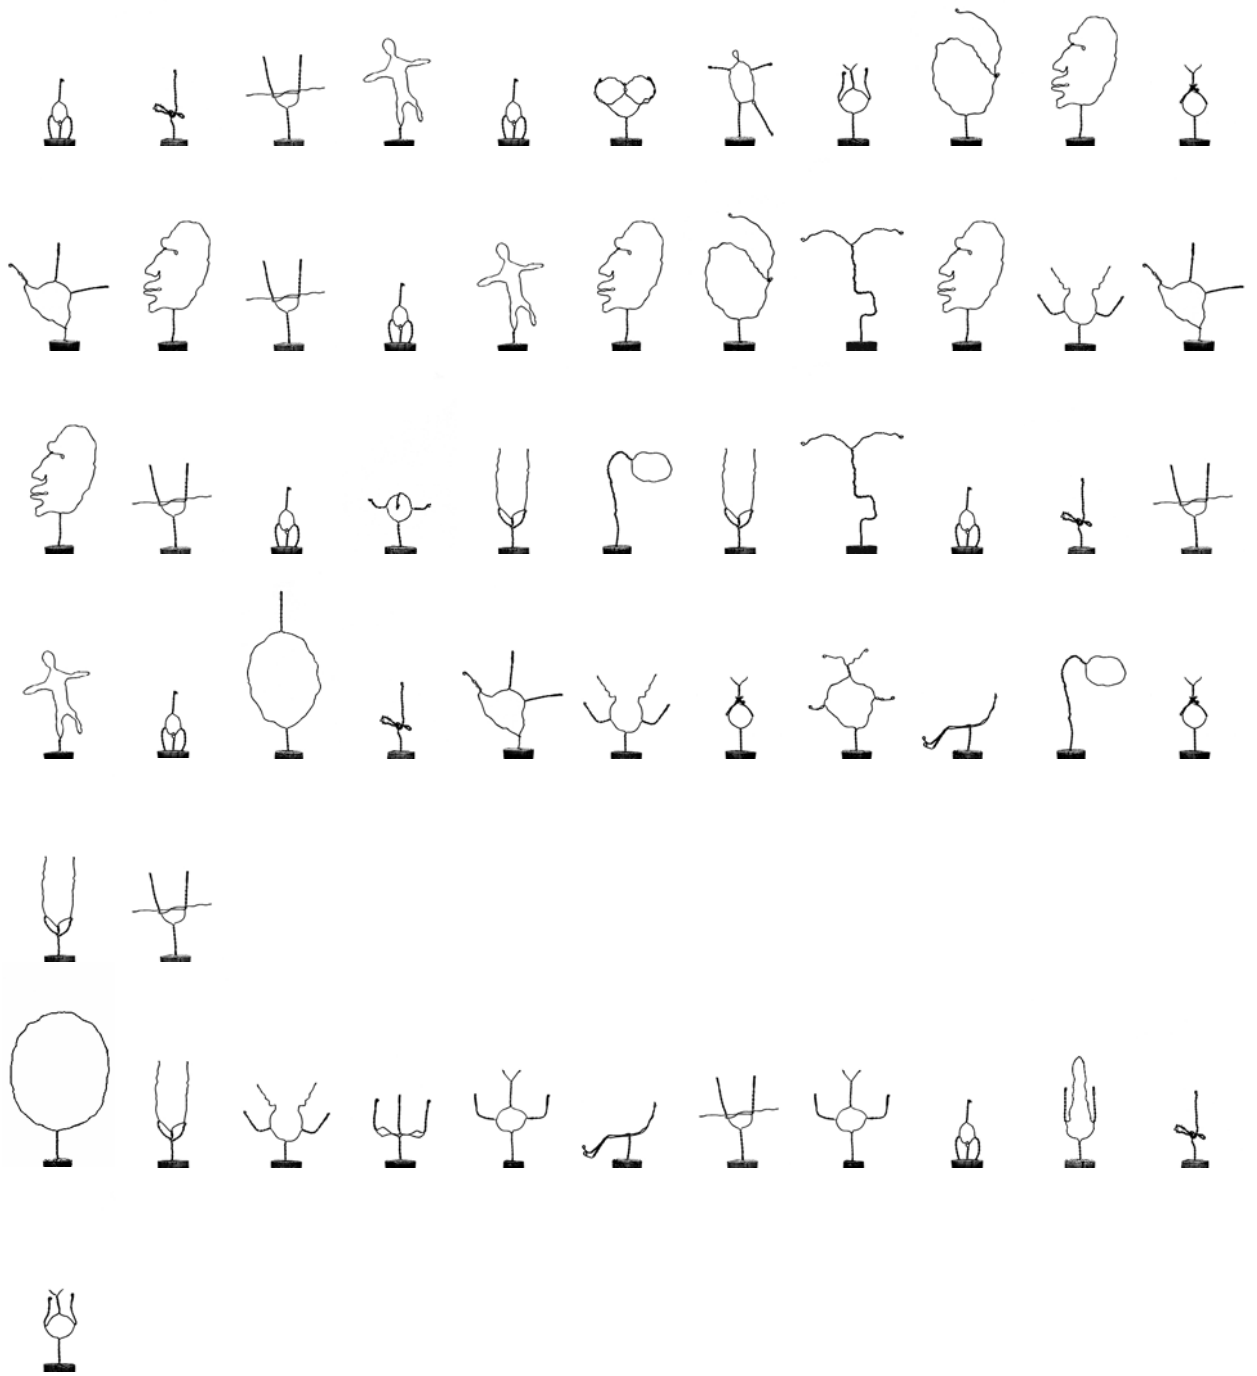

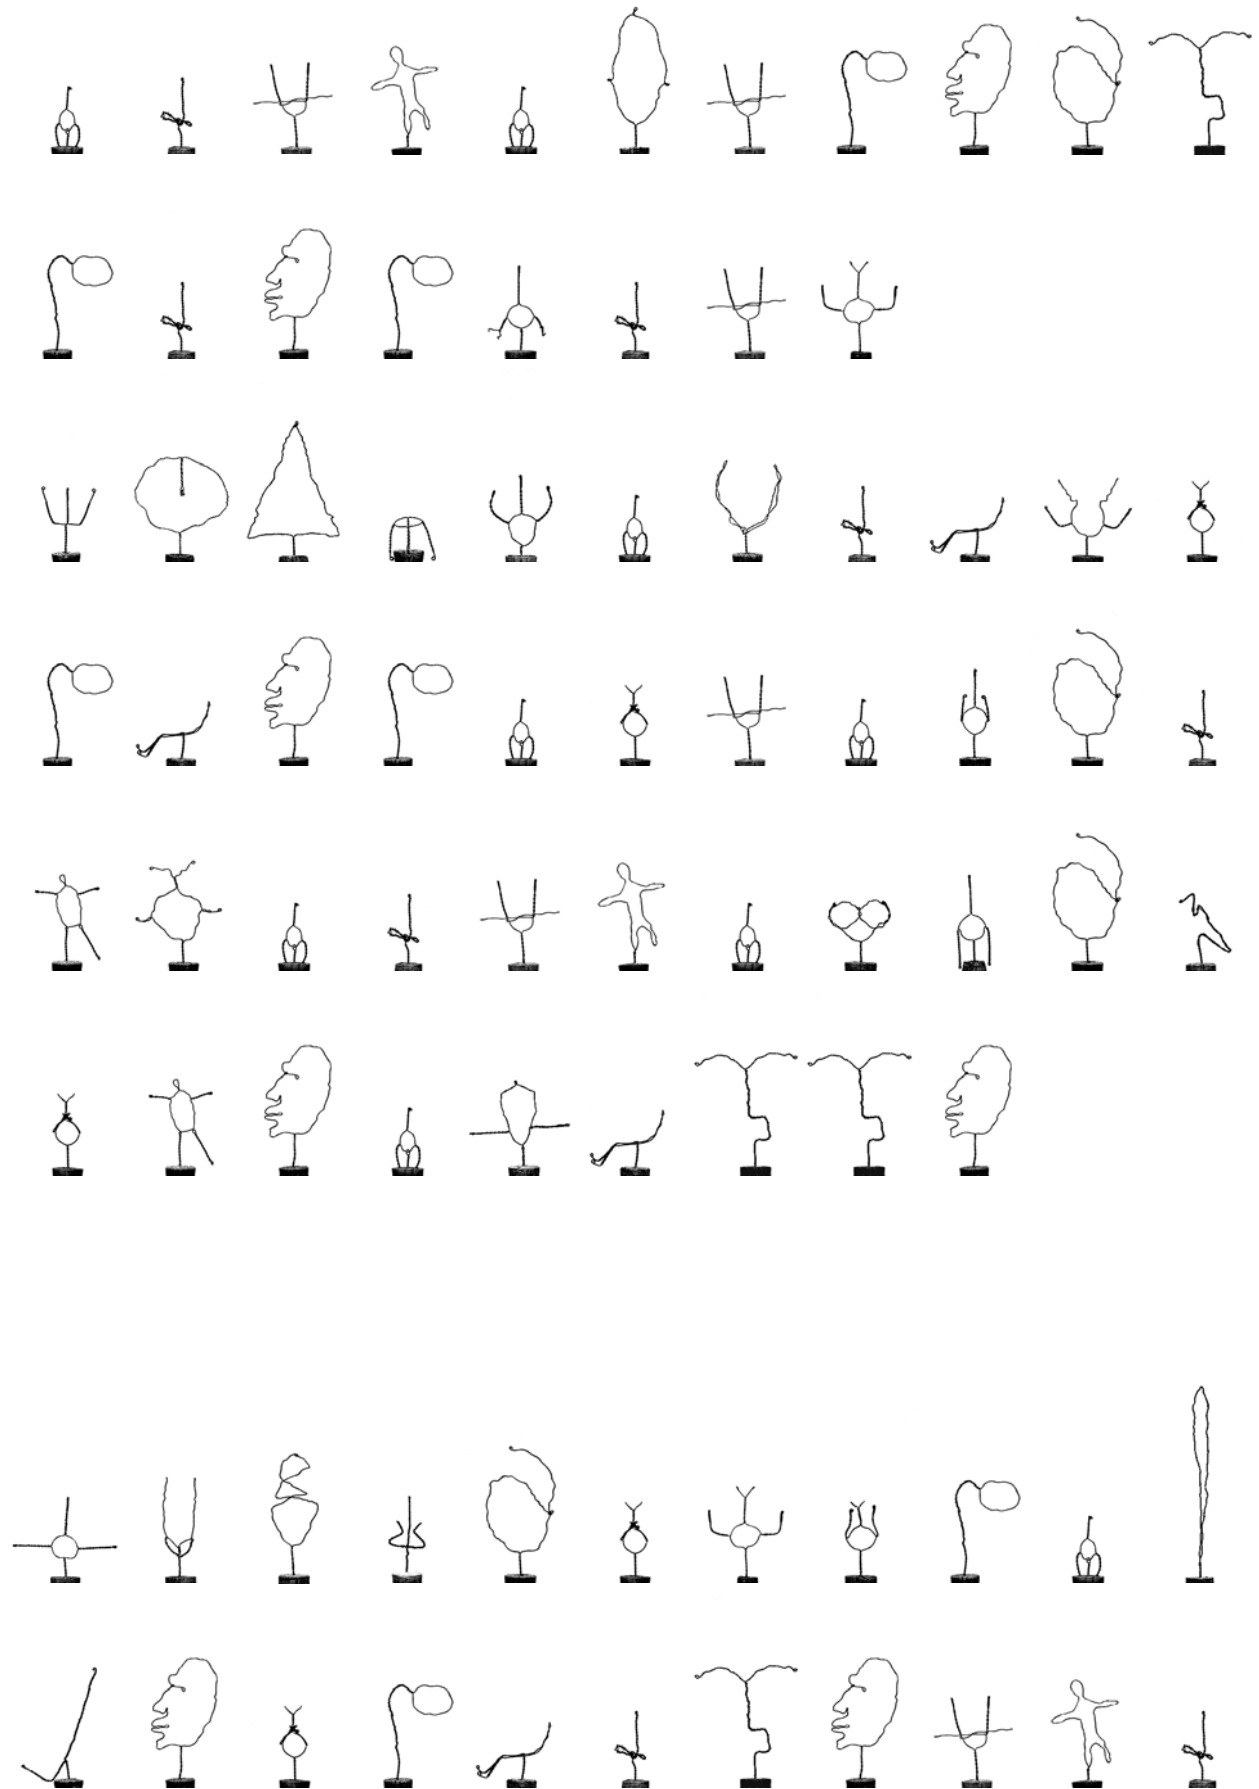

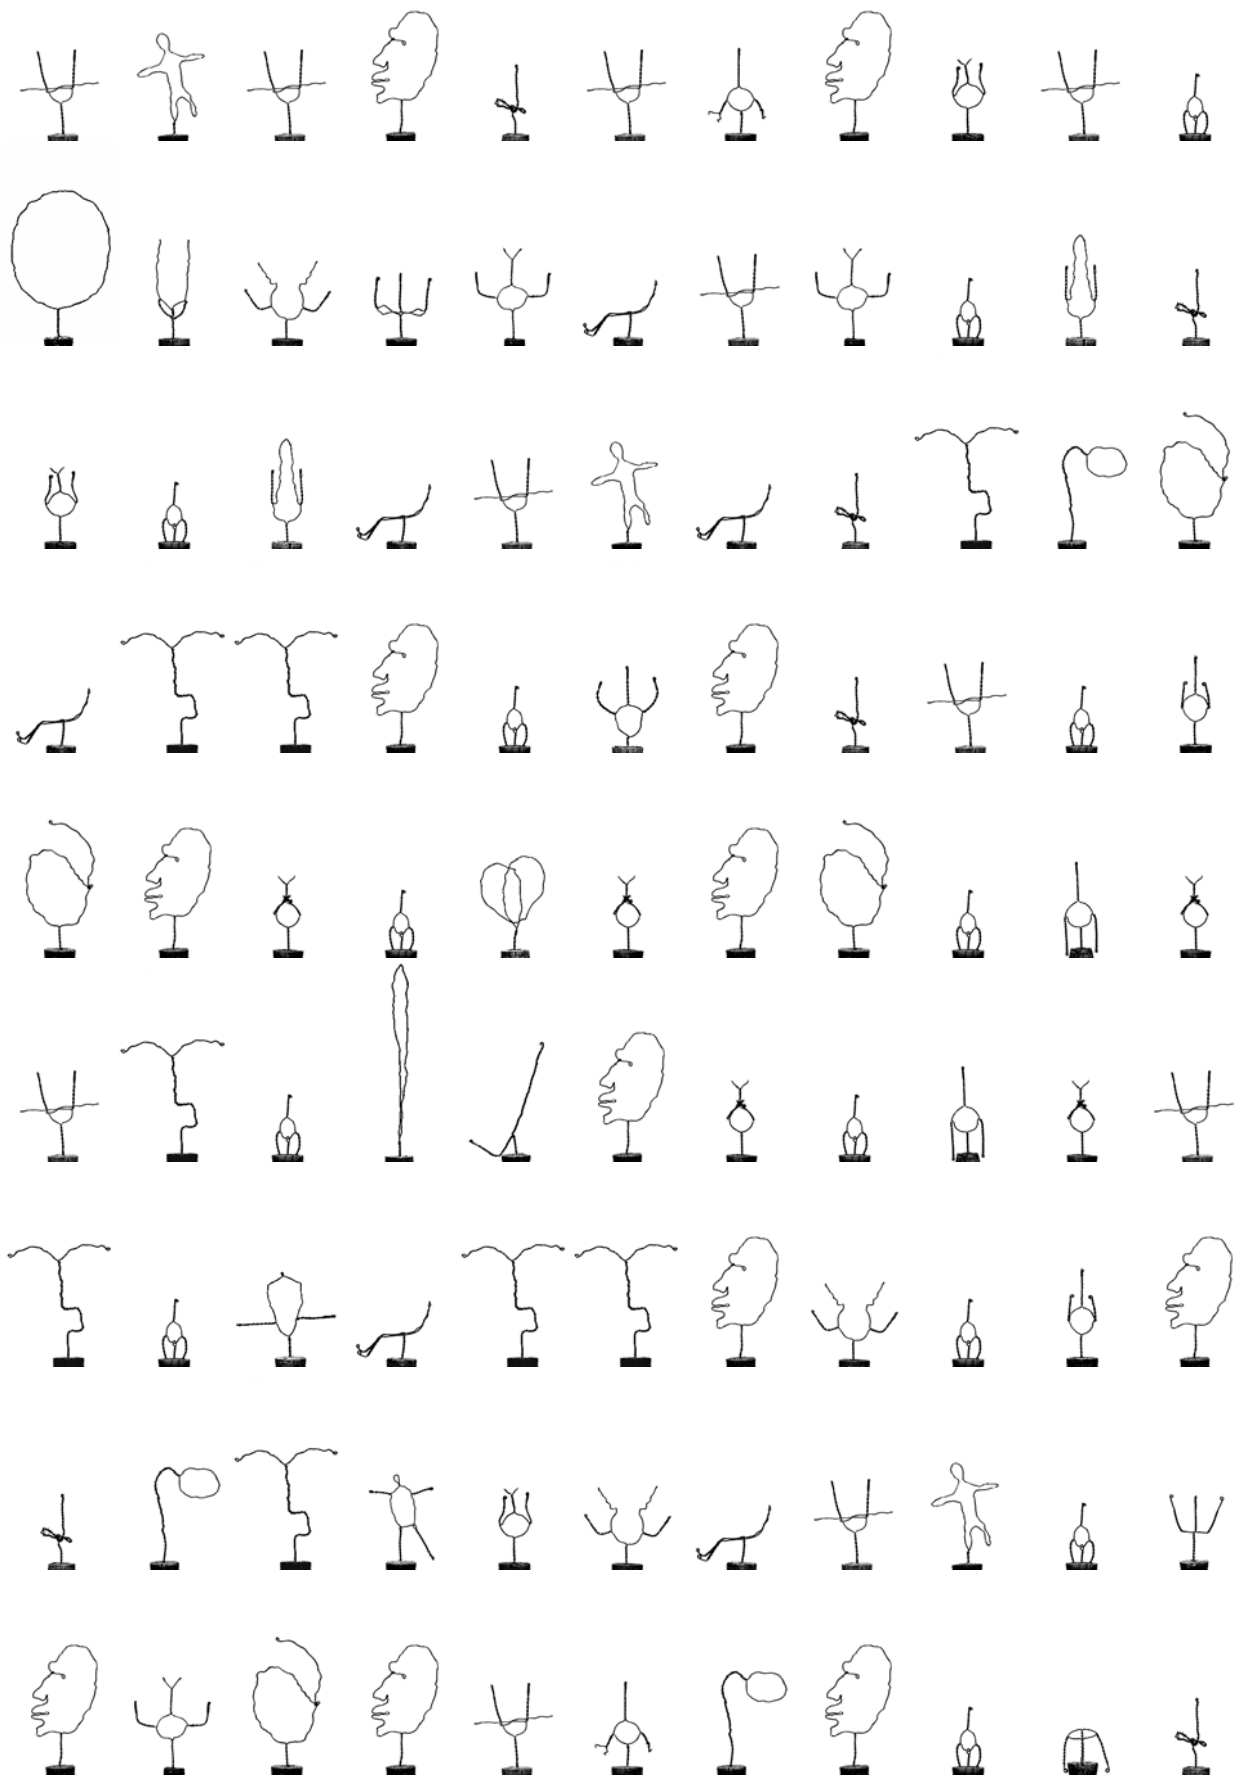

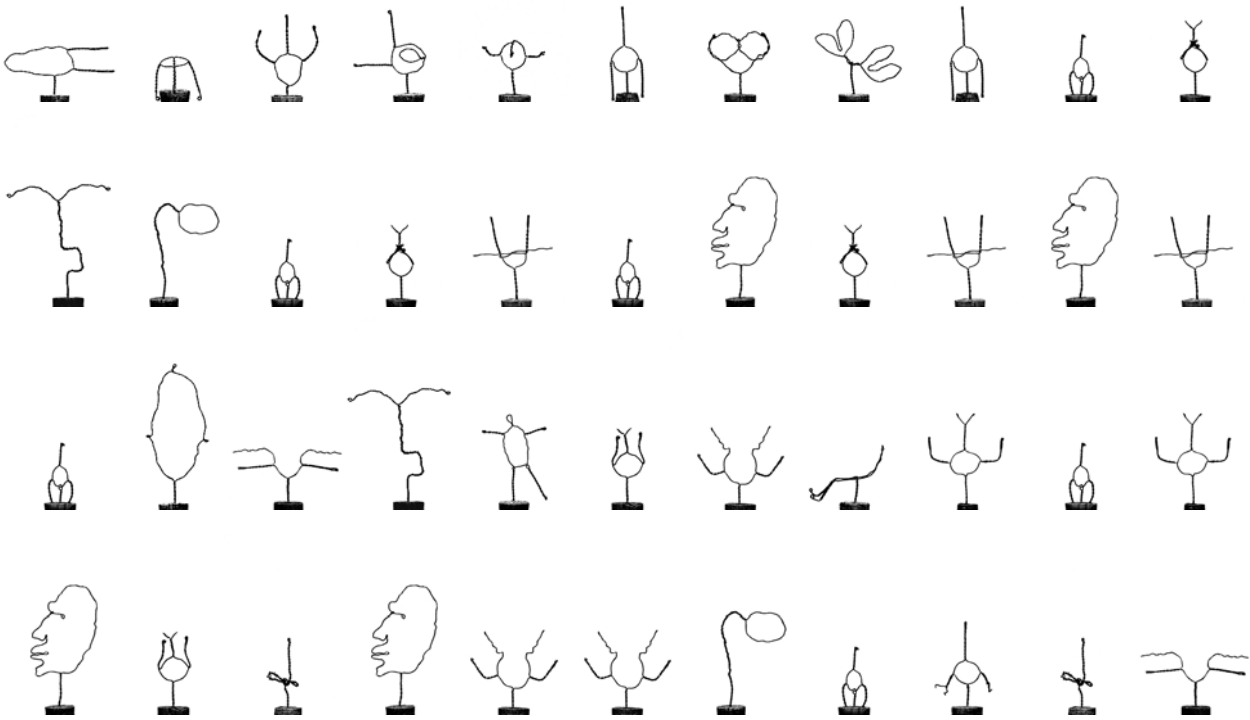

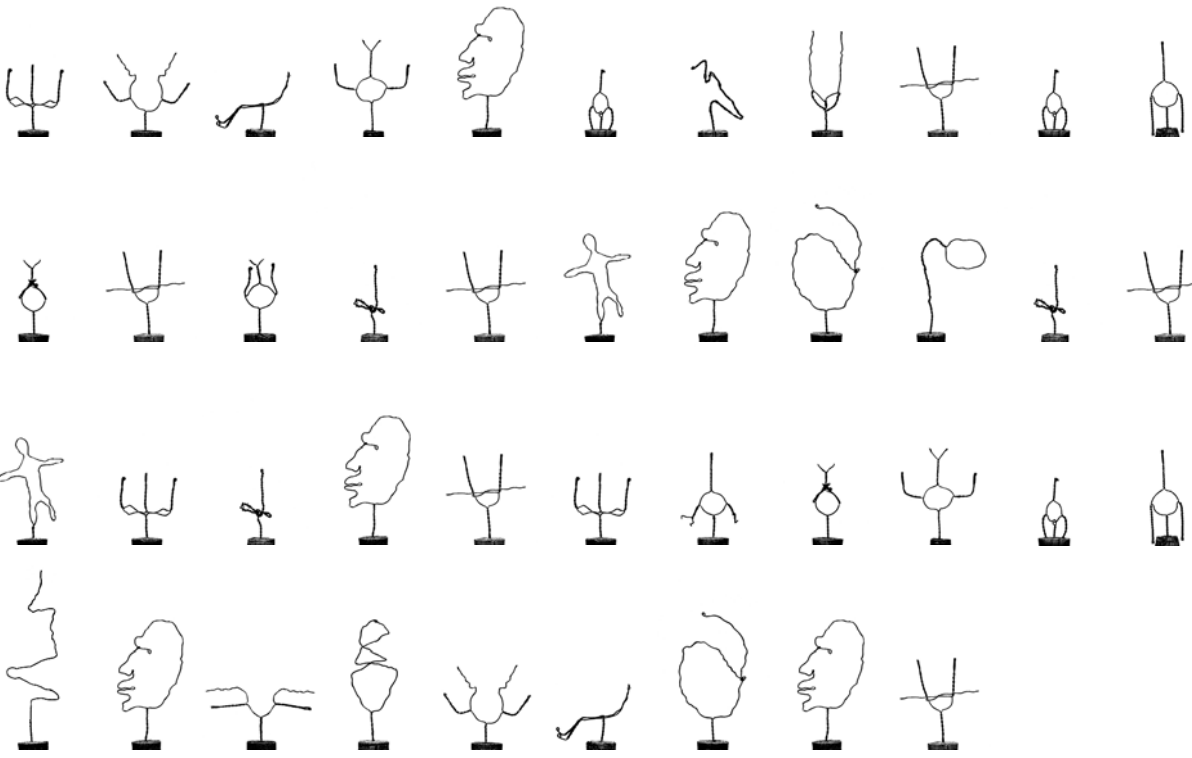

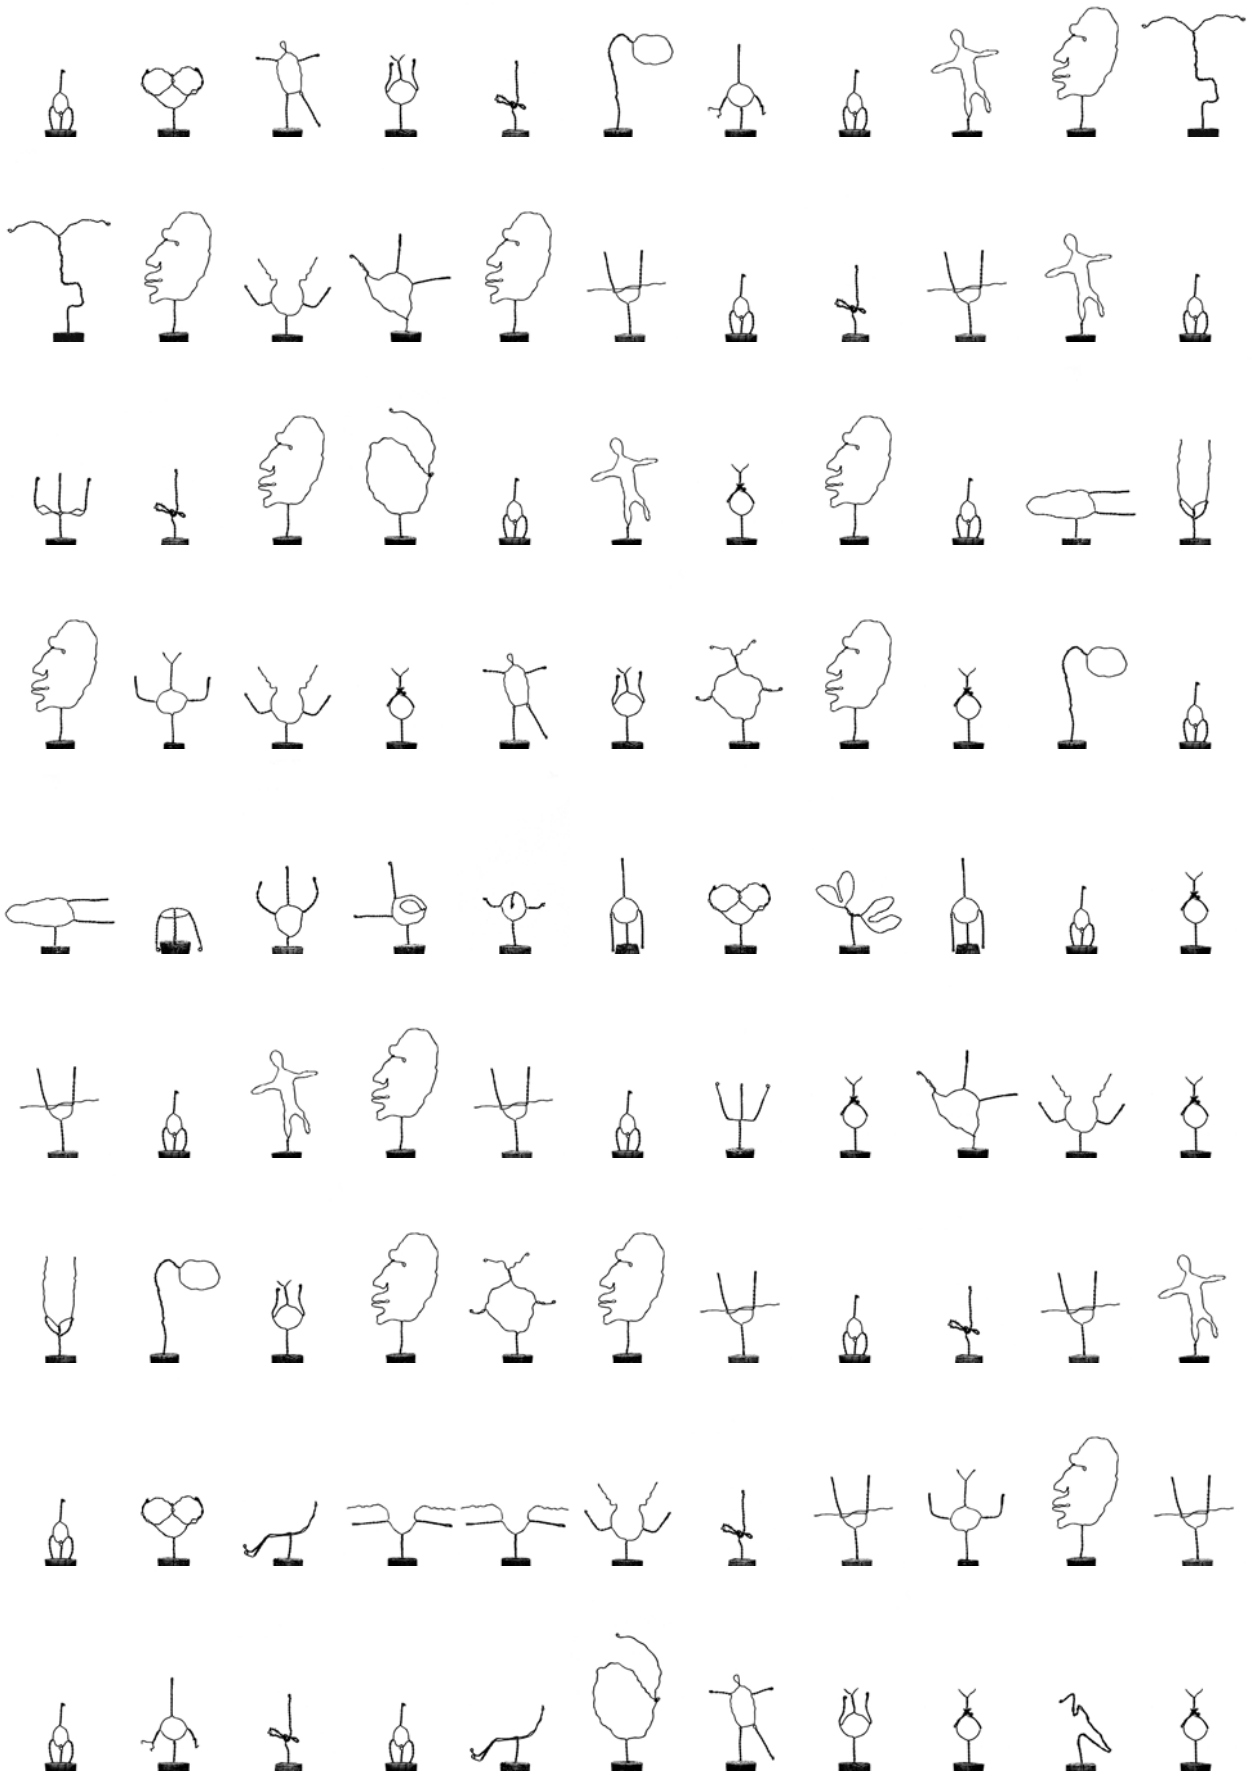

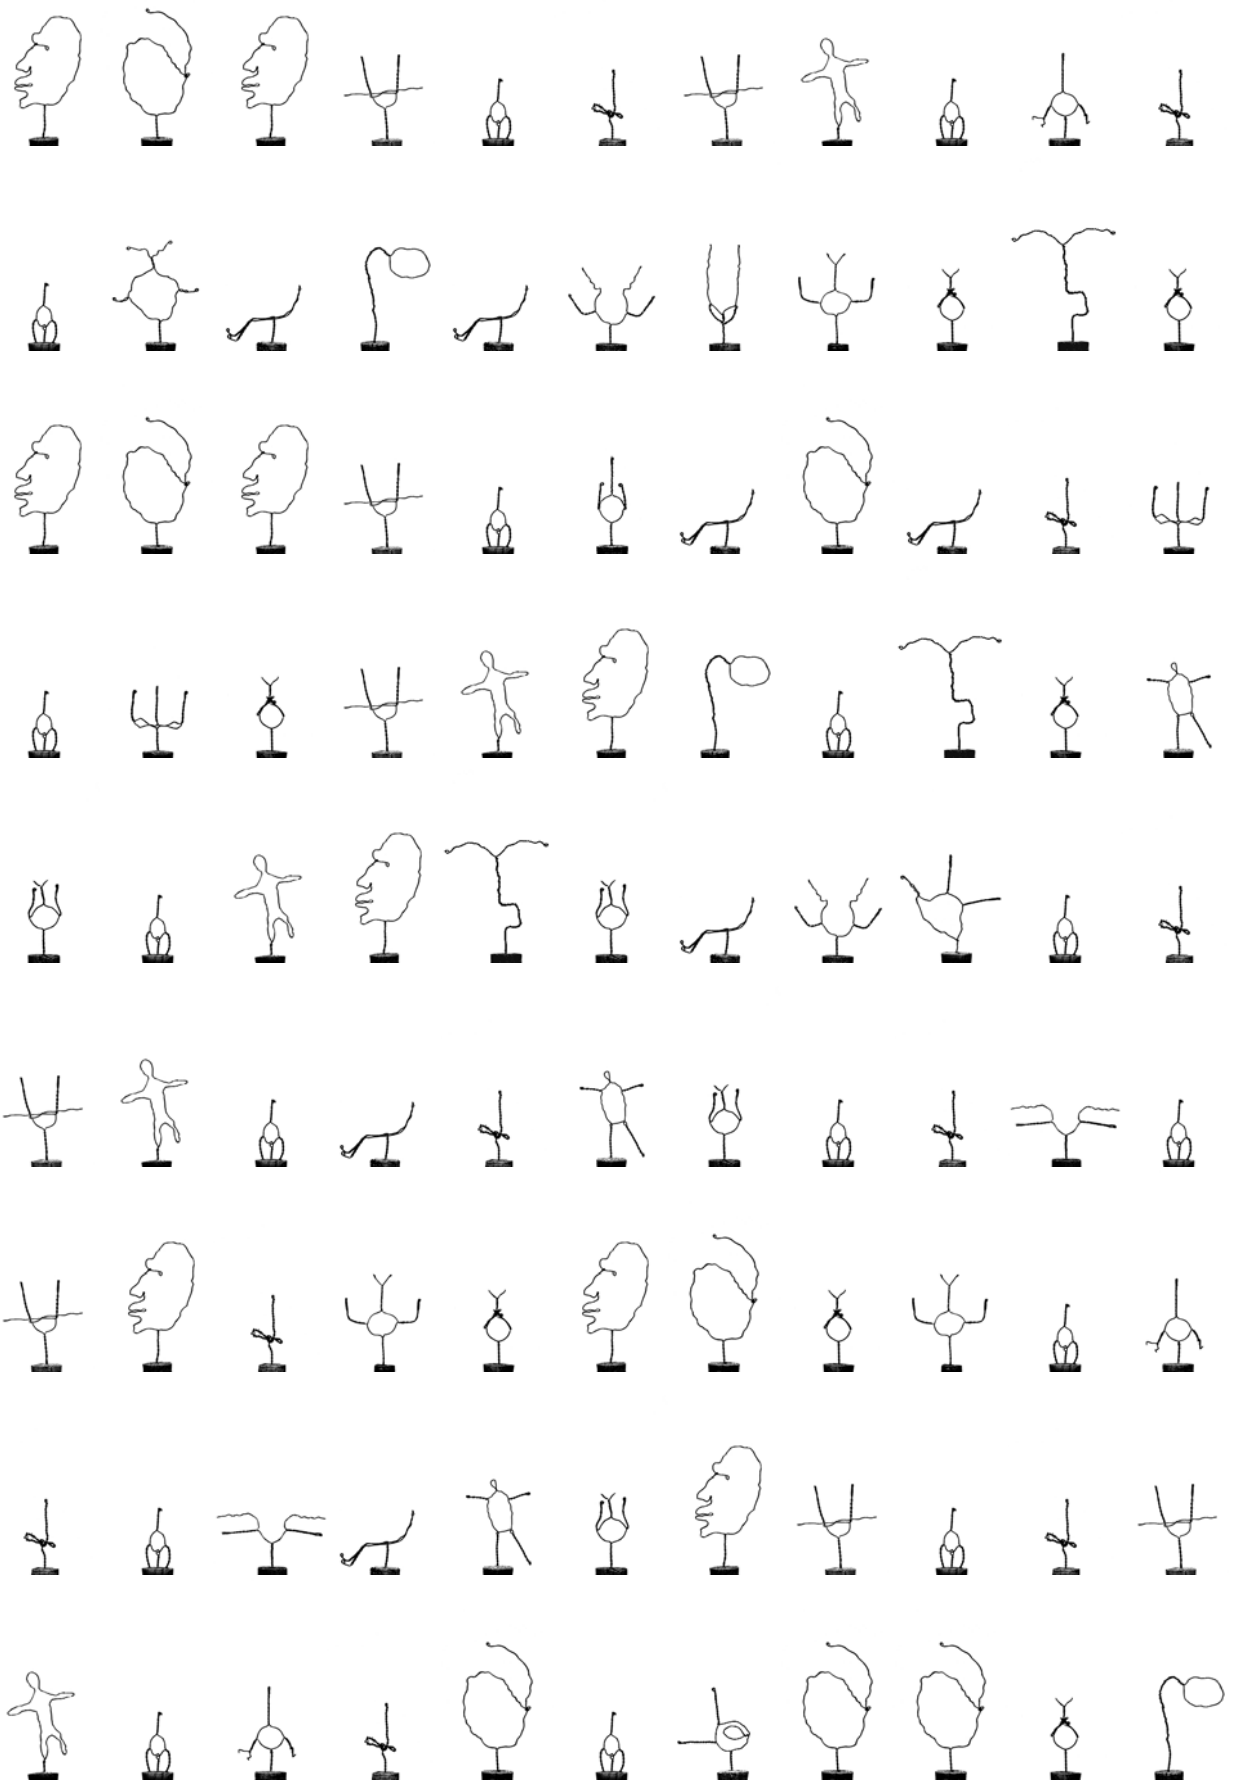

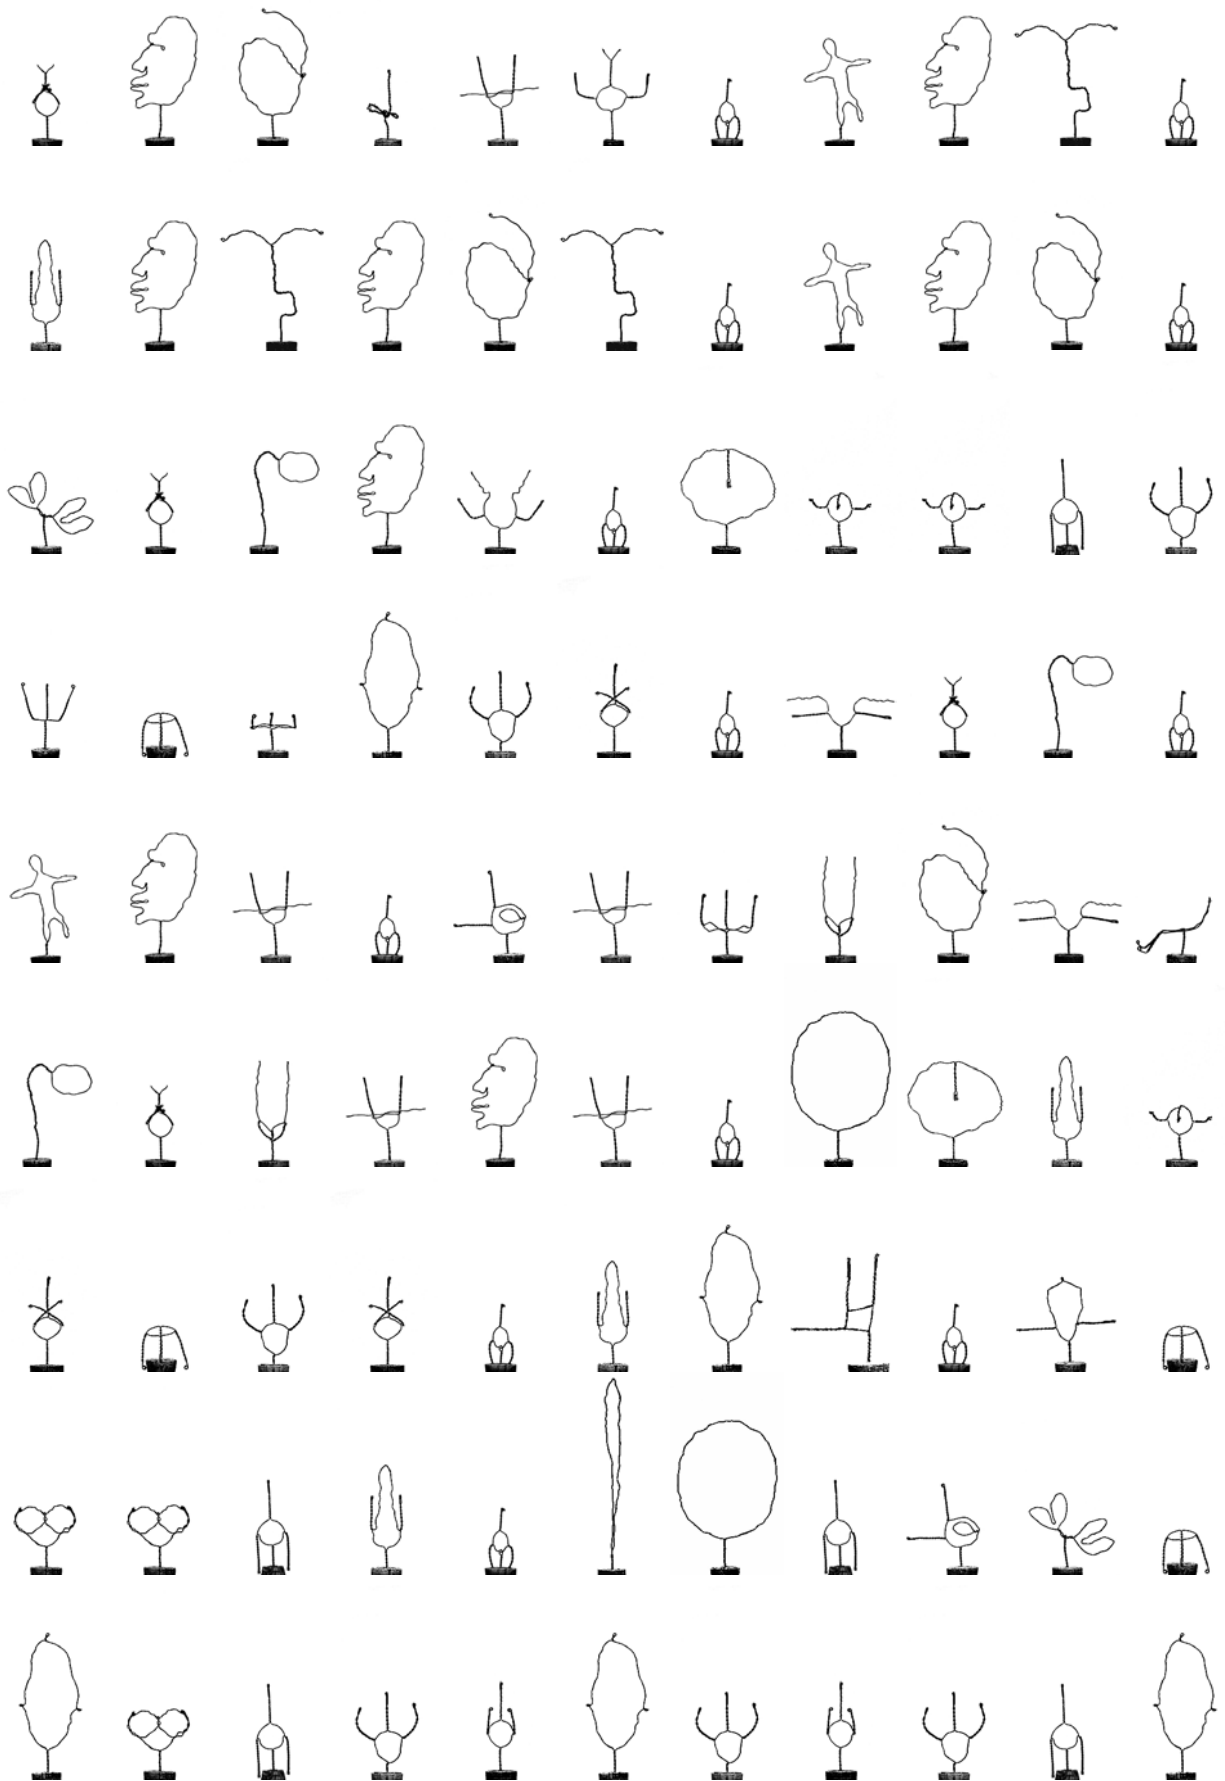

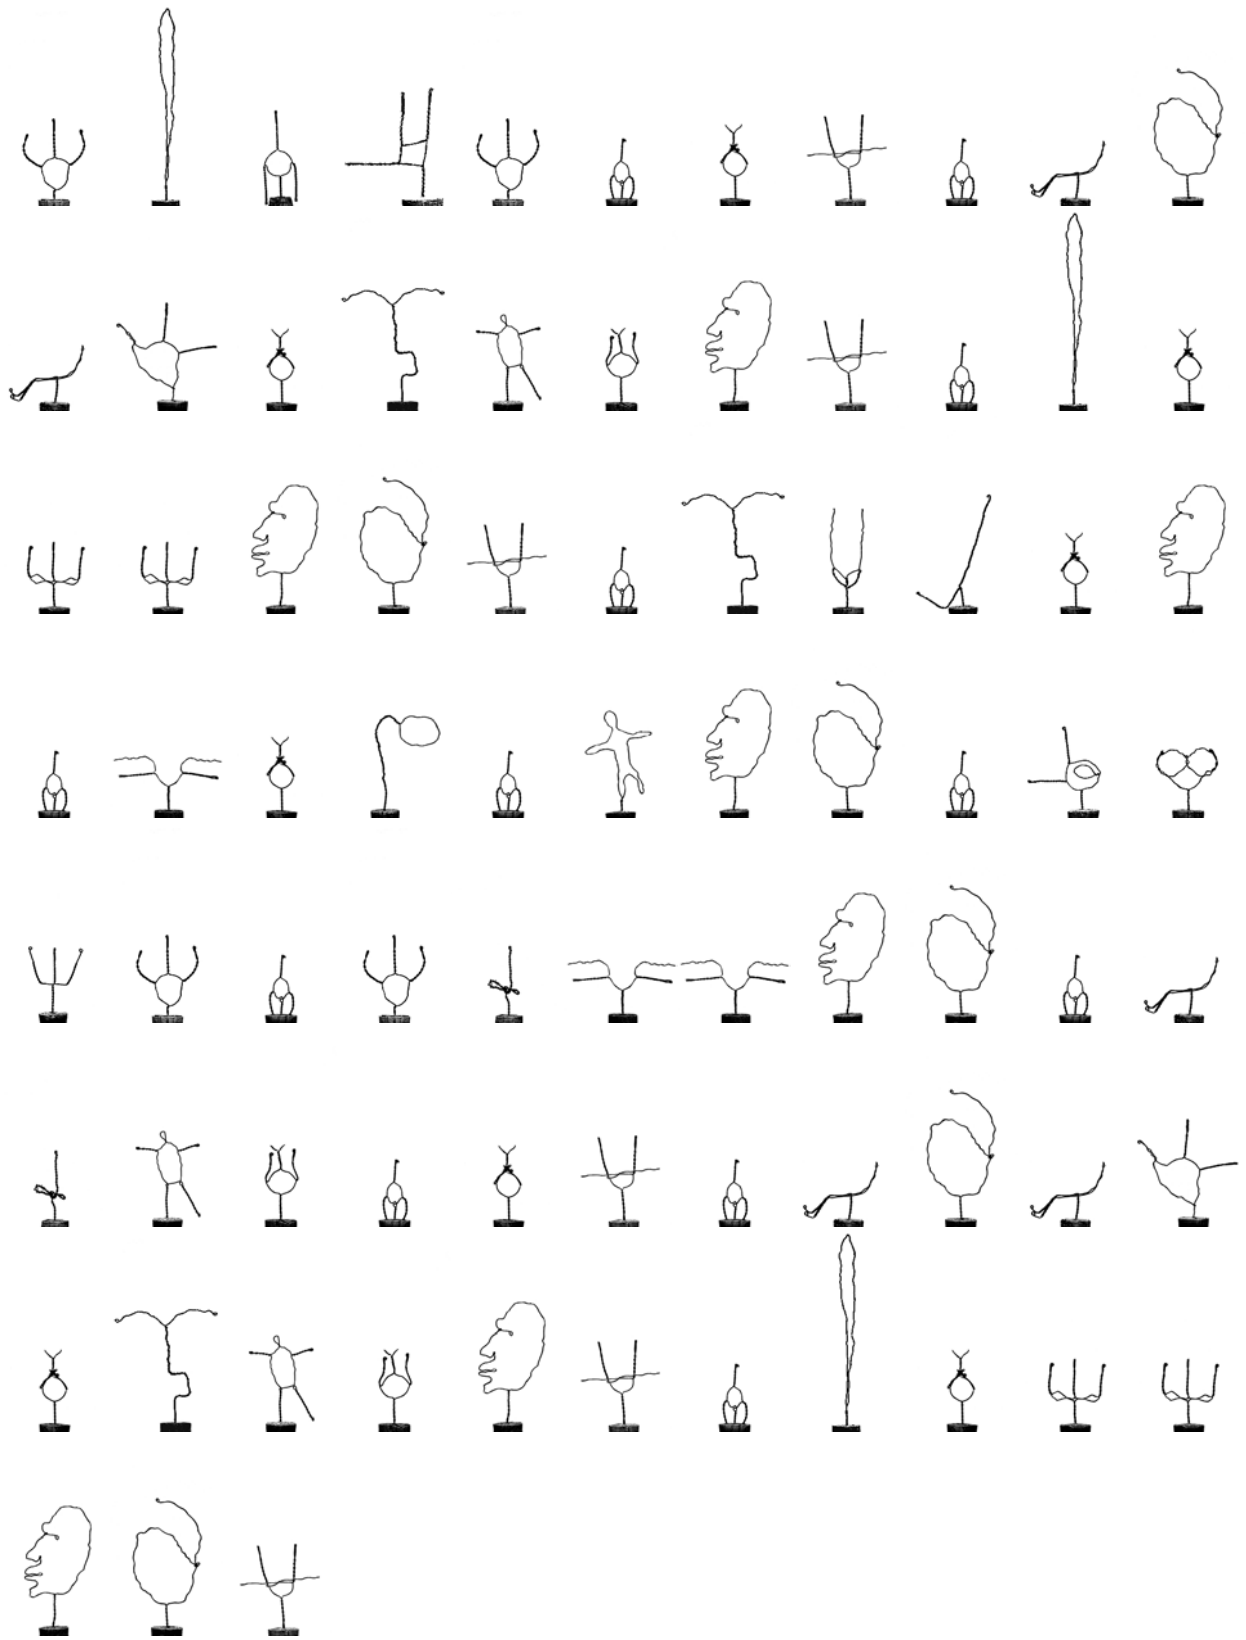

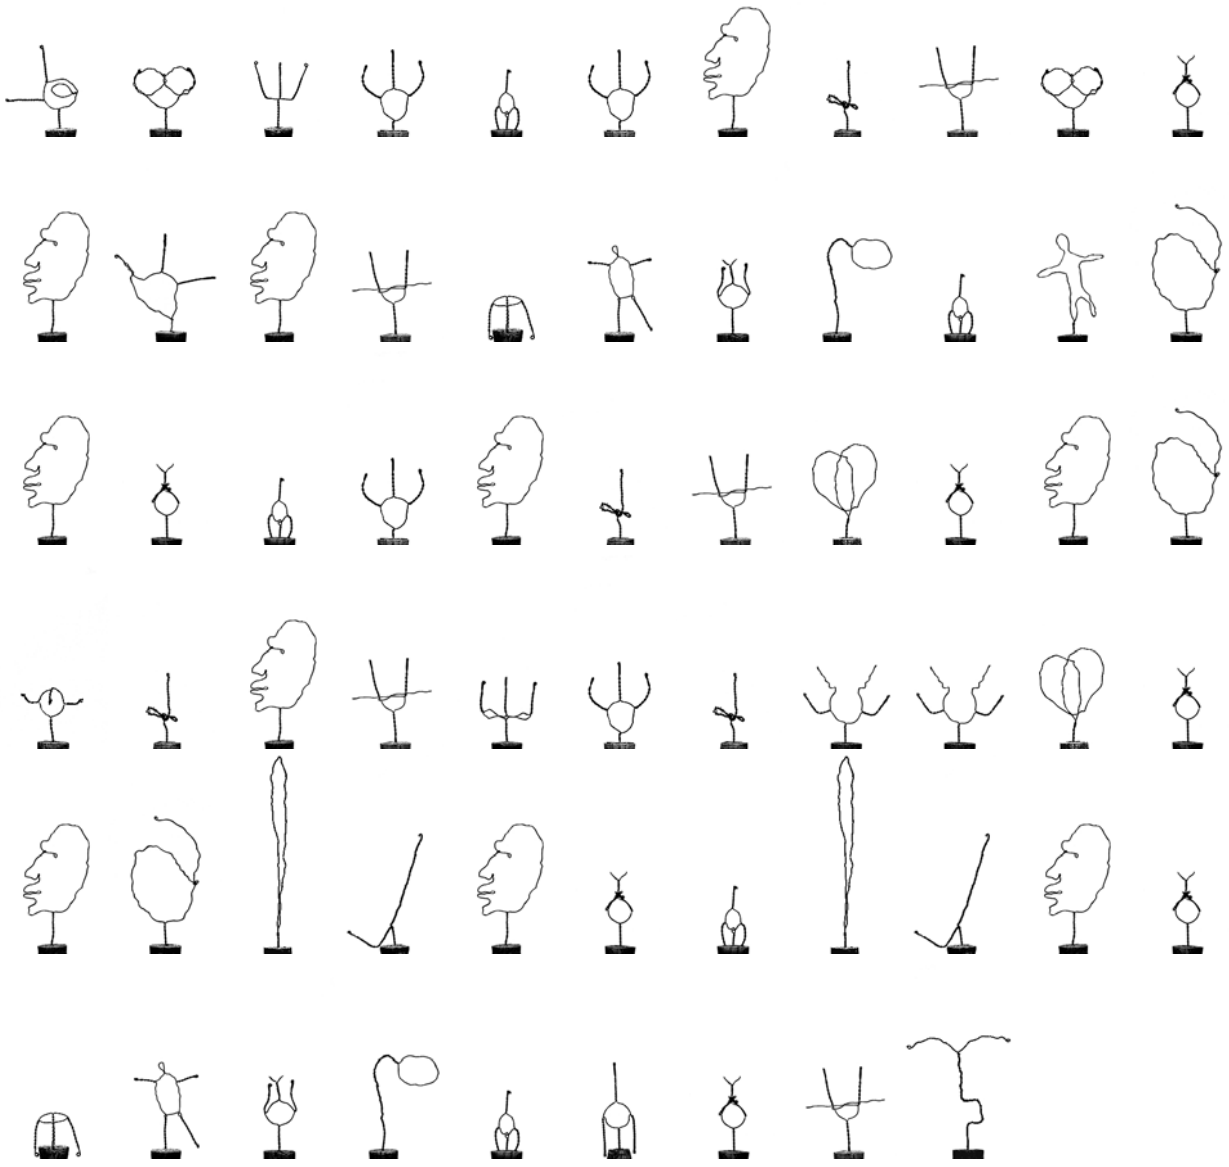

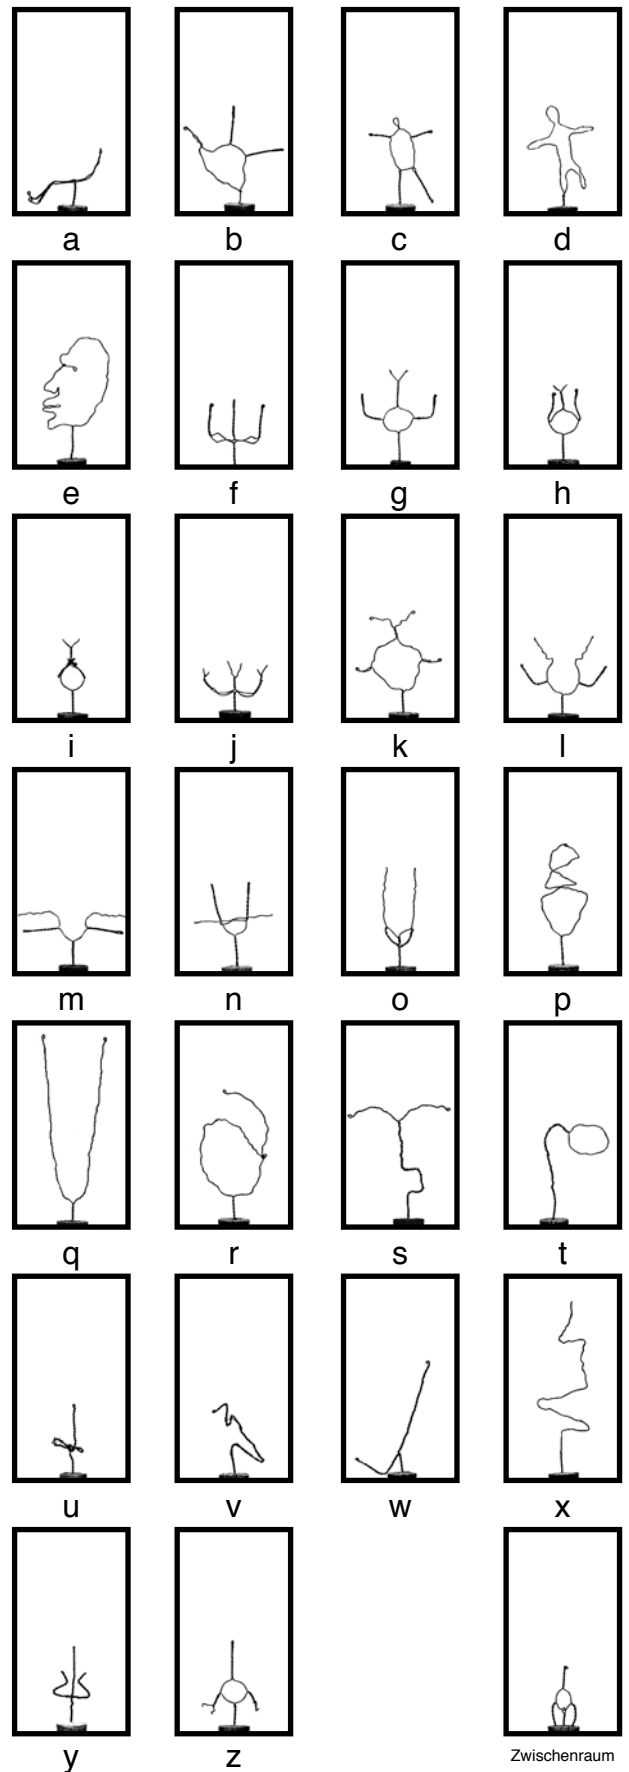

Zwischen den Jahren 1998 und 2000 entstand in Buenos Aires, Argentinien, und in Kassel, das erste Luh'sche Alphabet, mit Objekten aus Champagnerflaschenkorken und den dazugehörigen Sicherungsdrähten. Dieses dreidimensionale Original ist im MUSEUM LUH archiviert und präsent.
